TRAFFIC LANE, BONNET CLEANER & SOLVENT SPOTTER

Three-in-one product. Traffic Lane Pre-Spray, Bonnet Cleaner and Solvent Spotter. Formulated with high performance surfactants to penetrate petroleum-based soils without damaging carpets or leaving behind a harmful residue. Safe on 5th Generation Carpet and specially engineered with an enzyme combination to break down protein stains and food stains.

Formula Features

- 5th Generation Carpet Safe
- Versatile, Three-In-One Application
- Effectively Removes Betadine & Iodine
- Enzyme Fortified
- Clear Formula to Avoid Staining
- Peach/Kiwi Fragrance

Applications *Concentrated

(Dilute 1:16 or 8 oz. per gallon of water)

- Designed for use as a traffic lane pre-spray to dissolve ground-in soils prior to application of interim and restorative cleaning systems.
- For use as spin bonnet cleaner.
- Works effectively as a general spotter and removes petroleum-based soils, betadine, and iodine.

Husky® 1100 TRAFFIC LANE, BONNET CLEANER & SOLVENT SPOTTER

DIRECTIONS

1. Always pretest for color fastness in an inconspicuous area before applying cleaning solution. Test with full strength product and allow to remain for at least three minutes. If color loss or fading occurs, do not proceed.

2. For best results use as a RTU and always spot clean as soon as possible. Spray the soiled area with a light mist, agitate with the blunt end of carpet brush and blot dry with a clean, white towel. If stain is not removed, repeat prior step. Always rinse thoroughly and blot dry between steps and as a final step.

3. For Pre-spray and Bonnet cleaning applications: Dilute (8 oz. per gallon)
   1:16 for light soils, (16 oz. per gallon)
   1:8 for regular soils, (?? oz. per gallon)
   1:4 for heavy soils, (32 oz. per gallon)

4. For bonnet cleaning, pre-treat high traffic lanes with Bonnet cleaning mixture. Apply diluted product to bonnet (via spray or immersion) and buff carpet. Replace bonnets as they become soiled. For faster dry times, re-buff area with a clean, dry bonnet.

PRODUCT DATA

	YES	NO
pH Buffered	X	
Phosphate Free	X	
Deodorizing Activity	X

PHYSICAL AND CHEMICAL CHARACTERISTICS

Boiling Point	212° F
Specific Gravity (H_2O=1)	1.010
Vapor Pressure (mm Hg.)	N/E
Percent Volatile By Weight (%)	>95%
pH (conc.)	9.0
Evaporation Rate (H_2O=1)	N/E
Solubility in Water	Complete
Color	Clear Liquid
Fragrance	Peach/Kiwi

PRECAUTIONS FOR SAFE HANDLING AND USE

Steps To Be Taken In Case Material Is Released Or Spilled: Wear appropriate protective equipment. If possible, contain spill and collect in an approved container. Rinse affected area thoroughly with water. Keep product out of storm sewers or waterways. Hold for disposal.

Waste Disposal Method: Dispose of in accordance with local, state and federal regulations. If possible, triple rinse container and recycle.

Precautions To Be Taken In Handling And Storing: Avoid contact with skin or eyes. Avoid breathing vapor, spray or mist. Store in original container, in cool dry place with adequate ventilation. Keep container tightly closed when not in use.

Other Precautions: Use only according to label directions.
If unsure about safe use, contact your supervisor immediately.
