BacStop Fabric Sanitizer

Kill 99.9% of bacteria and reduce the possibility of contamination of other fabric with the use of **BacStop Fabric Sanitizer**. Plus, you'll reduce malodors to leave behind a pleasant scent.

- 30 days of protection against bacteria
- Make fabrics soft to the touch
- Effective against Staph and Klebsiella
- Great for use in colored wash loads in Health Care facilities

Use BacStop with Tide Professional to achieve clean, bright colored garments and reduce the need for rewash associated with malodor.

every **experience** counts.™ P&G Professional™

BacStop Fabric Sanitizer can help prevent cross-contamination when used as directed (2.25oz per cwt of fabric – dry weight) when there is a need to destroy microorganisms in laundry items, if the following are not viable options:

1. *Washing at temperatures ≥ 160°F for ≥ 25 minutes, or*
2. *Washing at 71 - 77°F plus a 125 ppm chlorine bleach rinse*
