Husky® 430 CREME CLEANSER

DIRECTIONS

1. Apply directly to sponge, wet cloth or brush. Loosen soil and build-up with rubbing action. Rinse thoroughly. For heavily soiled areas, remove gross soil before cleaning.

2. When cleaning stainless steel, always rub with the grain. On chrome fixtures and other polished metals, use gentle rubbing action. For a brighter shine, polish with a clean, dry cloth. May dull highly polished surfaces.
