Product Overview

PACKCITY PARCEL LOCKERS

The most convenient solution for customer deliveries at corporations and universities

Key Capabilities

- Automated electronic locker system that stores packages for easy consumer retrieval
- Eliminates conventional package logging and storage as well as delivery route sorting
- Minimizes staff time and resources required for package deliveries
- Secures packages via tamper detection technology with audible alarm
- Digital photo of recipient and signature provide dual proof of delivery for every package
- Automatic email alerts notify recipients when their packages are ready for pickup
- Convenient 24/7 access allows people to pick up packages on their schedule
- Web-based dashboards and reports provide real-time and historical activity data
- Custom branded and configured with the optimal box quantity and size variety for your organization
- Built with ATM-style durability and longevity
