SPECIFICATION SHEET

INNO735™ & INNO730™

STRUCTURAL FIREFIGHTING GLOVE

OUTER SHELL

- Black Eversoft split cowhide palm and knuckle-guard for proven protection and abrasion resistance
- Gold Elkskin back for excellent flexibility and reduced hand fatigue

MOISTURE BARRIER

PYRO-PRO™ glove inserts, **Exclusively at INNOTEX®**, offers outstanding dexterity with excellent breathability in the palm and added thermal protection on the back-of-the-hand

LINING

SEF thermal lining

FEATURES

- 2D glove style
- **PIVOT-THUMB™,** natural / anatomically correct thumb to finger movement for better grip
- Formed knuckle-guard for better flexibility and grip; less hand fatigue
- Exclusive liner retention system helps prevent liner shifting and pull-out
- Thumb seam welt for increased abrasion resistance in this critical area
- Kevlar® thread with lock stitching on the shell for added strength and heat resistance
- Nomex® thread with lock stitching on lining
- ½" Heavy duty elastic sewn around the entire wrist helps prevent the glove from falling off the hand by keeping a snug fit around the wrist
- Compliant to NFPA 1971:2013

REGULAR STYLE

INNO735™ Back

INNO735™ Palm

WRISTLET STYLE

Also available as INNO730™ using 2 layers of white Nomex® knit for additional protection
