CHERRY CRUSH

Industrial Hand Soap

- Works with or without water
- Safe for drains
- No hydrocarbons
- Won't Dry Out Skin
- Contains Walnut Shell Abrasives
- Removes grease, tar, oil & ink

Cherry Crush is a 100% bio-degradeable, highly concentrated industrial hand cleaner. It contains all-natural walnut abrasives, aloe, and eco-friendly grease cutters for deep down cleaning of oil, tar, grease and other soils.

FOR USE BY:

Automobile mechanics, oil field personnel, machinists, and production workers, printers, painters and aircraft mechanics. Industrial hand soap scrubbing action removes the toughest grease and grime.

DIRECTIONS:

This hand cleaner can be used with or without water.

To use with water.

Squirt a small amount into the palm of one hand. Wet the other hand with water, then rub hands together being sure to work hand cleaner between fingers and under nails. More water can be added while washing. Rinse hands with water after cleaning. Towel dry.

To use without water.

Squirt a small amount into the palm of one hand. Rub hands together, being sure to work the hand cleaner between fingers and under nails. Then wipe up with a clean towel or rag.

Unlike most industrial hand cleaners that contain pumice or silicone beads that stop up drains and can be harmful to the environment, Cherry Crush has all natural walnut abrasives that wash down the drain safely.
