Indiana®
FURNITURE

Clearly Green

level®, BIFMA's sustainability certification program for furniture, is a comprehensive and transparent third-party certification program. The level mark attests that the product, the manufacturing facility, and the company responsible for the product brand, have been evaluated against the multi-attribute criteria of the ANSI/BIFMA e3 Furniture Sustainability Standard. Products certified under the level program can be chosen with confidence. All Indiana Furniture casegoods and seating solutions are BIFMA level® 2 Certified.

A number of Indiana Furniture products have achieved Intertek's ETL Environmental VOC Certification and are recognized as products that safeguard indoor air quality. The certification — which extends to Elevate, Promise, Gesso, Revolutions, Madera, Resilience, Canvas, all Conference, Reception and Seating solutions, demonstrates that Indiana Furniture's products conform to the ANSI/BIFMA Furniture Emissions Standards (M7.1/X7.1-2011) for Office Furniture Systems and Components. They also earn points for LEED Credit 4.5.

Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating safe work environments within new furniture installations. This has allowed us to earn Indoor Air Quality Certification on our products with UVAdvantage finish. Our UVAdvantage finish process greatly reduces hazardous air pollutants which contribute to smog formation. Excess UV finish is recaptured over and over again reducing waste material within our facilities.

Forest Stewardship Council™ (FSC®) Chain-of-Custody(CoC) Certification is an assurance that wood based materials used in products come from forests that meet stringent environmental, social, and economic standards. It is the path taken by raw materials from the forest to the consumer, including all successive stages of harvesting, processing, manufacturing and distribution. Only products from FSC CoC companies can claim the FSC designation, assurance of a socially and environmentally responsible purchasing decision. FSC CoC Certification is recognized by the U.S. Green Building Council's (USGBC) LEED Rating System for environmentally focused design. From a customer perspective, the FSC label represents a promise made; CoC standards are the mechanism FSC uses to ensure that promise is delivered. Indiana Furniture has been awarded FSC CoC Certification, by GFA Consulting Group, an independent third-party accredited by the FSC to certify companies to their international standards. The certification (certificate number GFA-COC-002183; license code FSC-C110951) is available on most Indiana Furniture products.

WARRANTY

Subject to the limitations set forth in this warranty, Indiana Furniture Industries, Inc. (**"Indiana Furniture"**) warrants to the original purchaser all product in this price list (**"Product"**) to be free from defects in material and workmanship given normal use for a twelve year period from the date of manufacture. During the applicable warranty period, Indiana Furniture, as its sole obligation, will repair or replace (in Indiana Furniture's sole discretion) any Product, part , or component covered by this warranty and sold after February 1, 2015, which fails under normal use as a result of a defect in material or workmanship. Normal use is defined as the equivalent of a single shift, 40-hour work week. Indiana Furniture will repair or replace the defective Product, part, or component with a comparable Product, part or component.

Warranty periods are limited for certain Products and parts as follows:

12-year Warranty (from the date of manufacture)

- Seating Mechanisms
- Veneers
- Laminates

5-year Warranty (from the date of manufacture)

- Triple Play Series
- Electrical Components
- Pneumatic Cylinders
- Casters and Glides
- Textiles, Foam, and Decorative Trim
- Swivel Arm Pads
- Keyboard kits
- Lighting

THIS WARRANTY DOES NOT COVER:

- Damage caused by a carrier or third party
- Normal or routine wear and tear
- Appearance, durability, quality, behavior, colorfastness or any other attribute of customer's own materials or any non-standard Indiana Furniture material (including Maharam, Momentum, Mayer, UltraFabrics) specified by the customer and applied to a Product
- Color, grain or texture of wood, laminate and other covering materials
- Changes in wood or fabric color due to aging or exposure to light
- Damage or failure resulting from modification, alteration, misuse or abuse of a Product
- Defect or damage arising out of coverage of Product tops with glass or other foreign materials

As the manufacturer of the Product, Indiana Furniture stands behind its craftsmanship and pledges to do everything it can to reasonably resolve, as quickly as possible, any problems you may have with the Product within the terms and conditions of this warranty.

If you encounter a defect covered by the foregoing warranty, you should contact the dealer from whom you purchased the Product. If the dealer is unable to resolve your warranty issues, you should contact Indiana Furniture. Please ensure that you have all of the pertinent facts when contacting the dealer or Indiana Furniture, including the model number and factory order number from the inspection label attached to the Product.

INDIANA FURNITURE IS NOT PROVIDING, AND SPECIFICALLY DISCLAIMS, ANY OTHER WARRANTIES FOR THE PRODUCTS, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. INDIANA FURNITURE SHALL NOT BE LIABLE TO PURCHASER OR ANY THIRD PARTY FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT OR SPECIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, DAMAGES ARISING OUT OF OR RESULTING IN ANY MALFUNCTIONS, DELAYS, LOSS OF PROFIT, INTERRUPTION OF BUSINESS, PERSONAL INJURY, BODILY INJURY, DEATH, DISMEMBERMENT, OR PROPERTY DAMAGE.

GENERAL INFORMATION AND CONDITIONS OF SALE

ORDERING INFORMATION
All orders should be emailed to **neworders@indianafurniture.com**
Orders can be faxed to 812-482-9035. Orders can also be mailed to:

Indiana Furniture
P.O. Box 270
1224 Mill Street
Jasper, IN 47547-0270

ORDER PROCEDURE
All orders must include purchase order number, billing address, ship-to address and phone number, and any special instructions.

When ordering casegoods, give complete quantity, model number, finish and any other options. When ordering seating, give complete quantity, model number, finish, fabric and any other options.

Within each series, an example of "How to Order" is illustrated at the bottom of each page. For further clarification of order procedure, contact Customer Service.

PRICING
All prices shown are suggested retail prices F.O.B. Point of Origin, freight prepaid and allowed to one continental US destination. Prices, specifications and materials are subject to change without notice. Possession and/or distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Indiana Furniture dealers. Orders will be billed at prices prevailing at time of shipment, unless acknowledged prior to the effective date of the price change, in which case billing will be at the price acknowledged.

ACKNOWLEDGEMENT
All orders will be acknowledged promptly, showing how the order was entered, its approximate shipping date and other pertinent information. This acknowledgement is the final agreement between the customer and Indiana Furniture and is the exclusive statement of the terms thereof. Please examine this acknowledgement carefully and advise Indiana Furniture immediately of any discrepancies.

BUYER'S OBLIGATION: RIGHTS OF SELLER
If Indiana Furniture shall at any time doubt Buyer's financial responsibility, Indiana Furniture may decline to make shipments hereunder except upon receipt of cash payment in advance or security or other proof of responsibility satisfactory to Indiana Furniture. If buyer fails in any way to fulfill the terms and conditions set forth herein, Indiana Furniture may defer shipments until such default is corrected. Remedies provided herein shall be in addition to, and not in lieu of other remedies. Buyer agrees to abide by payment terms as listed on invoice. Buyer shall pay all reasonable costs and expenses, including attorney and collection fees, and late fees, incurred by Seller in connection with any amounts due for goods ordered.

CANCELLATIONS AND CHANGES
Due to immediate production on build to order items, all orders are considered firm and are not subject to cancellation or change without approval from Indiana Furniture. All approved changes are subject to additional charges and revised lead times.

PRODUCT DESIGN AND SPECIFICATION CHANGES
Indiana Furniture reserves the right to make changes in design and construction or discontinue products without prior notice.

REPAIR CHARGES
Indiana Furniture will only pay repair charges if Customer Service gives prior written authorization. No repair charge will be paid without advance approval at which time you will be issued a repair authorization number that will allow you to invoice Indiana Furniture for the completed work.

WAREHOUSE STORAGE CHARGES
If a shipment is held beyond 14 calendar days at your request **a .067% per calendar day** (2% per month) storage charge will be assessed. The effective date will be 14 calendar days after the acknowledged ship date. Further, the prices applied to the order will be those in effect at the time of shipment.

DAMAGED MERCHANDISE
The consignee is responsible for filing claims with the carrier for damage and shortages. Claims for both obvious and concealed damage must be filed within 15 calendar days, and the damaged merchandise must not have been moved from the original receiving location. All damaged merchandise, including the cartons and packing materials, must be retained for inspection by either the carrier or by an Indiana Furniture Sales Representative. Indiana Furniture reserves the right to select the most cost effective way to repair or replace the damaged item. Once you have notified the carrier, please contact Customer Service for further assistance.

Obvious Damage/Missing Cartons - Do not refuse merchandise damaged in transit. Indiana Furniture recommends the consignee inspect all merchandise upon arrival. If a shipment is received damaged or short, note all information on carrier's copy and your copy of freight bill and delivery receipt. Notify the delivering carrier and file a claim immediately. Pending the results of your claim, either Indiana Furniture or the carrier will cover 100% of the cost to repair or replace the damaged or missing item.

Concealed Damage - If concealed damage is discovered, notify the delivering carrier at once and request an inspection. This must be done within **15 calendar days of delivery**. If the carrier will not perform the inspection, you should prepare an affidavit that you contacted them, noting the time and date, and that they failed to comply with your request. This, along with the other papers in your possession, will support the claim. Pending the results of your claim, the cost to repair or replace the item will be covered 1/3 by the carrier and 2/3 by Indiana Furniture for shipments less than a full truckload and 100% by Indiana Furniture for shipments of full truckloads.

RETURN MERCHANDISE
Merchandise will not be accepted for return without an RGA (Return Goods Authorization) issued by Indiana Furniture. We will consider issuing RGA's for the following reasons:

1. Manufacturing defect (inspected by Indiana Furniture representative)
2. Indiana Furniture order processing error
3. Shipping error
4. Mis-marked cartons
5. Duplicated shipments

If you have any questions as to whether your reason for return qualifies for consideration, please contact your Customer Service Representative. Merchandise must be returned within 60 days of the RGA issued date, or within 60 days upon receipt of replacement product to receive credit. Returns due to mis-marked cartons must also be returned in the original cartoning, with shipping labels intact, to receive credit.

All merchandise being returned must be properly packed and protected to ensure no further damage is incurred during transportation back to an Indiana Furniture facility. Upon receipt, all returned merchandise will be thoroughly inspected and the results compared to the reason for return stated on the RGA. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

DELIVERY AND FREIGHT CHARGES
All shipments are F.O.B. Point of Origin, Jasper, IN, freight prepaid and allowed. Ownership and responsibility of the merchandise becomes that of the buyer upon delivery to the freight company. Shipments into Alaska, Hawaii, Canada, Mexico, Puerto Rico and other exports are freight prepaid and allowed to port of exit.

Indiana Furniture reserves the right to select the most appropriate carrier and routing on all shipments. Indiana Furniture will attempt to accommodate requests for favored carriers and delivery times. Deliveries requested Monday through Thursday, after 3pm, will be assessed a $200 per truck after hours fee. Deliveries requested after 3pm on Friday or on weekends, will be assessed a $400 per truck weekend delivery fee.

Inside delivery and installation services are not included in the pricing shown. Any order requiring non-dock or residential, inside delivery must specify such on the order. Should either of these services be requested or required, all charges incurred will be charged to the "Sold To" of the order.

Orders of less than 750 pounds will be assessed a handling charge of $75.00 Net Per Order. (This will be waived for items shipped via a small package carrier.)

BIFMA AND ANSI TESTING
Indiana Furniture is a member of the Business and Institutional Furniture Manufacturer's Association (BIFMA). Tests developed by the BIFMA and approved by the American National Standards Institute (ANSI) determine the strength and durability of casegoods and seating in its everyday use. Although this testing does not serve as a warranty or guarantee, Indiana Furniture products within this price list have been tested by an independent verifying body and meet or exceed applicable BIFMA and ANSI standards.

How to Order

MODEL NO.	DESCRIPTION	
12-3672BDP	Finish	CF
	Top	W
	Edge	X
	Pull	NBT

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced American hardwood veneers carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer worksurfaces are 5-ply balanced construction, 1" thick with solid hardwood rims. High pressure laminate worksurfaces are 3-ply balanced construction, 1" thick with solid hardwood rims. Worksurfaces feature shaped edge profiles on all four sides. Grain direction runs left to right unless noted.

CHASSIS CONSTRUCTION

Veneer chassis are fastened by screws, glue, and metal fasteners to assure maximum strength. Units feature finished backs unless noted. Units ship assembled. All units ship with leveling glides.

DRAWERS

All drawer fronts are standard with matched wood grain faces. Fronts are 3-ply construction and ¾" thick. Drawer sides and backs are wood-grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick hardboard bottoms. Drawers feature 5-sided construction allowing for easy removal of drawer fronts.

DRAWERS SUSPENSIONS

File drawers have full extension, telescopic action slides with precision steel ball bearings. Box drawers have ¾" extension ball bearing roller suspensions. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.

LOCKING

All desks, credenzas, and lateral files feature locking file drawers. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units ship randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 12 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi–step finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and ease of maintenance.

How to Order

MODEL NO.	DESCRIPTION	
68-3672BDP	Chassis	TK
	Top	WH
	Profile	F
	Drawer Front	WH
	Pull	AAC

All options must be labeled and specified.

Specifications

LAMINATES

Exposed surfaces are produced from wood grained, patterned, and solid color laminates fused to a particle-board core. Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance.

TOPS

Tops are 1" thick thermally-fused laminate (TFL) or high pressure laminate using 3mm PVC rims or profiled edges and 1 mm PVC rims on self edges. Grain direction runs left to right unless noted.

CHASSIS CONSTRUCTION

TFL chassis are fastened by screws, glue, and heavy-duty metal fasteners assuring maximum strength. Units ship assembled unless noted. All units ship with leveling glides. All desks, non-lateral credenzas, and returns have wire management access from pedestal to kneespace.

DRAWERS

All drawer fronts are 3-ply construction, ¾" thick with matched grain. Drawer sides, back, and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

Box and file drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, returns, and files feature standard locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units ship randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Grommets may be ordered in the tops of all assembled desks, returns, bridges, credenzas, and component worksurfaces. All desks, returns, and credenzas (except lateral pedestals) have standard wire openings from inside the pedestal to the kneespace allowing quick access to technology below. Additionally, returns, bridge units, kneespace credenzas, and hutch units have standard grommets available in backpanels. Grommets are also standard in the tops of corner units and extended corner units. See page 35 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

Casegoods Collection

How to Order

MODEL NO.	DESCRIPTION	
40-3672DP	Finish	EW
	Top	W
	Accent	SLV
	Pull	ABR

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in Cherry, Maple, or American Black Walnut. Veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Tops are 3-ply balanced construction and ¾" thick combined with a ½" thick sub-top to create the Elevate edge detail. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors. All units have finished backs unless noted. All desks, non-lateral credenzas, and returns have wire management access from pedestal to kneespace.

DRAWERS

All drawer fronts are standard with elegant veneer faces. Fronts are 3-ply construction ¾" thick and vertically matched in sets. Drawer interiors are constructed with wood grain vinyl wrapped sides, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

All drawers feature full extension, progressive action slides with precision steel ball bearings. Box and file drawers are tested for 100 lb capacity. Lateral files are tested for 150 lb capacity. Self-closing suspension tracks are optional on box and file drawers. All suspensions have a limited life-time warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Fully constructed units have letter width file drawers which provide letter filing front to back and letter or legal filing side to side. Component pedestals provide letter filing front to back and legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, and lateral files feature locking in black or silver to match the pulls. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Grommets may be ordered in the tops of all assembled desks, returns, bridges, credenzas, and component worksurfaces. All desks, returns, and credenzas (except lateral pedestals) have standard wire openings from inside the pedestal to the kneespace allowing quick access to technology below. Additionally, returns, bridge units, kneespace credenzas, and hutch units have standard grommets available in backpanels. Grommets are also standard in the tops of corner units and extended corner units. See page 100 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

Elevate features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

How to Order

MODEL NO.	DESCRIPTION	
57-3672DP	Finish	AC
	Top	W
	Edge	A
	Pull	BBU

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced Cherry, Maple, and American Black Walnut hardwood veneers carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 5-ply balanced construction and 1 5/32" thick. High pressure laminate tops are 3-ply balanced construction and 1 5/32" thick. Grain direction runs left to right unless noted.

CHASSIS CONSTRUCTION

Veneer chassis are fastened by screws, glue, and heavy-duty metal fasteners assuring maximum strength. All units have full modesty panels. Units feature finished backs unless noted. Units ship assembled. All units ship with leveling glides.

DRAWERS

All drawer fronts are 3-ply construction, ¾" thick with matched wood grain. Drawer sides, back and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

Box and file drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, returns, and files feature standard locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units ship randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 146 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi–step finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and ease of maintenance.

How to Order

MODEL NO.	DESCRIPTION	
67-3672DP	Finish	AW
	Top	W
	Profile	F
	Pull	AAC

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in Cherry, Maple, American Black Walnut, or composite veneers of Quartered Walnut and Quartered Wenge. Veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Veneer and high pressure laminate tops are 3-ply balanced construction and 1-3⁄16" thick, with 3 mm wood edge-banded rims contoured to the selected profile. Tops are shaped on user and approach sides. Grain direction runs left to right unless otherwise noted in the item description.

CHASSIS CONSTRUCTION

Chassis is securely fastened using high quality European fastening systems and heavy-duty, 16-gauge joining brackets to assure maximum strength. Units ship assembled unless otherwise noted. All units ship with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are 3-ply construction ¾" thick, with vertically matched grain in sets. Drawer sides, back, and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms for maximum storage strength. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSION

Box and file drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, returns, and files feature standard locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units ship randomly keyed. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Grommets may be ordered in the tops of all assembled desks, returns, bridges, credenzas, and component worksurfaces. All desks, returns, and credenzas (except lateral pedestals) have standard wire openings from inside the pedestal to the kneespace allowing quick access to technology below. Additionally, returns, bridge units, kneespace credenzas, and hutch units have standard grommets available in backpanels. Grommets are also standard in the tops of corner units and extended corner units. See page 181 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

Gesso features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

GROMMET LOCATIONS

Grommets are standard in the back panels of returns, bridges, and credenzas. These units may be ordered without grommets at no additional charge. Please specify "NO GROMMET" on order.

Grommets are available on hutches in standard locations for task-light management at no additional charge. Please specify HUGRMT.

Desk grommets are available in standard locations. Please specify and add an upcharge of $46 list for each grommet.

Specify grommet locations.
GL - Grommet Left
GC - Grommet Center
GR - Grommet Right

Example: 65-3672DP-GL-GR (Grommet Left, Grommet Right)

Grommets may be ordered in non-standard locations.

How to Order

MODEL NO.	DESCRIPTION	
16-4272DPS	Finish	BC
	Top	W
	Veneer	PV
	Edge	X
	Pull	MBW

All options must be labeled and specified.

Specifications

VENEER

Choose from premium veneer or select veneer on exposed surfaces in American Black Walnut, White Oak, Cherry, or Maple species. The American Black Walnut, White Oak, and Cherry veneers are Book Matched veneer faces, while the Maple is a Slip-Matched veneer face. These veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

The wood veneer tops are available in the 6 Madera edge details, which each determine the style of construction. The "D", "E", "X", and "Y" have vertical profiles, which have a 5-ply balanced construction, 1 3/16" thick with hardwood rims. The "A" & "B" profiles have the same construction, but provide a matching reverse shape on adjoining units. The high pressure laminate tops have a 3-ply balanced construction, 1 3/16" thick with solid hardwood rims. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Tops, end panels, and modesty panels are securely fastened using high quality European style fastening systems and heavy-duty, 16-gauge joining brackets to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are standard with elegant veneer faces. Fronts are a 3-ply construction 3/4" thick, and vertically matched in sets. Drawer interiors are dovetail construction with 7/16" thick hardwood sides and backs and 5/32" thick hardboard bottoms. The drawer interiors are sanded, sealed, and finished to provide a smooth, quality feel and appearance. Drawer fronts feature multiple pull options and pull finishes which include a concealed finger pull, a waterfall shaped face-mounted pull, and an arched face-mounted pull. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSION

File drawers have high quality, progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. Box drawers are equipped with full extension ball bearing action slides with a positive stop action. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Legal width file drawers provide legal filing front to back, and letter or legal filing side to side. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.

LOCKING

All desks, credenzas, and lateral files feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Optional black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 246 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

Madera features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

GROMMET LOCATIONS

Grommets are standard in the back panels of returns, bridges, and credenzas. These units may be ordered without grommets at no additional charge. Please specify "NO GROMMET" on order.

Grommets are available on hutches in standard locations for tasklight management at no additional charge. Please specify HUGRMT.

Desk grommets are available in standard locations. Please specify and add an upcharge of $46 list for each grommet.

Specify grommet locations.
GL - Grommet Left
GC - Grommet Center
GR - Grommet Right

Example: 14-3672LP-GL-GR (Grommet Left, Grommet Right)

Grommets may be ordered in non-standard locations.
Please attach a drawing to the purchase order showing the location of the grommet.

How to Order

MODEL NO.	DESCRIPTION	
47-3672DP	Finish	AC
	Edge	X
	Pull	BBU

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in Cherry or American Black Walnut. These veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 3-ply balanced construction and 1⅛" thick. Grain direction runs left to right unless noted.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality, 16-gauge, European style fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are 3-ply construction, ¾" thick with matched wood grain. Drawer sides, back, and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

Box and file drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, returns, and files feature standard locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units ship randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Optional black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 268 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

Promise features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

How to Order

MODEL NO.	DESCRIPTION	
38-4272DP1	Chassis Laminate	YC
	Top Laminate	CN
	Edge	K
	Pull	MBA

Order must be listed as shown, with Chassis Color and Top Color specified separately.

Specifications

LAMINATES

Exposed surfaces are produced from wood grained, patterned, and solid color laminates fused to a particle-board core. Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance.

TOPS

HPL tops are 3-ply construction, 1 3/16" thick with PVC rims. Tops are shaped on all four sides for complete design appeal. Tops are available in eleven wood-look laminates, four pattern laminates, and two different edge details.

CHASSIS CONSTRUCTION

Built to be reconfigurable, tops, end panels, and modesty panels are assembled using European-style mechanical fasteners and heavy-duty, 16-gauge joining brackets. Laminate parting rails assure a sturdy pedestal. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensate for uneven floors.

DRAWERS

All drawer fronts feature laminated fronts with banded edges. Fronts are 3-ply construction and ¾" thick. Drawer sides and backs are constructed with 7/16" thick black MDF and ⅛" hardboard bottoms. Drawers feature 5-sided construction allowing for easy removal of drawer fronts.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Desk file drawers provide legal filing or two rows of letter filing side to side. Credenza/Return file drawers provide legal or letter filing side to side.

LOCKING

All pedestals and files feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Optional black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 302 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

GROMMET LOCATIONS

Grommets are standard in the back panels of returns, bridges, and credenzas. These units may be ordered without grommets at no additional charge. Please specify "NO GROMMET" on order.

Grommets are available on hutches in standard locations for task-light management at no additional charge. Please specify HUGRMT.

Desk grommets are available in standard locations. Please specify and add an upcharge of $46 list for each grommet.

Specify grommet locations.
GL - Grommet Left
GC - Grommet Center
GR - Grommet Right

Example: 38-3672DP2-GL-GR (Grommet Left, Grommet Right)

Standard grommet locations are available on cockpit units. Contact Customer Service for more information.

Grommets may be ordered in non-standard locations. Please attach a drawing to the purchase order showing the location of the grommet.

For ordering options, see back of Resilience Identification card at the beginning of section.

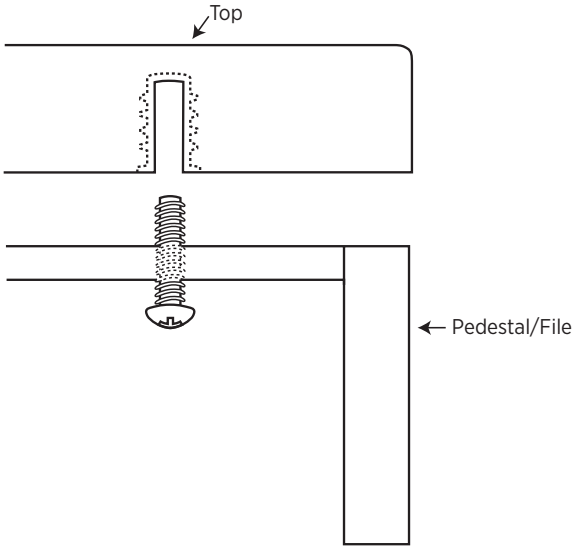
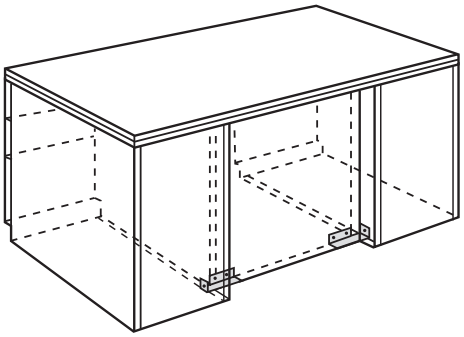
HOW PEDESTALS AND FILES ARE ATTACHED TO TOPS

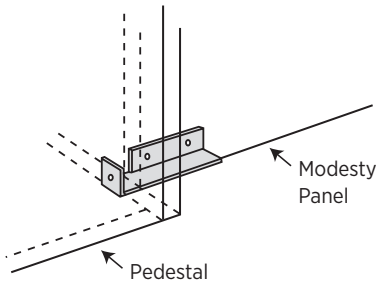
Pedestals and files are attached to tops by metal to metal fasteners. This is for the future reconfigurability of units. The diagram shows how tops are fastened with metal inserts into each top. Metal inserts are placed in all possible locations of the top for any pedestal or file configuration. Post and Cam systems are also used for the attachment of tops to pedestals and files.



HOW DESK MODESTY PANELS ARE ATTACHED TO PEDESTALS

Desk modesty panels are attached to pedestals by metal brackets. The diagram shows the bracket connecting the modesty panel to the inside of the pedestal in the kneespace. When ordering assembled units, these brackets are already used to assemble the unit. When specifying component modesty panels, two brackets will ship with each modesty panel for field assembly.





HOW CREDENZA/RETURN MODESTY PANELS ARE ATTACHED

Credenza/Return modesty panels are attached to pedestals and files by metal brackets. The diagram shows the bracket connecting the modesty panel to the inside of the pedestal or file in the kneespace. When ordering assembled units, these brackets are already used to assemble the unit. When specifying component modesty panels, two brackets will ship with each modesty panel for field assembly.

How to Order

MODEL NO.	DESCRIPTION	
42-4272DP1	Finish	AC
	Edge	X
	Pull	MBB

All options must be labeled and specified.

Specifications

VENEER

Veneers on exposed surfaces are select grade sliced Cherry, Maple, and American Black Walnut and are carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 5-ply balanced construction, 1 3/16" thick with solid hardwood rims. Tops are mitered on all four corners. Tops are shaped on all four sides for complete design appeal. Tops are available in four different edge designs. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Built to be reconfigurable, tops, end panels, and modesty panels are assembled using European-style mechanical fasteners and heavy-duty, 16-gauge joining brackets. Veneered parting rails assure a sturdy pedestal. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensate for uneven floors.

DRAWERS

All drawer fronts are standard with elegant Walnut, Cherry or Maple veneer faces. Fronts are 3-ply construction and ¾" thick with vertically matched grain. Drawer sides and backs are constructed with 7/16" thick hardwood sides and 5/32" hardboard bottoms. Drawers feature 5-sided construction allowing for easy removal of drawer fronts. Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Desk file drawers provide legal filing or two rows of letter filing side to side. Credenza/Return file drawers provide legal or letter filing side to side.

LOCKING

All pedestals and files feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Optional black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 348 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

Revolutions features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

GROMMET LOCATIONS

Grommets are standard in the back panels of returns, bridges, and credenzas. These units may be ordered without grommets at no additional charge. Please specify "NO GROMMET" on order.

Grommets are available on hutches in standard locations for tasklight management at no additional charge. Please specify HUGRMT.

Desk grommets are available in standard locations. Please specify and add an upcharge of $46 list for each grommet.

Specify grommet locations.
GL - Grommet Left
GC - Grommet Center
GR - Grommet Right

Example: 42-3672DP2-GL-GR (Grommet Left, Grommet Right)

Standard grommet options are available on cockpit units. Contact Customer Service for more information.

Grommets may be ordered in non-standard locations.
Please attach a drawing to the purchase order showing the location of the grommet.

NOTE: Tops are non-reconfigurable.

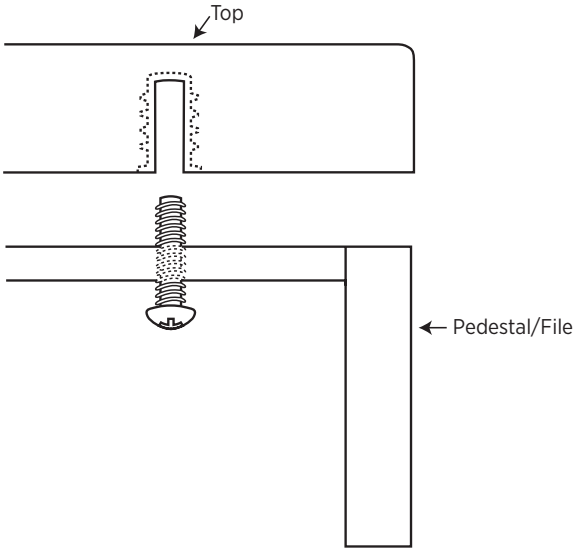
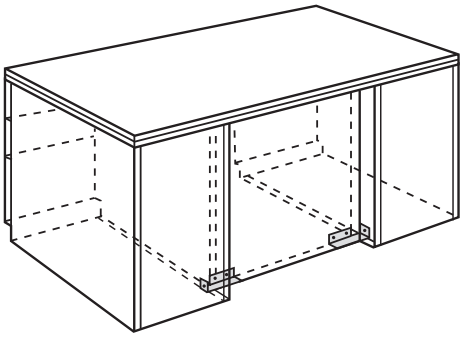
HOW PEDESTALS AND FILES ARE ATTACHED TO TOPS

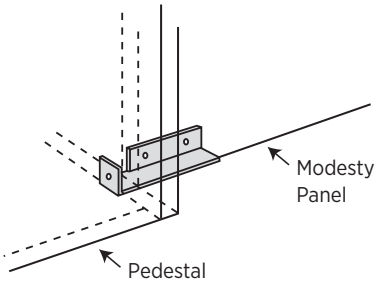
Pedestals and files are attached to tops by metal to metal fasteners. This is for the future reconfigurability of units. The diagram shows how tops are fastened with metal inserts into each top. Metal inserts are placed in all possible locations of the top for any pedestal or file configuration. Post and Cam systems are also used for the attachment of tops to pedestals and files.



HOW DESK MODESTY PANELS ARE ATTACHED TO PEDESTALS

Desk modesty panels are attached to pedestals by metal brackets. The diagram shows the bracket connecting the modesty panel to the inside of the pedestal in the kneespace. When ordering assembled units, these brackets are already used to assemble the unit. When specifying component modesty panels, two brackets will ship with each modesty panel for field assembly.





HOW CREDENZA/RETURN MODESTY PANELS ARE ATTACHED

Credenza/Return modesty panels are attached to pedestals and files by metal brackets. The diagram shows the bracket connecting the modesty panel to the inside of the pedestal or file in the kneespace. When ordering assembled units, these brackets are already used to assemble the unit. When specifying component modesty panels, two brackets will ship with each modesty panel for field assembly.

Casegoods Collection

How to Order

MODEL NO.	DESCRIPTION	
20-3672BDP	Finish	CG
	Top	W
	Pull	AFC

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced American hardwood carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 5-ply balanced construction and 1 5/32" thick. High pressure laminate tops are 3-ply balanced construction and 1 5/32" thick. Grain direction runs left to right unless noted.

CHASSIS CONSTRUCTION

Veneer chassis are fastened by screws, glue, and heavy-duty metal fasteners assuring maximum strength. Units feature finished backs unless otherwise noted. All units ship assembled unless noted. All units ship with leveling glides.

DRAWERS

All drawer fronts are 3-ply construction, ¾" thick with matched wood grain. Drawer sides, back and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

All drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, returns, and files feature standard locking. Removable lock cores allow for units to be re-keyed at a later date if required. Units ship randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Grommets may be ordered in the tops of all desks, returns, bridges, and credenzas. All desks and returns have standard wire openings from inside the pedestal to the kneespace allowing quick access to technology below. Additionally, returns, bridge units, kneespace credenzas, and hutch units have standard grommets available in backpanels. Grommets are also standard in the tops of corner units. See page 394 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi-step finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and ease of maintenance.

How to Order

MODEL NO.	DESCRIPTION	
29-3672DP	Finish	MW
	Top	P
	Pull	A

All options must be labeled and specified.

Specifications

VENEER

Veneers on exposed surfaces are select grade sliced American Black Walnut and are carefully selected and matched to assure proper balance and consistency.

TOPS

High pressure laminate tops are 3-ply balanced construction, 1 1/16" thick with solid hardwood rims. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Pedestals are of mortised and tenoned construction with all joints securely fastened with screws, hardwood screw rail brackets, and glue blocks. Solid hardwood parting rails assure a sturdy pedestal. Bases are solid hardwood with mitered corners. Superior construction offers tight tolerances and long term durability. All units equipped with heavy-duty adjustable glides to ensure proper leveling and compensate for uneven floors.

DRAWERS

All drawer fronts are standard with elegant walnut bookmatched veneer faces. Fronts are 3-ply construction and ¾" thick. Drawer sides and backs are constructed with 7/16" thick oak-grained medium density fiberboard. Drawers are constructed with ⅛" thick oak-grained hardboard bottoms. Lateral files have ¼" thick bottoms for storage applications. Drawers are assembled to assure maximum strength and durability.

DRAWER SUSPENSION

File drawers have high quality, progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. Tray and box drawers are equipped with ¾" extension ball bearing roller suspensions. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Legal width file drawers provide legal filing front to back, and letter or legal filing side to side. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.

LOCKING

Central locking is standard on all desks. One key in the lock cylinder locks all drawers in the desk. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 416 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi-step, finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and ease of maintenance.

How to Order

MODEL NO.	DESCRIPTION	
46-4284DPS	Finish	PW
	Top	W
	Molding	M

All options must be labeled and specified.

Specifications

VENEER

Veneers on exposed surfaces are select grade sliced American Black Walnut and are carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer and high pressure laminate tops are 3-ply balanced construction, 1 1/16" thick with solid hardwood rims. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Pedestals are of mortised and tenoned construction with all joints securely fastened with screws, hardwood screw rail brackets, and glue blocks. Solid hardwood parting rails assure a sturdy pedestal. Bases are solid hardwood with mitered corners. Superior construction offers tight tolerances and long term durability. All units equipped with heavy-duty, adjustable glides to ensure proper leveling and compensate for uneven floors.

DRAWERS

All drawer fronts are standard with elegant walnut bookmatched veneer faces. Fronts are 3-ply construction and ¾" thick. Drawers are constructed with 7/16" thick hardwood sides and 5/32" thick hardboard bottoms. Lateral files have ¼" thick drawer bottoms for storage applications. Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers have high quality, progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. Tray and box drawers are equipped with ¾" extension ball-bearing action slides with positive stop action. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Legal width file drawers provide legal filing front to back, and letter or legal filing side to side. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.

LOCKING

Central locking is standard on all desks. One key in the lock cylinder locks all drawers in the desk. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 438 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi–step, finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and easy maintenance. Wood veneer tops are shipped standard with satin sheen finish unless order is specified with "high sheen tops." Optional Jefferson 4600 Series high sheen tops feature a full-filled rubbed mirror-like appearance. See page 426 for high sheen top option.

Casegoods Collection

How to Order

MODEL NO.	DESCRIPTION	
36-3672DP	Finish	MW
	Top	W

All options must be labeled and specified.

Specifications

VENEER

Veneers on exposed surfaces are select grade sliced American Black Walnut and are carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer and high pressure laminate tops are 3-ply balanced construction, 1 1/16" thick with solid hardwood rims. Veneer tops have mitered corners and laminate tops have butt corners. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Pedestals are of mortised and tenoned construction with all joints securely fastened with screws, hardwood screw rail brackets, and metal brackets. Solid hardwood parting rails assure a sturdy pedestal. Bases are solid hardwood with mitered corners. All units have finished veneer backs. Superior construction offers tight tolerances and long-term durability. All units equipped with heavy-duty, adjustable glides to ensure proper leveling and compensate for uneven floors.

DRAWERS

All drawer fronts are standard with elegant walnut bookmatched veneer faces. Fronts are 3-ply construction and 3/4" thick. Drawer interiors are constructed with 7/16" hardwood sides and backs and 5/32" thick hardboard bottoms. Lateral files have 1/4" thick drawer bottoms for storage applications. The drawer interiors are sanded, sealed, and finished to provide a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers have high quality, progressive full extension slides with precision ball bearings to ensure a smooth, quiet operation. Tray and box drawers are equipped with 3/4" extension ball bearing action slides with positive stop action. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Legal width file drawers provide legal filing front to back, and letter or legal filing side to side. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.

LOCKING

Central locking is standard on all desks. One key in the lock cylinder locks all drawers in the desk. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 468 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi–step, finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and easy maintenance. Wood veneer tops are shipped standard with satin sheen finish unless order is specified with "high sheen tops." Optional Wilmington 3600 Series high sheen tops feature a full-filled rubbed mirror-like appearance. See page 468 for high sheen top option.
