SPECIFICATION SHEET

INNO755™ & INNO750™

STRUCTURAL FIREFIGHTING GLOVE

OUTER SHELL

- Lightweight yet tough Charcoal Kangaroo shell delivers increased dexterity and cut resistance. Secure grip, wet or dry with minimal water absorption
- Dark Gray Elkskin back for excellent flexibility and reduced hand fatigue
- Black Eversoft split cowhide knuckle-guard

MOISTURE BARRIER

CROSSTECH® glove inserts for long lasting protection against hot water, blood, body fluids and common chemicals by resisting damage due to flexing, abrasion and heat exposure

LINING

Nomex®/Kevlar® lining for superior heat and slash protection

FEATURES

- 2D glove style
- **PIVOT-THUMB™,** natural / anatomically correct thumb to finger movement for better grip
- Formed knuckle-guard for better flexibility and grip; less hand fatigue
- Exclusive liner retention system helps prevent liner shifting and pull-out
- Thumb seam welt for increased abrasion resistance in this critical area
- Kevlar® thread with lock stitching on the shell for added strength and heat resistance
- Nomex® thread with lock stitching on lining
- ½" Heavy duty elastic sewn around the entire wrist helps prevent the glove from falling off the hand by keeping a snug fit around the wrist
- Compliant to NFPA 1971:2013

REGULAR STYLE

INNO755™ Back

INNO755™ Palm

WRISTLET STYLE

Also available as INNO750™ using 2 layers of black Nomex® knit for additional protection
