BLUE HEAT™

Clinging Oven Cleaner

Read the entire label before using this product.
Si usted no entiende esta etiqueta, pida a alguien que sepa inglés que se la explique completamente antes de usar este producto.

- **Thickened formula clings to vertical surfaces**
- **Easily applies by sprayer, brush or sponge**
- **Industrial strength**

Suitable for use as a degreaser for food cooking or smoking equipment, utensils or other associated surfaces in Federally inspected meat and poultry plants.
Following use on all of the above, the cleaned surfaces must be rinsed thoroughly with potable water before any food or food product may contact the cleaned surface.

DIRECTIONS FOR USE

NOTE

1. Avoid contact with aluminum, glass, cabinets, all painted surfaces, Formica®* and flooring materials such as vinyl, vinyl asbestos, and linoleum. Should contact occur, rinse immediately with water.
2. Do not allow BLUE HEAT to contact thermocouples in the oven, as corrosion may occur.

SHAKE PRODUCT WELL BEFORE USING

For best results, pre-heat the oven to 150-200°F. Make sure the oven is off before applying BLUE HEAT. The product must be at room temperature before use.
Apply a heavy coat by spray, brush, or sponge to the sides, top, and bottom of the oven. Apply working from the back of the oven forward, to avoid contact with the skin.
Allow approximately 30 minutes contact time before removing the cleaner and oven soils. Hard-encrusted oven soils may require a second application or the use of steel wool for complete removal.
Remove the cleaner and soils working from the front of the oven to the back. Rinse the surfaces with a 90% water and 10% vinegar mixture. Wash the surfaces as usual.
* Registered Trademark of Formica Corporation

NET CONTENTS: _____

BLUE HEAT may also be used to clean racks, grills, and other oven surfaces.
STORAGE RECOMMENDATIONS: Store at temperatures above 68°F.
KEEP FROM FREEZING. If this product is stored in cold or freezing temperatures, it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.

DANGER POISON

CAUSES SKIN AND EYE BURNS
HARMFUL IF INHALED
HARMFUL OR FATAL IF SWALLOWED

Contains Potassium Hydroxide.
Do not get on skin, in eyes, or on clothing. Wear neoprene or nitrile rubber gloves, a face shield, and protective clothing when handling. Wash thoroughly after handling. Keep the container closed when not in use. Avoid breathing the vapor or mist. Use sufficient ventilation to prevent the buildup of vapor or mist. Wear a NIOSH-approved respirator if misting is likely. Inhalation causes burns nose, mouth, and throat. Do not swallow.

FIRST AID

FOR SKIN CONTACT: Immediately remove contaminated clothing and shoes. Wipe away material with a cloth. Flush thoroughly with large amounts of water for at least 20 to 30 minutes. Get immediate medical attention. Discard clothing and shoes.

FOR EYE CONTACT: Immediately rinse the eyes with water. Remove any contact lenses and continue flushing for at least 15 minutes. Hold the eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water. Get immediate medical attention.
IF INHALED: Remove from the area to fresh air. If not breathing, clear the airway and start mouth-to-mouth artificial respiration. Get immediate medical attention.
IF SWALLOWED: Give 3 to 4 glasses of water, but DO NOT induce vomiting. If vomiting occurs, give fluids again. Get immediate medical attention. Do not give anything by mouth to an unconscious or convulsing person.
