ORANGE MIST™

DRY MIST AIR FRESHENER

ORANGE MIST counteractant quickly freshens entire areas such as laundry hampers, garage pails, auto interiors, offices, gym lockers, sport shoes, closets, and many more. This specially formulated malodor counteractant eliminates the toughest odors such as tobacco smoke, vomit, and urine odors that linger even after the source of the odor is removed. The light formulation travels with the airflow and eliminates the odors where they hang. A special twoway valve allows this product to be sprayed both upside down and rightside up. Meets all current VOC standards.
