PURE EZ RELEASE™

ASPHALT RELEASE AGENT AND SNOW PLOW COATING

PURE EZ RELEASE provides a molecular film -- a thin, heat-resistant shield -- that does not allow hot, sticky asphalt to adhere to surfaces. Asphalt will slide right off dump beds, rollers, spreaders, and other surfaces. Made with 100% natural ingredients! The special biodegradable formula is safe for both users and the environment, and it won't degrade the quality of the asphalt. PURE EZ RELEASE even works as a seal to protect against the effects of rust and corrosion. This product also encapsulates snow plows to prevent snow from sticking and causing down time.

AREAS OF USE

ASPHALT PROJECTS
SNOW PLOWING PROJECTS
HWY DEPT
ROADS AND GROUNDS
CONCRETE PLANTS

APPLICATIONS

DUMP BEDS
ROLLERS
SNOW REMOVAL EQUIPMENT
SNOW THROWERS
RAKES
SHOVELS

TECHNICAL DATA

FORM: Liquid
ODOR: Slight soy
COLOR: Clear/yellowish
DETERGENCY: N/A
WETTING ABILITY: Excellent
STORAGE STABILITY: 1 Year +

FLASH POINT: N/A
BOILING POINT: N/D
SOLUBILITY IN WATER: Soluble
VOC CONTENT% by weight <1.0
pH: 9.5-11.5
EVAPORATION RATE: >1.0
BIODEGRADABILITY: Yes
