PRODUCT SERIES OVERVIEW

- The BubbleCup and QuadraCup are TFT exclusives designed specifically for water and foam applications with Class A and AFFF foam in a single nozzle, no attachments necessary.

- The BubbleCup and QuadraCup are ideally suited to work with eductors, on-board foam proportioning systems, or even batch mixed foam solutions and can easily move from aspirated foam to a wide protective fog pattern.

- The BubbleCup and QuadraCup offer models specifically for break-and-extend operations, or with an integrated stainless steel ball shutoff and TFT's unique "quick change" rear valve seat as well as color coded handle and pistol grip.
