POWER-STRIP is a professional floor stripper. It is designed for stripping tough acrylic and cross-linked polymer floor finishes that are normally hard to remove from tile and concrete floors. POWER STRIP is a concentrated product to save time in stripping operations.

This product should only be used by trained personnel for stripping finished floors.

CAUTION: WET FLOORS CAN BE SLIPPERY. USE CARE TO PREVENT INJURY.

Use chemical goggles, gloves and aprons to prevent contact with eyes, hands and skin.

All responsibility for the proper use, storage, and handling of this product is the responsibility of the buyer. Casco Products Company, Inc. makes no other claims or warrantees, expressed or implied.

DIRECTIONS FOR USE:

FLOOR STRIPPING:

Add 1 gallon of **POWER-STRIP** to 4-5 gallons of water. Hot water activates this product for stripping better than cold water. Apply diluted product to floor for stripping. The product may be applied by mopping, spraying or hand cloth wiping. Take care to prevent stripping solution from contacting walls and molding.

Agitate with a scrubber or buffing machine using the appropriate floor pads. Prevent stripping solution from drying on floors. Wash or replace stripping pads, as solids build up in pad. Vacuum with wet/dry vacuum or mop up solution after floor is stripped. Mop floor until rinse water is clear. For best results, use 2 cups of vinegar in mop bucket for final rinse water. This will neutralize the stripping solution. Allow floor to completely dry before applying finish.

Power Strip Floor Stripper

PWR.STRP
Product Code

Danger
Causes severe skin burns and eye damage

Precautions:
P264: Wash {hands} thoroughly after handling.
P280: Wear {protective gloves/protective clothing/eye protection/face protection}.
