STRIP PLUS™

FAST ACTING FLOOR FINISH AND WAX STRIPPER

STRIP PLUS is a powerful, fast acting stripper, specially formulated for removing all types of floor finishes and waxes. It is designed to handle the most difficult stripping jobs, including floors with excess build-up, tarnished finish, frequent spray buffing and old extended wear finishes. It is boosted synergistically with ammonia and selected amines to provide dual action stripping. This product's ability to quickly wet-out and penetrate is the key to its superior performance. The product is recommended for use on floor surfaces where water emulsion finishes and sealers are commonly applied, including ceramic tile, quarry tile, asphalt tile, vinyl, terrazzo and concrete. When stripping rubber or linoleum tile, use caution since bleaching or softening may occur.

AREAS OF USE

OFFICE BUILDINGS
HOSPITALS
CHILD CARE CENTERS
NURSING HOMES
BANK BUILDINGS
SUPERMARKETS
SCHOOLS

APPLICATIONS

HARD WOOD FLOORS
CERAMIC TILE
QUARRY TILE
ASPHALT TILE
VINYL•RUBBER•LINOLEUM
TERRAZZO
CONCRETE

TECHNICAL DATA

FORM: Liquid
ODOR: Ammonia
COLOR: Purple
STORAGE STABILITY: 1 Year +
COLD STABILITY: 32° F
VISCOSITY: Thin

FLASH POINT: N/E
BOILING POINT: 210º F
SOLUBILITY IN WATER: 100%
SPECIFIC GRAVITY: 1.05
pH: 12-12.4
EVAPORATION RATE: N/A
BIODEGRADABILITY: Yes
