Xerox® ColorQube® 8700 Color Multifunction Printer

The ColorQube 8700 Color Multifunction Printer continues our tradition of innovation as the first desktop Solid Ink device completely engineered to deliver true multifunction performance. You get environmentally preferable features, unbeatable ease of use, consistently exceptional image quality and affordable color printing.

Unparalleled Color Quality

- **Always superior output.** Solid Ink gives your documents rich, vibrant colors on a wide range of media, including recycled paper.
- **The colors you expect.** PANTONE® calibrated solid-color simulations and Xerox® color correction technology deliver results that always match your expectations.
- **Incredible detail and halftones.** Xerox® 2400 FinePoint® print resolution ensures exceptional print quality.
- **Long-term consistency.** Every ColorQube 8700 produces the same, consistent color, page after page, year after productive year.
- **Intuitive color modification.** The Color By Words feature lets you select desired color modifications from a simple drop-down list.

Easier on the Environment

- **Reduce your impact.** Cartridge-free Solid Ink is a true consumable; no empty toner cartridges to dispose of or recycle. Solid Ink sticks come with minimal packaging and generate up to 90% less printing waste vs. comparable laser printers.* In addition, over the product's lifecycle, less energy is required than comparable laser MFPs*.
- **EarthSmart print driver settings.** Easy-to-use print-driver gauge allows you to choose environmentally conscious print settings.
- **Reduce energy usage.** Intelligent Ready technology learns your workgroup's usage patterns and moves to low-power mode during downtime.
- **Save shipping costs and storage space.** Compared to toner, Solid Ink's smaller packaging costs less to ship and fits in a desk drawer.

Multifunction Performance

- **Fast results.** Get your jobs out as fast as 44 ppm color and black-and-white, with a first-page-out time as fast as 8.5 seconds for color documents. Plus, two-sided printing comes standard – and saves paper.
- **Complete control at your fingertips.** The state-of-the-art 7-inch color touch-screen interface features bright icons, intuitive menus, and embedded help videos for easy, step-by-step troubleshooting assistance.
- **Full range of scanning solutions.** Simply scan your hard copy documents and get searchable digital files that can be automatically shared via email, Internet fax or network folder, or stored on the device or any USB memory device for true portability.
- **Extend your possibilities.** Xerox® Workflow Solutions, built on our Xerox Extensible Interface Platform®, enable productivity-enhancing solutions via the color touch screen interface. Learn more about our many solutions offerings by visiting **www.office.xerox.com/software-solutions**.
- **Easy expandability.** Experience longer print runs and convenient finishing with the 8700XF configuration. You get expanded paper capacity of 3,475 sheets of letter, A4 or legal-sized media, plus a 650-sheet finisher with up to 50-sheet stapling and offset stacking.
- **Always secure.** The ColorQube 8700 safeguards your sensitive data with 256-bit encryption using the FIPS 140-2 standard, plus built-in support for IPv6, IPsec, secure HTTPS, and other industry-standard network security features.
- **Powerful Partnerships.** The ColorQube 8700 Color Multifunction Printer includes McAfee® technology integration.

* Based on a lifecycle assessment peer-reviewed by the Rochester Institute of Technology and conducted by Xerox.
