December 2015 - Updated Height Adjustable and Collaborative sections

Trendway

Tables
This price list includes detailed product information and pricing for these products.

Trendway product catalogs are available in the following design software: 2020 CAP, 2020 Giza, Project Matrix, Configura, and Ice. The Systems price list is also available in .pdf (Acrobat Reader) format on www.trendealer.com. For Architects and Designers, a free FSL (Furniture Symbol Library) is available on www.trendway.com.

Product dimensions are given throughout the product catalog and are followed by parenthesis which have the metric equivalent in millimeters. For example: A Rectangular Table Top is available in a 48" (**1219**)-width.

Ordering Information
The most efficient way to enter an order is through Trendway On-Line Order Entry on www.trendealer.com, which also accepts .sif files from the design software listed above. Faxed orders are available as well but may extend lead-times.

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, TTRT2436HPL represents a **T**raining **T**able **R**ectangle that is **24"** (610)-deep and **36"** (914)-wide.

Order specification examples are shown throughout the price list at the bottom of each page. Be sure to follow the order sequence carefully to ensure complete and accurate order specification.

After placing an order, Trendway will send an order acknowledgement that follows the sequence of information outlined below. Trendway encourages you to follow the same steps so that checking your order against the acknowledgement will be as easy as possible.

Placing an Order
To make placing an order simple, Trendway On-Line Order Entry automatically prompts the product and option decisions that are required. For accurate order processing on faxed orders, please type or use legible handwriting, and be sure to include the following information:

1. A complete "sold to" address with correct Zip code.
2. A complete "ship to" address with correct Zip code.
3. A purchase order number. (The order is issued to Trendway Corporation, Holland, Michigan.)
4. A signature or name of person authorizing the purchase order.
5. A contact name and phone number at your company.
6. An actual calendar date for the requested delivery date (not ASAP).
7. Line items that are complete, which means all catalog numbers and descriptions, options listed for each product selected, fabric/finish pattern and color descriptions, and all corresponding letter or number codes. Be sure to make a pick for all available options. Also, combine identical items and specify total quantity unless using special marking or tagging.

   (Refer to your price list for ordering options.)
8. Special products referenced by their control numbers as well as their descriptions.
9. Line items that include price per unit, as well as extended totals.
10. A total dollar amount for the purchase order.
11. Any special shipping requirements clearly noted; i.e., "call before delivery."

By placing your orders correctly and completely the first time around, your order will be processed and scheduled without delay (subject to credit approval).

Lead-Times
The majority of Table products are shipped within Trendway's standard lead time. Extended lead-time items in the catalog are designated by shading. Trendway Express lead-times are available on select products. Products and their options available for specification on Express are indicated with an ⓔ in front of the catalog number. Note that all chosen options for a product must also be available in the Express program to qualify.

Note: Shipping lead-times are subject to product availability due to order size. For exact lead-times on your order contact Trendway Customer Care.

Surface Material Program
The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program
Trendway's Standard Program of timeless fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded, swatched and stocked by Trendway. Refer to individual panels for fire rating classifications.

Surface Trends
Trendway's Surface Trends Program is an evolving collection of fabrics, vinyls, and laminates, and are designated by symbol. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years. Items no longer available through Trendway may still be available for purchase directly through the supplier. Materials in this program comply with, and in many cases exceed the industry standards for quality and performance.

Surface Trends panel fabrics pass Cal.117 and are listed as part of the UL recognized component program.

Express
Express fabrics and finishes are available in a three-day lead time. Surface Materials available for specification on Express are indicated with a in front of the 3-digit code.

Terratex®
Terratex is a True Textiles brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM
Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information, see COM in the Pricing, Procedures and Policies section in the back of the price list.

HOW TO ORDER SAMPLES

Binder Cards
Standard and Surface Trends binder cards are available through Trendway fulfillment. Call 1-800-968-5344, ext. 1.

Standard Program Samples
Samples of fabrics and finishes are available through Trendway fulfillment. Call 1-800-968-5344, ext. 1.

Surface Trends Samples
Surface Trends **samples must be ordered directly through the supplier.** Contact information is listed below. Reference the pattern name and color along with the supplier part number on the back of your binder card to order samples.

Grommet/Pop Up Electrical Units for Trendway Training Tables

When specifying training tables, grommets or pop up cutouts may be specified for power/data routing and access. Grommets are available in black or silver and come pre-installed in the table top when GY1 or GY2 are specified as the Power Option. If Pop Up electrical units are chosen as the Power Option, the table top will ship with a factory-cut opening to house the unit, but the Pop Up units must be ordered separately. The chart below indicates which Grommet or Pop Up options are available for specific Training Tables.

Code	Position
GY1	Single grommet, centered left-to-right, 4 ¾" in from back of table top for a 24" deep top and 5 ½" in for 30" and 36" deep tops.
GY2	Pair of grommets, ¼ the width of the top in from each side, and 4 ¾" in from back of table top for a 24" deep top and 5 ½" in for 30" and 36" deep tops.
PMP & PNC	One cutout for Pop Up Unit, centered left-to-right, 4 ¾" in from back of table top for a 24" deep top and 5 ½" in for 30" and 36" deep tops.
PMH	One cutout for Pop Up Unit, centered left-to-right, 4 ½" in from back of table top for a 24" deep top and 5 ¼" in for 30" and 36" deep tops.

Training Table Electrical Options
The Angled Leg Training Tables have two Pop Up options: Corded and Daisy Chained and a 4-wire 2 circuit power system.

Corded Pop Ups
The corded Pop Ups come with a 6' cord that plugs into an outlet. Corded Pop Ups cannot plug into other corded Pop Ups or to Daisy Chain Pop Ups.

Daisy Chain Pop Ups
Daisy Chain Pop Ups allow a single Base Feed to power up to eight tables, depending on table width. The Daisy Chain Pop Up consists of three parts, the Base Feed, the Pop Up unit, and the Jumper. The Base Feed plugs into building power using a standard 15 amp plug. The Jumper is used to connect tables 66" and 72" to adjacent tables. In the connection sequence, each Jumper counts as a table in planning for the number of tables that can be linked (maximum eight). The Base Feed prevents overloading and will shut off power if the load is exceeded. It has a regulator with an LED light that is green in normal conditions and red in overload conditions. Pop Up unit includes the Pop Up and two connectors that will each attach to a connector on an adjacent table or to a Base feed.

This example uses three Daisy Chain Pop Up units to run power through three 60" wide tables. Since the tables are all less than 66" wide, no Jumpers are required. (Fig. A)

Daisy Chain Pop Ups as shown on 60" wide table
3 of 8 connections used.

Fig. A

This example uses three Daisy Chain Pop Up units and two Jumpers to run power through three 72" tables. Tables 66" and 72" wide each require one Jumper in order to connect to an adjacent table. (Fig. B)

Daisy Chain Pop Ups as shown on 72" wide table
5 of 8 connections used.

Fig. B

Training Table Power System
The Power System provides a 4-wire, 2-circuit system, with 20 Amps for each system (circuit 1 and 2 only). The system accepts up to 10 receptacles per circuit and 20 receptacles per Base Feed, for a total of 10 Power Sets per Base Feed. The main system components include the Power Set, Electrical Harness, H-Connector and Base Feed. Grommets are required to access the power box under the table.

For this layout, the harness length is calculated by the following equation:

(Half of Surface 1 width) + (Half of Surface 2 width) – 6" = Harness Length

If calculated harness length does not match an exact size, select next longer length.

Example: Surface (1) is 60" wide
Surface (2) is 60" wide

(30") + (30") –6" = 54" (Fig. C)

Fig. C

Modesty Guidelines
Trendway offers five modesty options for Training Tables. Each provides a different function, aesthetic and price to meet various user requirements. All modesty options can be mounted on a Fixed Base table. Laminate, Mesh and Metal modesties have also flip function, and when attached to a Flip Top Table will rotate out of the way when tables are flipped and nested.

Flip Modesty Planning – 24" Deep Tables
There are two configuration options for Laminate, Mesh and Metal flip modesties when specified for 24" deep table tops.

Full width: Modesty must be installed inset from the Table's front edge, 3.5" for Laminate and Metal Modesties and 5.5" for Mesh. Pop Up electrical units and Grommets cannot be specified for this configuration.

12" Shorter: Modesties specified at least 12" shorter than the Table width can be mounted at the front edge of the Table. They flip into the clearance space between the table legs. Pop Up units and Grommets can be specified for this configuration.

Flip Modesty Planning – 30" Deep Tables
Modesties specified for 30" deep Tables **must** be 12" shorter than the table width. They can then be mounted at the front edge of the table and can flip into the clearance space between table legs. Pop Up units and Grommets can be specified for this configuration.

Modesty Full Width of Table

Pop up Electrical units can not be used with full width modesties on flip top tables.

Modesty 12" Less than Width of Table

Pop up Electrical units can be used with these inset modesties on flip top tables.

Note: 36" deep tables cannot accommodate modesties that flip.

Idea Starters

So many ways to arrange and rearrange for almost any learning environment

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Complete Fixed Top Rectangle Training Tables – High Pressure Laminate
Complete Tables ship with all parts required for assembly, including top and angled training table Legs. Complete Fixed Top Rectangle Training Tables High Pressure Laminate tops are constructed of high pressure laminate with a 3mm vinyl edge. Table tops are a nominal 1 1/4" thick. Tables are available with glides or casters. Casters are 3" high, and available in Black or in a two-tone platinum/black color. Tables may also be optioned with a factory-cut opening for a Pop Up Electrical Unit or Grommet. Grommets are available in black or silver and ship with the table when specified.

Pop Up Electrical Units are ordered separately, see page 36 & 37 for details.

Shipped ready to assemble. Tables are 29" (737) high.

For additional Table Top shapes and sizes and base options please refer to pages 24-32.

Modesty Panels
The following Modesty Panels can be specified for the Complete Fixed Top Tables on page 16 and 17.

Laminate Modesty
The Laminate Modesty is 10" in height, 5/8" thick and constructed of High Pressure Laminate. It is available in 21 colors with matching edge color. The Modesty should be specified at the same width as the table top to which it will be attached. Mounting hardware is included.

Mesh Modesty
The Mesh Modesty has a narrow metal frame covered in black mesh. It includes a Velcro closure pocket for cable management. The Modesty is 12" in height. Available in black mesh only.

Metal Modesty
With a clean, simple aesthetic, the Metal Modesty is 10" in height with a very narrow side profile. It is constructed of steel and available in all Trendway trim colors. Mounting hardware is included.

Acrylic Modesty
The Acrylic Modesty is 10" in height and available in clear, frosted or decorative acrylic. Side brackets are available in all Trendway trim colors. The Modesty should be specified at the same width as the table top to which it will be attached. Mounting hardware is included.

Cable Management Modesty
The Cable Management Modesty is constructed of steel and is 10" in height. The Cable Management Modesty installs into a pre-drilled location ½" recessed from the front edge of the table. It is drilled to accommodate one Power Set for a hidden power source. It also provides a channel for cable management. This Modesty provides the flexibility to specify a fully powered Table without visible cables. It should be specified at the same width as the table top to which it will be attached. Mounting hardware is included.

Modesty Panels
The following Modesty Panels can be specified for the Complete Flip Top Tables on page 20 and 21. They have a flip function and will tilt out of the way when Flip Top Tables are flipped and nested. See Modesty Guidelines on page 14 for more details.

Laminate Modesty
The Laminate Modesty is 10" high, 5/8" thick and constructed of High Pressure Laminate. It is available in 21 colors with matching edge color. The Laminate Modesty option has a flip function and will fold out of the way when Flip Top Tables are flipped and nested. Mounting hardware is included.

Mesh Modesty
The Mesh Modesty has a narrow metal frame covered in black mesh. It includes a Velcro closure pocket for cable management. The Modesty is 12" high and has a flip function and will fold down out of the way when Tables are flipped and nested. Available in black mesh only.

Metal Modesty
With a clean, simple aesthetic, Metal Modesty is 10" in height with a very narrow side profile. The Metal Modesty has a flip function and will fold down out of the way when Flip Top Tables are flipped and nested. It is constructed of steel and available in all Trendway trim colors. Mounting hardware is included.

NOTES

High Pressure Laminate Rectangle Training Table Tops
High Pressure Laminate Training Table Tops are constructed with High Pressure laminate and have a 3mm vinyl edge. Table Tops are a nominal 1¼" thick. They are available with an optional black or silver grommet or a factory-cut opening for a pop up unit.

Pop ups are ordered separately, see page 36 & 37 for details.

These Table Tops are designed for use with the Angled Training Table Base.

They are drilled to accept Fixed, Flip (except 36" deep tops) or Folding bases (except 36"-54" wide tops).

Knife Edge Rectangle Training Table Tops
The Knife Edge Training Table Tops are constructed with High Pressure Laminate top and a urethane edge. The Table Tops are 1¼" thick. Urethane edges are available in standard Trendway trim colors except Designer White, Platinum and wood grain.

These Table Tops are designed for use with the Angled Training Table Base.

They are drilled to accept Fixed and Flip bases (except 36" deep tops).

Note: Knife Edge Table Tops are available with Wilsonart laminates only.

Note: When less than 10 Knife Edge Tops are purchased a $150 set up fee is applied.

Fixed Angle Training Table Base
The Fixed Angle Base is designed for use with the Table Tops found on pages 24-29. It ships as a set of two leg units. Fixed Angle Bases are available with Casters or Glides. Optional Casters are 3" high, and available in Black or in 2-Tone platinum/black color. Bases are designed to produce a table 29" high when used with High Pressure Laminate tops, and 28 ¾" high when used with Thermofused laminate tops. Bases are available in all Trendway trim colors.

22" legs are required for use on 24" deep table tops. 28" legs can be used on 30 and 36 inch deep table tops.

If attaching this Base to a table top not supplied by Trendway, it is the customer's responsibility to provide an adequate number of base supports and to install it according to the instructions provided.

The optional Wire Manager conceals and routes wires and cables from the table top to the floor. The black plastic unit affixes to the inside of the table leg with the double-sided adhesive included. When WMY is specified, one wire manager will ship with the Bases.

Flip Angle Training Table Base
The Flip Angle Base is designed for use with the Table Tops found on pages 24-26 and 28-29. It ships as a set of two leg units. The Flip Angle Base allows the Table Top to flip forward to allow multiple tables to nest together. These Bases are available with Casters only. Casters are 3" high, and available in Black or in 2-Tone platinum/black color. Bases are designed to produce a table 29" high when used with High Pressure Laminate tops, and 28 ¾" high when used with Thermofused laminate tops. Bases are available in all Trendway trim colors.

22" legs are required for use on 24" deep table tops. 28" legs can be used on 30" deep table tops.

Note: Flip Angle Bases cannot accommodate 36" deep Table Tops.

If attaching this Base to a table top not supplied by Trendway, it is the customer's responsibility to provide an adequate number of base supports and to install it according to the instructions provided.

The optional Wire Manager conceals and routes wires and cables from the table top to the floor. The black plastic unit affixes to the inside of the table leg with the double-sided adhesive included. When WMY is specified, one wire manager will ship with the Base.

TRAINING TABLE ACCESSORIES

Laminate Modesty

The Laminate Modesty is 10" high, 5/8" thick and constructed of High Pressure Laminate. It is available in 21 colors with matching edge color. The Modesty should be specified at the same width as the table top to which it will be attached. Mounting hardware is included. 24" (610) 30" (762) and 36" (914) modesties are for use on the short side of Trapezoid Tables. Mounting hardware is included.

Note: See Modesty Guidelines on page 14.

The Laminate Modesty is available in a Fixed and Flip version. The Flip Modesty option is designed for the Flip Top Table configuration and folds down when the Top is flipped to accommodate nesting and storage.

Mesh Modesty
The Mesh Modesty has a narrow metal frame covered in black mesh. It includes a Velcro closure pocket for cable management. The Modesty is 12" high and can be utilized as a Fixed Modesty or can fold down when the Top is flipped to accommodate nesting and storage on a Flip Top Table.

Note: See Modesty Guidelines on page 14.

Available in Black mesh only.

Metal Modesty
With a clean, simple aesthetic, Metal Modesty is 10" in height with a very narrow side profile. The Metal Modesty can be used with the Flip Top Table and will fold down to accommodate flipping and nesting. It is constructed of steel and available in all Trendway trim colors. Mounting hardware is included.

Note: See Modesty Guidelines on page 14.

Acrylic Modesty
The Acrylic Modesty is 10" high and available in clear, frosted or decorative acrylic. Side brackets are available in all Trendway trim colors. The Modesty should be specified at the same width as the table top to which it will be attached. Mounting hardware is included.

Note: Acrylic Modesty does not flip

Note: See Modesty Guidelines on page 14.

Cable Management Modesty
The Cable Management Modesty is designed to be used with the Fixed Top Training Table only. It is constructed of steel and is 10" high. The Cable Management Modesty installs into a pre-drilled location ½" recessed from the front edge of the table. It is drilled to accommodate one Power Set for a hidden power source. It also provides a channel for cable management. This Modesty provides the flexibility to specify a fully powered Table without visible cables. It should be specified at the same width as the table top to which it will be attached. Mounting hardware is included.

Note: See Modesty Guidelines on page 14.

Corded Pop Up Electrical Units
Corded Pup Ups consist of the unit and 6' cord which plugs into an adjacent standard 15 amp outlet. The unit inserts into a factory-cut electrical opening in the table top. All units are UL and CUL listed.

The Pop Up must be ordered to match the factory-cut electrical opening specified for the Table Top.

Note: Corded Pop Up units cannot connect to other Corded Pop Up units or Daisy Chain Pop Up units.

Refer to page 12 and 13 for additional pop up information.

Training Table Daisy Chain Power Pop Ups
Daisy Chain Power Pop Ups allow a Base Feed to power from four to eight tables, depending on table width. Since they are easy to disconnect and reconnect, they are ideal for applications where frequent reconfiguration of tables is desired.

Each consists of the Pop Up unit and two connector cables. The unit inserts into a factory-cut opening. Cables attach to the underside of a table with supplied wire management clips, and connect to the Base Feed or to Daisy Chain Pop Ups in adjacent tables. Elements can be assembled in any sequence, allowing greater flexibility for space planning and reconfiguration.

The Pop Up must be ordered to match the factory-cut electrical opening specified for the Table Top. Each unit has one male and one female connection and is able to link two tables, or link to one Base Feed and one table. All units are UL and CUL listed.

Refer to page 12 and 13 for additional pop up information.

Base Feed
The Base Feed provides power to the connection. It has a 6' cord which plugs into a buildings standard 15 amp outlet. The regulator on the Base Feed prevents overloading and will shut off power if the load is exceeded. It includes an LED light that is green in normal conditions and red in overload conditions.

Jumper
If a unit is installed in a 66" or 72" wide table, a Jumper is needed to connect power to the adjacent table. In the connection sequence, each Jumper counts as a table in planning for the number of tables that can be linked (maximum eight).

Note: Daisy Chain Pop Up units and Corded Pop Up units cannot connect to each other.

Training Table Power System

Training Table Power Set

The Training Table Power Set 4-wire, 2-circuit, 20Amp electrical system, allow power to be connected between Training Tables. Each Power Set includes two receptacles, for a total of four outlets. Each outlet has one receptacle for circuit 1 and one for circuit 2. Power Sets are a good solution when there is need for greater power access and where the table arrangement will remain static.

Power sets can be mounted to the underside of the table, near the edge for easy access. Spring clips for mounting are included. Power Sets should be located centrally to a long side of the work surface – all specification information in this document is based on the central location. For a less visible location, they can also install in the optional Cable Management Modesty (see page 27 for details). Power Sets are connected between work surfaces with Training Table Electrical Harnesses. The Training Table Base Feed brings power to the Power Sets. All components are UL and CUL Listed/CSA Certified.

Training Table Base Feed

The Training Table Base Feed conducts power from the building to the Training Table Power Set. It includes 6' (1829) or 12' (3658) of flexible liquid-tight conduit for hard-wiring the standard two-circuit system to the building power supply. Training Table Base Feed is also used with a Training Table H-Connector in cases where a single power feed must be split in two directions. Training Table Electrical Harnesses are used to link the H-Connector to the Power Sets in this type of configuration. Refer to Training Electrical Planning guide before specifying a harness length. (If your specific layout is not shown, please contact Trendway Customer Care for assistance.)

Training Table Electrical Harness

Training Table Electrical Harnesses connect Training Table Power Sets between two surfaces. Harnesses are also used with Training Table H-Connectors when a single Base Feed is split in two directions. The specific length of the harness needed will depend on the layout and work surface sizes. Refer to Training Electrical Planning guide before specifying a harness length. (If your specific layout is not shown, please contact Trendway Customer Care for assistance.)

Training Table New York Base Feed
The Training Table New York Base Feed conducts power from the building to the Training Table Power Set. It includes 18" (457) of flexible liquid-tight conduit for hard-wiring the standard two-circuit system to the building power supply. Training Table New York Base Feed is also used with a Training Table H-Connector in cases where a single power feed must be split in two directions. Training Table Electrical Harnesses are used to link the H-Connector to the Power Sets in this type of configuration. Refer to Training Electrical Planning guide before specifying a harness length. (If your specific layout is not shown, please contact Trendway Customer Care for assistance.)

Training Table H-Connector
The Training Table H-Connector allows power to be routed in up to 3 different directions. This is useful in layouts that require a single Base Feed to reach multiple work surfaces. (See Planning Guide for Specific Uses.)

TRAINING TABLE ACCESSORIES

Training Table Ganging Hardware

Ganging Hardware is used to lock two tables together so they do not move. Table ganging hardware is field installed and can be placed at the outer corners or in the middle of the tables. Attachment hardware included.

Training Table Cart

The Training Table Cart is designed to hold up to four Folding Training Tables, a maximum of 600 lbs. With carpeted decks to prevent damage to the edge of the tables, the cart rides on two swivel casters with brakes and two fixed casters. The side rails can be removed for odd-shaped loads. Constructed of steel, the cart is available in black only.

Tables must be stored on their edge, as the mechanism is not designed for flat storage.

Note: To avoid scratching laminate tops, load tables with laminate surfaces facing each other, not facing the underside of another table.

Accessories & Base Only.....50

Table Tops

Standard Features

Each table is surfaced with a high-pressure laminate. Tables will have a PVC flat T-Molded edge or banded edge depending on model.

- Square, Rectangular and Trapezoid training tables are available with PVC Banded Edge only.
- The Half Round table comes with a Banded edge on the flat side and a Flat T-Molded edge on the radiused side.

Wood grain vinyl edges are available as Banded edge only, therefore Half Round tables will be manufactured with a PVC Banded edge.

	Table Top Edge	
Tables	**PVC**	**T-Mold**
Rectangular	X	
Trapezoid	X	
Half Round*	combination	

PVC Banded Edge

*If wood grain and Platinum vinyl edge is specified, the entire table will have a PVC Banded Edge

Table Bases

The Training Table Bases in this section are made up of 2-inch tubular steel with flat metal end caps. The bases are powder coated and available in two base styles: T-Base or C-Base.

The T-Base is available on a rectangular, trapezoid or half round table top; allows the top to be fixed or flip; and allows the legs to fold.

The C-Base is available on a rectangular desk.

The fixed and foldable T-Base, and the C-Base have casters or glides. The flip tables are available with casters only.

Training Table
T-Base

Training Table
C-Base

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Training Table Arrangement
The new shapes of Training Tables allow for many different configurations but not limited to the ones below:

Nested Flip Top Training Table

Table Grommets
Grommets are available on the Rectangular, Trapezoid and Half Round Training Tables. They are centered on the table along the back egde. The grommet occupies the same location as the pop-up power/data module. Therefore, allowing only one or the other to be specified.

Grommets are available in black only. The following drawings show standard grommet locations.

Grommet Dimensions

Rectangular Training Table

Trapezoid Training Table

Half Round Training Table

Electrical

Training Table:

The pop-up power data/module ("EN" option) for Training Tables is black molded plastic. The pop-up module can be placed in the Rectangular, Trapezoid and Half Round Training Tables. There is one module per table; see diagram for location. The pop-up module has 2 power receptacles and 2 data openings. A 6' power cord is included. The table ships with a pre-cut mounting location for the pop-up module. The pop-up module is field installed.

Rectangular Training Table

Trapezoid Training Table

Half Round Training Table

Rectangular Training Tables and Desks can also be outfitted with our Training Table Electrical System (TTES). It is sold separately and includes 4 power receptacles, and 4 openings for voice/data jacks. The power is completely enclosed. The modesty strip is 4 inches tall and there is a 1-inch gap between the bottom of the table and the top of the modesty strip. The length of the unit is the same width as the table (48, 60 and 72). Tables can be linked together using a 4-trac electrical system. The face of the modesty strip is made of anodized aluminum. When the system is ordered, you receive the modesty strip, inside cover, duplexes, connecting brackets and all the necessary hardware. To power up a table, and link them together, a base feed (TTBFHW) and electrical harnesses (TTEH) must be specified separately. This system is equipped with one circuit for 16 amps of power.

Front View

Back View

Side View

The amount of tables that can be linked together is dependent on how much power is being drawn upon from the circuit.

	Computers Per Circuit
Desktop with Monitor	4
Laptop	12

To link 4 training tables together you would need: 4 Training Table Electrical Systems (TTES). One Training Table Base Feed (TTBFHW), and 3 Training Table Electrical harnesses (TTEH). Tables shown are specified with the optional grommet so the cords can go down to the powered Electrical System through the top of the table.

To link 2 training tables together you would need: 2 Training Table Electrical Systems (TTES). One Training Table Base Feed (TTBFHW), and 1 Training Table Electrical harness (TTEH).

RECTANGULAR TABLES AND DESKS - FIXED TOP
Each table has a high-pressure laminate top with PVC Banded edge. They have optional glides or casters.They can also be specified with an optional grommet or pop-up power/data module. If specified, the grommet or power/data module is located along the back edge in the center of the table.

The Rectangular Tables and Desks can be teamed with the Training Table Electrical System for high power applications. Shipped ready to assemble.

Tables are 29" (737)-high.

Rectangular Training Tables - Fixed Top
The Rectangular Training Table has a welded leg. The leg is mounted in the center of the table with both feet being the same distance out from the column.

Rectangular Desk Tables - Fixed Top
The Rectangular Desk has a welded leg. The leg is mounted toward the back of the table with two different length feet. They are arranged to provide support but provide the knee clearance of a desk which is ideal for a classroom or training room.

RECTANGULAR TRAINING TABLES
Each table has a high-pressure laminate top with PVC Banded edge. They have optional pop-up power/data module or grommet. Either a pop-up module or grommet can be specified, not both, as they occupy the same location. Both the Flip Top and Folding Tables have welded legs.

Shipped ready to assemble.

Tables are 29" (737)-high

Rectangular Training Tables - Flip Top
The Flip Top Table has a top that will pivot forward over the legs. The mechanism will lock in both the up (in use) and down (stored) position. The mechanism is operated with a one touch release handle. The tables have casters so they can be easily moved and nested by one person.

Rectangular Training Tables - Folding Legs
The Folding Table is available with casters or glides. The legs are at each end of the table to allow the legs to be folded and not interfere with each other. Folding tables take up very little space and can be placed in a closet out of sight when folded.

The Folding Mechanism locks the legs in both the usable and folded position. The mechanism on both legs must be triggered separately to allow for the table to fold.

Note: The Training Table Electrical System cannot be used with either the Flip Top or Folding Training Tables.

TRAPEZOID TRAINING TABLES
Each table has a high-pressure laminate top with PVC Banded edge. They have optional pop-up power/data module or grommet. Either a pop-up module or grommet can be specified, not both, as they occupy the same location.

Trapezoid tables provide the ability to create different shapes. It can be used as a transitional piece to turn a corner.

Shipped ready to assemble.

Tables are 29" (737)-high.

Trapezoid Training Tables - Fixed Top
Fixed Tables are available with casters or glides.

Trapezoid Training Tables - Flip Top
The Flip Top Table has a top that will pivot forward (to the short side) over the legs. The mechanism will lock in both the up (in use) and down (stored) position. The mechanism is operated with a one touch release handle. The tables have casters so they can be easily moved and nested by one person.

TRAINING TABLE ACCESSORIES FOR CHOICES TUBE BASE TABLES

Laminate Modesty

The Laminate Modesty is made of 5/8" HPL. It is available in the seven standard trim colors with matching edge color. The modesty should be ordered to match the length of the table top. The fixed modesty will not move once installed. The Folding Modesty will fold down when a Flip Top Table is flipped so the top can be flat. The modesties are mounted 2 inches in from the front edge of the table. Includes mounting hardware. The 24" (610) and 30" (762) modesties are for use with the Trapezoid Tables.

Mesh Modesty

The Mesh Modesty provides a little more visual privacy while providing a lighter feel. It is available for the fixed top version and has a pocket for holding and sorting cables. The modesty should be ordered to match the length of the table top. Includes mounting hardware.

Available in Black mesh only.

TRAINING TABLE ELECTRICAL

Training Table Electrical System

The Training Table Electrical System has an aluminum die cast modesty strip that houses two power receptacles and four data outlets. It can power a string of tables and works on a 4 trac system.

Includes mounting hardware.

Note: When the Training Table Electrical System is used, the tables must be ganged together. Please refer to page 205 to specify the ganging hardware.

Note: When the Training Table Electrical System is used, the tables cannot also have laminate, or mesh modesty panel.

Note: The Training Table Electrical System can only be used on Fixed Top Rectangular Desks and Tables.

Training Table Base Feed

The Base Feed is hardwired into the building's power and is end mounted into the Training Table Electrical System. UL and CUL Listed/CSA Certified. Available in Black only.

Training Table Electrical Harness

The Training Table Electrical Harness attaches two tables equipped with the Training Table Electrical System that are side-by-side. UL and CUL Listed/CSA Certified.

Training Table Pop-up Power/Data Module

The Training Table Pop-up Power/Data Module provides two grounded outlets and two openings for communication connectors. The module can be installed in any table or work surface greater than 18" (457)-deep. A 6' power cord is included. UL and CUL Listed/CSA Certified. Available in Black only.

TRAINING TABLE ACCESSORIES CONT.

Training Table Ganging Hardware
Ganging Hardware is used to lock two tables together so they do not move. Table ganging hardware is field installed and can be placed at the outer corners or in the middle of the tables. Attachment hardware included.

Note: If the Training Table Electrical System is used, the tables must be ganged together.

Training Table Glides
Training Table Glides can be ordered as a replacement for damaged glides or to retrofit a castered table.

Note: If glides are used to retrofit a castered table the overall height of the table will be up to 2 inches shorter than designed.

Training Table Casters
Training Table Casters can be ordered as a replacement for damaged casters or to retrofit a non-mobile table with glides.

Note: If casters are used to retrofit a table with glides the overall height of the table will be up to 2 inches taller than designed.

Training Table Cart
The Training Table Cart is designed to hold up to four Choices Folding Training Tables, a maximum of 600 lbs. With carpeted decks to prevent damage to the edge of the tables, the cart rides on two swivel casters with brakes and two fixed casters. The side rails can be removed for odd-shaped loads. Constructed of steel, the cart is available in black only.

Tables must be stored on their edge, as the mechanism is not designed for flat storage.

Note: To avoid scratching laminate tops, load tables with laminate surfaces facing each other, not facing the underside of another table.

Corner Table

120° Corner Table

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Express Rectangle Height Adjustable Table

The Express Rectangle Height Adjustable Table features a nominal 1 ¼" thick High Pressure Laminate top or a 1" thick Thermofused Laminate top with a PVC banded edge. An optional grommet is located in the back-center of the table top. The table comes with standard glides. The Express Rectangle Height Adjustable Table offers a height adjustment range from 24" – 49.5" for a total of 25.5" of adjustment. Add the top thickness to determine the total height dimension. These tables are sized to work within any panel environment or as a standalone table.

The Express Table offers two control pad options, Standard and Programmable. The Standard version (SCP) provides simple, intuitive table height adjustment and is offered at no upcharge. The Programmable version (PKP), available at an upcharge, offers simple height adjustment, a digital readout and the ability to store up to four pre-set heights. Each base leg is a three-section telescoping column. Two rails attach to the legs on the underside of the table top to ensure stability and support. Tables ship ready to assemble. The Base is available in Gunmetal only.

Express D-Shape Height Adjustable Table
The Express D-Shape Height Adjustable Table features a nominal 1 ¼"thick High Pressure Laminate top or a 1" thick Thermofused Laminate top with a PVC banded edge. The table comes with standard glides. The Express D-Shape Height Adjustable Table offers a height adjustment range from 24" – 49.5" for a total of 25.5" of adjustment. Add the top thickness to determine the total height dimension. This table can be used as a peninsula work top, or as a standalone table.

The Express Table offers two control pad options, Standard and Programmable. The Standard version (SCP) provides simple, intuitive table height adjustment and is offered at no upcharge. The Programmable version (PKP), available at an upcharge, offers simple height adjustment, a digital readout and the ability to store up to four pre-set heights. Each base leg is a three-section telescoping column. Two rails attach to the legs on the underside of the table top to ensure stability and support. Tables ship ready to assemble. The base is available in Gunmetal only.

Express Height Adjustable Table Base

Express Height Adjustable Table bases are available to purchase for retrofit installations using the customer's table tops. The height adjustment ranges from 24" – 49.5" high (without the top). The 24" base supports top dimensions 24" deep and 48-72" wide. The 30" base support top dimensions 30"-36" deep and 48-72" wide. Bases ship ready to assemble. Available in Gunmetal only.

Do not operate the adjustment function of a base if the combined load limit is exceeded, as specified in the table below. This load limit includes the weight of the table top plus the weight of any items it supports (e.g., desktop computer, printer etc.).

When attaching the base to a table top not supplied by Trendway, the customer is responsible for selecting the properly sized table base for the intended table top, and for following the installation instructions provided.

Trendway will not be held responsible for improperly sized or installed table/base applications.

4 Adjustability Height Adjustable Table

Table Tops

Height Adjustable Table	Table Top Edge PVC
Rectangular	X
Corner	X
Extended Corner	X

Standard Features

Each table is surfaced with a high-pressure laminate. Tables will have a PVC Banded Edge.

PVC Banded Edge

Table Bases

The Height Adjustable Table has an all-steel base frame. Finish is powder coat.

Height Adjustable Table Base

Extended Corner Height Adjustable Table Base Right Hand Shown

Table Grommets

Grommets are available on the 4 Adjustability Height Adjustable Table. The are along the back edge of the table top. Grommets are available in black or silver. The following drawings show standard grommet locations.

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

4 Adjustability Tables
The 4 Adjustability tables features an all-steel base frame with four height adjustment mechanism choices. On the underside of the table top, 2 rails attach to the legs to assure stability and support. Each table has a high-pressure laminate top with a PVC banded edge. They are rectangular in shape with standard glides and an optional grommet located in the center of the table back. Tables ship ready to assemble.

4 Adjustability – Crank Table
Crank Tables offer height adjustment ranges from 27" to 46", plus a nominal 1¼" thick HPL top for total height dimension. The crank can be positioned on the right or left hand of the table and stored under the table when not needed for adjustment. The functional inner leg that raises and lowers the table is not available in textured or premium trim finishes. If textured or premium trim finish is specified, the inner leg will match the standard smooth trim color.

4 Adjustability – Single and Dual Stage Electric Corner Tables
Corner tables can be used in a freestanding or panel application. Tops are sized to provide a gap between the Adjustable Table and adjoining work surfaces, to ensure free movement and to avoid pinch points. Electric Corner Table bases offer height adjustment ranges of 26" to 44 ¾" for the Single Stage and 21" to 47" for the Dual Stage. For total surface height dimension, add a nominal 1¼" thickness of the HPL top. Electric Corner Tables feature an optional control pad with digital readout, which can store up to 4 pre-set heights. When not in use, the control pad stores under the table. The functional inner leg that raises and lowers the table is not available in textured or premium trim finishes. If textured or premium trim finish is specified, the inner leg will match the standard smooth trim color.

4 Adjustability – Crank Extended Corner Tables

Extended Corner tables can be used in a freestanding or panel application. Tops are sized to provide a gap between the Adjustable Table and adjoining work surfaces, to ensure free movement and to avoid pinch points. Crank Extended Corner Table bases offer height adjustment ranges of 26" to 44 1/4". For total surface height dimension, add a nominal 1¼" thickness of the HPL top. The grommet option will provide two grommets for cord management. The functional inner leg that raises and lowers the table is not available in textured or premium trim finishes. If textured or premium trim finish is specified, the inner leg will match the standard smooth trim color.

4 Adjustability – Single and Dual Stage Extended Electrical Corner Table

Extended Corner tables can be used in a freestanding or panel application. Tops are sized to provide a gap between the Adjustable Table and adjoining work surfaces, to ensure free movement and to avoid pinch points. Electric Extended Corner Table bases offer height adjustment ranges of 26" to 44 ¾" for the Single Stage and 21" to 47" for the Dual Stage. For total surface height dimension, add a nominal 1¼" thickness of the HPL top. The grommet option will provide two grommets for cord management. Electric Extended Corner Tables feature an optional control pad with digital readout, which can store up to 4 pre-set heights. When not in use, the control pad stores under the table. The functional inner leg that raises and lowers the table is not available in textured or premium trim finishes. If textured or premium trim finish is specified, the inner leg will match the standard smooth trim color.

4 Adjustability Table
Choices 4 Adjustability Table bases are available to purchase for retrofit installation with existing table tops. The height adjustment ranges from 26"-44¼" for the crank base and 27"-46" for the pneumatic base, plus a nominal 1¼" thickness of the top. Bases ship ready to install.

Do not operate the adjustability function of a base if the combined load limit is exceeded, as specified in the table below. This load limit includes the weight of the table top plus the weight of any items it supports (e.g., desktop computer, printer etc.).

When attaching the base to a table top not supplied by Trendway, the customer is responsible for selecting the proper sized table base for the intended table top, and for following the installation instructions provided. Correct top sizes are specified for each base size in the table below. Trendway will not be held responsible for improperly sized or installed table/base applications.

4 Adjustability Table
4 Adjustability Table bases are available to purchase for retrofit installation with existing table tops. The height adjustment ranges from 26"- 44¾" for the single stage base and 21"-47" for the dual stage base, plus a nominal 1¼" thickness of the top. Bases ship ready to install.

Do not operate the adjustability function of a base if the combined load limit is exceeded, as specified in the table below. This load limit includes the weight of the table top plus the weight of any items it supports (e.g., desktop computer, printer etc.).

When attaching the base to a table top not supplied by Trendway, the customer is responsible for selecting the proper sized table base for the intended table top, and for following the installation instructions provided. Correct top sizes are specified for each base size in the table below. Trendway will not be held responsible for improperly sized or installed table/ base applications.

When Specifing Screens for:

Express Height Adjustable Tables
They attach to the back edge using hardware provided. Screens must be selected at the proper size for successful installation. Note that Height Adjustable Tables use nominal sizing and screens use actual sizing.

For Tables 48" to 66" wide (nominal size) Screens must be specified 12"(actual size) shorter in width than the table to which they will attach. Tables that are 72" wide (nominal size) require a 66" screen (actual size).

Example: a 60" Express Height Adjustable table EVRHAT3060 will require a 48" Screen TRGBMS4813

4 Adjustability Table
Screens must be selected at the proper size for successful installation. Note that Height Adjustable Tables use nominal sizing and screens use actual sizing.

For all rectangular Tables, Screens must be specified 12" (actual size) shorter in width than the table to which they will attach.

Example: a 60" 4 Adjustability Table RHATG3060 will require a 48" Screen TRGBMS4813

Back Edge Mount Screens
Back Edge Mount Screens assemble to the back of a Height Adjustable Table Top with a 1" gap. The gap allows for power cords to pass between them.

All necessary mounting hardware is included.

Glass Top	40 7/8" (1038)

*Please note the overall height of the table is dependent on the thickness of the Top selected

Seating Capacity

Trendway Tables allow the following suggested seating capacities:

	Table Size	Seating Capacity
Round	24 dia	2
	30 dia	2
Square	24x24	2
	30x30	2

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Collaborative Table Tops for use with Steel Trumpet Base
All Collaborative Table Tops are used with the Steel Trumpet Base. Table Tops will come with the appropriate hardware to affix the top to the base. Bases must be ordered separately.

The Thermofused and High Pressure Laminate tops are 5/8" thick and finished with a 1mm vinyl edge. They are available in two diameters.

The Glass top is 3/8" thick tempered glass, available in Clear or Frost finish.

Table Tops continued
The Coated MDF top is ¾" thick with a knife edge. They are available in 2 shapes, round and soft square.

Knife Edge Detail

Steel Trumpet Base for use with Collaborative Table Tops
The Steel Trumpet base is designed to be used with Collaborative Table Tops.

The Trumpet Base is available in 3 heights, and comes with standard glides. The diameter of the base is 19.625" and of the column is 2.375". The base finish is satin chrome.

Note: The overall height of the table will vary depending on the table top style selected.

Note: The Steel Trumpet base assembles to the Table Top by means of a top support connector. This connector ships with the specified Top. If ordering the Trumpet base to support a non-glass top not supplied by Trendway, you must order the Wood Top Support from the Service Parts Catalog (customer-supplied glass tops can not be accommodated).

Base Only		87

Choices Collaborative and Café Tables
Choices tables are constructed with High Pressure Laminate. Tables will have a PVC Flat T-Molded edge or banded edge depending on model. The Flat T-Molded edge provides a radius at the corners, while the banded edge provides a clean squared corner. Bases are constructed of steel and have a powder coat finish. The 4-point and Angle Bi Point bases have molded end covers. X- and Disc-Base tables are available with a Round or Square table top in standard or Café Height. The X-Base standard height has a 2" diameter vertical column, and the Café Height has a 4" diameter column. The Disc-Base has a 4" diameter column.

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Round Tables - Standard Height
Each table has a high-pressure laminate top with flat T-molded edge. If a wood grain vinyl edge is selected, the table will be manufactured with a PVC Banded edge. Casters or glides are available on the Standard Height Round Table. Standard height 30"-42" round tables have a 2" diameter column. The 48" round table has a 4" diameter column. Shipped ready to assemble.

Table Legs
The Table Legs are available for retrofit installation beneath existing table tops. Bases are 27½" (699)-high. X-Base is shipped ready to assemble.

When attaching this base to a table top not supplied by Trendway, it is the customer's responsibility to provide adequate number of base supports and install according to provided installation instructions.

Casters are not available on Café Height Tables.

Steel Bases
Steel bases are available for retrofit installation beneath existing table tops. Bases are 27⅞" (708)-high. Steel 4-Point Base shipped ready to assemble.

When attaching this base to a table top not supplied by Trendway, it is the customer's responsibility to provide adequate number of base supports and install according to provided installation instructions.

NOTES

Intrinsic Collaborative, Café and Occasional Tables
The Standard 1" Intrinsic Top is surfaced with Thermofused Laminate. The Executive Top is 1.5" thick and surfaced with High Pressure Laminate. All tables have a PVC flat banded edge. The Executive Tops offer a Flat or Fluted edge option. The tops are available in either round or square or rectangle (occasional only) shapes. Intrinsic Tables offer three base style options. One is constructed of laminate material, two are steel with a powder coat finish. The laminate base is X-shaped. Column Leg Tables have four 4" diameter column legs. Disc Bases have a 4" column and are available for Round or Square table tops in standard or Café Height.

Seating Capacity

Trendway Tables have the following suggested seating capacities:

	Table Size	Seating Capacity
Round	30 dia	2
	36 dia	3
	42 dia	4
	48 dia	4
	60 dia	6
Square	30x30	2
	36x36	4
	42x42	4
	48x48	4
	60x60	6

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Tables - Standard Edge

Intrinsic Tables are shipped complete with your choice of base options and leveling glides. Each table has a 1" Thermofused Laminate top with a 3mm vinyl edgeband. The following bases are available: Thermofused Laminate, steel disc base(s) or 4" steel column legs. Tables are 28 3/4" (730)-high.

Shipped ready to assemble.

NOTES

Collaborative, Cafe & Occasional Tables

Trig

Overview 102

Collaborative *Square* 103

Trig Collaborative Tables
Trig Collaborative Tables have square Thermofused laminate tops with a PVC edge band.

The base consists of two 2"x 2" U-shaped powder-coated steel legs. The table comes standard with glides. The finished height of the table is 28 ¾" (730)

Table Base

Seating Capacity

Trendway Tables have the following suggested seating capacities:

	Table Size	Seating Capacity
Square	36x36	4
	42x42	4
	48x48	4
	60x60	6

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Tables
Trig Tables are shipped complete with a 1"-thick Thermofused Laminate top and 3mm vinyl edge band. Shipped ready to assemble.

Square Tables
Trig Square Tables come with two work surface support legs, 2" square, and all necessary hardware.

Feek

Overview 106

Occasional
Shimoda Shape 107
Low Lounge 109
Tear Drop 110

Feek Tables
Feek tables are sized to work with Feek products, but can be used wherever an occasional table is needed. Three Feek table models are available.

The **Shimoda Shape Table** which comes with a top, base and appropriate hardware to affix the top to the base. The base diameter is 18" and of the column diameter is 4". If the electrical option is specified, the top is outfitted with two electrical units, and the column will have two openings at the top and one opening at the bottom for cord routing. The electrical units are positioned on the center underside of the table top, providing easy power access for both sides.

The Shimoda Shape Table offers three material options for the top. High Pressure Laminate and Thermofused tops are 5/8" thick and finished with a 1mm PVC edge, and can be specified in any standard Trendway laminate and edge band color. The coated MDF Knife Edge top is ¾" thick and available in two colors.

The **Low Lounge Table** consists of two sections that attach to each other with Velcro. Sections can be ordered in different colors. The Low Lounge Table components do not have air vents, so either section can be flipped to be used as the top. The sections can easily be separated for re-assembly into different color combinations.

The **Tear Drop Table** comes with a top, base and appropriate hardware to affix the top to the base. The coated MDF top is 3/4" thick with a knife edge and available in two colors. The base and 2" diameter column are powder coated and available in all Trendway Finishes.

Shimoda Shape Base

Low Lounge

Tear Drop

	Table Heights
Shimoda Shape	
Occasional	26 1/8" (664)*
Low Lounge	
Occasional	15 1/8" (384)
Tear Drop	
Occasional	24 3/8" (619)

* The Knife Edge will add 1/8" to overall height.

TABLE WEIGHT LIMITS (Shimoda Shape Base Only)
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Shimoda Shape Tables
The Shimoda Shape table comes with a top, base and appropriate hardware to affix the top to the base. The diameter of the base is 18” and of the column is 4”. If the electrical option is specified, the top will be outfitted with two electrical units, and the column will have 2 openings at the top and 1 opening at the bottom for cord routing. The electrical units are positioned on the center underside of the table top, providing easy power access for both sides. The unit ships ready to assemble.

The Shimoda Shape table is designed to fit the optional cutout of the Medium and Large Work Lounge, but it can be used wherever an occasional table is needed.

The High Pressure Laminate and Thermofused Laminate tops are 5/8" thick and finished with a 1mm vinyl edge. It can be specified in any standard Trendway laminate and edge band color.

The coated MDF knife edge top is 3/4" thick and available in two top colors.

Choices Conference Tables
Choices Conference Tables are surfaced with High Pressure Laminate. Tables will have a PVC Flat T-Molded Edge or Banded Edge depending on model. The Flat T-Molded edge provides a radius at the corners, while the banded edge provides a clean squared corner.

The base is powder coated steel with molded end caps. The Base includes adjustable glides.

All tables in this section have a finished height of 29" (737)

Electrical

Conference Table:
The pop-up power/data module for the Conference Tables is made of clear anodized aluminum. Only Conference Tables that are 96" (2438) and wider have two optional electrical pop-up modules. The pop-up module has 3 power receptacles and 1 data opening. Each receptacle is rated for 15 amps. When specified the table ships with a pre-cut mounting location for the pop-up module. A 6' power cord is included. The pop-up module is field installed.

Seating Capacity

Trendway Tables have the following suggested seating capacities:

	Table Size	Seating Capacity
Boat	42x84	6
	48x96	8
	54x108	8
	48x120	10
	48x144	10
	60x120	10
	60x144	12
Racetrack	48x96	6
	48x120	10
	48x144	10
	60x96	8
	60x120	10
	60x144	12
Rectangular	42x72	6
	48x60	4
	48x72	6
	48x84	8
	48x96	8
	48x120	10
	48x144	10
	60x120	10
	60x144	12

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

BOAT CONFERENCE TABLES
Tables are 29" (737)-high. Each table has a high-pressure laminate top with either PVC Flat T-Molded or PVC Banded Edge.

Optional power is available on all Boat Tables 96" (2438) in width and longer. The table comes with two pre-cut mounting locations that will fit the pop-up module.

Shipped ready to assemble. Boat table tops 84" (2134)- to 96" (2438)-wide are shipped in one piece, 108" (2743)- to 120" (3048)-wide in two pieces, and 144" (3658)-wide in three pieces.

Steel Bases
Tables are 29" (737)-high. Tables have the following type and quantity of steel base supports:

Table Width	Support	Quantity
84" (2134)	37" (940) Dbl Tube Bi-Point	2
96" (2438)	37" (940) Dbl Tube Bi-Point	3

Conference Tables

Intrinsic

Overview 120

Standard Edge — *Racetrack* 121
Rectangular 122

Executive Edge — *Racetrack* 123
Rectangular 124

Intrinsic Conference Tables
The standard 1" Intrinsic Conference Table top is surfaced with Thermofused Laminate. Executive Tables are 1.5" thick with a High Pressure Laminate top. All tables have a PVC flat banded edge. Executive Tops have a Fluted edge option. Tops are either round or square in shape.

Intrinsic Tables offer three base style options. One is constructed of laminate material, two are steel with a powder coat finish. The laminate base is X-shaped. Column Leg Tables have four 4" diameter column legs. Disc Bases have a 4" column and are available for Round or Square table tops in standard or Café Height.

The finished height for the Standard top Table is 28 ¾" (730") high. The finished height for the Executive top is 29 ¼" (743).

	48x120	10
	48x144	10
	60x96	8

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Tables - Standard Edge
All Intrinsic Racetrack tables 96" or less in width have one piece tops, and all tables greater than 96" in width have three piece tops.

Laminate Base Tables, 120" or 144" in width, will have a base with three supporting legs.

Conference Tables

Trig

Overview 126
Rectangular 127

Trig Conference Tables

Trig Collaborative Tables have rectangular Thermofused laminate tops with a PVC edge band. The base consists of four or six 4"x 4" square powder-coated steel legs. Tables 72"-96" wide will have 4 legs and tables 120"-144" will have 6 legs. The table comes standard with glides.

The finished height of the table is 28 ¾" (730)

Table Base

Electrical

Trig Conference Tables:
The pop-up power/data module for the Conference Tables is made of clear anodized aluminum. Conference Tables that are 72" (1829) wide have one optional electrical pop up centered on the table; tables that are 96" (2438) and wider can be outfitted with two optional electrical pop-up modules. The pop-up module has 3 power receptacles and 1 data opening. Each receptacle is rated for 15 amps. When specified, the table ships with a pre-cut mounting location for the pop-up module. A 6' power cord is included. The pop-up module is field installed.

Side View

Top View

Pop-up Module Locations:

Rectangular Conference Table 96" (2438) and Wider

Rectangular Conference Table 72" (1819)

Seating Capacity

Trendway Tables have the following suggested seating capacities:

	Table Size	Seating Capacity
Rectangular	36x72	6
	42x72	6
	48x72	6
	48x96	8
	48x120	10
	48x144	10

TABLE WEIGHT LIMITS
Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:
Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Tables
Trig Tables are shipped complete with a 1"-thick Thermofused Laminate top and 3mm vinyl edge band. Shipped ready to assemble.

Rectangular Conference Tables
Trig Rectangular Conference Table tops 72" - 96" wide are shipped in one piece, and tops 120" - 144" wide are shipped in three pieces. Trig Rectangular Conference Tables come with 4"-square legs and all necessary hardware.

The pop-up power/data module for the Rectangular Conference Table is made of clear anodized aluminum. Conference tables that are 96" (2438) and wider have two electrical pop-up modules. The pop-up module has 3 power receptacles and 1 data opening. Each receptacle is rated for 15 amps. A 6' power cord is included.

NOTES

Conference & Training Room Components

Presentation/Marker Board Cabinet 130
Mobile Media Cart 131
Lectern 132

Presentation/Marker Board Cabinet
The Intrinsic Presentation/Marker Board Cabinet includes marker board, two side-opening hinged doors, marker stop rail and mounting hardware to accommodate most installation applications.

Optional accessories include black fabric wrapped tackboards.

Note: The back of the unit is recessed to eliminate visibility of the wall mount brackets.

Note: The unit includes mounting brackets to accommodate most installation applications. It is the responsibility of the dealer or installer to obtain any additional fasteners that may be needed to safely attach the unit to the wall.

Note: The Marker Board is non-magnetic High-Pressure Laminate.

Tackboards for Presentation/ Marker Board Cabinet
Tackboards can be mounted on the inside of the Presentation/Marker Board Cabinet doors. The tackboard has a tackable panel fabric front with velcro attachment tabs in the back.

Available with Anchorage, GEB Onyx fabric only.

Note: The Tackboards for Presentation/Marker Board Cabinet are sold individually.

Shown with optional—
Tackboard attached

Intrinsic Mobile Media Cart
The Intrinsic Mobile Media Cart has two lockable hinged doors, one adjustable shelf behind the doors, one open storage shelf, wire management from top to base of unit and four locking casters. One Grommet is standard.

Shipped assembled.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with an Intrinsic Core/Key set in order for the Intrinsic filing unit to lock. The Core/Key set (ZFLCK) must be ordered separately or by using the keying order form.

NOTES

Terms, Policies & Index

Terms & Policies 136
Index 140

1. Prices
Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement
Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trendealer.com, or in writing following Ordering Procedures on page 1. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation
Upon receiving an order, Trendway Corporation will send an acknowledgement with exact pricing information and scheduled shipping date. Orders can also be confirmed on-line at www.trendealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead Times
Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 8 business days for Express orders, 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit
If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time by notice to the Buyer require prepayment or other terms of payment differing from those specified in Section 8 or other satisfactory security to insure prompt payment of invoices.

6. Order Changes
To change an order, the customer must call Trendway Customer Care for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation
All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customers shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale
Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes
Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors, or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past-Due Accounts
Past-due accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past-due balances.

11. Customer's Own Material (COM)
The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM material.
2. Check first with www.trendealer.com/ COM Library, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a *COM Guideline Form* (available on www.trendealer.com or from Trendway Customer Care Representative).
4. If the material requested is not in the COM Library, customer must submit a *COM Request Form* on-line at www.trendealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form response.
5. Ship COM samples to:

   U.S. Mail Shipment and
   UPS, FedEx Shipment:
   Customer Care
   Trendway Corporation
   13467 Quincy Street
   Holland, MI 49424
6. You will be notified within five working days by Trendway, whether your COM has been approved or disapproved for application.

TEST YARDAGE REQUIREMENTS	
Choices panels	1 1/2 yd.
Flipper doors	2/3 yd.
Contrada tiles	1 yd.

NOTE: Most fabric houses have a yardage minimum or an upcharge on less than one-yard cuts.

NOTE: All COM applications are priced at Grade 1 or Grade A.

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller, freight prepaid, and all risk of loss or damage shall remain with Buyer. Buyer must assume

responsibility for any spoilage that takes place in the course of processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials will not qualify for UL Listings and may not meet fire codes. Please discuss specific concerns and special needs with Trendway Customer Care PRIOR to placing your order.

11a. Custom Color
Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trendealer.com for product availability, individual product guidelines and lead times. Set up fees and lead times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Custom Color Request form (available on www.trendealer.com).
- Send request form along with two 2"x3" samples to Trendway Customer Care Color Coordinator.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color form, providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Color Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- Customer Color program is not available within Express lead-time.
- If applicable, dealer will be sent an invoice for $200 color matching fee per customer, per color. See Custom Color Request form for details.

12. Special Product
When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays
Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to, compliance with any regulations, orders, or instructions of any Federal, State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery
If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage
When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges 1/4 of 1% of list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation
All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 3:00 pm on Friday's will have an additional charge of $450 per truck.
- Excessive unloading (in excess of 4 hours) will be billed at $50 per hour after the initial 4 hour unloading period.
- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be requested for an additional charge of $150. This charge does not apply to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.
- Lift gate service will have an additional charge of $85.
- Inside delivery service starts at $50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at $50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:
Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership
Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials
Trendway Corporation is not responsible for shipped products when the common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care. Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 15 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order
Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance
Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post-Delivery Assistance
Installation and servicing of Trendway products are normally handled directly by Trendway-authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department, Holland, Michigan.

22. Returned Goods
As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If material is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department.**

All Returned Materials Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, nonstandard items, Express products, and fabric-covered goods may not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original Trendway packing cartons. Goods will be inspected for damage upon return. No credit will be issued for goods which are damaged. **As a general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.**

23. Key-Alike Option
The key-alike option is available on all orders. To order key-alike items within a workstation, follow these steps:

- Fill out a key-alike form and submit it with your purchase order. If key-alike orders are placed with your PO or within 30 days of receipt of your order, they will be sent at no charge.
- After 30 days of your PO regardless of your installation date, the cost of key-alike requests will be $3.00 net per core and key, if the quantity exceeds 10.

Note: Credit will not be issued for return of unused cores and key's.

Key-Alike forms are available on www.trendealer.com or through Trendway Customer Care.

24. Special Marking or Tagging
Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

25. Trendway Field Technical and Installation Support:
On-site field measurement and installation support is available as a service. The fees are listed below:

Field Measurement Assistance: 1 Day on-Site, $1,800.00

Field Installation Assistance: 3 Days on-site, $3,000.00

These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendealer.com, in the Price List section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Products	Seating
10 Year	•Electrical Components •Height-Adjustable Table Frame		•Pneumatic Cylinders •Mechanisms
5 Year	•Drawer Slides •Systems Textiles •Finishes •Electronic Ballasts •Height-Adjustable Table Mechanical Components	•System Textiles •Finishes	
3 Year	•Veneer •Magnetic Ballasts		•Trim •Foam •Upholstery •Arm Pads
2 Year	•Surface Trend Fabrics •Height-Adjustable Table Electrical Components	•Surface Trend Fabrics	
1 Year	•Non-Standard Product •Personal Task Lighting	•Non-Standard Product •Trend-Wall® Flooring Solutions	•Non-Standard Product •Rexxi™ Chair
Not Covered	•Light Bulbs •Customer's Own Material	•Customer's Own Material	•Customer's Own Material

The following exceptions apply to all product lines:
- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:
- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in wood grain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.
