Delta Chemical Corporation

P.O. Box 7430
Metairie, LA 70010
(504) 733-0630

DWT 7723
Blended Phosphate

CAUTION!
Contains inorganic phosphates

May cause eye irritation. May cause skin irritation on prolonged or repeated contact. Inhalation of mists may cause mucous membrane and respiratory irritation. Avoid contact with the eyes. Avoid prolonged or repeated skin contact. Avoid breathing mists or aerosols. Wear appropriate protective clothing and equipment. Use with adequate ventilation. Wash thoroughly with soap and water after handling. Keep containers closed when not in use. Empty containers retain product residues and are hazardous. Follow all MSDS precautions in handling empty containers. Keep out of reach of children. **For industrial use only. Before using, consult the Delta Chemical Corporation Material Safety Data Sheet for this product.**

FIREFIGHTING: Use media appropriate for surrounding fire. Cool fire exposed containers with water.

SPILL HANDLING: Evacuate spill area and keep unprotected personnel away. Wear appropriate protective clothing as described on MSDS. Dike and collect liquid or absorb with an inert absorbent and place in appropriate containers for disposal. Prevent spill from entering sewers and water courses. Report releases as required by local, state and federal authorities.

FIRST AID:
Eye: Immediately flush victim's eyes with large quantities of water, holding the eyelids apart. Get medical attention.
Skin: Wash skin thoroughly with soap and water. Get medical attention if irritation develops. Remove and launder clothing before re-use.
Ingestion: Do Not induce vomiting. Rinse mouth with water and give one glass of water to drink. Never give anything by mouth to an unconscious or convulsing person. Get immediate medical attention.
Inhalation: Remove victim to fresh air. If breathing is difficult or irritation persists, get medical attention.

USAGE:
Based on an evaluation of health effects, the level of PO4 in the finished drinking water should not exceed 10.0 mg/L and the level of Zinc in the finished drinking water should not exceed 2.0mg/L.

NFPA Rating: Health = 1 Fire = 0 Reactivity = 0
DOT Shipping Description: Not Regulated
