An enzymatic cleaner specially engineered with non-pathogenic bacteria to break down all types of organic soils and grease buildup from drain lines.

• This unique formula digests and removes the source of organic waste, converting it to CO2 and H2O!

• Not a temporary solution, like some other drain cleaning products that only partially open drain/line plugs.

• Contains non-pathogenic bacteria that grow, multiply and act as enzyme generators to keep your drains and grease traps running freely.

• For use virtually anywhere to digest organic waste build-up, and eliminate the source of malodor: For drain traps, sumps, dumpsters, septic lines/tanks, floor crevices with build-up, etc.

Digestant Deodorizer

Product Order # 59

SIZE	DESCRIPTION
12 - 32 oz/945 ml	Ready-to-use liquid

Formula Features:

- Natural Solution
- Non-Pathogenic
- Eliminates Odors at the Source
- Forms a Digesting Film to keep drain lines and traps running free

Applications:

- Dispense product into drains and grease traps to reduce odors and organic waste buildup.
- Recommended for the removal of organic malodors.
