Product Overview

DS-40i FOLDER-INSERTER

Entry-level mail assembly solution that allows any business to automate its mailings

Key Capabilities

- 5" color touchscreen control panel with graphical user guidance and wizard-based programming
- Ultra-compact, quiet and modern design that fits in any office environment
- 2 document feeders with 100-sheet capacity and 1 insert feeder that holds 100 reply envelopes
- Folds your documents, adds a BRE and inserts the package into a #10 or 6" x 9.5" envelope
- Tri-folds or single-folds letter-size documents and double-folds legal-size sheets
- Double document control ensures envelope contents are correct for every recipient
- Operational efficiency up to 1,350 filled envelopes per hour – about 10 times faster than by hand
- Store up to 15 user-programmed jobs and instantly recall any of them at the push of a button
- Using manual feed mode, just walk up and drop in a document set to get a ready-to-mail envelope
- For single-sheet jobs, document feeders can be linked for non-stop cascade feeding
- Tip-to-tip envelope sealing that can be turned on and off for any job
- Connects to your network via WIFI to enable remote diagnostics and assistance

This document is strictly private, confidential and personal to its recipients and should not be copied, distributed or reproduced in whole or in part, nor passed to any third party without the express written consent of Quadient.

Product Overview

DS-1200 G4i FOLDER-INSERTER

The most flexible, efficient and easy-to-use mail assembly system on the market

Key Capabilities

- Ergonomic 19" color touchscreen with wizard-based programming that simplifies operator training
- Auto job change switches from one job to another in minutes, minimizing downtime between jobs
- Flat paper transport path provides clear access to all documents, maximizing uptime
- Achieve peak mail center performance with rapid production speeds up to 12,000 filled envelopes/hr.
- Load-on-the-fly feeders have huge capacities of up to 5,000 sheets, 6,000 inserts & 2,000 envelopes
- Mobile document trolleys load directly from a printer while the system is running
- Capable of processing #10, 6" x 9.5" and Flat envelope jobs simultaneously
- Ability to dynamically select envelope size based on page count, control marks or electronic file
- Insert up to 72 pages into Flat-sized envelopes, plus add as many as 8 additional inserts
- Extensive modularity that supports up to 16 high-capacity folders and feeders
- Read virtually any type of code located anywhere on the document, allowing for flexible page layout
- State-of-the-art doubles detection prevents inaccurate envelope contents
- Integrated integrity that electronically records document movements through the system
- High-capacity on-edge stacking of filled envelopes with intelligent jog function

This document is strictly private, confidential and personal to its recipients and should not be copied, distributed or reproduced in whole or in part, nor passed to any third party without the express written consent of Quadient.
