Product Overview

IM-16C MAIL OPENER

An automated mail opening solution that's secure and simple to use

Key Capabilities

- Ergonomic design with a compact footprint that fits on almost any desk
- Vertical envelope transport for easy loading and reliable feeding
- Slits the envelope, safeguarding its contents while leaving no sharp edges or paper scraps
- Operational efficiency of up to 300 opened envelopes per minute
- Expedites the handling process of incoming remittances and business-critical documents
- Process various envelope types and sizes without sorting, including flats
- Quiet operation with a noise level less than 63 dBA
- Catch tray holds up to 80 #10 envelopes
- Easy-to-view digital counter keeps a running track of pieces processed
- Weighs less than 20 pounds, and is easy to move and store

Product Overview

IM-210 MAIL OPENER

An automated mail opening solution with milling cutter technology

Key Capabilities

- Self-adjusting feeder handles stacks of mixed-size mail and envelopes as thick as 4.8mm
- Process various envelope types, including flats and rigid overnight packs
- Proven milling cutter technology protects envelope contents from being sliced or damaged
- By removing chips as small as 0.01", processed envelopes have soft, feathered-edge opening
- 3 cut-depths for optimal opening of thicker mail pieces plus a no-cut setting for piece counting
- Operational efficiency of up to 400 opened envelopes per minute
- Opens up to 3,500 envelopes before the chip tray must be emptied
- Adjustable output tray accommodates both letters and large envelopes
- Easy-to-view digital counter keeps a running track of pieces processed
- Expedites the handling process of incoming remittances and business-critical documents
