P&G Pro Line Heavy Duty Floor Stripper

P&G Pro Line Heavy Duty Floor Stripper #09 has been designed to be our most effective and versatile stripper in our floor care program; capable of stripping the toughest and most time-constrained jobs.

Key benefits include:

- Dilutes at the "industry standard" 1:4 dilution ratio
- Delivers consistent stripping of up to **10+ layers of finish**, minimizing time & labor
- Effectively strips the **toughest jobs,** but **versatile** enough to strip all jobs
- New solvent formulation breaks down finish polymers **immediately upon contact**
- **Low odor profile**
- **Does not contain butyls** and other problematic/harmful ingredients
- Will **match up** and **perform on par** with top competitive benchmarks (i.e Diversey Pro Strip)

What is the difference between HD Stripper #09 and Low Odor Stripper #10?
Heavy Duty Floor Stripper #09 was designed to compete toe-to-toe with the top competitive benchmark in floor care – Diversey Pro Strip. It has been designed to have a similar versatile strip profile (strip from 1 – 10+ finish layers), be highly effective immediately on contact, and dilute at the "industry" standard 1:4 dilution ratio. Heavy Duty Floor Stripper #09 was designed to be work in tandem with Grand Opening in retail environments where 8+ layers of finish are an industry standard, but will work effectively in any environment and on any finish.
