LIQUI-ZYME

Plus FRESH CITRUS FRAGRANCE

ENZYME PRODUCING-NON-PATHOGENIC AEROBIC & ANAEROBIC BACTERIA

Eliminates Odors. Non-Toxic
Contains No Acid. Liquefies Grease
Eliminates Uric Acid Odors
Contains Seven Strains of Bacteria

Authorized for use in establishments operating under the Federal Meat and Poultry product Inspections Program of the USDA.

READ LABEL INSTRUCTIONS BEFORE USING THIS PRODUCT

NET CONTENTS: 35 GALLONS

This product contains 7 strains of non-pathogenic bacteria that produce enzymes necessary for degradation of soils, organic oils, and food by-products from grease traps, septic tanks, down-pipes, drain lines, portable toilets, recreational vehicles, ump pumps, marinas, wet wells. Reduces odors and suspended solids. Contains no acid or caustics and is non-polluting. This product can also be used after treatment with sulfuric acid drain openers to prevent future clogging and residual hydrogen sulfide odors

DIRECTIONS FOR USE:

Apply when flow is lowest. Treat lower levels first to prevent blockage by materials released from higher levels.

Grease Traps: For small grease traps less than 20 cubic feet, pour 4 -5 ounces daily into sink or pipeline. For large grease traps, use 8 – 10 ounces daily.

Septic Tanks: For initial treatment use 16 oz. per 25 cubic feet capacity. For weekly maintenance pour 8 oz. directly into toilet and flush. If septic tank is clogged, add 1 gallon of product to the tank through the manhole.

Toilets, Urinals, Drinking Fountains: Add 4-6 oz. daily, applying product under toilet or urinal rim. Allow product to run down into drain. Do not apply to drinking fountain spout.

Boats and Recreational Vehicles: Add 4 ounces per gallon of water in hold tank. Then use 2 ounces per gallon per week for maintenance. For dump stations, use 2 ounces per 50 gallons of tank capacity. Then use 1 pint per week for maintenance.

Porta-toilets and Outhouses: Add 1 gallon and cover solids with water to aid digestion. Repeat treatment each time toilet is pumped.

Drain Lines, Down Pipes: Pour Aqua-Zyme directly in the drain line opening. Use product 2 to 4 times weekly. Add product according to chart below. Start on the lowest floor and work one floor every day. Do not treat same floor twice. Once top floor is reached, continue treating only the top floor.

Drain Line	Dosage	Frequency
2″	4 oz.	Twice weekly
4″	8 oz.	Twice weekly
6″	12 oz.	Twice weekly
8″	16 oz..	Twice weekly

Municipal Sewage Treatment Systems and Sludge Lagoon: Use 5- 6 gallons per million gallons of daily flow. For preventative maintenance, use 2 gallons per million gallons of daily flow weekly for proper operation

General Odor Control: To eliminate odors caused by vomit, urine, spoiled food, animal waste in places such as garbage cans, locker rooms, carpet, etc., spray directly on the malodor. This will let the bacteria ingest the material while the pleasant fragrance immediately neutralizes the odor

*NON-POLLUTING

* Meets all O.S.H.A. standards

DIRECTIONS FOR USE

Do not use with acid or alkaline materials or bleach. Do not store above 110°F or in direct sunlight. Keep from freezing.

Precautions for Safe Handling: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor.

Fire Fighting Instructions: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment. Suitable Extinguishing Media: Foam, dry powder, carbon dioxide, water spray, sand.

FIRST AID

Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible.)

After Inhalation: Allow victim to breathe fresh air. Allow victim to rest.

After Skin Contact: Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse.

After Eye Contact: Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persist.

After Ingestion: Rinse mouth. DO NOT induce vomiting. Obtain emergency medical attention.

For Emergencies, Call INFOTRAC 1-800-535-5035
