CASCO

DISINFECTANTS AND CLEANERS

Casco is a leading manufacturer of disinfectants widely used in poultry production, growing operations, hatcheries, feed mills, and processing plants. Casco also manufactures industrial products, including floor strippers, cleaners, and waxes. These products are supplied to commercial, governmental, agricultural, and industrial entities.

CS-950

Liquid Grease Trap and Drain Maintainer

CS-950 is a liquid bio-enzymatic product designed to solve and maintain organic waste problems.
CS-950 used in drain lines and grease traps will keep the lines free flowing and fresh
smelling. Our synergistic blend of four strains of safe, non-pathogenic bacillus bacteria. This
product offers the exceptional ability to digest fats, oil, grease and organic waste build up in
grease traps and plumbing systems. It is best to utilize CS-950 as part of a preventive maintenance
program with regular programmed additions to the system. Add 3 to 4 ounces of CS-950
per day for troublesome drains. For routine drain maintenance, add 3 to 4 ounces of CS-950 per
week. It is a white opaque liquid with a fresh odor.
