The Difference in Water Treatment

PRODUCT DATA SHEET

DBT 4410 - MULTIPURPOSE LIQUID TREATMENT

GENERAL DESCRIPTION:

DBT 4410 is a multipurpose, liquid internal boiler treatment containing natural and polymeric sludge conditioners, oxygen scavenger, iron sequestrant, phosphate, alkalinity builder and neutralizing amine. DBT 4410 is to be used in steam boilers that have very low hardness and total alkalinity feedwaters.

PRODUCT CHARACTERISTICS:

Form ..... Light Brown Liquid
pH ..... Approximately 12.16
Density ..... 9.75 lbs./gallon

FEEDING:

DBT 4410 can be fed directly from the shipping container to the deaerator storage section, feedwater heater, feedwater line, or boiler. Consult your service representative for specific recommendations.

PRECAUTIONS AND HANDLING:

Product is an alkaline material. Avoid contact with skin and eyes. Do not take internally. Protective gloves and chemical splash goggles are recommended. Wear impervious apron and boots to minimize potential contact. General ventilation is adequate, however, a NIOSH approved breathing apparatus should be used for exposures above OSHA threshold limit values. Consult safety data sheet for more information.

PACKAGING:

275 IBC CONTAINER
55 GALLON DRUMS
