TIRE SHINE

Tire and Rubber Dressing

Great on Rubber or Plastic

Repels Dust & Dirt

Dries Quickly

No Streaks

DESCRIPTION:
Protects against sun rays which dry out, crack, dull, harden and fade materials like vinyl, leather, rubber, sealed wood, and plastic. It also makes surface antistatic to repel dust and dirt.

DIRECTIONS:
For use on tires; Apply with even spray to entire clean tire. First coat will give new tire look, second coat will give bright shiny look. If allowed to dry for 15 to 20 minutes no slinging will accrue.
Easy to use. Apply with cloth, sponge or spray directly on clean dry surface. For best results preclean surface thoroughly.
Ideal for use on: RUBBER: tires; bumpers; seals; molding; mats; etc..
DO NOT refill this container.
DO NOT cut container with torch as explosion may result.

AVAILABLE SIZES:
Quarts
One Gallon
Five Gallon Pail
Fifty-Five Gallon drum
