MVMT™ Seating

Specification and Price Guide

Pricing shown effective through **December 31, 2018**

Addressing Individual Needs with Innovation and Intuition

MVMT ergonomic seating is changing the dynamic of the seated worker experience in today's workplace, combining a forward-looking European perspective with the BioFit tradition of technological precision and proven durability. The line is offered in two series—Pro and Tech. Modular componentry permits numerous configuration alternatives tailored to suit specific tasks, body types, interior design trends and budgetary considerations in the following work spaces and beyond:

Clean Room / Static Control / Laboratory / Healthcare / Industrial / Standing Workstation Applications

Designed for Critical Performance

MVMT models are available to accommodate workspaces from ISO Class 3 clean room to harsh environments. All models are designed to withstand 3-shift use, 365 days per year and carry a 13-year warranty. Refer to the chart below to determine if there is a MVMT performance package to meet the exacting specifications of your facility.

Manufacturing Code	Work Area Classification	List Price Upcharge
06	For non-critical applications (areas without clean room ratings, electrostatic dissipative needs or specialized material requirements); features powder-coated metal parts	**

MVMT Pro Series Specifications

The MVMT Pro Series is available in six primary models, with options available to custom- configure each to meet unique requirements. All Pro Series models are available with the standard and optional components below. Refer to the chart on the next page for options pricing.

Additional options for all MVMT seating includes:

- **C133**: Special upholstery, foam, and/or barriers (as needed) to meet California Technical Bulletin 133 and Boston Fire Code.
- **SW**: Skid wrapping for shipment; extra charges apply.
- A choice of upholstery is available from BioFit's full selection. All MVMT models come standard with **Grade 2** cloth or vinyl, with other grades available. Refer to the chart on the next page for upgrade pricing.

Adjustable urethane armrest pads on solid polished cast aluminum uprights adjust 3.5″ vertically, 2″ front to back, 1″ left to right on each armrest – for 2 full inches of width adjustment – and lock into place once adjusted (manufacturing code **3D**); optionally available without arms (manufacturing code **XA**/$88 off list price)

Upholstered ergonomic seat, 20.5″ wide with adjustable seat depth from 16.4″ - 18.9″

Weight-activated Pro control with 5:1 synchro tilt, forward seat tilt, backrest forward adjustment, micro tension adjustment, control lockout (manufacturing code **PM**)

2″ high dual wheel polyurethane casters resist movement when seat is unoccupied (manufacturing code **RC**); optionally available with 2″ high dual wheel polyurethane casters for ESD applications (manufacturing code **RK**), or 2.25″ glides made of first class polyamide (manufacturing code **HG**/ no additional charge)

MVMT Pro Series, high bench height configuration with tall backrest, polished base and footring, vinyl upholstery

MVMT Pro with Tall Backrest

These three models feature an upholstered 17.5″wide x 19.5″ high backrest with lumbar support and 3” height adjustment range.

MVMT Pro with Medium Backrest

These three models feature an upholstered 17.5″wide x 15″ high backrest with lumbar support and 3” height adjustment range.

High profile, glass-reinforced composite base with 25.4″ leg spread is standard (manufacturing code **GR**), optional large, high profile, 5 leg solid cast aluminum base with polished top and 28.7″ leg spread (manufacturing code **P28**/add $63 to list price) or high profile, 5 leg solid cast aluminum base with polished top and 25.6″ leg spread (manufacturing code **P25**/add $54 to list price) are also available.
These models are not available with a footring

MP-TL

Low seat height range - 17″ to 21″
List Price: $1,172

MP-ML

Low seat height range - 17″ to 21″
List Price: $1,113

Large high profile, 5 leg solid cast aluminum base with polished top and 28.7″ leg spread (manufacturing code **P28**) 22″ diameter adjustable oval tube footring on solid polished cast aluminum spoke (manufacturing code **AFP**), also available without a footring (manufacturing code **XF**)

MP-TM

Medium seat height range - 20″ to 27″
List Price: $1,354

MP-MM

Medium seat height range - 20″ to 27″
List Price: $1,295

MP-TH

High seat height range - 24″ to 33.5″
List Price: $1,359

MP-MH

High seat height range - 24″ to 33.5″
List Price: $1,300

Components/Options	+/- Price

MVMT Tech Series Specifications

The MVMT Tech Series is divided into two categories – MVMT Tech Series with Classic 5-Star Base and MVMT Tech Series with Heavy Duty Base. There are six primary models in each category with options available to custom-configure each to meet unique requirements. All Tech Series models are available with the standard and optional components below. Refer to the chart on the next page for Tech Series with Classic 5-Star Base options pricing.

Additional options for all MVMT seating includes:

- **C133**: Special upholstery, foam, and/or barriers (as needed) to meet California Technical Bulletin 133 and Boston Fire Code.
- **SW**: Skid wrapping for shipment; extra charges apply.
- A choice of upholstery is available from BioFit's full selection. All MVMT models come standard with **Grade 2** cloth or vinyl, with other grades available. Refer to the chart on the next page for upgrade pricing.

Standard upholstered ergonomic seat, 20.5″ wide, mounted forward for 18″ seat depth (manufacturing code **1F**); or, an optional upholstered ergonomic seat, 20.5″ wide, mounted rearward for 16.4″ seat depth (manufacturing code **1B**)

Tech Series chairs come standard without arms (manufacturing code **XA**); optional adjustable urethane armrest pads on solid polished cast aluminum uprights adjust 3.5″ vertically, 2″ front to back, 1″ left to right on each armrest – for 2 full inches of width adjustment – and lock into place once adjusted (manufacturing code **3D**/add $88 to list price)

Standard task control which regulates seat height and backrest angle while keeping the seat fixed at a 3.5° rearward angle (manufacturing code **E1**); or, an optional control which regulates seat tilt, backrest tilt, and seat height from a seated position (manufacturing code **E2**) ; or, an optional synchro-tilt control which regulates seat height, seat depth and tilt tension, and includes control lock out for precision work (manufacturing code **E3**)

2″ high dual wheel polyurethane casters resist movement when seat is unoccupied (manufacturing code **RC**); optionally available with 2″ high dual wheel polyurethane casters for ESD applications (manufacturing code **RK**), or 2.25″ glides made of first class polyamide (manufacturing code **HG**/ no additional charge)

(L) MVMT Tech Series with Classic 5-Star Base, medium height configuration with tall backrest, polished footring, vinyl upholstery
(R) MVMT Tech Series with Classic 5-Star Base, high profile glass reinforced base, low height configuration with medium backrest, vinyl upholstery

MVMT Tech Series with Classic 5-Star Base with Tall Backrest

These three models feature an upholstered 17.5″wide x 19.5″ high backrest with lumbar support and 3″ height adjustment range.

MVMT Tech Series with Classic 5-Star Base with Medium Backrest

These three models feature an upholstered 17.5″wide x 15″ high backrest with lumbar support and 3″ height adjustment range.

High profile, glass-reinforced composite base with 25.4″ leg spread is standard (manufacturing code **GR**), optional large, high profile, 5 leg solid cast aluminum base with polished top and 28.7″ leg spread (manufacturing code **P28**/add $63 to list price) or high profile, 5 leg solid cast aluminum base with polished top and 25.6″ leg spread (manufacturing code **P25**/add $54 to list price) are also available.
These models are not available with a footring

MTCL-TL

Low seat height range E1 & E2 controls – 17″ to 22″
Low seat height range E3 control – 17.5″ to 22.5″
List Price: $823

MTCL-ML

Low seat height range E1 & E2 controls – 17″ to 22″
Low seat height range E3 control – 17.5″ to 22.5″
List Price: $764

Large high profile, 5 leg solid cast aluminum base with polished top and 28.7″ leg spread (manufacturing code **P28**)

High seat height range - 24.5″ to 31.5″

List Price: $854

MTHD-MH

High seat height range - 24.5″ to 31.5″

List Price: $795

Unique Motion Simplified.

MVMT delivers an intuitive user experience featuring what may be the first self-regulating weight activation control in a specialized chair. This means it not only adjusts to the primary user's movements, but also automatically fine-tunes itself to others of various sizes and weights, sensing their individual support needs from the moment they sit down.

Smart Thinking.

With the MVMT QR Code system, information specific to your individual chair is available on your smartphone. You can access categories including operation and assembly videos, reordering information, warranty claims and more. Scan the code below for a demonstration.

MVMT Pro Series, high bench height configuration with tall backrest, polished base and footring, vinyl upholstery

Dedicated to Design. Committed to Quality.

At BioFit, that's more than a tagline – it's our focus every day as we constantly strive to improve the workplace experience through ergonomic performance, style and reliability. We've been an innovator for the past 70 years, introducing solutions for industrial and laboratory settings, and subsequently supplying the education, office, defense, automotive and textile markets. With a global network of over 1,200 independent distributors, we continue to proudly serve these industries today, as well as leaders in the healthcare and technology fields.
