Delta Chemical Corp.
The Difference in Water Treatment

PRODUCT DATA SHEET

DCT 5150 – CLOSED SYSTEM TREATMENT

GENERAL DESCRIPTION:

DCT 5150 is a concentrated sodium nitrite molybdate solution used for corrosion control in closed hot and chilled water systems.

PRODUCT CHARACTERISTICS:

Form	Clear Yellow Liquid
pH	Approximately 8.5
Density	10.83 lbs./ gallon

FEEDING:

DCT 5150 may be introduced to closed recirculating waters by use of a by-pass feeder or any other method of assuring complete system distribution.

PRECAUTIONS AND HANDLING:

Product is an alkaline material. Avoid contact with skin and eyes. Do not take internally. Protective gloves and chemical splash goggles are recommended. Wear impervious apron and boots to minimize potential contact. Local ventilation is preferred, however, a NIOSH approved breathing apparatus should be used for exposures above OSHA threshold limit values. Consult material safety data sheet for more information.
