RUST GUARD™

Rust Converter and Protective Coating

RUST GUARD eliminates rust by performing two operations at one time. First, rust is converted to a black organic complex. Then a clear acrylic coating is formed. The surface can be left as is when dry or painted over using latex, oil based or epoxy paint. The coating formed by the product is sufficient to last for years without painting. Can virtually be used on all rusted surfaces. Temperature range is 0° F to 250° F for the finished film. Do not store at 32° F or below. Ask your Account Manager about Rustless.

AREAS OF USE

SCHOOLS
INSTITUTIONS
INDUSTRIAL PLANTS
OFFICE BUILDINGS
HOMES
FARMS
SHIP YARDS

APPLICATIONS

MACHINERY
AUTOMOBILES
BOATS
HEAVY EQUIPMENT
METAL BUILDINGS
TOOLS
RAILROADS

TECHNICAL DATA

FORM: Water Base Liquid
ODOR: Mild
COLOR: Crème
DETERGENCY: N/A
TOXICITY: Non-Hazardous
WETTING ABILITY: Saturates
STORAGE STABILITY: 1 Year +
COLD STABILITY: 35° F
PHOSPHATES: None

FLASH POINT: None
BOILING POINT: 212° F
SOLUBILITY IN WATER: 100%
SPECIFIC GRAVITY: 1
% VOLATILE BY VOLUME: 50+
pH: 1.0
VISCOSITY: Thick
EVAPORATION RATE: Slow
BIODEGRADABILITY: No
