All Kleen

All Purpose Powdered Detergent Product Use Guide & Cleaning Procedures

ALL-PURPOSE CLEANING

FLOORS: Use 1 scoop of detergent per average four gallon mop bucket of hot water. Use more for large buckets or hard water conditions. Mop floor. Rinse.

SIDEWALKS, OUTSIDE AREAS: Wet surfaces to be cleaned with a hose. Sprinkle detergent liberally. Scrub with a stiff bristle broom. Rinse with hose.

OTHER HARD SURFACES: Use 1 scoop of detergent per two gallon pail of hot water. Wash surface with sponge or cloth. Rinse. Sanitize food contact surfaces.

FRY / KETTLE CLEANING: Fill each kettle with water. Add 1 scoop of detergent for each 15 pounds of capacity. Set heat at 250˚F. Scrub with a brush when the solution begins to boil. Boil for five minutes. Empty the kettle and wipe clean. Refill with water and boil for at least five minutes. Empty and wipe dry.

HAND WAREWASHING

DISHES, GLASSES, FLATWARE: Use 2 scoops of detergent per average sinkful of hot water. Use more for large sinks or hard water. For best results, wash glasses first. Rinse. Sanitize.

POTS & PANS: Use 3 scoops of detergent per average sinkful of hot water. Use more for large sinks or hard water conditions. To remove extra tough cooked-on food, soak in a hot detergent solution for 10-20 minutes. After soaking, scrub clean. Rinse. Sanitize.

EXTRA HEAVY GREASE: Use 4 scoops of detergent per average sinkful of hot water. For grease filters and very greasy pans and trays, soak 10-20 minutes in a sinkful of hot detergent solution. Then scrub clean. Sanitize.

LAUNDRY

Use 2 scoops for normal loads. Use 3 to 4 scoops for large or heavily soiled loads.
Pre-Treating: Add 2 scoops to washer with warm water. Soak for 30 minutes or overnight. Drain machine, launder as usual.
