ODERINE-10
Odor Control Treatment
Read the entire label before using this product.
Si usted no sabe ingl,s, pida a alguien que sepa le lea y explique completamente esta etiqueta antes de usar este producto.
Designed for odor control in and around sewer plants. Controls odors caused by anaerobic digestion, grease accumulation, hydrocarbons and waste gases, sludge drying beds and wet wells.
ODERINE-10 controls odors around sewage treatment plants, pumping stations and other areas where sewage odors may exist; does not affect aerobic biological oxidation, anaerobic digestion, BOD or algae. ODERINE-10 is water dispersible; equally effective in all seasons and climates and remains stable in storage.
DIRECTIONS
Dilute ODERINE-10 with 50 to 100 parts water. Fog over digesters, sludge drying beds, trickling filters and other areas that are sources of odor.
Certified's HERCULES generator is recommended for fogging application. Place the fogging mechanism upwind from the source of odor during application.
ODERINE-10 may also be dripped directly into the sewage lines at the last point where the sewage enters the collection system. The rate of addition may be controlled by the use of a petcock connected to the drum.
KEEP FROM FREEZING. If this product is stored in cold or freezing temperatures, it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.
DANGER
FLAMMABLE LIQUID AND VAPOR
MAY BE HARMFUL IF INHALED
MAY CAUSE SKIN IRRITATION
CAUSES EYE IRRITATION
MAY BE HARMFUL IF SWALLOWED
INTENTIONAL MISUSE BY DELIBERATELY CONCENTRATING AND INHALING THE CONTENTS CAN BE HARMFUL OR FATAL.
Contains Aliphatic Petroleum Distillates. Do not use or store near heat, hot surfaces, sparks, or open flame. Vapors may travel to areas away from the work site and ignite. Keep the container closed when not in use. Use sufficient ventilation to prevent buildup of vapor. Avoid contact with eyes, skin and clothing. Wear neoprene rubber gloves if repeated or prolonged skin contact is likely. Wear safety glasses with side shields if the method of application presents the likelihood of eye contact. Wash thoroughly after handling. Do not swallow. Swallowing may cause nausea, vomiting and diarrhea.
DANGER: Ingestion and subsequent vomiting of this product can lead to aspiration of the product into the lungs, which can cause damage and could be fatal.
FIRST AID
IF INHALED: Remove from the area to fresh air. Seek medical attention if respiratory irritation develops or if breathing becomes difficult. FOR SKIN CONTACT: Wash affected areas with plenty of soap and water for several minutes. Seek medical attention if irritation develops. FOR EYE CONTACT: Immediately rinse the eyes with water. Remove any contact lenses and continue flushing the eyes for at least 15 minutes. Hold the eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water. Get immediate medical attention. IF SWALLOWED: Give 3 to 4 glasses of water, but DO NOT induce vomiting. If vomiting occurs, give fluids again. Get immediate medical attention.
KEEP OUT OF REACH OF CHILDREN
