TOWER-CIDE™

CONTROLS ALGAE, BACTERIA,FUNGI

TOWER-CIDE is a broad spectrum algaecide and microbicide containing a polymeric quaternary ammonium compound that is effective against algae, bacteria, and fungi encountered in commercial and industrial water systems. TOWER-CIDE is effective in both alkaline and acid systems and unlike some products, TOWER-CIDE does not cause foam. It is also nonvolatile thus not lost by evaporation.

AREAS OF USE

HOSPITALS
SCHOOLS
INDUSTRIAL PLANTS
OFFICE COMPLEXES
SAW MILLS

APPLICATIONS

Water Cooling Towers

TECHNICAL DATA

FORM: Liquid
ODOR: Mild
COLOR: Yellow
STORAGE STABILITY: 1 Year
COLD STABILITY: Keep From Freezing
FLASH POINT: >275F
SOLUBILITY IN WATER: 100%
SPECIFIC GRAVITY: 8.34-8.76
pH: 6.00-7.00
EVAPORATION RATE: 1.0
