TAKE OFF ADJUSTABLE TABLES: 2 SERIES

The Take Off adjustable tables work in open floor plans, in collaborative settings as well as in private offices. They adapt to all tasks in any environment and their sleek and contemporary lines combine flawlessly with all Artopex products.

This price list groups the electric height-adjustable tables of the Take Off Collection as well as the associated accessories.

The Lima and Mike Series

These two series are characterized by either T.F.L. or H.P.L. surfaces with straight edge banding. Available in 2 thicknesses : 1" and 1½".

L	M
Lima	Mike
1"	1½"

GENERAL CHARACTERISTICS

MATERIALS

Work surfaces are made of 1" (25 mm) thick pressed wood for the Lima series; 1½" (38 mm) thick for the Mike series. Surfaces can be ordered in either thermally fused or high pressure laminate. Add 1/16" (1.6 mm) to the thickness of high pressure laminate surfaces. There is a PVC 3/32" (2.5 mm) thick edge banding on the work surface with a choice of matching or contrasting colors, striped or fluted.

LAMINATE FINISHES

The available finishes are divided into 2 categories :
- The "**Surface**" finish (applied on the surfaces of tables).
- The "**Edge banding**" finish (surface contour).

Refer to the product descriptions and finish chart for more information, see p.11.

WOOD GRAIN DIRECTION

Surfaces

The wood grain generally runs parallel to the longest side of the surface while tables with symmetrical surfaces have the wood grain positionned at 45°.

ASSEMBLY AND HARDWARE

The adjustable tables are delivered knockdown with the base components packaged in multiple boxes with the necessary hardware included.
Pre-drilled holes are provided to facilitate the positionning of the base during installation.

USER GUIDE

For technical information or instructions on how to use the adjustable table, refer to the "Installation Guide" section on Artopex web site.

BASE CHOICES

Take Off height-adjustable table have a metal base with a Silver finish. Its contemporary design fits with the styles of the various Artopex collections.

Base with C or T legs

C or T Bases
The base of the height-adjustable tables is composed of 2 legs offered in two models : C legs (column is set back on the foot) or T legs (column is centered on the foot). A rectangular column of 2½" L. x 4" D. is fixed to a 3¼" L. x 2" H. foot with levelers.

The legs are connected by two 2⅛" H. metal structural beams, Silver finish. The structural beams ensure the stability of the table with openings for the routing of cables.

Casters
A set of 4 casters 2" H. in black plastic (2 with brakes) is available (ordered separately).
The casters will replaced the levelers, to be installed on site.

Casters add 2" to the table height

ELECTRIC HEIGHT-ADJUSTMENT

- **Electrical activation system**
  108" long power cord with a conventional wall connection.
  Compliant to ANSI/Bifma, CSA.

- **Intuitive control pad (**"Up & Down")
  The control pad installs on the front of the surface, at left or right.

Intuitive control pad

- **Height adjustment range** (1" Lima surface) : 27" to 46" H.
- **Operating speed**: 1½" per second.
- **Sound level** : 55 dB.
- **Weight capacity** : 250 lbs (including the surface weight).
  The table will not be functional beyond this capacity.

- **Automatic blocking movement / collision detector**
  - Rising movement : *yes*
    The table will stop rising if it encounters a fixed element (ex : hutch).
    However, a 3" minimum space between the underside of the hutch and the surface of the height-adjustable table at its maximum height is recommended.

  - Downward movement : *no*
    The table will continue its course going down and there will be a collision with the fixed element (ex : pedestal).

SURFACE SHAPES AND DIMENSIONS

The adjustable tables are available in various shapes and dimensions :

Length and depth
The dimensions for the adjustable tables indicated in the price list are exact.

The adjustable tables have :
1" less in depth and 2" less in length than Take Off freestanding tables.

A 1" clearance is created when the table is surrounded by walls, divider screens or panel system in order to prevent finger pinching when mechanism is functioning.

IMPORTANT ! For security reasons :
Ensure a minimum clearance of 1" on all sides of the table when placed with freestanding furniture.

Interior clearance - HORIZONTAL

Rectangular tables
Dual depth tables

HORIZONTAL CLEARANCE
table length - 10"

Arched tables

HORIZONTAL CLEARANCE
table length - 23"

90° Corner tables

HORIZONTAL CLEARANCE
24" for 40" corner
30" for 46" corner

Table LENGTH = length indicated in price list.

Interior clearance - VERTICAL

The VERTICAL clearance indicates the **free space under the structural beams of the height-adjustable table** when table is positionned at its minimum height (27" H.).

The installation of a cable support removes 2½" of vertical clearance.
See note below.

To ensure that the adjustable table is compatible with a mobile pedestal, a credenza or any other storage unit, refer to product heights as indicated in the price list.

CABLE SUPPORT (AC-WCMJ_)
The installation of a cable support on the structural beams (see p.6) reduces the VERTICAL clearance under the adjustable table to **21¼" H**. when table is positionned at its minimum height (27" H.).

GROMMETS and MULTI-OUTLET MODULE (optional)

Rectangular grommets

RECTANGULAR GROMMETS

Factory-installed rectangular grommets are included on tables. To specify product with no grommet, use the "NG" option (no upcharge).

The grommet with the Artopex logo has a cover with two openings :
- The first opening is for large cables (screen, computer, lamp, etc.).
- The second opening is for small wires (cell, USB plug, etc.).
- Dimensions of opening when the cover is removed : 1 ⅝" x 3 ⅜".

The grommet is available in two plastic finishes : White (**G1**) and Charcoal (**G2**).
The finish must be specified in the product specification.

Position of grommets

Multi-outlet module

MULTI-OUTLET MODULE UC

A recessed multi-outlet module can be ordered on the adjustable table surfaces. The surface has a pre-drilled hole but the module must be installed on site. Under the "Options" section (M-Outlet), add product code and location of the module.

The black plastic multi-outlet module has :
- 2 electrical outlets with ground and 13 AMP circuit-breaker.
- 2 openings for telecommunications adapter.
- The retractable lid can be closed when not in use.

Multi-outlet module UC
1-circuit with conventional wall connection

Connection type
The multi-outlet module is available with a conventional wall connection UL and CSA compliant. Power cord 108" long.

Position of multi-outlet module

MULTI-OUTLET MODULE UC
The specification of a multi-outlet module automatically replaces the existing grommet. The module will be visible under the table (1¾" H. with 1" Lima surface).

It can be concealed by adding a Take Off modesty panel (sold separately).

CABLE MANAGEMENT (sold separately)

Components allow for the routing of cables under the surface of the Take Off adjustable table.

Extendable wire manager
- Installs under a surface with screws.
- 3½" diameter spiral extends up to 84" H.
- The floor base has a 6" diameter.
- Allows routing of wiring from surface to floor.
- Plastic, Black finish.

Cable support
- Hooks onto the structural beams of the height-adjustable table (no hardware required).
- Support is 3" H. x 5" D. and openings at each end allow routing of wiring to the floor.
- To specify cabling support length, refer to product description in the price list.
- Provides cable management under the work surface.
- Metal, Silver finish.

Cable support
The cable support hooks onto the structural beams and it can be detached on one side to access cabling.

CABLE MANAGEMENT (cont'd)

For detailed characteristics of the components, refer to p.17.

Configuration examples with electrical connection and cable management

CONSOLIDATION TOWER
The consolidation tower centralizes communication and electrical connections.

AIR LINE - ELECTRICAL UNIT
The electrical unit allows cable management and can accomodate 4-circuits or 1-circuit system components.

TAKE OFF - CREDENZA
Take Off credenzas and some storage units have a top and side grommet option.

The routing of the power cord is at the base of the consolidation tower.

The routing of the power cord is under the electrical unit.

ACCESSORIES

Accessory bar on posts

- Stronger than the Take Off single or double (VAPB_) accessory bars, this bar is designed for the installation of a flat screen arm-support and/or Artopex accessories. One functional side.
- Metal accessory bar 12" H. x 1" thick with :
  1 hanging section 4" H. (single) or 8" H. (double).
- Installs with screw clamps to a 1", 1 ½" or 2" thick work surface.
- Accessory bar and posts are Silver finish with Black plastic finishing caps.
- Assembly screws are visible at the back of the accessory bar.

The bar length is intended to allow for a 2" clearance on each side.
For the MAXIMUM length of accessory bar with posts that can be installed on a Take Off adjustable table, refer to information in the price list.

SINGLE ACCESSORY BARS

2 supporting posts : 29½" to 53½" L.
1 flat screen arm-support
can be attached.

3 supporting posts : 59½" L. and more.
2 flat screen arm-supports
can be attached.

DOUBLE ACCESSORY BARS

2 supporting posts : 29½" to 53½" L.
1 flat screen arm-support
can be attached.

3 supporting posts : 59½" L. and more.
2 flat screen arm-supports
can be attached.

MODESTY PANEL
The table with an accessory bar on posts can have **a recessed modesty panel** only in order for the screw clamps to function.

8" H. Frosted screens

Rectangular frosted (on one side) acrylic screen of **the same length** installs on the top of an accessory bar with posts (single or double) and attaches to the back.

Single accessory bar on posts with frosted screen

ACCESSORIES (cont'd)

TAKE OFF PRIVACY PANELS, MODESTY PANELS AND ACCESSORY BARS

Single or double-height privacy panels and modesty panels (laminate, frosted) as well as accessory bars from the Take Off freestanding collection can be installed on the height-adjustable tables.

Rectangular tables

Dual depth tables

90° Corner tables

Arched tables

The maximum length for a Take Off privacy or modesty panel or for an accessory bar on an height-adjustable table must be calculated as follows :

Surface length - 4" = MAXIMUM length

Example :
*Height-adjustable table **TL-TESUDi**2370 + privacy panel **TS-PPOV**1566 :*
Table 70" L. - 4" = privacy panel 66" L.

The maximum length for a Take Off privacy or modesty panel or for an accessory bar on an height-adjustable table must be calculated as follows :

Surface length - 17" = MAXIMUM length

Example :
*Height-adjustable table **TL-TESUDA**2971 + modesty panel **TS-PPUN**1354 :*
Table 71" L. - 17" = modesty panel 54" L.

ACCESSORIES (cont'd)

Spacing brakets
The spacing brackets allow the installation of ergonomic accessories (keyboard tray, CPU support) under the surface of an height-adjustable table, or under any other surface equipped with structural beams. The brackets lower the installation plate of the accessory by 2¼". Brackets are made of metal with a Black finish.

The spacing brackets install onto the keyboard tray or CPU support with bolts (included) then to the surface with screws.

SPECIFICATION EXAMPLE

This is an example of a code applied to a Take Off height-adjutable table.

RECTANGULAR TABLES - ELECTRIC HEIGHT-ADJUSTABLE

Rectangular table with electric height adjustment. Adjustment range : 27" to 46" H. (1" Lima top).
Choice of base with T or C shaped legs with levelers, Silver finish. Assembly required.
Casters can be added, ordered separately, see p.17.
The control pad installs on the front, at left or right.
Tables 40" and less in length have 1 central grommet included.
Standard multi-outlet module option available.
To add a Take Off privacy screen, modesty panel or accessory bar, refer to p.9 for more information.

TAKE OFF PRIVACY PANELS, MODESTY PANELS AND ACCESSORY BARS

The privacy screens, modesty panels and accessory bars from the Take Off freestanding collection can be added to the height-adjustable tables with some restrictions.
Refer to p.9 for more information.

ACCESSORY BARS ON POSTS

Single or double accessory bar on supporting posts. The bar has one functional side. The set is Silver finish, with Black covers on the posts.
Designed for use with a flat screen arm-support, see p.8. Can also hold Artopex accessories. See the "Accessories" price list.
Accessory bars 59½" and up have an additional central post. Some screws are noticeable at the back of the bars.
Installs with screw clamps to a 1", 1 ½" or 2" thick work surface. Bar length allows for a 2" clearance at each end.
The table that the accessory bar is attached to can have a **recessed** modesty panel under the surface in order for the screw clamps to function.
The chart below indicates the **maximum length** of the accessory bar that can be installed on a height-adjustable table.

Prices and Payment

All prices shown in this price list are suggested retail prices and are subject to change without notice. Prices do not include installation and shipping costs. Taxes are extra. These prices are guaranteed for 30 days from the date of quotation and are firm and final after acceptance of the order. Orders are invoiced at the time of shipment. Terms of payment are net 30 days from date of invoice. Any products sold by Artopex shall remain its property until fully paid in cash. In the event that the purchaser defaults in the payment of any sum due to Artopex, or in the event the purchaser's financial condition becomes unsatisfactory to Artopex, Artopex reserves the right upon notice to the purchaser, to differ or discontinue shipment of any goods or, to refuse any order until time as the default is corrected or the purchaser provides assurance of payment to Artopex.

Orders

Artopex requires that all orders be submitted in writing to avoid errors and/or duplication. The purchaser is responsible to submit complete orders. Incomplete or incorrect orders (finish colors missing…) will be processed upon reception of the complete information and normal production lead-time will be applied from the date that the complete information is received.

Acknowledgments

Orders will be acknowledged with Artopex acknowledgement forms governing the transaction. The details appearing on this acknowledgment will describe the items to be shipped to the purchaser and the ready to ship date (not the actual shipping date). It is the purchaser's responsibility to verify that the acknowledgment information is correct. If not, the purchaser must notify Artopex within 48 hours in writing. Failure to provide corrections within 48 hours could be subject to extra charges (see Changes and Cancellation).

Changes and Cancellations

Order cancellations or changes are subject to acceptance by Artopex. Special order items and fabric-covered items (standard or COM fabrics) already in production are not subject to change or cancellation under any circumstances.
A) Modifications: Standard product already in production will be subject to a 25% modification surcharge. Changes to the shipping date must be taken into consideration.
B) Cancellations: Artopex reserves the right to invoice the purchaser for any items already in production at the cancellation date and for lost profit on the remaining items.

Storage

Artopex reserves the right to invoice the purchaser for storage charges in specific cases.

Shipping

A) Prices are F.O.B. factory, collect.
B) Artopex will choose the carrier unless otherwise specified by the purchaser. Goods will be handed over to the common carrier in good condition; Artopex liability ceases at this point. Shipping will be done at the purchaser's unloading dock. The purchaser should have an unloading dock able to accommodate 53' trailers and must supply the unloading personnel.
C) Claims: Artopex is not responsible for damage that occurs in transit or in storage. It is the purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier. Failure to provide an adequate description of the lost items or damages to the carrier could result in the carrier refusal to honor the charges. It is the purchaser's responsibility to obtain information on the carrier's claim policies and to send any claims to the carrier. For other policies, contact Customer Service.
D) It is the purchaser's responsibility to file any claims even if the order has been shipped directly to the client.

Return of Goods

A) No merchandise may be returned without Artopex written consent and shipping instructions. If this procedure is not followed, the merchandise will not be accepted by the factory and will be reshipped collect without further notice.
B) Goods must be returned properly packaged and all boxes must be clearly marked with the authorization number.
C) Returns of items authorized by Artopex are subject to a charge of 25% plus freight (and customs, if applicable) and repair costs.

Product Specifications

Artopex reserves the right to modify the specifications of products, materials, design or accessories without notice.
Artopex also reserves the right to cease production of any product at any time. The products, accessories, materials and finishes as described in the price list prevail over the content of brochures or folders. The weights and volumes shown on the price lists include packaging and are approximations.

Noki Lock

Mechanism and parts under warranty for 5 years, and 1 year warranty on labor.

Artopex Lifetime Warranty

Artopex warrants its products are free of defects in design, material and workmanship for as long as the original purchaser owns them.

If written notice of the defect is given to Artopex within the applicable warranty period, Artopex will repair or replace with comparable product, at Artopex's choice, without charge to the original purchaser, any part or product shipped after July 1, 2001, which fails under normal use as a result of such defect.

This warranty provides limits on the following products :

- electrical components and the adjustable table bases, which are warranted for (10) ten years from date of delivery,
- seating mechanisms, which are warranted for (5) five years of single shift usage from date of delivery,
- Artopex fabrics which are warranted for (5) five years from date of delivery,
- moving and high wear parts such as covering materials/finishes, arm rests, chair bases, foam, wood framed seating products, stacking chairs, glides, slides, casters, which are warranted for (5) five years of single shift usage from date of delivery,
- the electronic components of the adjustable table such as the control pad, electrical activation system and motors are warranted for (2) two years from the date of delivery,
- non-standard specials, which are warranted for (1) one year from date of delivery.

This warranty does not extend to :

- Customer's Own Material (COM) or finishes applied to Artopex products,
- ballast and light bulbs,
- products that have been modified or have not been installed or used according to Artopex application and installation guidelines.

On products warranted for a specified number of years of single shift usage, the warranty period will be reduced in a pro-rata manner when the products are used in a manner that exceeds the equivalent of a single shift forty (40) hour work week.

This warranty is the Customer's sole remedy for product defect. This warranty does not cover damage by a carrier in transit. Artopex makes no warranties, including the implied warranties of market value or utility for a particular purpose, other than the express warranties contained herein. There are no other warranties expressed or implied. Artopex shall not be liable for consequential or incidental damages arising from any product defect.

Designing, manufacturing, advising, planning and supporting: that's the art that distinguishes our purpose at Artopex.
