Wolverine
Non-Acid Coil Cleaner

Wolverine was designed for renovation and fast and easy deep cleaning of air conditioning coils, fins and filters. Cleaning with **Wolverine** will actually step up the heat transfer in your large or small air handling units from 40% to 80% depending on the condition of the unit. Removes dust, lint, dirt, oxidation, smoke, grease, pitting, and atmospheric salts.

Wolverine is a low odor formula and is safe to use in confined areas as well as sensitive areas of hospitals, hotels, nursing homes, etc.

WOLVERINE

Concentrated Non-Acid Coil Cleaner
"Professional Grade"

Cleans: All copper and aluminum coils, fins and filters

Removes: odors, dirt, dust, lint, oxidation, smoke pitting and salts

Caution:
Keep Out of Reach of Children

NET CONTENTS: 1 U.S. GALLON (3.78 L)

DIRECTIONS:

Shut down all systems before cleaning.
Dilute 1 part **Wolverine** to 5-10 parts water. Spray with low pressure directly onto fins or coils. Allow product to penetrate and work for about 5 minutes, then rinse. For simple application a portable hand pump sprayer is recommended. Protects frames and filters from corrosion, also helps prevent soils and odors from recurring.
Caution: Contains Sodium Hydroxide. Causes skin and eye irritation. Wash thoroughly with water after use.
Disposal: Dispose of in accordance with state, local, and Federal regulations.
