General information

GENERAL INFORMATION

FABRICS

Standard program

The Artopex price list is divided into 5 grades of fabric and also includes leather. The color choices of Grades 1 and 2 as well as leather are shown and coded on the Artopex Seating Fabric Card.

Pre-graded and tested complementary fabrics

A list of complementary pre-graded and tested (by Artopex) fabrics is available at www.artopex.com. Refer to the supplier web sites to view the available choices and order samples of fabrics on this list.

C.O.M. orders

Artopex seating products can be specified with fabric supplied by the client (C.O.M. order). The base price for C.O.M. orders is equivalent to an Artopex Grade 2 fabric, the price listed in the second column of the price list (COM/Gr.2), to which the chosen options are added. The C.O.M. orders must clearly indicate the color, pattern, width of the fabric as well as the manufacturer or distributor using a form obtained from Customer Service.

Upon request by Customer Service, a 12" x 12" (305 x 305mm) fabric sample must be sent pre-paid to Artopex Customer Service: **ARTOPEX, 800 Vadnais, Granby, Qc, Canada, J2J 1A7.**

Once the sample and the order are approved, Customer Service will confirm the instructions for shipping the fabric to our plant. For C.O.M. orders, the order's delivery date is set once the fabric is received by Artopex. Artopex is not responsible for the quality and durability of any fabric not offered on our standard card.

California Technical Bulletin 133

Artopex seating products can be ordered compliant with the California Technical Bulletin 133 (CAL 133) used primarily in public buildings without sprinkler systems. In order to be compliant, the fabrics must be certified CAL 177 or CAL 133 and a fire blocking material, which prevents fire from spreading, must be installed under the fabric by Artopex.

The price is calculated as follows:

- Use the number of yards for C.O.M. fabrics in the price list and multiply by $70 (list price) to calculate the upcharge.
- To obtain a certificate from an independent laboratory, you must pay the price of the compliant product to be tested plus a NET cost of $700 to cover the costs of transportation, testing and the issuing of the certificate.

Contact Customer Service for CAL 133 product compliant procedures.

FINISHES

Mesh

The flexible mesh knits, "Aero Mesh", "Spacer Mesh" and "Urban Mesh", are for specific series only. The available colors can be viewed at www.artopex.com.

Plastic

A plastic color must be specified for certain models. According to the series (Headliner, Flashback, Frill, Olé or Xpresso), refer to the product description for details on the type of plastic and color choice. The colors can be viewed at www.artopex.com.

Metal

For certain series such as Minimax, a metal finish must be specified. Refer to the product description and view color choices on the enamel color cards 1 and 2.

Wood

Some types of visitor chairs have a possibility of a wood finish on the seat and the back (Crema and Olé). Refer to the color choices available. The colors can be viewed at www.artopex.com.

Due to the nature of wood, colors may differ from one product to the next depending on the porosity and natural color of the wood used.

PICTOGRAMS

The pictograms provide a quick reference for features of each series and are placed above the product descriptions in the price list.

Moisture-wicking fiber
Series designed with a layer of moisture-wicking fiber placed between the polyurethane foam and upholstery fabric. This layer helps to eliminate the accumulation of moisture from prolonged contact with the user's body, the seat and backrest.

Various widths
Series available in more than one seat width. (narrow, standard, large, x-large).

Greenguard certified
Series Greenguard certified for indoor air quality in buildings. Laboratory testing certifies that the collection has very low volatile organic compound air emission levels. This certification means that the collection also meets its equivalent at BIFMA, BIFMA X7.1.

Product delivered semi-assembled
Series packaged semi-assembled in order to minimize space for more economic and environmentally-friendly shipping.

Ultra-Flex® membrane
Series equipped with Ultra-Flex® technology exclusive to Artopex. It is designed with a wood or metal structure which is covered with an Ultra-Flex membrane that increases comfort and provides better ergonomics.

Ergonomic certification
Series was tested by Dr. Charles Côté, Ph.D. in Workplace Ergonomics and his team who certified that the chair distinguishes itself by its contribution to ergonomics for seated work.

Intensive use
Series designed with features aimed at durability providing the highest level of ergonomic comfort possible for use over multiple work shifts. According to its environment and use, certain components are recommended; contact your representative for more details.

Stackable
Chairs in this series can be stacked, one on top of the other, to facilitate storage.

Nesting
Chairs in this series can be nested, one behind the other, allowing them to be rolled as a unit to facilitate storage.

SEAT AND BACKREST WIDTHS

Dotcom, Vortex, Wingo and Sentinel Series.

Seat width can be specified. The prices indicated are for the "Standard" model and change when "Large" or "X-Large" are specified.
The chart below describes the specifications, codes and prices according to the selected seat width.

Dotcom and Vortex

	Narrow	Standard	Large	X-Large*
Width - seat	17" (430 mm)	19" (480 mm)	21" (530 mm)	23" (554 mm)
Width - backrest	16½" (430 mm)	18½" (470 mm)	18½" (470 mm)	18½" (470 mm)
Depth - seat	17" (430 mm)	18" (455 mm)	18" (455 mm)	18" (455 mm)
Code	DO1 or VX1	DO2 or VX2	DO3 or VX3	DO4
Price	No charge	Price list	Add $100	Add $200

* Dotcom only

Wingo

Backrest height

The backrest height must be specified in some series.

L - Low | M - Medium | D - Director | H - High | H - High Headrest

ERGONOMIC CERTIFICATION

Artopex manufactures its seating products in the best working conditions, with the highest quality materials, qualified personnel and cutting edge technology equipment.

In a review of the design of Artopex's ergonomic task chairs, an ergonomic research team from the University of Quebec completed a study, presented recommendations and then evaluated the final product.

The review resulted in the certification and recommendation of Artopex's chairs by Dr. Charles Côté, Ph.D. in Workplace Ergonomics and his team.

Certified series :
• Dotcom • Loveflex • Vortex • Wingo.

These series proved notable for:
- Simple adjustments.
- Promoting good working posture.
- Minimizing fatigue by allowing for proper blood circulation.
- Providing comfort for the main body pressure points in contact with the chair.

Ergonomic Endorsement

In a review of the design of Artopex's ergonomic mutli-task chairs, an ergonomic research team from the University of Quebec completed a study and presented recommendations and evaluations of the chairs in question.

The report resulted in the endorsement of Artopex's chairs by the Association of Canadian Ergonomists, through their representative, Mr. Charles Côté, Ph.D in Workplace Ergonomics.

Charles Côté Ph.D
Head of Health and Safety Training and Research
Health Sciences Department
Université du Québec en A.-T.

The series of chairs that have received this endorsement are:
- **Dotcom**
- **Loveflex**
- **Vortex**
- **Wingo**

These series proved notable for:
- Promoting good working posture.
- Simple adjustments.
- Minimizing fatigue by allowing for proper blood circulation.
- Providing comfort of the main body pressure points in contact with the chair.

Université du Québec en Abitibi-Témiscamingue

artopex

Visit www.artopex.com for a copy of the certificate.

STRUCTURES AND MATERIALS

The Artopex chair structures vary according to the collection and the client's specification.
Refer to the information indicated in the price list for the structures available according to the model.

"Wood" structure

The "Wood" structure can be specified for the seat and backrest. It is comprised of molded plywood covered in polyurethane foam and a moisture-wicking fiber.

"Flex" structure

The "Flex" structure can be specified for the seat and backrest. It is comprised of a tubular steel or hardwood frame covered with an Ultra-Flex® membrane and polyurethane foam and a moisture-wicking fiber.

"Canvas" structure

The "Canvas" structure can be specified for the backrest. It is comprised of a tubular steel frame on which a nylon material is attached, covered in polyurethane foam and a moisture-wicking fiber.

"Mesh" structure

The "Mesh" Structure can be specified for the backrest. It is comprised of tubular steel or molded plastic frame on which a polyester mesh material is attached.

"Plastic" structure

The polypropylene plastic or nylon structure can be specified for the backrest according to the chair model. The plastic backrest has a choice of fabric upholstered polyurethane foam cushion or incorporated mesh knit (back).

Polyurethane foam

The polyurethane foam meets the ASTM standards for high resilience on the majority of the collections to ensure a longer lifecycle. On all task series, the foam of the seat is molded to respect the maximum ergonomic specifications.

Moisture-wicking fiber

The moisture-wicking fiber placed between the polyurethane foam and upholstery fabric eliminates moisture generated from prolonged contact of the user's body, the seat and backrest.

Ultra-Flex® membrane

The UltraFlex® membrane is exclusive to Artopex. This technology allows for the even weight distribution where it comes in contact with the chair, eliminates pressure points and centers the pelvis on the chair. The structure with the UltraFlex® membrane allows for better blood circulation, better work posture and a much higher level of comfort.

Illustrations of wood and Ultra-Flex® structures.

Ultra-Flex® seat and backrest (**FF**)

5 PRONG BASES

5-prong bases are available in two models in a black or chrome finish. The prices listed refer to a chair equipped with a 5-prong base in black nylon and an upcharge is applied if another base is chosen. Refer to the specific information for each chair model for a list of available options.

VN base
- Reinforced molded nylon tapered.
- Lightly textured black finish.
- 27" diameter.

ZN base
- Reinforced molded nylon/rounded design.
- Lightly textured black finish.
- 27" diameter.

ZC base
- Aluminum alloy rounded design.
- Polished finish.
- 27" diameter.

ZB base
- Aluminum alloy rounded design.
- Polished finish.
- Black nylon protective caps.
- 27" diameter.

VC base
- Aluminum alloy tapered.
- Polished finish.
- 27" diameter.

TN base, stool
- Reinforced molded nylon/ rounded design.
- Lightly textured black finish.
- 27" diameter and 10.625" cylinder.
- 360° footrest, 20" diameter, chrome finish and height-adjustable.

TC base, stool
- Aluminum alloy rounded design.
- Polished finish.
- 27" diameter and 10.625" cylinder.
- 360° footrest, 20" diameter, chrome finish and height-adjustable.

TB base, stool
- Aluminum alloy rounded design.
- Polished finish.
- Black nylon protective caps.
- 27" diameter and 10.625" cylinder.
- 360° footrest, 20" diameter, chrome finish and height-adjustable.

5 PRONG BASE FOOTINGS

Four choices of footings are available on 5-pronged bases and on certain 4-legged bases: casters (H or S), glides or a mix of both.

"H" caster
- Casters for carpeting
- Lightly textured black nylon
- 2" diameter with double drum.

* For VN and VC bases, the caster has a 2.375" diameter.

"S" caster
- Casters for hard surfaces.
- Lightly textured black nylon.
- 2" diameter with double drum.
- The center of the caster is nylon covered in ultra-soft urethane for a smoother rolling motion.

* For VN and VC bases, the caster has a 2.375" diameter

"G" glide
- Lightly textured black nylon.
- 2" high

* On VN and VC bases, the glide is 2.375" high.

"M" mixed

For 5-prong bases for stools (TN, TC and TB), a mixed option can be specified: 3 "H" casters and 2 "G" glides will be installed on the base.

VISITOR BASES

4 types de bases sont offerts pour les chaises visiteurs. The model varies according to the series.

Sled

4 legs

4 legs - pyramidal

4 legs - stool

PIÈTEMENTS POUR BASE VISITEURS

Footings varies according to the series.

H
Hard wheel casters for soft surfaces

S
Soft wheel casters for hard surfaces

G

Gas cylinder and screw column

The 10 and 20 mechanisms are equipped with a screw column (manual adjustment) with a travel of 5".
The 11, 13, 17, 21, 31, 41, 51, 61, 63 and 71 are equipped with a gas cylinder with a 5½" travel and a pressure of 300 Newton.
When the seat slide option is specified (S), the travel for the 41 and 71 mechanisms becomes 4", as with the 81 mechanism.

Back height adjustment option (option R)

This option allows a backrest adjustment of 3".
The option is available on certain mechanisms only, add "R" after the mechanism code (ex. mechanism #21 becomes #21R) and add $25.

Seat sliding option (option S)

This option allows a front-to-back sliding seat adjustment of 2½", to adjust the seat depth. The option is available on certain mechanisms only, add "S" after the mechanism code (ex. mechanism #21 becomes #21S) and add $60.
Not available on X-Large seat widths.

Combined options (option F)
Backrest height adjustment & sliding seat

The option is available on certain mechanisms only, add "F" after the mechanism code (ex. mechanism #21 becomes #21F) and add $85.
Not available on X-Large seat widths.

MECHANISMS SPECIFICATIONS (cont'd)

Mechanism 10
- 360° swivel on column axis.
- Adjustable height (screw).
- Compatible with option R, S and F.

Mechanism 11
- 360° swivel on column axis.
- Adjustable height (gas cylinder).
- Compatible with option R, S and F.

Mechanism 13 and 17
- 360° swivel on column axis.
- Adjustable height (gas cylinder).

Mechanism 20
- 360° swivel on column axis.
- Adjustable height (screw).
- Chair tilts towards back from 3° to 20° (center pivot).
- Tilt lock to one position, at 3°.
- Adjustable tilt tension.
- Compatible with option R, S and F.

Mechanism 21
- 360° swivel on column axis.
- Adjustable height (gas cylinder).
- Backward tilt from 3° to 20° (center pivot).
- Tilt lock to one position, at 3°.
- Adjustable tilt tension.
- Compatible with option R, S and F.

Mechanism 31
- 360° swivel on column axis.
- Adjustable height (gas cylinder).
- Backward tilt from 3° to 18° (center pivot).
- Adjustable tilt tension.
- Tilt lock to one position, at 3°.
- Adjustable angle on back from 86° to 121°.
- Compatible with option R, S and F.

Mechanism 41
- 360° swivel on column axis.
- Adjustable height (gas cylinder).
- Synchro tilt of seat from –1° to 10° (center pivot) and of back from 90° to 110°.
- Adjustable tilt tension.
- Tilt lock in 5 positions.
- Compatible with option R, S and F.

Mechanism 51
- 360° swivel on column axis.
- Adjustable height (gas cylinder).
- Backward tilt from 3° to 17° (center pivot).
- Adjustable tilt tension.
- Tilt lock in all positions.
- Adjustable backrest angle from 80° to 108°.
- Compatible with option R, S and F.

Mechanism 61S
- 360° swivel on column axis.
- Adjustable height (gas cylinder).
- Synchro tilt of seat from 1° to 4° (center pivot) and of backrest from 90° to 106°.
- Automatic tilt tension adjustment.
- Tilt lock in 5 positions.
- Adjustable seat depth of 2".
- Compatible with lumbar support option (L).

Mechanism 63S
- 360° swivel on column axis.
- Adjustable height (gas cylinder).
- Synchro tilt of seat from 2° to 7° (center pivot) and of backrest from 95° to 120°.
- Adjustable seat depth of 2".
- Adjustable tilt tension.
- Tilt lock in 8 positions.
- Compatible with lumbar support option (L).

Mechanism 71
- 360° swivel on column axis.
- Adjustable height (gas cylinder).
- 20° backward tilt starting from initial position adjustable between -4° to 5°.
- Adjustable tilt tension.
- Tilt lock in all positions.
- Adjustable backrest angle from 89° to 105°.
- Compatible with option R, S and F.

Mechanism 81
- 360° swivel on column axis.
- Adjustable height (gas cylinder).
- Synchro tilt of seat from –2° to 11° (front pivot) and of backrest from 85° to 105°.
- Adjustable tilt tension.
- Tilt lock in 5 positions.
- Compatible with option R.

FIXED ARMS

FT - Open curved fixed arms
- Reinforced steel frame covered in urethane.
- Medium firmness (3/5).
- 3" width adjustment on certain models.

FG - Open fixed arms
- Reinforced steel frame covered in urethane.
- Medium firmness (4/5).
- 3" width adjustment on certain models.

FD - Closed fixed arms
- Reinforced steel frame covered in urethane.
- Medium firmness (4/5).
- 3" width adjustment on certain models.

Minimax and Headliner's arm.

FX - Fixed generic arms
- Style varies according to model.
- Firmness varies according to model.
- Not adjustable.

FXT - Attached arms with writing tablet
- Style varies according to model.
- Firmness varies according to model.
- Not adjustable.

FZ - Attached arms
- Polished aluminum frame arm.
- Medium firmness (4/5).
- Armrest upholstered with the same fabric as the chair.
- Not adjustable.

ARMS SPECIFICATIONS (cont'd)

ADJUSTABLE ARMS

AS - Adjustable arms
- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a push button.

AD - Adjustable arms
- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a lever.

AZ - Adjustable arms with multi-axis and pivot armrests
- Black nylon arm, polished aluminum attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 2¾" using a push button.
- Pivot of -30° to +30°.
- Front/back adjustment of 2".

AW - Adjustable arms with pivot
- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a lever.
- Pivot of -30° to +30°.
- 3" width adjustment.

AW, AY, AZ - arm pivot adjustment

AG - Adjustable arms
- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a lever.
- 3" width adjustment.

AR - Adjustable arms
- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a lever.
- 3" width adjustment.

AX - Adjustable Arms with multi-axis armrests
- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Front-to-back armrest adjustment.
- 3" width adjustment.
- Height adjustment of 3" using a lever.

AY - Adjustable arms with multi-axis and pivot armrests
- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Lateral and front-to-back armrest adjustment.
- Height adjustment of 3" using a lever.
- Pivot of -30° to +30°.
- 3" width adjustment on certain models.

AX and AY - lateral adjustment

AX and AY - front-to-back adjustment

AA - Adjustable generic arms
- Black nylon arm, polished aluminum attachment with urethane armrest.
- Medium firmness (3/5).
- Armrest adjustment.
- 3" width adjustment using a lever.
- Other adjustments depending the model.

AN - Adjustable generic arms
- Black nylon arm, nylon attachment with urethane armrest.
- Medium firmness (3/5).
- Armrest adjustment.
- 3" width adjustment using a lever.
- Other adjustments depending the model.

AP - Adjustable arms
- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a lever.
- 3" width adjustment.

Price list

TASK

blitz

The Blitz series is available in two backrest heights (medium and high). The high back includes a headrest.

The backrest consists of a molded plastic structure with an integrated flexible "Spacer Mesh" and a polished aluminum accent incorporated into the mechanism. A height-adjustable lumbar support band can be added to the back. The seat is made of a molded wood structure which incorporates the sliding mechanism. The "waterfall" front of the seat is comprised of molded polyurethane high-density foam.

The seat is fitted with an adjustable mechanism that attaches to one of the 5-prong bases available by a gas cylinder.

confo

The Confo series is available in 2 backrest heights (medium and high).

The back is made of a tubular steel frame covered by a nylon membrane with a moisture-wicking fiber layer on the front. The seat is made of molded plywood, molded polyurethane foam and a layer of moisture-wicking fiber.

The seat is attached to a mechanism that is connected to a 5-prong base by a gas cylinder or screw mounted column, or it is installed on a sled base (offered in the medium back only).

dotcom

The Dotcom chair is available in four seat widths (narrow, standard, large and x-large) and four backrest heights (low, medium, director and high).

The "Wood" structure is composed of molded plywood, molded polyurethane foam and a layer of moisture-wicking fiber. The "Flex" structure is composed of a tubular steel frame covered with an Ultra-Flex® membrane, molded foam (seat) or foam slab (back) and a layer of moisture-wicking fiber. The "Flex" seat and backrest are upholstered with removable fabric slipcovers. The seat is attached to a mechanism and connected to a 5-prong base by a gas cylinder or screw mounted column. It is also available with a sled or 4-leg base.

headliner

The Headliner series is available in 2 backrest heights (medium and high). The high back includes a headrest.

The backrest consists of a molded plastic structure incorporating either "Urban Mesh", a plastic backrest or an upholstered cushion insert on the front, leaving the plastic frame of the backrest visible.

Height-adjustable lumbar support is available as an option on the mesh backrest. The seat is made of a molded plastic structure that integrates the seat sliding mechanism. The "waterfall" front of the seat is composed of molded polyurethane high-density foam.

The seat is attached to the seat sliding mechanism and connected to one of the available 5-prong base models by a gas cylinder.

loveflex

The LoveFlex series is available in three backrest heights (low, medium and high).

The "Wood" structure is composed of molded plywood, molded foam and a layer of moisture-wicking fiber. The "Flex" structure is composed of a tubular steel frame covered with an Ultra-Flex® membrane and molded foam (seat) or foam slab (backrest). The "Flex" seat and backrest are upholstered with removable fabric slipcovers. The seat is attached to a mechanism and connected to a 5-prong base by a gas cylinder or screw mounted column. It is also available with a sled or 4-leg base.

soft

The Soft series is available in 2 backrest heights (medium and high).

The backrest is composed of a tubular steel frame covered in nylon "Aero Mesh". The seat is made of molded plywood, molded polyurethane foam and a layer of moisture-wicking fiber.

The seat is attached to a mechanism that is connected to a 5-prong base by a gas cylinder or screw mounted column, or installed on a sled base (available for medium back only).

vortex mesh

NEW

price list – TASK

The Vortex mesh series is available in 2 seat widths (narrow, standard, large) and 3 backrest heights (low, medium, director and high).

The backrest consists of a molded plastic structure with an integrated flexible Mesh. The "Wood" structure of the Vortex consists of 3D molded plywood, molded polyurethane foam and a layer of moisture-wicking fiber. The "Flex" structure is composed of a tubular steel frame covered with an Ultra-Flex® membrane, molded polyurethane foam and a moisture-wicking fiber layer. The "Flex" seat is upholstered with removable fabric slipcovers. The front of the seat has a "waterfall" edge. The seat is attached to a mechanism and connected to a 5-prong base by a gas cylinder or screw mounted column. It is also available with a sled base.

wingo

The Wingo series chair is available in 2 seat widths (standard and large) and 2 backrest heights (medium and high).

The "Flex" seat is composed of a tubular steel frame covered with an Ultra-Flex® membrane, molded foam and a moisture-wicking fiber layer. The wood seat is molded plywood and molded polyurethane foam. The backrest consists of a tubular steel frame covered with an Ultra-Flex® membrane, molded foam and a layer of moisture-wicking fiber.

The "Flex" seat and backrest are upholstered in removable fabric slipcovers. The seat is attached to a mechanism connected to a 5-prong base by a gas cylinder or a screw mounted column. A sled or 4-legged base is also available.

NEW

price list – VISITOR

The Crema series chairs and stools are composed of a plywood mono-shell structure with a high-pressure laminate or natural maple finish. The seat has an optional upholstered cushion (fabric covered polyurethane foam), leaving visible part of the laminate or maple finish seat. The 4-leg base is made of tubular steel. The chairs are stackable.

IMPORTANT
A plastic fabric protector is optional.
The protector is mounted under the seat of the chair to protect the fabric when the chairs are stacked.
This option is required for chairs with a fabric seat (UW or US) that will be stacked for storage.

flashback

The chairs and stool of the Flashback series are composed of polypropylene plastic with optional seat and backrests upholstered with polyurethane foam and fabric. The structure consists of a 14 gauge – 1" tubular steel frame with an electrostatic powder coating finish.

The arms are composed of the same tubular steel, with a black plastic armrest that can be attached or removed using simple tools. The optional moveable writing tablet is always installed on the right arm.

The series offers many seating configurations – 4-leg stacking with or without casters, nesting with casters, 4-leg stool (glides only), on a 5-prong base in standard or stool version.

headliner lite

The chairs and stool of the Headliner Lite series are composed of polypropylene plastic with optional seat and backrests upholstered with polyurethane foam and fabric. The structure consists of a 14 gauge – 1" tubular steel frame with an electrostatic powder coating finish.

The arms are made of the same tubular steel with a black plastic armrest that can be attached or removed using simple tools. The optional moveable writing tablet is always installed on the right arm.

The series offers many seating configurations – 4-leg stacking with or without casters, nesting with casters, 4-leg stool (glides only), on a 5-prong base in standard or stool version.

minimax

The Minimax series are stacking chairs with a "handle grip" or standard back, with a sled base, with or without arms.

The back is composed of nylon on a tubular steel frame with a molded polyurethane foam slab. The seat is composed of plywood and a molded polyurethane foam slab.

The optional arms, also made of tubular steel, are equipped with a black polypropylene armrests.

The ganging bracket option (on models without arms) allows for the joining two or more Minimax chairs together.

Prices and Payment

All prices shown in this price list are suggested retail prices and are subject to change without notice. Prices do not include installation and shipping costs. Taxes are extra. These prices are guaranteed for 30 days from the date of quotation and are firm and final after acceptance of the order. Orders are invoiced at the time of shipment. Terms of payment are net 30 days from date of invoice. Any products sold by Artopex shall remain its property until fully paid in cash. In the event that the purchaser defaults in the payment of any sum due to Artopex, or in the event the purchaser's financial condition becomes unsatisfactory to Artopex, Artopex reserves the right upon notice to the purchaser, to defer or discontinue shipment of any goods or, to refuse any order until such time as the default is corrected or the purchaser provides assurance of payment to Artopex.

Orders

Artopex requires that all orders be submitted in writing to avoid errors and/or duplication. The purchaser is responsible to submit complete orders. Incomplete or incorrect orders (finish colors missing…) will be processed upon reception of the complete information and normal production lead-time will be applied from the date that the complete information is received.

Acknowledgments

Orders will be acknowledged with Artopex acknowledgement forms governing the transaction. The details appearing on this acknowledgment will describe the items to be shipped to the purchaser and the ready to ship date (not the actual shipping date). It is the purchaser's responsibility to verify that the acknowledgment information is correct.The purchaser must notify Artopex in writing of any errors within 48 hours. Corrections after 48 hours could be subject to extra charges (see Changes and Cancellation).

Changes and Cancellations

Order cancellations or changes are subject to acceptance by Artopex. Special order items and upholstered items (standard or COM fabrics) already in production are not subject to change or cancellation under any circumstances.
A) Changes : Standard product already in production will be subject to a 25% change surcharge. Changes to the shipping date must be anticipated.
B) Cancellations : Artopex reserves the right to invoice the purchaser for any items already in production at the cancellation date and for lost profit on the remaining items.

Storage

Artopex reserves the right to invoice the purchaser for storage charges in specific cases.

Shipping

A) Prices are F.O.B. factory, collect.
B) Artopex will choose the carrier unless otherwise specified by the purchaser. Goods will be handed over to the common carrier in good condition; Artopex liability ceases at this point. Deliveries will be done at the purchaser's unloading dock. The purchaser should have an unloading dock able to accommodate 53' trailers and must supply the unloading personnel.
C) Claims : Artopex is not responsible for damage that occurs in transit or in storage. It is the purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier. Failure to provide an adequate description of the lost items or damages to the carrier could result in the carrier's refusal to honor the charges. It is the purchaser's responsibility to obtain information on the carrier's claim policies and to send any claims to the carrier. For other policies, contact Customer Service.
D) It is the purchaser's responsibility to file any claims even if the order has been shipped directly to the client.

Return of Goods

A) No merchandise may be returned without Artopex written consent and shipping instructions. If this procedure is not followed, the merchandise will not be accepted by the factory and will be reshipped collect without further notice.
B) Goods must be returned properly packaged and all boxes must be clearly marked with the authorization number.
C) Return of items authorized by Artopex are subject to a charge of 25% plus freight (and customs, if applicable) and repair costs (if required).

Product Specifications

Artopex reserves the right to modify the specifications of products, materials, design or accessories without notice.
Artopex also reserves the right to cease production of any product at any time. The products, accessories, materials and finishes as described in the price list prevail over the content of brochures or folders. The weights and volumes shown on the price lists include packaging and are approximations.

Artopex Warranty

Artopex warrants its products against material and manufacturing defects for a period of 5 years.

If written notice of the defect is given to Artopex within the applicable warranty period, Artopex will repair or replace with comparable product, at Artopex's choice, without charge to the original purchaser, any part or product shipped after July 1, 2001, which fails under normal use as a result of such defect.

Non-standard products have a warranty of 1 year from the date of delivery.

On products warranted for a specified number of years of single shift usage, the warranty period will be reduced in a pro-rata manner when the products are used in a manner that exceeds the equivalent of a single shift forty (40) hour work week. Products used 24/7 or in high traffic public spaces such as airports and hospitals are covered by the warranty for 1 year from the delivery date.

This warranty is the Customer's sole remedy for product defect. This warranty does not cover damage by a carrier in transit. Artopex makes no warranties, including the implied warranties of market value or utility for a particular purpose, other than the express warranties contained herein. There are no other warranties express or implied. Artopex shall not be liable for consequential or incidental damages arising from any product defect.

This warranty does not extend to :

• Customer's Own Material (COM) or special finishes applied to Artopex products.
• Products which have been modified or have not been installed or used according to Artopex application and installation guidelines.
