Class-ifi™ shown with Build™ Makerspace Tables and Stools.

CLASS-IFI™

Every student and teacher deserves multifunctional, durable, and efficient organizational solutions that go the distance no matter what the subject. Class-ifi™ — a dynamic, effortlessly mobile education storage collection — is designed to maximize space, promote flexibility, and inspire creativity at any age or learning level. Today's education environments have discovered a more holistic approach to organization and kinesthetic learning, and that means more choices and smarter logistics. With its dynamic, multifunctional design, straightforward mobility, and exceptional organization capabilities, Class-ifi™ encourages healthy movement throughout the day and defines a variety of organizational and learning hubs for every student at every level. Make your space work with Class-ifi™.

FEATURES

- Choose from two panel options (Accessory End or Solid End), depending on your needs.
- Maximize your mobility with casters.
- Organize any size learning space with single- and double-sided bookcases and cubbies.
- Color your world with a variety of metal and laminate finish options.
- Reach for the stars or keep things at ground level with multiple height options.
- Open up your world with easy-access doors (also available without doors).
- Stash your stuff safely by adding a handy tote to any locker, tote storage, or Teacher Command Station (optional).
- Amp up your accessibility with Fuse™ accessories for all storage units, including hot file, side saddle, and bag hooks. (All work with slotted end planes.)
- Get a lift with a handy locker hook.
- Offer more options with a 1H bookcase or cubby that can be utilized as a seat.

Confetti™ Floor Lounge.

CONFETTI™

Every educator wants their classroom to celebrate individuality, energize ideas, and inspire imaginations. Organic, fluid environments are essential to the physical and emotional comfort of every young learner — and Confetti™ Floor Cushions and Lounges pass every test with flying colors! These comfortable, portable seating solutions encourage young learners to sit where they please, gather with ease, and stay connected and creative in their own way — from the first day of school to the last. With soft foam support and integrated handles for easy portability, Confetti™ allows students to navigate the classroom in their own way to create a safe, stress-free learning environment. Make your space work with Confetti™.

FEATURES

- Maximize student mobility with integrated handles for easy portability.
- Create comfortable support with soft foam seating.
- Get a lot (or just one) — floor cushions are sold separately or in packs of 8.
- Keep things tidy with a floor cushion cart, designed to organize and store seating when not in use — plus, this handy solution fits under tables, so you'll save valuable floor space.
- Choose from an array of colorful fabric options.

ROLL CALL™

Want to see more? Scan here to check out hon.com.

Roll Call™ shown with SmartLink® Student Seating and Desks, and Class-ifi™ Storage.

ROLL CALL™

Healthy, connected classrooms are never at a stand-still. To stay flexible and functional, today's learning spaces need solutions that can move anywhere, anytime. Roll Call™ — HON's light scale, easy-to-use lectern — allows students and teachers alike to adjust, administer, and engage with ease. With ample height adjustability and smooth caster mobility, Roll Call™ encourages young minds and educators to create an imaginative environment that's all their own. Make your space work with Roll Call™.

FEATURES

- Open up your options with a pneumatic cylinder and hand lever that allows for easy height adjustment (between 28½″-43½″).
- Maximize your mobility (or stay put!) with 4 casters that move with you or lock in place, depending on your needs.
- Spread out with a 24″D x 30″W worksurface, designed to hold everything from lesson books to laptops.
- Rely on the exceptional durability of an easy-to-clean laminate surface.
- Backed by The HON Company's Full Lifetime Warranty.

SmartLink® Student Seating and Desks, Teacher Desk, and Storage.

SMARTLINK®

Show of hands — who loves long lectures? Today's classroom is more hands-on and collaborative, involving group interactions that better stimulate learning. That's why we've done our homework in the design of SmartLink. This collection of lightweight and mobile desks, chairs, storage, and presentation tools earns high marks by being easy to arrange and rearrange, keeping active minds and bodies fully engaged.

FEATURES

- Put teachers in control of their storage, technology and environment.
- Worksurface shape supports creative configurations.
- Designed to the unique ways students sit and move throughout the day.
- Organize lesson plans and make the most of unused wall space.
- Move educational tools wherever the activities demand.
- SmartLink chairs warranted for users up to 300 lbs.

SMARTLINK® SPECIFYING INFORMATION

STEP 1

Choose a grade range to find the recommended SmartLink® desk and table height.

Recommended space from chair seat to underside of table is 8″-11″							
Seat Height	6″	12″	14″	16″	18″	24″	30″
Table Height	14″	22″	24″	27″	29″	36″	42″
Pre-K							
Kindergarten - Grade 1							
Grade 2 - 4							
Grade 5 - 12							

STEP 2

Pick the SmartLink® model that meets the student height needs.

Model: HLDV-M3A
Adjustable Height
23″-33″ Height Range

Use the color-coated circles in the chart on the right to find a compatible chair.

Model: HLDV-M3F
Fixed Height
30″ Fixed Height

Model: HLDV-M3T
Sit-to-Stand
30″-43″ Height Range

STEP 3

Determine the suggested chair height within your desk size range.

Desk Height		Chair Seat Height	Type of Chair
22″	●	12″	4-Leg, Cantilever or Task
23-24″	●		
25-27″	●	14″	
28-29″	●	16-18″	
30″	●○●	18″	
31-33″	●○	22-24″	Stool
34-41″	○	24-31″	
42-43″	○	30-32″	

SMARTLINK® SPECIFYING INFORMATION

Individual Layouts

- The non-handed top allows the desk to be positioned to better support right-handed or left-handed individuals or be used in a forward position.

LH Position

Forward Position

RH Position

Group/Collaborative Layouts

Below are examples of how the student desks can be configured to support multiple students or group activities.

Student Desk
2-Desk Configuration

Opposing Student Desk
2-Desk Configuration

Student Desk
4-Desk Configuration

Student Desk
4-Desk Cluster Configuration

Student Desk
4-Desk Work Group Configuration
Can accommodate up to 8 students

Teacher Centered Layouts

- Reverse the layout and use the student desks to create layouts for teacher centers that can accommodate up to 6 students.
- 23⅝″ distance between legs when used from either side.

Teacher Centered Layout

Standard Row Layout

While a variety of classroom configurations are possible, a standard row layout shown below with 25 student desks utilizes a footprint of 199″ deep by 284″ wide. A 30 student desk row layout (5 rows deep by 6 rows wide) will require a footprint of 199″ deep by 348″ wide.

These dimensions are based upon 36″W aisles. Actual dimensions should be based upon local building codes.

SMARTLINK® SPECIFYING INFORMATION

TEACHER STATION

SmartLink®

The following planning and specifying information is intended to help you imagine and create stimulating SmartLink classrooms that can integrate technology while helping rooms stay adaptable, organized and attractive. SmartLink offers you everything you need to create flexible, clutter-free learning environments for students of all ages.

Teacher Station – Value Double Pedestal with Modesty Panel

HLTV2466TMOD-33

Storage

- Box/box/file pedestal is always standard on the right-hand side. Pedestal is locking.
- Available kneespace is 33¼"W x 20"D for all models.
- Non-locking Center Drawer (HD8X) may be field installed in the kneespace. Tops are pre-drilled to accept the drawer.
- Center drawers and CPU holders cannot be installed together.

Cable Management

- Both the left-hand and right-hand end panels may be removed to provide access to power and cable management within the side power cabinet.
- Grommets are standard in each removable end panel allow a power cord to exit and be plugged into a floor or wall outlet.
- Two "Smart Grommets" with a wireway cover are standard on each station's top surface.

Teacher Station – Value Single Pedestal with Modesty Panel

HLTV2466TMOD-3

Storage

- Single pedestal desk available in Left-hand or Right-hand pedestal/storage configurations.
- Pedestal options include Box/Box/File locking.

Cable Management

- The pedestals end panel may be removed to provide access to power and cable management within the side power cabinet.
- A grommet is standard in the removable end panel to allow a power cord to exit and be plugged into a floor or wall outlet.
- A single "Smart Grommet" with a wireway cover is standard on each station's top surface.

Teacher Station – Value Double Pedestal

HLTV2466T-33

- Larger top size provides ample work/conference area or space for equipment.
- Standard with Heavy-duty 3", 360-degree swivel casters, 4-locking, 4-non-locking.
- Storage options include: Locking box/box/file.
- Kneewell space accommodates optional (specified separately) and field installed non-locking center drawer and CPU holders (see page 227).
- Modesty specified separately.
- Power modules can be ordered separately and mounted to the desk. See Power & Cable Management page 245.

Teacher Station – Value Single Pedestal

HLTV2460T-3

- Standard with Heavy-duty 3", 360-degree swivel casters, 4-locking, 4-non-locking.
- Storage options include: Locking box/box/file.
- Kneewell space accommodates optional (specified separately) and field installed non-locking center drawer and CPU holders (see page 227).
- Right or left assembled in the field.
- D-shape top encourages conferencing and provides ample work and conference area.
- Modesty specified separately.
- Power modules can be ordered separately and mounted to the desk. See Power & Cable Management page 245.

SMARTLINK® SPECIFYING INFORMATION

MODULAR STORAGE

SmartLink® Modular Storage is comprised of cases, accessories and support rails. However, only the cases and accessories need to be specified. The following guidelines should help you plan and specify SmartLink Storage.

Planning Notes

Cases

- A laminate top with a soft feel vinyl edge provides a classic look with exceptional durability.
- **Storage cases do NOT include accessories. Accessories are specified and sold separately.**
- Case configurations are based off of 12″W or 30″W columns.
- Internal case configurations cannot be changed (i.e., cannot change an HLSF52-3 to a HLSF52-21).
- Cases are designed to allow the users to create a variety of accessory configurations using different tray heights and shelves.
- Cases can be specified with or without locking doors.
- Door models may be converted to non-door models in the field.

Accessories

- Accessories include trays in 3″, 6″ and 12″ heights, shelves in 12″ and 30″ widths and a 12″W coat rod.
- **All accessories are sold and specified separately as kits and include 1 pair of storage rails per tray or shelf.**
- The support rails simple “no tool” attachment method allows users to easily install and change rail (tray or shelf) positions as needed.
- Kits include:

Accessory	Quantity Per Kit	Where Used
3″H trays	7 trays / 14 support rails	12″W columns only
6″H trays	4 trays / 8 support rails	12″W columns only
12″H trays	2 trays / 4 support rails	12″W columns only
12″W shelf	2 shelves / 4 support rails	12″W columns only
30″W shelf	2 shelves / 4 support rails	30″W columns only
Coat Rod	1 coat rod	12″W columns — Full Height case only

- Cabinet Whiteboard Bracket kit is available which allows whiteboards to be mounted to the back of the full height cabinets. Kit includes upper and lower rails with integrated marker tray and attachment hardware. Use wall rail sliding whiteboards. Rails will accept one (1) 48″ x 48″ board or two (2) 24″ x 48″ boards.

Specification Notes

- Number of accessory openings
  SmartLink storage cases are available in six (6) standard case types that feature combinations of 12″ or 30″ internal column widths. The following illustration shows the number of openings by column width for each case configuration.

Credenza Height Storage (30"H)

7–30"W Openings — HLSC36-1

14–12"W Openings — HLSC36-2

7–30"W Openings, 7–12"W Openings — HLSC52-21

21–12"W Openings — HLSC52-3

Full Height Storage (61¾"H)

16–30"W Openings, 16–12"W Openings — HLSF52-21

48–12"W Openings — HLSF52-3

SMARTLINK® SPECIFYING INFORMATION

- Openings used by Accessory type:

Accessory	Openings used per Accessory
3″H tray	1
6″H tray	2
12″H tray	4
12″W shelf	1
30″W shelf	1

- Any combination of trays or shelves (of common width) can be used as long as the openings used equal the total number of openings available per column. The following illustrations show a variety of tray configuration options. Numbers shown in the opening refers to the tray size.

Full Height Storage (61¾"H) — 16 Openings, Single Column Examples:

Credenza Height Storage (30"H) — 7 Openings, Single Column Examples:

Using the information above, follow these guidelines to help determine accessory quantities.

1. Determine the total number of available "openings" by width (12″, 30″) for each case type.
   Example: HLSF52T-3F has 3 columns of 16 openings, total 48 openings
2. On a PER COLUMN basis, determine the desired tray/shelf configurations total number of openings used so they equal the total openings available per column. Total accessory quantities per case then multiply by the total number of like cases.
   Example: If each column will have 2–12″ trays, 2–6″ trays and 4–3″ trays. The number of openings used for this column combination is 16. Assuming all three columns are the same total tray quantities for this case will be 12–3″, 6–6″ and 6–12″.
3. Once total tray and shelf quantities are determined, simply divide by the kit quantity to determine the number of kits required.
   Example: 3″ trays = 12 ÷ 7 = 2 kits, 6″ trays = 6 ÷ 4 = 2 kits, 12″ trays = 6 ÷ 2 = 3 kits

- **Shelf Spacing**

  The clearance between shelves is approximately 3⅜″ for every support rail that is not used between shelves. The following illustration shows the clearance between shelves when 0-4 support rail positions are not utilized.

SMARTLINK® SPECIFYING INFORMATION

WALL RAIL SYSTEM

The SmartLink® wall rail is a multi-layered, multi-functional system that can accommodate a variety of presentation boards and accessories. The multiple tracks allow boards to be easily positioned and changed to support today's interactive learning environments.

Planning Notes

- Installation of the wall rail system over existing white or chalkboards is not recommended.
- The rail and wall bracket provide three separate tracks for the Learning boards. The REAR or wall/bracket track is occupied by the fixed wall board. The MIDDLE and FRONT tracks are for sliding boards.
- To allow for greater utilization of the rear fixed board a maximum width of 96" of sliding boards on the middle or front track is recommended.

The illustration below shows the overall wall space requirements for the rail system and recommended mounting height for use in K-12 classroom applications.

Sliding boards are removable and reversible so a wide variety of layouts are possible. The following illustrations highlight a couple of the more common applications. Layouts 2A and 2B provide the greatest amount of board space and overall flexibility. When used with rail mounted worksurfaces, use 24"W boards on the front rail as shown in 2C in front of each worksurface to provide information specific to that work area. Boards could then be added to the middle rail for information/work to be shared between the stations.

Specification Notes

- Boards are specified individually.
- Hardware to mount to the wall brackets is not provided by HON and MUST BE SOURCED LOCALLY.
- Learning board only applications require two (2) HLWR-12 rails to be specified.
- REFER TO PRODUCT INSTALLATION INSTRUCTIONS FOR DETAILED INSTALLATION INFORMATION.

	Ships Assembled with HLDA-15 Book Box attached	**HLD-M3FB**	65	17.9	**$1168**
	Student Desk, Adjustable Height 28″W x 28″W, User side 36¼″W Adjustable: 23″-33″ height adjustment range. Legs ship pre-set for 30″ overall desk height when factory installed. **Hard Plastic Top**				
	Ships EZ	**HLD-M3A**	63 S	5.5	**$959**
	Ships Assembled	**HLD-M3AA**	58	17.9	**$1011**
	Ships Assembled with HLDA-15 Book Box attached	**HLD-M3AB**	65	17.9	**$1168**
EZ	**Student Desk, Sit-to-Stand** 28″W x 28″W, User side 36¼″W Adjustable: 30″-43″ height adjustment range. Leg height is set during field installation. **Hard Plastic Top**	**HLD-M3T**	65	5.5	**$1363**

NOTES:

- Non-handed desk top constructed of ¾″ hard plastic, includes dual pencil grooves.
- Hard plastic top features comfort edge on user side and soft radius with rounded corners on all sides.
- May also be specified to ship fully assembled, with or without HLDA-15 Metal Book Box.
- Upper leg is painted, lower leg standard chrome finish on Adjustable and Sit-to-Stand models.
- Nylon swivel glides are standard on adjustable and fixed leg models.
- 29.60″ distance between legs on user side. Outside distance between legs is 23⅜″.
- Sit-to-Stand model features bell glides.
- Sit-to-Stand is height adjustable from 30″-43″H and includes a footrest.
- Accepts optional book box (HLDA-15) and backpack hooks (HCLA65).

SPECIFICATION TIP: Consider available kneespace when specifying under desk storage Metal Book Box. Available kneespace will vary significantly given set desk height. Use the following example to calculate the available and usable kneespace.
EXAMPLE: HLDV-M3A Student Desk, HLDA-15 Metal Book Box
(user set desk height – top thickness – seat height = available kneespace)
(29″H – 1″ thickness – 18″ seat height = 10″ available kneespace)
(available kneespace – book basket/box height = usable kneespace)
(10″ available kneespace – 5″ basket height = 5″ usable kneespace)

! Field installed felt glide caps (HGDK3-F) are recommended for use on VCT flooring.

All Student Desks are ordered and shipped two (2) desks per carton. Legs and cross-brace ship unattached on EZ models. Pricing shown is per carton. Ordering two of model HLD-M3A or HLD-M3T will result in 2 cartons being shipped, giving you 4 desks.

TANGRAM™

Want to see more? Scan here to check out hon.com.

Tangram™ Seating.

TANGRAM™

Tangram™ soft seating is the shape of things to come in education spaces. With 27 easily configurable shape and size options, high- and low-back models, and tiered seating, it offers the ability to create custom layouts that breathe new life into unconventional learning environments distinctive to each student. And with its single or multi-fabric options, rainbow of color choices, and playful aesthetic, this solution puts the "fun" in functional.

FEATURES

- Ottomans, In-Line Tables, Story Steps, and Modular units can be used together.
- Story Steps can be combined to create multiple-level learning layouts.
- Available in high- or low-back models.
- High-back models create a quiet space without losing sight lines for educators.
- In-Line Tables provide durable, easy to clean worksurfaces with optional integrated power.
- Flexible brackets allow units to be ganged together.
- Metal bases keep upholstered parts off the ground for easy cleaning.
- Stay connected with optional built-in power.
- Adjustable glides.
- Proportionately designed to fit K-12 students.
- Poufs and Ottomans offer additional seating.
- All models ship fully assembled in one carton.
- Available in a wide range of cleanable fabrics.
- Multi-fabric option — seat, back, and screen can be specified in different fabrics.
- Bistro-back models encourage additional ways to sit comfortably and offer an easily cleanable laminate surface for high-traffic daily use.

DESCRIPTION	MODEL	SHIP WEIGHT	CUBE	LIST PRICE
Ganging Bracket, 2/Pack	**HECSG**	5	0.5	**$105**
Ganging Bracket Bulk Pack, 12/Pack	**HECSBG**	10	0.6	**$523**

NOTES:
- Ganging brackets used to provide alignment between adjacent pieces but can be easily removed and repositioned for reconfiguration.
- Two ganging brackets used per side; for example, if ganging a Stoop + Perch, specify one HECSG.
- Ganging brackets are unpainted anodized aluminum.

! Perch units automatically ship with ganging brackets and L-brackets required for proper stability.

MONITOR ARMS

DESCRIPTION	MODEL	SHIP WEIGHT	CUBE	LIST PRICE
Single Monitor Arm with 2 USB Ports	**HBSMAUSB**	38.6	2.4	**$330**

NOTES: Easy adjustment. Height adjusts to 17″ tall. Monitor tilt and swivel capability. Enclosed cable management. Grommet or desktop mounting. Clean appearance. **HON 5-Year Limited Warranty.**

- Available in Silver only, no specification needed.
- Cannot be used in Empower® height adjustable applications.

Dual Monitor Arm with 2 USB Ports	**HBDMAUSB**	41.9	2.6	**$492**

NOTES: Easy adjustment. Height adjusts to 17″ tall. Monitor tilt and swivel capability. Enclosed cable management. Grommet or desktop mounting. Clean appearance. In some applications the Monitor Arms may extend 12 or more inches into the worksurface. **HON 5-Year Limited Warranty.**

- Available in Silver only, no specification needed.
- Cannot be used in Empower® height adjustable applications.

Single Dynamic Monitor Arm	**HMASTS**	11.5 S	0.8	**$600**

- 180° of rotation at base with optional 360° rotation.
- Arms extend 22″ and retract up to 3″.
- Monitor mount rotates 180° and tilts +/-30°.
- Monitor can be rotated from landscape to portrait position.

- Arms hold monitors from 6.2-18 lbs. Optional counterweight HPACW available to support monitors as low as 5 lbs.
- Back side of monitor arm base features opening for wire management through grommet when utilizing clamp mount.

Dual Dynamic Monitor Arm	**HMASD**	17.0 S	1.1	**$1152**

- Arms have 65° rotation at base with optional 130° and 360° rotations.
- Arms extend 22″ and retract up to 3″.
- Monitor mount rotates 180° and tilts +/-30°.
- Monitor can be rotated from landscape to portrait position.

- Arms hold monitors from 6.2-18 lbs. Optional counterweight HPACW available to support monitors as low as 5 lbs.
- Back side of monitor arm base features opening for wire management through grommet when utilizing clamp mount.

Sliding Mount for Monitor Arm	**HPACSM**	3.0 S	0.3	**$248**

- Supports monitors up to 18 lbs.
- Compatible with VESA 75mm and 100mm mounts.
- Compatible with models HMASTS, HMASD, HPASD, HPADD, and HPATF.
- Available in two paint finishes, Silver (SVR) and Black (BLK). Plastic components ship in like color with specified paint finish.

Monitor Arm Counterweight	**HPACW**	3.0 S	0.1	**$37**

SIN 33721

- Optional counterweight for monitors as low as 5 lbs.
- Minimum weight for monitors without counterweight is 6.2 lbs.

- Available in Black only, no specification needed.
- Compatible with models HMASTS, HPASD, HMASD, HPADD, and HPATF.

NOTES: When positioned above 29½″H floor-standing storage, the sizes align with overhead storage height options. Can be positioned side-by-side with corresponding wall mount markerboard sizes. Easy to install; includes mounting hardware. Attaches to wall with horizontally mounted, interlocking Z-clip brackets. For the space directly below stack-on and wall mount storage cabinets, use the 18″H tackboard models listed in the Desks section in the 2023 Workspaces Pricer.

INTERLINK IQ ELECTRICAL

Specification guide for IQ Electrical on Training tables

Determine table width, the type of power access being used (3″ grommet or 4x8 pop-up) and the desired number per table (Columns 1, 2 or 3). The table will then identify the type and quantity of components needed per table along with the maximum table run. Note that this is in addition to the Power base in-feed which is needed for each run. For example, a 48″W table with two 3″ power grommets per table will require (1) HQH5-3 harness and (1) HQH1-3 harness per table with a maximum run of four tables.

Top Width	**POWER ONE (1) PER TABLE** 3″ ROUND POWER GROMMET		**POWER TWO (2) PER TABLE** 3″ ROUND POWER GROMMETS		**POWER ONE (1) PER TABLE** 4x8 POP-UP PORT	
36″	(1) HQH5-3	**8** Table Run Maximum	N/A	N/A	(1) HQH5-P	**8** Max Table Run
42″	(1) HQH5-3	**8** Table Run Maximum	N/A	N/A	(1) HQH5-P	**8** Max Table Run
48″	(1) HQH5-3	**8** Table Run Maximum	(1) HQH5-3 (1) HQH1-3	**4** Max Table Run	(1) HQH5-P	**8** Max Table Run
54″	(1) HQH5-3	**8** Table Run Maximum	(1) HQH5-3 (1) HQH1-3	**4** Max Table Run	(1) HQH5-P	**8** Max Table Run
60″	(1) HQH5-3	**8** Table Run Maximum	(1) HQH5-3 (1) HQH1-3	**4** Max Table Run	(1) HQH5-P	**8** Max Table Run
66″	(1) HQH5-3 (1) HQJ3	**4** Table Run Maximum	(1) HQH5-3 (1) HQH1-3	**4** Max Table Run	(1) HQH5-P (1) HQJ3	**4** Max Table Run

Half-Round (all sizes)	(1) HQH1-3	**2** Tables Maximum	N/A	N/A	(1) HQH5-P	**2** Max Table Run
Trapezoid (all sizes)	(1) HQH5-3	**8** Table Run Maximum	N/A	N/A	(1) HQH5-P	**8** Max Table Run

NOTES:

- Interlink IQ Electrical is a pluggable, single circuit electrical system.
- All electrical models include wire management clips and hardware.
- Interlink IQ Electrical is non-sequential/non-directional.
- Interlink IQ Electrical is UL Recognized as a Powered Table System and meets the requirements of UL 962 when paired with Motivate® or Huddle tables.

! 40′ maximum run, or no more than 8 units, whichever comes first. Interlink IQ system will automatically shut off if maximum requirements are exceeded. Maximum run is based upon electrical harness width, not table width.

4-TRAC HARDWIRE ELECTRICAL SYSTEM

4-Trac Electrical System

The 4-Trac Electrical System is a UL-recognized Manufactured Wiring System that seamlessly passes power from one worksurface to another. This low-profile non-sequential electrical system allows tables to be "daisy-chained" together in any desired order and allows users to reconfigure quickly due to simple connectable/disconnectable links.

- Meets requirements of UL 183 and National Electric Code Article 604
- 4-Wires, 2-circuits, 20 Amps each (Circuit 1 and Circuit 2 only)
- 13 Duplex Receptacles per circuit, 26, 15 Amp Duplex receptacle per power in-feed
- Electrical system attaches directly to underside of worksurface with included brackets
- Up to twelve tables can be linked together

Power Entry Plate (ex: HMAPLATE) + Power Entry Cable (ex: HMACABLE) — For each power in-feed

Circuit 1 or 2 Power Kit (ex: HMAPOWER48 or HMAPOWER482) + Ganging Hardware (ex: HMAGANG) — For each table in a row

Power Hub (ex: HGRMTAC), Data Grommet (ex: HGRMTDATA), Cable Trough (ex: HCTROUGH17), Pop-up Port (ex: HTPWRGROM1) — Optional Accessories

Steps for Electrical Specifications:

- Determine how many rows of tables are needed and order the following:
  - One HMAPLATE per row (or power in-feed)
  - One HMACABLE per row (or power in-feed)
- Order one power harness per table in each row
  - For 1-6 tables in a row (see illustration 1)
    - Order Circuit 1 Power Harnesses (ex. If powering six 24x60 tables order six sets of HMAPOWER60)
  - For 7-12 tables in a row (see illustration 1)
    - Order Circuit 1 Power Harness for first six tables and Circuit 2 Power Harness for remaining tables (ex. If powering eight 24x60 tables, order six sets of HMAPOWER60 and two sets of HMAPOWER602)
- Order one set of ganging hardware per table (ex. HMAGANG)
- Determine which accessories are needed:
  - Power Hub model HGRMTAC — to access power at worksurface.
  - Data Grommet model HGRMTDATA — to access data at worksurface.
  - Wire Management strips model HBTMS — for vertical and horizontal wire management.

SEATING FUNCTIONS

Work/task chairs need to be adjusted to deliver optimum support. Cross-reference the letter key below to identify the chairs in this section that best meet your needs.

PROPORTIONAL ADJUSTMENTS

These controls adapt the dimensions of the chair to fit the user.

A. Pneumatic seat height adjustment — Regulates height of chair relative to floor.

B. Back height adjustment — Positions lumbar support within a fixed range.

C. Seat depth adjustment — Positions chair back relative to seat.

D. Seat slide mechanism — Seat cushion travels forward and back, then locks into position.

ARM OPTIONS

These adjustments accommodate different sized users and support keyboarding.

Q. Adjustable height arms — Provide improved upper-torso support. Can be adjusted periodically to relieve strain and provide variety.

S. Height and width adjustable arms — Controls both height and width of arms for optimum comfort.

T. Loop arms — Largely specified for aesthetics. Frequently used in management settings.

B-A. All-adjustable arms — Arms adjust in height, width, and depth.

SEATING FUNCTIONS

POSTURE CONTROLS

The controls modify the position and angle of the seat and back to respond to changing tasks.

E. 360° Swivel

F. Tilt — Pivot point located directly above center of chair base.

G. Mid-range knee tilt — Pivot point located slightly ahead of center of chair base. Allows user to recline at a slightly more relaxed angle than conventional tilt.

H. Knee tilt — Pivot point located near front edge of chair. Allows user to keep feet flat on floor while chair reclines.

I. Synchronized knee tilt — Back reclines at a 2-to-1 ratio to seat angle. Pivot point located near front edge of chair.

J. Synchro-tilt — Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor.

K. Tilt tension — Controls rate and ease of recline.

L. Tilt lock — Locks out tilt function.

M. Posture mechanism/ lock — Back angle adjusts independently of seat, and can be locked in an infinite number of positions within a fixed range.

N. Multi-task control — Adjusts seat and back angles independently with a single lever (infinite locking within a fixed range).

O. Asynchronous control — High performance system with three levers to modify: angle of back relative to seat, tilt (free float or infinite locking) and forward tilt.

P. Weight-activated synchro-tilt — Back reclines at a 2 to 1 ratio to seat angle. Tilt tension automatically adjusts to user's body weight as user reclines.

W. Integral lumbar support — Easily adjusts to enhance comfort.

X. Dual-clutch posture control — Adjusts seat and back angles independently with two levers (infinite locking within a fixed range).

A-C. Synchronized tilt — Back reclines at a 2.5 to 1 ratio to seat angle. Variable lock.

A-D. Side tilt tension — Controls rate and ease of recline. Conveniently located on the right side.

A-E. Back reclines at a 2 to 1 ratio to seat angle. Back angle adjusts independently of seat and can be locked in infinite number of positions within a fixed range.

F

0	Flex Mechanism	One lever controls seat height and tilt lock. Bumpers integrated into seat/control to enable flexing seat.

S

S0	Limited recline synchro-tilt	Same as Y controls except do not recline as far. Used on stools.
S1	Limited recline synchro-tilt w/seat slider	
S2	Limited recline advanced synchro-tilt	S2 used on Ignition® Mesh Seat.

W

W0	Weight activated	No tension knob — recline adjusts to user.
W2	Weight activated synchro-tilt w/seat slider	
W6	Integrated weight activated synchro-tilt w/seat slider	*Cipher™ only.

Y

Y0	Synchro-tilt	Simple synchro-tilt (no seat slide).
Y1	Synchro-tilt w/seat slider	Same as Y0 + seat slider.
Y2	Advanced synchro-tilt	Synchro-tilt control with tilt tension (incl. seat slide).
Y3	Synchro-tilt w/independent back angle	Same as Y2 and back also moves separate from seat.
Y4	Synchro-tilt B&T	Same as Y2 for B&T — reduced recline than Y2.

Z

Z1	Swivel-tilt	Simple swivel-tilt (no seat slide) — back attached to seat.

SEATING

ORDERING INFORMATION

- Seating pages are now arranged in alpha, then numeric, order.
- **All specifications in this publication are based on the latest product information available at the time of print.**
- COM Ordering Information and pricing on page 13.
- Remember to add an FC to the base model number when fire code fabric is selected. See page 256 for available models/fabrics.
- Wood components are well-seasoned select hardwoods, chosen for their strength, their ability to machine well and their superior uniformity of stain and finish.
- Chairs with leather feature matching vinyl backs and vinyl seat bottom when applicable (Non-contact areas are vinyl).

Note: Gathers and creases may be more visible with AI and OP fabrics due to the inherent design and construction of these fabrics. Harvest, Cognac, Natural Maple, and Pinnacle de-emphasized for Park Avenue® and Pillow-Soft® Seating.

FIRE CODE/COMPLIANT SEATING

FIRE SAFETY

Definitive Protection — CAL TB 117-2013

- TB 117-2013 — The State of California, Department of Consumer Affairs, Bureau of Electronic and Home Appliance Repair, Home Furnishings and Thermal Insulation (BEARHFTI) Technical Bulletin (TB) 117-2013 is the industry flammability standard for upholstered furniture, and provides methods for smolder resistance of cover fabrics, barrier materials, resilient filling materials, and decking materials for use in upholstered furniture.
- The fabrics and resilient filling materials used in upholstered seating manufactured by The HON Company meet or exceed the flame retardant requirements of State of California TB 117-2013. The label attached to the seat bottom indicates compliance with these requirements.

Elevate Fire Safety to a Higher Standard — CAL TB 133

- The State of California announced in January 2019 that Technical Bulletin (TB) 113, The Flammability Test Procedure for Seating Furniture for Use in Public Occupancies has been repealed effective January 22, 2019.
- While the CAL 133 standard has been repealed, a select subset of The HON Company's most popular chair models are still available in an array of fabrics that include an advanced barrier of fire protection to help comply with CAL 133 requirements.
- To ensure that the chairs you order comply with CAL 133, specify one of the fabrics listed below. Then simply add "FC" to the model number when ordering one of the select available models. A standard upcharge of $95 will be applied per seat model for all single seat chairs.
- **SPECIFYING EXAMPLE: HIWMMFC.Y2.A.H.IM.CU10.NL.SB.T**

CAL 133 COMPLIANT MODELS

IGNITION® SEATING

HIEH1FC, HIEH2FC, HIEH3FC, HIWM1FC, HIWM2FC, HIWM3FC, HIWM8FC, HITL1FC, HITL2FC, HITL3FC, HITS5FC, HIGCLFC, HIGS6FC, HISB6FC, HICS7FC, HIB50FC, HITLMFC, HIWMMFC, HITSMFC

MOTIVATE® SEATING

HMN2FC — Available in ONYX (ON) shell only.

NOTES:

- Creases and gathers may be visible with CAL 133 Fire Code seating due to the construction of the fire barrier material used.
- Please refer to each model's page for specific fabric availability.
- Contact HON Tailored Solutions Team for all other requests.

SS	Leather

MOISTURE BARRIER

- This extra layer of protection prevents moisture from penetrating the foam to improve cleanability and extend product longevity. Moisture barrier is available as an option for the seat only. The recliner gets moisture barrier on seat and footrest.
- **Moisture barrier is not available for the fire code models.**

How to Order

- When specifying Moisture Barrier simply add "MB" to the model number when ordering.
  SPECIFYING EXAMPLE: HHCG11MB.S.AI90.P6N.PR8.

Upcharges for Moisture Barrier on Soothe® models

Model	Moisture Barrier
HHCG11	$80
HHCG50	$120
HHCG21	$160
HHCGB21	$160
HHCGB31	$240
HHCP1	$80
