DESCRIPTION

NO FUSS is a concentrated gel degreaser and carbon remover for use on ovens, grills, deep fryers, smokehouses, bakeware and food processing equipment. The powerful caustic formula softens and lifts tough deposits for easy removal.

DIRECTIONS

Shake well before using. Wear rubber gloves. If cleaning a gas oven do not spray on pilot light. Spread newspaper under oven door. Clean oven racks separately. May be used in either warm (200°F) or cold empty oven. Spray oven surfaces from a distance of 9-12 inches. Allow gel to work 5-10 minutes on warm surfaces, 10-20 on cool surfaces. Then wipe clean with a wet cloth, sponge or paper towels. Rinse oven thoroughly with potable water. For heavily encrusted areas, repeat application using steel wool or soap pad. Pre-heat oven for 10 minutes before next use.

For overnight cleaning, use only in a cold oven. Spray the oven surfaces and close the oven door and allow to stand overnight. Then wipe clean with a wet sponge. Rinse thoroughly with potable water.

NO FUSS

GEL OVEN & BAR-B-QUE CLEANER

Quickly Cuts Through The Heaviest Baked-On Grime

HELPS ELIMINATE SCRAPING

WORKS IN COLD OR HOT OVENS
