GR-8™

Vandal Mark Remover Gel

GR-8 contains blended solvents for removing most graffiti markings found in public places – road signs and billboards, sidewalks, pavement and bridges, buses, trucks and buildings etc. Will not harm aluminum, steel, glass, concrete, porcelain, brass, chrome, marble, brick and most enameled surfaces. Be sure to pretest in hidden areas for surfaces susceptible to solvent damage such as plastic, painted (enameled) rubber, asphalt tile and other synthetic surfaces. Unique gel base stays in place to clean vertical and irregular shapes. Leave pleasant fragrance. Excellent on baseboards for the removal of wax buildup.
