BIG BLUE JOHN™

USDA Industrial/Institutional Cleaner

BIG BLUE JOHN is an effective industrial strength cleaner for stainless, brass, porcelain and tile. It is two times heavier than water and will cling to vertical surfaces. This prevents waste from overuse and works great on scale, rust, algae, scum, lime, corrosion and calcium deposits. BIG BLUE JOHN leaves behind a fresh scent and a protective barrier to keep hard water spots and stains from building up on a regular basis. BIG BLUE JOHN is an excellent pre-cleaner for equipment before sanitation. USDA authorization
