GOOD MOP™

Cold Water Detergent Concentrate

GOOD MOP is a specially formulated labor saving damp mopping concentrate designed for the removal of all types of dirt and grime from floor surfaces without a final water rinse. With a balance pH and optical brightener this product will ensure that floors retain their shine. It will not harm the floor finish even with daily maintenance. GOOD MOP is equally efficient in hot or cold water, leaving a very pleasant cherry fragrance after use. In addition to use on floors the detergent is also useful in cleaning walls, woodwork, blinds and porcelain.
