DESCRIPTION:

These pellets are a fast and economical way to melt unwanted ice and snow as low as -40°F. The powerful blend of calcium, sodium, and potassium chloride is 36 times faster than rock salt and will melt 46 times its weight. These pellents are noncorrosive to concrete, and non-harmful to grass. They can be safely used on cement, concrete, black top, tar, flagstone, brick and wood surfaces.

These pellets release heat to spread horizontally under the ice formation, so that a large area of ice is loosened by each pellet. Melted ice and snow will not refreeze, even at sub-zero temperatures, for periods up to 12 hours. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention
In case of fire: Adapt extinguishing media to the environment.

WARNING: This product (when used in aqueous formulations with a chemical oxidizer such as ozone) may react to form calcium bromate, a chemical known to the State of California to cause cancer.

DISPOSAL
Offer empty container for recycling. If recycling is not available, discard container in trash.

For industrial and commercial use only.
For additional information, see Safety Data Sheet.

GUARDIAN

Exothermic Ice and Snow Melter

- EFFECTIVE TO -40°F
- NON-CORROSIVE TO CONCRETE AND NON-HARMFUL TO GRASS
- CALCIUM CHLORIDE, SODIUM CHLORIDE AND POTASSIUM CHLORIDE BLEND

WARNING
Causes serious eye irritation.
KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: 100 LBS.

DIRECTIONS:
Application rates vary, and quantity and melting action depend upon temperature and thickness of ice and snow.

For temperatures above 5°F, use 1/2 to one pound per square yard of ice. At 0°F, use 1 - 2 pounds. Spread evenly over the surface with a scoop, shovel or mechanical spreader.

When pellets have penetrated and cracked loose the ice layer, remove melted slush. Spread sparingly and evenly with a scoop, shovel or mechanical spreading equipment.

NFPA® RATINGS
Health: 1; Flammability: 0; Reactivity: 0

CONTAINS/CAS NUMBER:
Calcium Chloride/10043-52-4;
Sodium Chloride/7647-14-5;
Potassium Chloride/7447-40-7;
Water/7732-18-5.
