P-AWAY

Enzymatic Concentrate

Mango

Fragrance

INGREDIENTS:
Contains: Water CAS# 7732-18-5, Nonionic Surfactant CAS# 9036-19-5, Bacterial Cultures CAS# N/A, Sorbitan Monolaurate CAS# 9005-64-5, Fragrance CAS# N/A

P-Away quickly eliminates a wide range of malodors through bio-enzymatic action that consumes the source of the odors. This non-toxic, biodegradable concentrate is packed with enzyme-producing bacteria and powerful fragrances. It is effective against malodors caused by pet accidents, urine, vomit, decomposing food, water smoke damage and many others. Excellent for use in grease traps and drains.

DIRECTIONS:
Shake Before Use. Remove odor source as best as possible before treating.

General Cleaning: Dilute 2 to 4 oz. per gallon of warm water when applying with a mop or sponge. Remove solids before applying product.

Carpet Spills: Pretest for color fastness. Absorb as much of the spill as possible before spraying concentrate directly onto the affected area. On tough spills/stains, cover treated area with damp cloth overnight to prevent evaporation - then continue with carpet cleaning.

Carpet / Rug Shampoo: Pretest for color fastness. Dilute 1 to 2 oz. per gallon of shampoo solution. Saturate area and extract. May need to repeat for heavily stained areas.

Restroom Odors: Dilute 2 to 4 oz. per gallon of mop water. Spray concentrate directly onto the floor or wall and around toilets for tough odors. Do not mist up into the air.

Plumbing/Drain Maintenance: 4 oz daily until drains run freely and are odor free.

Garbage Cans: Spray directly into the garbage can daily, to eliminate odor at its source.

Dumpsters: Pour 8 oz of concentrate directly into the dumpster weekly, to eliminate odors.

Grease Traps: Pour 16-20 oz of concentrate per day into the drain leading to the trap.

Septic Tanks: Dilute 32 oz. in 32 oz. of water monthly.
