Initiate® Hard-surface Clear Glass Raceway Panels with Laminate Both Sides

GSA SIN 711-1

HON

- I-connectors standard with panel. Black only.
- Panels are 2″ thick.
- On Top Tier Panel models, each tier is 13″H.
- Glass is clear tempered safety glass.
- For use with all Systems worksurfaces, see pages 306-331.
- Panels may be connected end-to-end or with Wall Starter Kit — see pages 410-412.
- Order universal connector separately — see page 410.

⚠ **Accepts electrical power harness — see page 302, power capable.**

⚠ **Baserail cover matches trim color. Baserail is 4″H. Model HNREC is required for every end of run when using panels and must be ordered separately — see page 411.**

Initiate® Hard-surface Clear Glass Open Base Panels with Laminate Both Sides

- I-connectors standard with panel. Black only.
- Panels are 2″ thick.
- On Top Tier Panel models, each tier is 13″H.
- Glass is clear tempered safety glass.
- For use with all Systems worksurfaces, see pages 306-331.
- Panels may be connected end-to-end or with Wall Starter Kit — see pages 410-412.
- Order universal connector separately — see page 410.
- Open base panels provide lighter aesthetic and encourage air flow.
- Panels ship with polymer glide tower covers installed. Cover color will match trim paint color.
- Open base panels can be converted to raceway panels in the field. Order the raceway retrofit kit on page 412.
- Open base panels can be used in any combination with other Initiate panels (e.g., raceway, cableway, X, T, L, 120 degree).
- When an open base panel is used in application with only other open base panels (L, T or X), an extended length universal connector should be ordered. See page 410.
- When an open base panel is used in application with raceway and/or cableway panels (L, T or X), a standard length universal connector should be ordered.

⚠ **Not designed to accept electrical power harnesses, non-powered.**

Initiate® Hard-surface Clear Glass Open Base Panels Laminate One Side, Fabric Opposite Side

- I-connectors standard with panel. Black only.
- Panels are 2″ thick.
- Panel construction: extruded aluminum uprights with top and bottom rectangular steel tubes.
- On Top Tier Panel models, each tier is 13″H.
- Glass is clear tempered safety glass.
- Packaging: stretch wrapped with edge protection.
- For use with all Systems worksurfaces, see pages 306-331.
- Order universal connector separately — see page 410.
- Panels may be connected end-to-end or with Wall Starter Kit — see pages 410-412.
- Open base panels provide lighter aesthetic and encourage air flow.
- Panels ship with polymer glide tower covers installed. Cover color will match trim paint color.
- Open base panels can be converted to raceway panels in the field. Order the raceway retrofit kit on page 412.
- Open base panels can be used in any combination with other Initiate panels (e.g., raceway, cableway, X, T, L, 120 degree).
- When an open base panel is used in application with only other open base panels (L, T or X), an extended length universal connector should be ordered. See page 410.
- When an open base panel is used in application with raceway and/or cableway panels (L, T or X), a standard length universal connector should be ordered.

⚠ **Not designed to accept electrical power harnesses, non-powered.**

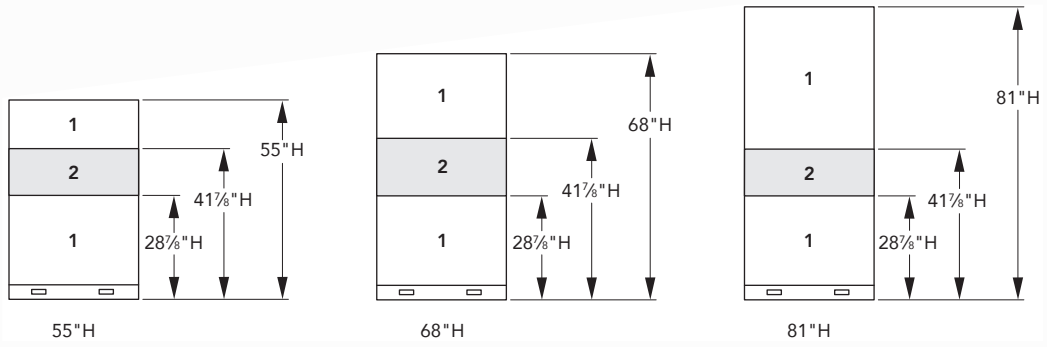
Initiate® Working with Segmented Panels

HON

Middle Tier Segmented Panels — allow one fabric on the bottom and top tier, different fabric on middle tier.

- Segments are specified from bottom segment up.
- Segment must use the same panel fabric on each side of panel.



NOTE: Use same models above for 42″ panel.

GSA SIN 711-1

Initiate® Segmented Middle Tier Raceway Panels

- Panels feature Nature Core™ fiberboard.
- Segmented panels allow you to specify a different fabric on the bottom tier.
- Segmented panels can be used with all other Initiate panels including non-raceway and non-segmented models.
- Segments are specified from bottom segment up.
- Middle tier segment is 13″H.
- Segmented panels must use the same fabric on each side of the panel.
- I-connectors standard with panel. Black only.
- Panels are 2″ thick.
- Raceway and cableway panels can be connected together.
- For use with all Systems worksurfaces, see pages 306-331.
- See page 406 for Working with Segmented Panels design information.
- Baserail cover matches trim color.
- Two wire and data management openings standard per raceway panel. 24″ panel has only one opening.
- Order universal connector separately — see page 410.
- Baserail end covers are ordered separately — see page 411.
- Panels may be connected end-to-end or with Wall Starter Kit — see pages 410-412.

F Panels have Class A fire rating.

⚠ **Baserail end cover is required for every end-of-run.**

⚠ **Electrical components must be specified separately.**

⚠ **Accepts electrical power harnesses — see page 302, power capable.**

Initiate® Segmented Middle Tier Open Base Panels

GSA SIN 711-1

HON

- Segmented panels allow you to specify a different fabric on the bottom tier.
- Segments are specified from bottom segment up.
- Middle tier segment is 13″H.
- Segmented panels must use the same fabric on each side of the panel.
- I-connectors standard with panel. Black only.
- Panels are 2″ thick.
- For use with all Systems worksurfaces, see pages 306-331.
- See page 406 for Working with Segmented Panels design information.
- Order universal connector separately — see page 410.
- Panels may be connected end-to-end or with Wall Starter Kit — see pages 410-412.
- Open base panels provide lighter aesthetic and encourage air flow.
- Panels ship with polymer glide tower covers installed. Cover color will match trim paint color.
- Open base panels can be converted to raceway panels in the field. Order the raceway retrofit kit on page 412.
- Open base panels can be used in any combination with other Initiate panels (e.g., raceway, cableway, X, T, L, 120 degree).
- When an open base panel is used in application with only other open base panels (L, T or X), an extended length universal connector should be ordered. See page 410.
- When an open base panel is used in application with raceway and/or cableway panels (L, T or X), a standard length universal connector should be ordered.

F Panels have Class A fire rating.

⚠ **Not designed to accept electrical power harnesses, non-powered.**

Initiate® Universal Panel Connectors

GSA SIN 711-1

HON

- I-connectors standard with panel. 2 per 30″H panel, 3 per 42″H panel, 4 per 55″H panel, 5 per 68″H panel, 6 per 81″H panel.

- 90 Degree universal connector standard with one (1) 2-way baserail cover, three (3) universal connector brackets and one (1) variable height connector.
- Specify to fit tallest panel.
- 120 Degree Connectors will not accept power pole models HNPP10 and HNPP16.

- 2⅛″ square universal connector can be used for 2, 3 or 4-way connections. Hardware for these connections standard with connector.
- Universal connectors standard with top cap.

- I-connector included with Universal connectors. Same quantity of I-Connectors as panels.
- 120 Degree universal connector standard with one (1) 2-way baserail cover, one (1) 3-way baserail cover, four (4) universal connector brackets and one (1) variable height connector.

- Universal connector adaptable with power pole — see page 303.
- 2⁵⁄₁₆″, 120 degree Universal connectors standard with top cap.

	Undercabinet Occupancy Sensor with 1″ End to End Connector	**HLEDOSA**	0.2 S	0.01	$ 75	N/A

NOTES: To use the daisy chain application, must start with model HLED17A or HLED31A. No finish specification required. Attaches magnetically to underside of overhead storage, or attaches with provided screws or double-sided tape. Occupancy sensor attaches to a single or starter LED light and will automatically turn the light off after no motion is detected for 30 minutes. Just like all the LED light models, the occupancy sensor features a soft-touch on/off switch. LED task lights have a lifetime of 50,000 hours and have a dimmer feature that allows the user to adjust the amount of light output.

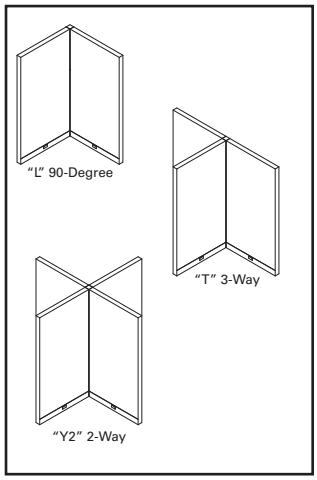
Accelerate® Panels Overview

HON

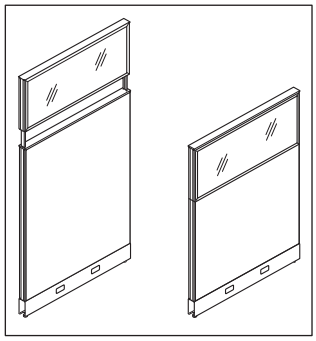
Intersecting connections



"L", "T" and "X" connector kits are used when connecting frames at intersecting runs. For "L", "T" and "X" connector kits, add 2¼″ to the total length of the panel run for each intersection, whether located in the middle or at the end of the run.

Wall starter kits provide a means to affix a panel run to a permanent building wall. Kit adds ⅞″ to length of panel run.

Stacking panels



Stacking panels ship without top caps, but utilize the top cap from the panel it is stacking on.

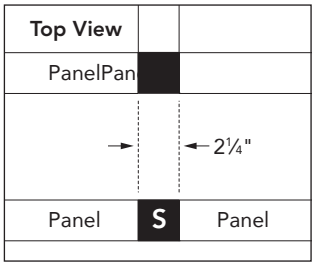
Stackers add 15″ to the height of the base panel and can be ordered separately or as part of the panel model, see pages 430 and 433.

Please note that Stacking Panels are not to be used freestanding and must match the panel width of the panel it is stacking on.

Cannot use a stacking panel on a Top Tier Glass Panel model.

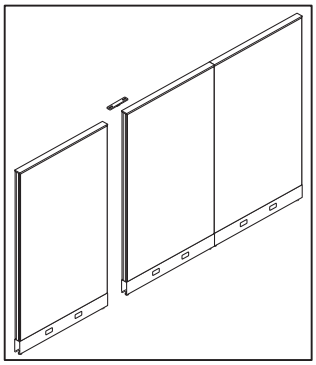
Stackers ship with pins to connect stacker to post connector for added rigidity.

Stackers can be stacked up to 80″H on a base panel. Stackers are weight bearing and can accommodate overhead storage.



Extended straight connector kit "S" can be used to keep continuous runs dimensionally consistent with opposing panel runs which incorporate "T" or "X" intersections. (Add 2¼″ to the length of the run for every extended straight connector used.)

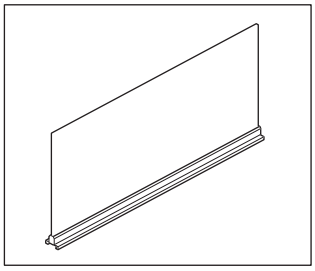
In-line connections



There is no incremental increase in dimension along the panel run when using an in-line connector kit.

End of run

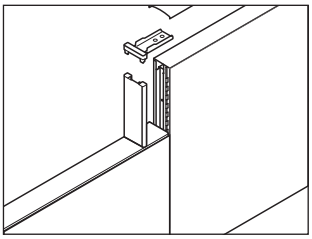
Finished end trim must be specified for the unconnected sides of panel. When adding a stacking panel, order finished end trim in the height that matches the total stacked height. Move the end cap from the standard frame end trim to the stacking frame end trim.



Accelerate® frameless glass is single pane, ⅜" thick laminate safety glass, available in clear or frosted glass.

Frameless glass can only be used on the tallest panel in a typical, not at inline or post connectors with variable height. Frameless glass is not allowed on top of glass stackers or glass header panels and hanging or stacking on frameless glass is not permitted.

Frameless glass can span multiple panels with one piece of glass, creating a clean, seamless look.



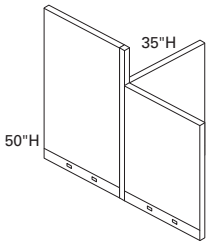
In-line Variable Height Trim In-line connections between different height panels require trim to cover the exposed frame of the taller panel.

Variable Height Connector Trim

L, X and T connections between different height panels require trim to cover the exposed connector. The bottom of the trim is flat to match the profile of the top cap. Models are designated as "Variable Height Connector Trim". For variable height connections in a Y configuration, contact the Accelerate Specials Department.

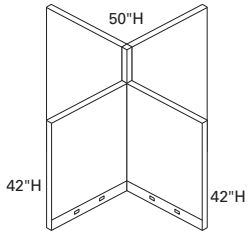
Multiple-height connections are accomplished by combining standard height panel connectors (35″H, 42″H, 50″H and 65″H) with shorter trim kits (7″H, 15″H, 22″H and 30″H). Start from the top-down — select the standard connector that corresponds to the height and connection type of the tallest panel. (See examples.)

Example 1
Connectors required:
1-50"H "T" Connector
2-15"H Connector VH Kit
2-35"H End Trim
1-65"H End Trim

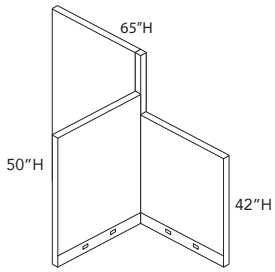


In variable height "T" connections — as shown above — you would use the connectors as indicated.

Example 2
Connectors required:
1-50"H "X" Connector
2-7½"H Connector VH Kit
2-50"H End Trim
2-42"H End Trim



Example 3
Connectors required:
1-65"H "T" Connector
1-15"H Connector VH Kit
1-22½"H Connector VH Kit
1-65"H End Trim
1-50"H End Trim
1-42"H End Trim



Example above represents Accelerate variable height "L" for 65″ to 50″.

Tackable and Non-Tackable Panels

Non-tackable panels have a unique substrate which may cause a slight color variation with certain, light-colored fabrics.

Panels

- Accelerate® Panels are 2⅛″ thick and available in 4 heights / 8 widths.

NOTE: Actual panel height varies depending on position of levelers.

NOMINAL PANEL HEIGHT	PANEL WIDTHS							
35″	**20″**	**24″**	**30″**	**36″**	**42″**	**48″**	**60″**	**72″**
42½″	**20″**	**24″**	**30″**	**36″**	**42″**	**48″**	**60″**	**72″**
50″	**20″**	**24″**	**30″**	**36″**	**42″**	**48″**	**60″**	**72″**
65″	**20″**	**24″**	**30″**	**36″**	**42″**	**48″**	**60″**	**72″**

Maximum Receptacle Capacity in Panel Base Pathways

Widths	20	24	30	36	42	48	60	72
Maximum of 1 duplex per panel side	**N/A**	**X**						
Maximum of 2 duplexes per panel side	**N/A**		**X**	**X**	**X**	**X**	**X**	**X**

The center of the duplex is always 12″ from the end of the panel on all Accelerate® panels.

Design:

- Slots allow hanging worksurfaces and hang-on units, in 1″ increments.
- Panels standard with two adjustable leveling glides.
- No panel creep.
- Meets or exceeds ANSI/BIFMA Standards.

Top Tier and Stacking Panels

- Available in tackable fabric as well as clear and frosted glass.
- Select from a full height panel/top tier panels or stackers.
- Stackers can be stacked up to 80″H on a base panel.
- Stackers are weight bearing and can accommodate overhead storage.

Panel Specification and Installation Notes

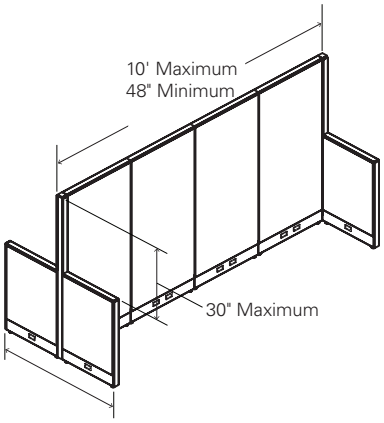
Definitions:

Parent Panel Run – Panels (or a single panel) configured in a straight line intended to divide space. It is usually longer than the panels used to stabilize it.

Return Panels – Panels attached to a parent run for the purpose of stabilizing it. Return panels may also have the effect of dividing space.

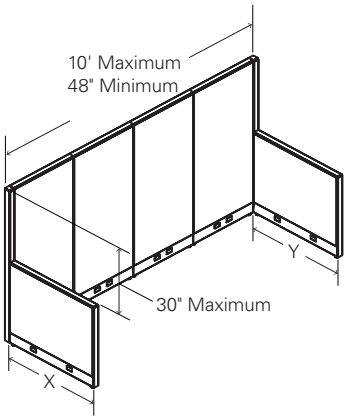
Note: Return panels must be no more than 30″ lower than the maximum height of the parent panel run. When stacking, the maximum height allowed is 80″. This includes frameless glass. If attaching overhead storage, return panels must be the same height as parent run.

Method 1: Opposing Returns



A parent panel run must be a minimum of 4 feet and a maximum of 10 feet, and must have a minimum of two return panels extended in opposing directions on each side of the parent run.

Method 2: Single Sided



A parent panel run must be a minimum of 4 feet and a maximum of 10 feet, and must have a minimum of two return panels (X+Y) extended in one direction (one at the beginning and at the end of the parent run) as defined below.

Parent Run Length	Minimum Return Panels	Minimum Return Panels with Stack-ons	Minimum Return Panels Total (X+Y)	Minimum Return Panels Total (X+Y) with Stack-ons

Panel-to-Panel Connector
- Attaches same height, panel-to-panel in a straight run with screws.
- Ensures alignment on panels in a straight run.

Wall Starter Kit (see page 436)
- Anchor devices are not supplied with the wall starter kit. Refer to Accelerate® Installation Instructions for appropriate hardware.
- Adds 7/8″ to length of run.

Accelerate® Raceway Panels

GSA SIN 711-1

HON

- Panels are 2⅛″ thick.
- Panels have steel top caps and steel baserails.
- Top caps and baserails ship standard with panels.
- Packaging: stretch wrapped with edge protection.
- Base rail and top cap match trim color.
- Panel end trim ordered separately; see page 436.
- Panels may be connected end to end, with wall starter kit, or with panel connectors; see pages 435-436.
- Order connecting hardware separately; see page 435.
- Order Accelerate® connectors separately; see page 435.
- Panels have a class A fire rating.
- Bulk packing is available in quantities of 3 or 9.
- Fabrics and finishes available on pages 420 and 421.
- For information regarding the use of tackable and non-tackable panels in the same application, see page 424.

⚠ **Baserail cutout covers are not replaceable once removed.**
⚠ **Raceway panels option only.**
⚠ **Do not remove electrical knock outs unless duplex is needed. For replacement covers, see page 303.**

⚠ **Accepts electrical power kits, except for 20″W. See page 302 for electrical.**
⚠ **Stack on panels add 15″ of height and can be added to any monolithic panel. See stackers on page 433.**
⚠ **Stackers are weight bearing and can accommodate overhead storage.**

Accelerate® Non-Tackable Raceway Panels

- Panels are 2⅛″ thick.
- Panels have steel top caps and steel baserails.
- Top caps and baserails ship standard with panels.
- Packaging: stretch wrapped with edge protection.
- Base rail and top cap match trim color.
- Panel end trim ordered separately; see page 436.
- Panels may be connected end to end, with wall starter kit, or with panel connectors; see pages 435-436.
- Order connecting hardware separately; see page 435.
- Order Accelerate® connectors separately; see page 435.
- Bulk packing is available in quantities of 3 or 9.
- Fabrics and finishes available on pages 420 and 421.
- Panels have a class C fire rating.
- For information regarding the use of tackable and non-tackable panels in the same application, see page 424.

⚠ **Baserail cutout covers are not replaceable once removed.**
⚠ **Raceway panels option only.**
⚠ **Do not remove electrical knock outs unless duplex is needed. For replacement covers, see page 303.**
⚠ **Accepts electrical power kits, except for 20″W. See page 302 for electrical.**

Accelerate® Top-Tier Glass Panels

GSA SIN 711-1

HON

- On top-tier panel models, each tier is 15″H.
- Glass is clear or frosted, tempered safety glass.
- Panels are 2⅛″ thick.
- Panels have steel top caps and steel baserails.
- Packaging: stretch wrapped with edge protection.
- Base rail and top cap match trim color.
- Panel end trim ordered separately; see page 436.
- Panels may be connected end to end, with wall starter kit, or with panel connectors; see pages 435-436.
- Order connecting hardware separately; see page 435.
- Order Accelerate® connectors separately; see page 435.
- Panels have a class A fire rating.
- Bulk packing is available in quantities of 3 or 9.
- Fabrics and finishes available on pages 420 and 421.
- For information regarding the use of tackable and non-tackable panels in the same application, see page 424.

⚠ **Raceway panels option only.**
⚠ **Do not remove electrical knock outs unless duplex is needed. For replacement covers, see page 303.**

⚠ **Accepts electrical power kits, except for 20″W. See page 302 for electrical.**
⚠ **Stack on panels add 15″ of height and can be added to any monolithic panel. See stackers on page 433.**
⚠ **Stackers are weight bearing and can accommodate overhead storage.**

⚠ **Cannot stack stacker on top-tier glass panels.**
⚠ **A Mounting Bracket Kit must be ordered for each door corresponding to the mounting panels width (30″, 36″, 42″, or 48″W).**

Accelerate® Panel Door

GSA SIN 711-1

HON

- Order handle separately. See handle model options below.
- Door is non-handed.
- Door measures 36″W, opening needed for door is 42″W.
- Order connecting hardware separately; see page 435.
- Order Accelerate® connectors separately; see page 435.
- Fabrics and finishes available on pages 420 and 421.
- The Sliding Doors are available in 50″, 65″, and 80″H models and can mount to 30″, 36″, 42″, and 48″W panels.
- All doors are 42″ wide, provide a 36″W opening, and are non-handed.
- For information regarding the use of tackable and non-tackable panels in the same application, see page 424.

⚠ **Must be used with a base panel and stacker equalling 80″H.**
⚠ **A Mounting Bracket Kit must be ordered for each sliding door corresponding to the mounting panels width (30″, 36″, 42″, or 48″W).**

Accelerate® Stacking Panels

- Stacking panels ship without top caps, but utilize the top cap from the panel it is stacking on.
- Stackers add 15″ or 30″ to the height of the base panel.
- Stacker ships with pins to connect stacker to post connector for added rigidity.
- Select complete panels with top-tier glass, or add glass/fabric stackers separately to existing panels. See page 430 for complete panels information.

⚠ **Not to be used freestanding.**
⚠ **Stackers can be stacked up to 80″H on a base panel.**
⚠ **Stackers are weight bearing and can accommodate overhead storage.**

⚠ **Stacking model must match the width of the panel it is stacking on.**

Accelerate® Variable Height Finished End and Wall Starter Kits

GSA SIN 711-1

HON

➤ In-line Variable Height Finishing Kit is used to connect a finished in-line panel connection.

➤ Variable height finishing kit is used at a drop in height an L, T, X, or S connection.

➤ All kits come with all hardware needed to install the kit.

⚠ **Variable height kit needs to be specified any time a change of panel height occurs.**

⚠ **Finished end covers must be specified at all end of panel runs.**

Description	Model	Ship Weight	Cube	List by Paint Grade: Core	List by Paint Grade: Metallics

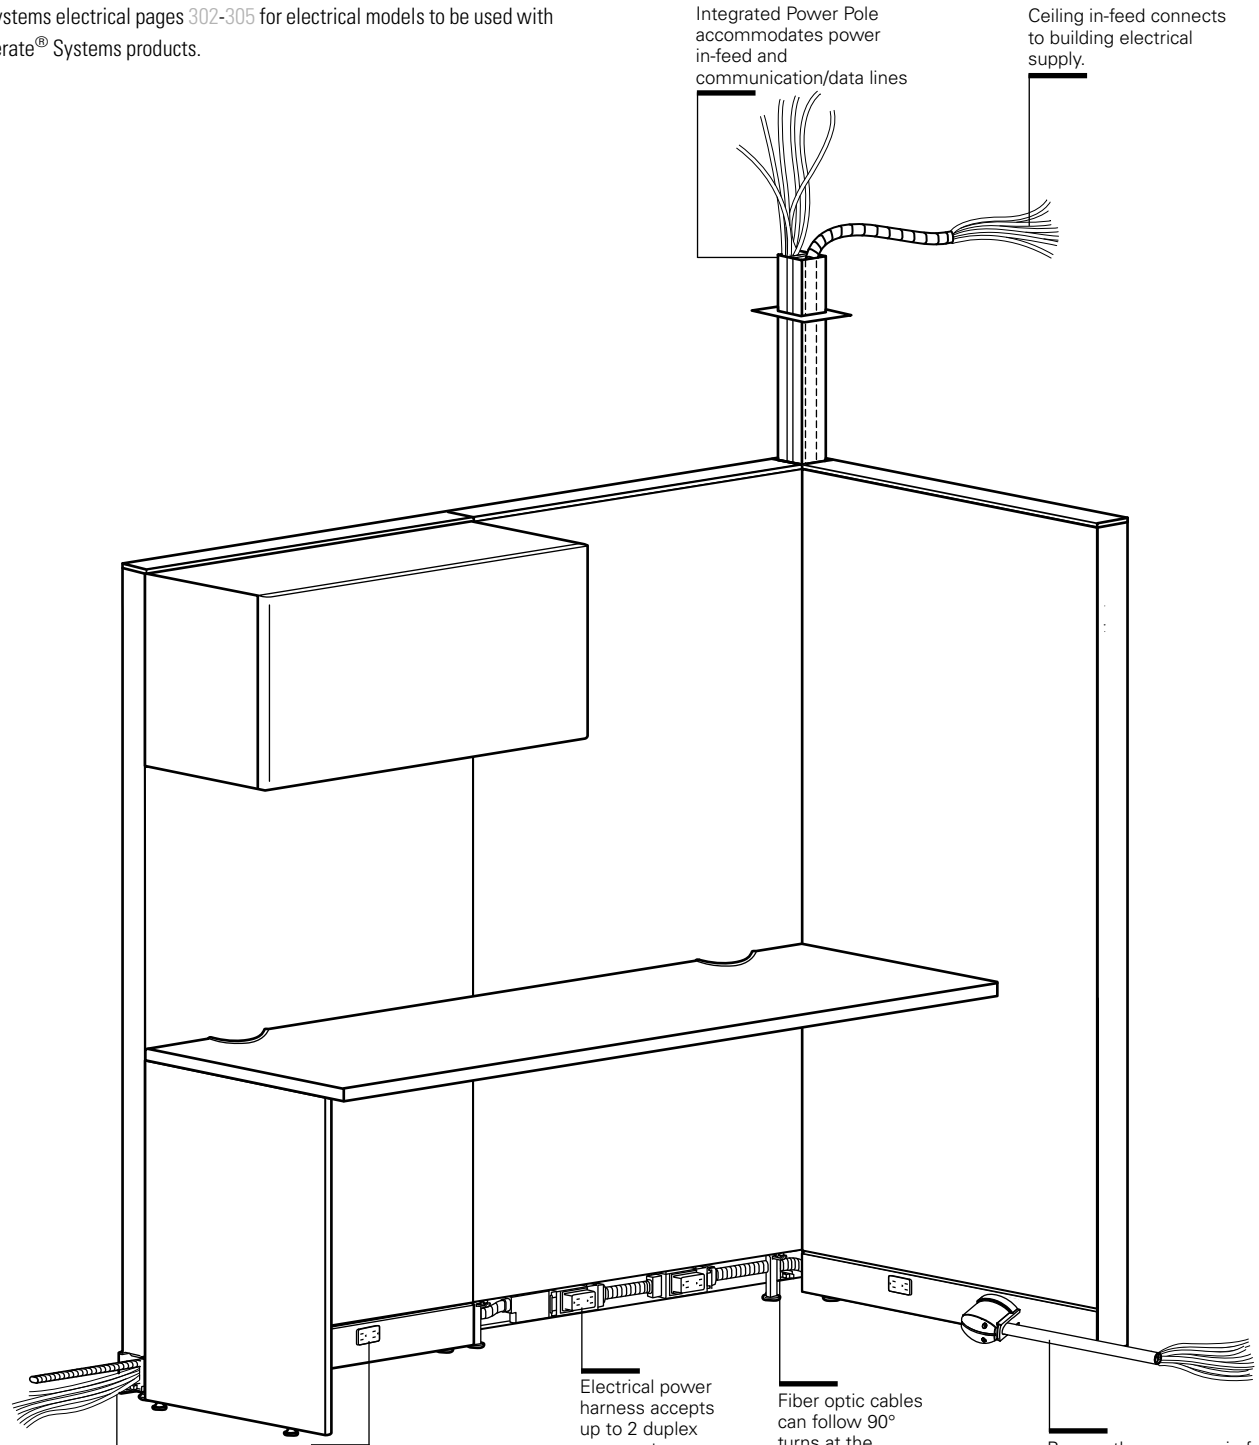
A B I ⚠ S Icon Legend on page 11

Accelerate® features capabilities for cable management, including electrical, voice, and data. The 8-wire electrical system can be integrated at base pathway. See Systems electrical pages 302-305 for electrical models to be used with Accelerate® Systems products.



The Accelerate electrical systems

Accelerate offers a choice of three electrical systems:

- Four-circuit, 3 + 1
- Four-circuit, 2 + 2
- Three-circuit, separate neutrals

All three systems utilize an 8-wire electrical system, rated at 20 amps per circuit (15 amps Canadian). See pages 297-298 for a detailed explanation of each electrical system.

Accelerate panels and electrical components are UL Listed. Electrical components are also CSA certified.

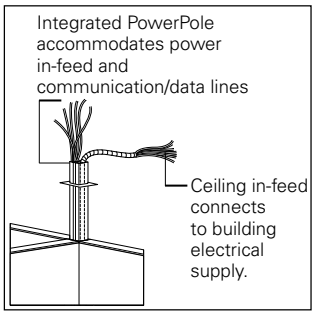
Installation and use of the electrical system, the number of receptacles used on a given circuit and connections to the building power supply should be in compliance with all local and national electrical codes.

Caution: Electrical equipment cords or extension cords MUST NOT BE ROUTED through cable openings in frame sides.

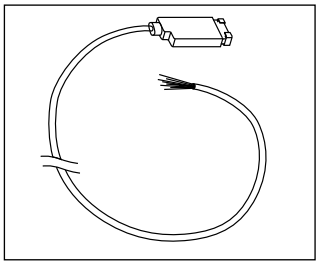
Accelerate's electrical harnesses are UL listed and are considered raceways themselves as defined by the National Electrical Code. This means there is no separation requirement between the electrical harnesses and communications cables per Sec. 800-52 of the National Electrical Code. Communication cables may be placed next to Accelerate's electrical components without a metal septum and will still meet the guidelines of the Telecommunications Industry Association for separation of power and data.

In-feeds

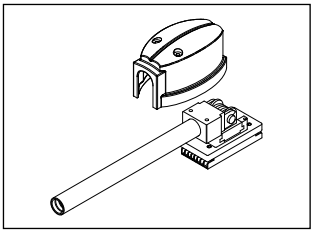
Power in-feed cables deliver power from building to system. In-feed cables are housed in conduit to separate electrical system from communications and data lines.



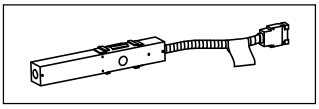
Integrated power and communications poles provide capacity for routing power supply directly through the top of any connector. Power pole has a cavity on each side of a center septum. When using a ceiling power in-feed, consider that the in-feed must connect into an electrical harness located in an adjacent panel. (See pages 299-301 for cable capacity.)



Ceiling power in-feed connects to a prewired electrical harness in the beltline or base pathway, traverses through an adjacent panel and terminates in the junction box at the top of the integrated power pole. For use with integrated power pole models HECPP. No portion of the flex cable can be exposed after installation.



Sealtight base pathway power in-feed attaches to a receptacle opening at the base pathway. A heavy rubber sheathing shields conduit, allowing in-feed to be exposed.



Hardwire (New York Code) Power In-Feed (model H871400) is used when local electrical codes require hardwire entry. When used in 24″W, 30″W and 36″W panels, power can be routed only in one direction. When used in 42″, 48″W and 60″W panels, an electrical pass-thru cable or harness for that panel width can be used to route power back in the opposite direction. Unit must connect to a power or pass-thru harness positioned in the base pathway area of an adjacent panel. Customer to furnish all cabling and wiring from power entry to power source. Junction box can be positioned at any duplex receptacle location.

Hardwire (Chicago Code) Junction Box

Wiring harnesses and snap connectors are not allowed in Chicago — base pathways must be comprised of all metallic components. Concealed mounting is the only option at beltline. For the base pathway, junction box (model HH873500) clips directly into receptacle locations. Customer must furnish conduit, wiring, standard duplex receptacles with metal covers for the beltline and designer-type receptacles for the base pathway. Power entry can be routed from the ceiling, via an Accelerate power pole, or from the floor into a junction box (model HH873500). See Systems electrical pages 302-305 for electrical models to be used with Accelerate® Systems products.

Duplex Receptacles

For Duplex Receptacle models that can be used on both Accelerate® and Initiate® panel systems, please see page 304.

All Systems electrical components can be found on page 302.

Voi® Laminate Support Pedestals

GSA SIN 711-3

HON

- Please see Voi® section of the pricer for full Voi® laminate and veneer offering, which is compatible with all HON systems series.
- Voi® Support and Power-Ready Pedestals can be used with worksurfaces.
- A variety of pedestals, end panels, and O-legs can be combined to create a conventional or contemporary desk.
- Chassis and drawer front woodgrain and solid laminates are specified separately (see SIF options below).
- File drawers accept hanging folders in letter or legal size.
- Multiple handle locations possible per customer preference.
- Ships with one handle per drawer.
- Drawer Organizer model HLSLDRWORG works with box drawers.
- Box and file drawers operate on ball-bearing suspension with full extension.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 1¼″ adjustable range.

⚠ **Pedestals ship fully assembled but must attach to a worksurface with a quick release bracket, provided. Pedestals are non-handed and are interchangeable.**

⚠ **Locking units equipped with HON "One Key" interchangeable core removable locks. Keyed alike core must be ordered separately.**

	Description	Model	Ship Weight	Cube	List

Voi® Laminate Support Storage

- Voi® Support and Power-Ready Storage can be used with Accelerate® worksurfaces.
- Ships with one handle per drawer on all units.
- A variety of pedestals, end panels, and O-legs can be combined to create a conventional or contemporary desk.
- Bookcase can only mount exterior facing under a worksurface.
- Chassis and drawer front woodgrain and solid laminates are specified separately (see SIF options below).
- File drawers accept hanging folders in letter or legal size.
- Multiple handle locations possible per customer preference.
- Storage accessory model HLSLDRWORG works with box doors.
- Standard box drawers operate on ball-bearing suspension with full extension. File, lateral, and wide box drawers operate on ball-bearing suspension with full extension.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 2″ adjustable range.
- When using two lateral files, a 60″ worksurface cannot be used, a 66″ worksurface must be specified, which will show a gap.

⚠ **Cannot fit binders on both shelves of bookcase model HLSL240BC and HLSL300BC.**

⚠ **Must be specified under a worksurface 60″W or wider.**

⚠ **Locking units equipped with HON "One Key" interchangeable core removable locks. Keyed alike core must be ordered separately.**

Accelerate® ETA Overheads and Shelves

- Storage Cabinets with doors are standard with a factory installed core removable lock located on the underside of the cabinet.
- All units feature an anti-dislodgement device.
- Accepts under cabinet lighting.
- ETA overheads and shelves ship flat packed.
- Only one installer is needed to assemble an ETA overhead on a panel (all sizes).
- Attachment brackets are attached to the back of the unit (included).
- ETA overheads and shelves are slightly less deep than built-up models. Please note when using next to built-up models.
- Order overhead and shelf to match the width of panel being used.

⚠ **Keyed alike cores must be ordered separately — see page 743.**

⚠ **Cannot be used in off-modular applications because attachment bracket is attached to the back of the case and cannot be moved.**

Voi® Overhead Storage

GSA SIN 711-2

HON

- Voi® Overhead Storage can be used with Accelerate® panels.
- All Overhead Cabinets shown below can be used as a wall mount, panel mount or stack-on storage with O-leg.
- Can be mounted on O-legs, panel brackets or wall mount brackets. See page 447.
- Tackboards are available for wall mount storage applications.
- Sliding Door pulls are specified and ship with all models (use is optional).
- Overhead cabinets with four doors are available in laminate or mixed materials.
- Overhead and Stack-on storage units do not lock.
- For all color specifying combinations, see matrix on pages 74-75.
- Storage cases accept binder height items.
- Multiple handle locations possible per customer preference.
- Storage cube fits inside stack-on storage or overhead cabinet units to provide paper management.
- Wall mount brackets specified with unit. Brackets attach to case horizontally.
- For panel mounted applications, brackets and hardware are ordered separately, see page 350. Brackets attach to panel and case is screwed into brackets. Two brackets needed for 60″ unit; three brackets needed for 66″ and larger.
- If Wall Bracket option is selected, $150 upcharge applies.

⚠ **Stack-on Storage must be placed over two full-height supports. Cannot be placed over non-supported sections such as returns using a flat bracket or tower-to-worksurface bracket.**

Voi® Overhead and Stack-on Storage

- Voi® Overhead Storage can be used with Accelerate® panels.
- Overhead and Stack-on storage units do not lock.
- Use O-Leg Support models for Overhead Cabinets.
- If Wall Bracket option is selected, $150 upcharge applies.
- Storage cube fits inside stack-on storage or wall mount units to provide paper management.
- Storage Cubes are available in the following colors: Autumn (AUTM), Citron (CITR), Flame (FLAM), Pool (POOL) and Sisal (SISL).

⚠ **Stack-on Storage must be placed over two full-height supports. Cannot be placed over non-supported sections such as returns using a flat bracket or tower-to-worksurface bracket.**

Voi® Shared Overhead Storage Components

GSA SIN 711-2

HON

- Overall case depth is 19″D including the sliding door.
- Use Shared Overhead and attachments in small footprint applications.
- Sliding door is 15″H, providing a 1″ valance below the case which can be used as a finger pull if desired.
- Shared Overhead panel mount brackets and overhead post legs allow overhead to span over all panel systems or run down the spine wall, centered on top of the panel.
- Post legs can attach to all low credenza models and all worksurface models.
- Markerboard insert is markerboard laminate with black edges, no frame.

⚠ **Overhead units do not lock.**
⚠ **Shared Overhead must be ordered as left or right to determine open storage location.**

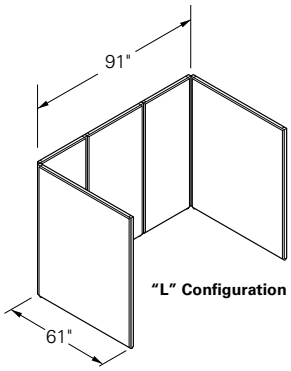
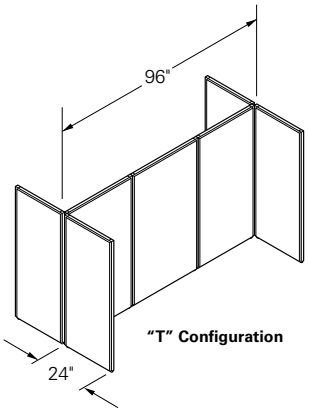
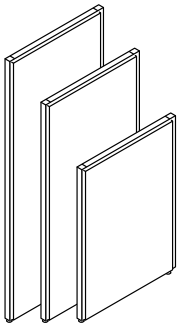
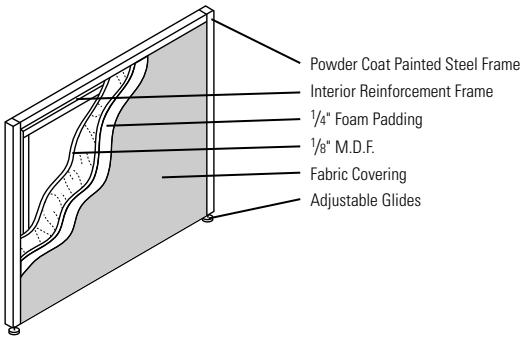
Notes









FEATURES

Panels

- Use Versé as a privacy panel (stand alone) to create room division and separate tight spaces.

QuickConnect (See page 473 for more details on this hardware.)

- Our QuickConnect connectors allow for easy installation. Simply snap on the connectors at the top and bottom of the panel and slide the panels together. There are only two connectors to specify for almost all configurations.

Storage

- Shelving capabilities. Each panel width must match width of shelf.

PANEL DIMENSIONS AND GROWTH ALLOWANCES

- All panel runs must be supported at each end of the panel run and supported at least every 8' within the panel run (maximum of 8' between supports).
- Support can be in the form of an adjustable wall bracket or return panel at 90˚ to the run.
- When using an "L" configuration, the return panel must measure at least 60% (minimum 36") of the unsupported run.
- When using a "T" configuration, each return panel must measure at least 20% of the unsupported run.
- Return panels can be no more than 24" lower than the panel height in the unsupported run.
- When used in conjunction with hanging shelves, panel width must match width of shelf.

VERSÉ PANELS

Includes

- Adjustable glides with all panels.

What Do I Need?

- QuickConnect Connectors.

Special Notes

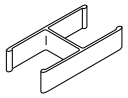
- Versé panels feature a soft, padded look.
- Panels packed two per carton when possible.
- DB Daybreak fabric not available on 72" wide panels. Refer to page 471 for complete listing.

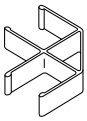
CONNECTING HARDWARE

Connection	Connectors
Straight	1 pair – 180˚
90˚ 2-way	1 pair – 90˚
3-way	2 pair – 90˚
4-way	3 pair – 90˚

Versé QuickConnect User Instructions

- Versé QuickConnect is easy to install. Simply snap on the connectors at the top and bottom of the panel and slide the panels together. There are only two connectors to specify for almost all configurations, including multi-height connections.
- 180˚ Straight Connector – use when connecting two panels together for a straight connection or for multi-height straight connections.
- 90˚ Corner Connector – use for 2-way, 3-way and 4-way corner connections. Only one pair is needed per corner connection or for multi-height corner connections.

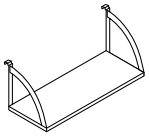




HARDWARE

Special Notes

- Connectors add to the overall dimensions of the panel installation.
- These connector dimensions are important when space planning and sizing your panel layout.
- All hardware items may ship by a parcel service.
- Use HBV-PBS bracket with freestanding furniture for optimal workstation rigidity.



SHELVES

- Steel shelves are 14½" high.
- End brackets included.
- Must match panel width.
- Easy assembly; no tools required.

Overview of Personal Storage and Pedestals

LATERAL FILES
Advantages:
a) The most efficient means of conventional filing; b) Ideal for active filing in workstations, where higher volume capacity is necessary and retrieval is frequent

Considerations:
2-drawer steel lateral files fit under standard-height worksurfaces when using panel systems.

VERTICAL FILES
Advantages:
a) Economical; b) The most widely used filing method; c) requires minimal floor space

Considerations:
Vertical files are best suited for long-term storage, where retrieval is less frequent. For larger banks of files, lateral files are more space-efficient than vertical files.

SHELF FILES
Advantages:
a) The highest density method of filing; b) Specially designed for end-tab long-term filing

Considerations:
Ideal for medical or dental offices, available as open shelves or with flipper doors.

BOOKCASES
Advantages:
a) These units are ideal for binders, reference books or other items; b) Available with your choice of fixed or movable shelves

Considerations:
If working with panel systems, it is more attractive to specify units that are lower than the panel height.

FILING TECHNIQUES

Type	Standing Files	Hanging Files	End-tab Files
Advantages	Inexpensive. Uses existing file folders.	Easier organization and identification of the file folders. Files viewed from top. Remaining files hold their place when folders are removed. Easier to re-stock.	Easiest and fastest file identification. Files viewed from side. Preferred solution for health care, insurance and other critical files with frequent retrieval. Easiest to re-stock.
Requirements	Follower block or Dividers	Hangrails or high-drawer sides	Front-access shelves
Can be used in	• Vertical files (front-to-back only) • Lateral files (side-to-side only in drawers or roll-out shelves) • Shelf files (side-to-side only)	• Vertical files (front-to-back only) • Lateral files (front-to-back or side-to-side in drawers or roll-out shelves)	• Lateral files (side-to-side only in roll-out shelves or fixed shelves • Shelf files (side-to-side only — ideal for high-density)

Flagship®/Brigade® Series Pedestals Utilization with 38000 Series, Initiate® and 66000 Series.

Pedestal Depths	Initiate® and Simplicity II Panel-Hung Worksurfaces			66000 StationMaster		38000 Series Modular Desks

19⅞″ Deep	•	•	•	•	•	•	•	•
22⅞″ Deep		•	•		•	•*	•	•
28⅞″ Deep			•				•	•

* Cannot attach 22⅞″D Hanging Pedestal.

WORKING WITH STORAGE PEDESTALS

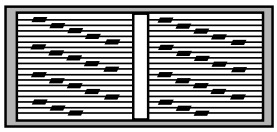
Storage Pedestals are available in 6 styles:
- Box/File Mobile.....(Model Nos. beginning in 15)
- Universal Height.....(Model Nos. beginning in 16 or 17)
- Hanging.....(Model Nos. beginning in 14)
- Worksurface Supporting**.....(Model Nos. beginning in 19 or 36)
- Under Worksurface Mobile .....(Model Nos. beginning in 18 or 33)

Worksurface height supporting pedestals have a taller base plate, resulting in a taller overall cabinet height. Consideration must be made to ensure that units align visually with each other. The accompanying chart will help you select the correct pedestal for your application.

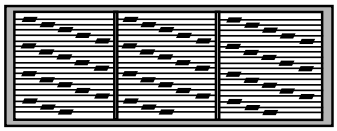
Pedestal Models (Nos. begin with)	Style	Overall Height	Base Height	Spacer Required Below Worksurface
H15	Box/File mobile	22⅝″	N/A	N/A
H16 or H17	Universal height	26⅞″	2″	OPTIONAL
H14	Hanging	19½″	N/A	N/A
H19 or H36	Worksurface supporting**	28″	3⅛″	NO
H18 or H33	Under Worksurface mobile	28″	3⅛″	NO

** Units will support conventional 29½″H worksurfaces, WITHOUT SPACERS.

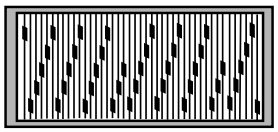
LATERAL FILING OPTIONS



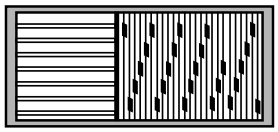
Front-to-back filing:
30″ wide files*: 30½″ of filing with letter/letter rows.
36″ wide files*: 30½″ of filing with letter/letter, legal/legal, or letter/legal rows.



42″ wide files:** 45¾″ of filing with 3 rows letter or 30½″ of 2 rows legal, or 2 standard printout rows.



Side-to-side filing:
30″ wide files: 27″ of filing with letter or legal.
36″ wide files: 33″ of filing with letter or legal.
42″ wide files: 39″ of filing with letter or legal.



Combination filing:
(front-to-back with side-to-side in one drawer)
30″ wide files: not recommended.
36″ wide files: 15¼″ of front-to-back filing and 20¼″ of side-to-side legal filing.
42″ wide files: 15¼″ of front-to-back filing and 26¼″ of side-to-side legal filing.

* Requires H919491 optional hangrails.
** Requires H919492 optional hangrails.

For Champagne Metallic Paint, Greige is the suggested edgeband color. When Champagne Metallic Paint is selected, pulls are standard in Greige.

[1]Haworth Chalk is the same as HON Muslin. When ordering this color use the HON Muslin paint code T3.
[2]Knoll Jet Black is the same as HON Black. When ordering this color use the HON Black paint code P.
[3]Steelcase Black is the same as HON Black. When ordering this color use the HON Black paint code P.

NOTES: Choice color selections do not require a customer approval. The colors can be ordered with the HON paint code noted above. If unsure of the color, please request a metal sample from HON Literature Fulfillment.

For HON's ColorCorrect® program, any textured paint will be matched as smooth paint.

Pricing for eligible product is listed on the individual list pricer pages under the column Choice/Metallic column.

No minimum order is required.

Refer to page 10 for detailed information on the ColorCorrect® program.

Custom Paint Colors
Custom Paint Colors require a specials number which can be obtained by calling HON Customer Service at 1-800-833-3964 option 2.

Metal Credenzas with Panel Frames

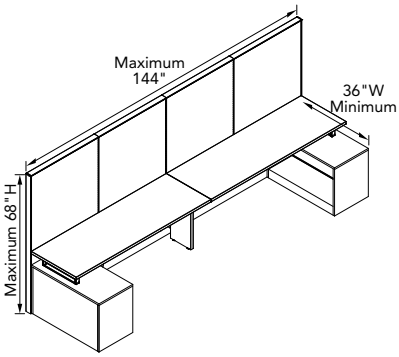
Guidelines for using Contain™ Credenzas in place of standard panel systems configurations

GSA Reference Page

Side-mounted Credenzas

Use 1 storage-to-panel bracket set.

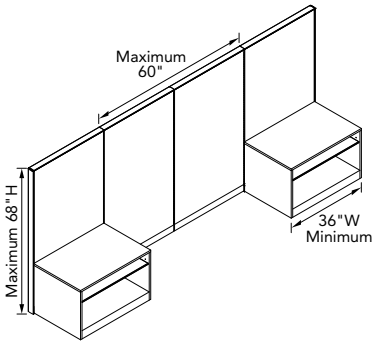
The minimum credenza size is 22″H x 36″W x 18″D.
With a mid-run floor support, the maximum panel run is 144″.
Without a mid-run panel attached floor support, the maximum panel run is 96″.
Overheads and shelves cannot be used with 22″H side mounted credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.
Panel frame maximum height is 68″.
Counterweight is required, if using unit with drawers.



Back-mounted Credenzas — Modular

Use 2 storage-to-panel bracket sets per Credenza — 2 LH and 2 RH.

The minimum credenza size is 22″H x 36″W x 18″D.
The maximum panel run between back-mounted credenzas is 60″.
Overheads and shelves cannot be used with 22″H back mounted credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.
Panel frame maximum height is 68″.



Side-mounted Credenzas — with Return Panel

Use 1 storage-to-panel bracket on Credenza LH or RH of set.

The minimum credenza size is 22″H x 36″W x 18″D.
The minimum size for panel return is 35″H x 36″W.
With a mid-run panel attached floor support, the maximum panel run is 144″.
Without a mid-run floor support, the maximum panel run is 96″.
Overheads and shelves cannot be used with 22″H side mounted credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.
Panel frame maximum height is 68″.
Counterweight is required, if using unit with drawers.
Mid-run floor support options include:
Back-to-Back Credenzas
Panel Attached O-legs
Panel Attached Support Legs

Flagship® Lateral File with Storage

- 64¼"H models complement Initiate panel and Flagship lateral file heights.
- Equipped with HON "One Key" interchangeable core removable locks. Locks on storage cabinet doors and lateral file are keyed-alike.
- Three-part, telescoping, steel ball-bearing suspension.
- Includes two adjustable shelves, adjustable in 2" increments.
- Lock mechanism serves both sides of drawer.
- Features drawer extension restraint; mechanical interlock inhibits the extension of more than one drawer at a time.
- Wire management grommet in back of unit.
- Omit lock-option available. See page 743 for ordering instructions.
- Flush top and sides.
- Choose from any of three pull options with no upcharge.
- Arch pull available in Satin Chrome only.
- Available in Arch (A), Full Face Integral (N) and Full Radius (R) Drawer Pulls. See page 461 for pull options.

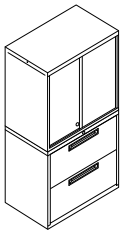
Brigade® Metal Overfiles

GSA SIN 711-3

HON



- Maximizes use of space above lateral files.
- One adjustable shelf per cabinet, adjustable at 1″ increments, up to 6″ from center position.
- Capable of accepting two tiers of 12″H binders (depending on shelf location).
- Can be used on the floor under 29½″H worksurfaces.
- Four wire dividers supplied per shelf (total 8 per unit) with locating slots every 3″ along shelf and base.
- Units fasten to new or existing lateral file cabinets (attaching hardware included).
- Units can be attached to wall behind lateral file, and/or "ganged" together for added stability.
- Compatible with Flagship, and Brigade 800, 700, 600 Lateral Files.
- "Slide-by" door design does not intrude into office or aisle space.
- Units are 18″ deep, and available in 30″, 36″ and 42″ widths.
- When fully opened, door opening is 13¼″W, 16¼″W or 19¼″W.

Brigade® 600 Series Lateral Files w/Storage

GSA SIN 711-3

- 30″, 36″ & 42″ case widths, 19¼″ case depth.
- 67″H case – matches height of 600 Series 5 Drawer laterals.
- Bottom two openings are lateral drawers, remainder of case is storage shelves.
- Lateral file drawer features are same as 600 Series Laterals shown above.
- Inside dimension of storage case is 36¼″H. Includes 2 adjustable shelves, adjustable in 2″ increments. Bottom shelves accept two rows of 3-ring binders; top opening measures: 10¼″.
- Storage case is standard with 2 hinged doors. Door pulls match lateral file drawer pulls.
- Equipped with HON "One Key" interchangeable core removable locks. Locks on storage case and lateral file are keyed alike. Lateral file drawers lock independently from storage case.
- Four adjustable leveling glides.

Brigade® 600 Series Shelf Files

GSA SIN 711-3

HON

- 36″ wide 5 and 6 fixed shelf files are offered in letter and legal depths, and in jumbo height in legal depth; locking models have one receding door per shelf.
- Shelf files accept letter or legal files side-to-side.
- Double wall construction provides extra strength.
- Receding door models operate on nylon glides installed in the door tracks.
- Two wire dividers per shelf are standard. Additional dividers available in 6 or 12 packs.
- Can be ganged back-to-back.
- Four adjustable leveling glides.
- Bright anodized aluminum recessed door pull.
- Baked enamel finish over rust-inhibiting phosphate pre-treatment.
- All receding door models are equipped with HON "One Key" interchangeable core removable locks operating two 16 gauge lock bars with tabs, which engage both sides of doors.

⚠ **Keyed alike cores must be ordered separately — see page 743.**

Select Textiles

Select Textiles is the result of The HON Company's partnership with textile industry leaders CF Stinson, Maharam, Momentum and Ultrafabrics, LLC. The extensive collection of design-driven upholstery fabrics create a superior offering at a great value. Select Textiles significantly enhances HON's offering, expanding it with fresh and exciting fabrics.

- Fabric Warranty: Select Textiles are covered by HON's Full Lifetime Warranty.
- Lead-times: Orders specified with Select Textiles will be acknowledged based on standard HON product lead times.
- Availability: HON will regularly introduce new Select Textiles and reserves the right to change the offering at any time.
- Fabric Samples: Select Textiles are carded jointly by HON and the supplier.
- Fabric Memo Samples: Please contact the supplier directly for memo samples:
  CF Stinson: (800) 841-6279
  Maharam: (800) 645-3943
  Momentum: (800) 366-6839
  Ultrafabrics: (877) 309-6648
- Find fabric designators and series availability on pages 524-525 and 544-545.

Smart Textiles

HON also offers its products in pre-approved fabrics from CF Stinson, Maharam, Momentum and Ultrafabrics, LLC. Simple to specify, these fabrics have been tested to HON's Tailored Fabrics (COM) criteria for manufacturing feasibility. Each Smart Textile has been given a HON fabric designator and grade to make the ordering process convenient. You select the fabric and HON delivers a hassle-free experience. For a complete listing, please visit *hon.com/SmartTextiles*.

- Fabric Warranty: Smart Textiles are non-standard materials and are considered Tailored Fabrics (COM). Tailored Fabrics (COM) selected by and used at the request of a user are not warranted.
- Lead-times: Orders specified with Smart Textiles will be acknowledged based on the fabric supplier's delivery schedule.
- Availability: Maharam, Momentum, CF Stinson and Ultrafabrics reserve the right to discontinue patterns and colors from this program.
- Fabric Memo Samples: Please contact the supplier directly:
  CF Stinson: (800) 841-6279
  Maharam: (800) 645-3943
  Momentum: (800) 366-6839
  Ultrafabrics: (877) 309-6648

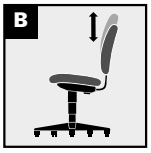
Seating Features

Work/task chairs need to be adjusted to deliver optimum support. Cross-reference the letter key below to identify the chairs in this section that best meet your needs.

PROPORTIONAL ADJUSTMENTS

These controls adapt the dimensions of the chair to fit the user.

A. Pneumatic seat height adjustment — Regulates height of chair relative to floor.



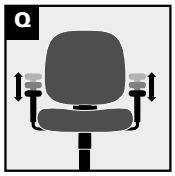
B. Back height adjustment — Positions lumbar support within a fixed range.

C. Seat depth adjustment — Positions chair back relative to seat.

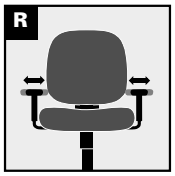
D. Seat glide mechanism — Seat cushion travels forward and back, then locks into position.

ARM OPTIONS

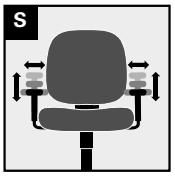
These adjustments accommodate different sized users and support keyboarding.



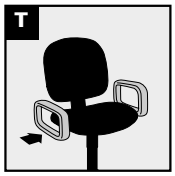
Q. Adjustable height arms — Provide improved upper-torso support. Can be adjusted periodically to relieve strain and provide variety.



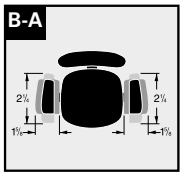
R. Adjustable width arms (patented) — Quick-adjust design places arms close to body for keyboarding, or out to sides for ease of entry.



S. Height and width adjustable arms — Controls both height and width of arms for optimum comfort.



T. Loop arms — Largely specified for aesthetics. Frequently used in management settings.



B-A. All-adjustable arms — Arms adjust in height, width, and depth.

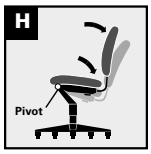
POSTURE CONTROLS

The controls modify the position and angle of the seat and back to respond to changing tasks.

E. 360° Swivel

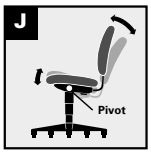
F. Tilt — Pivot point located directly above center of chair base.

G. Mid-range knee tilt — Pivot point located slightly ahead of center of chair base. Allows user to recline at a slightly more relaxed angle than conventional tilt.



H. Knee tilt — Pivot point located near front edge of chair. Allows user to keep feet flat on floor while chair reclines.

I. Synchronized knee tilt — Back reclines at a 2-to-1 ratio to seat angle. Pivot point located near front edge of chair.



J. Synchro-tilt — Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor.

K. Tilt tension — Controls rate and ease of recline.

L. Tilt lock — Locks out tilt function when chair is in upright position.

M. Posture mechanism/lock — Back angle adjusts independently of seat, and can be locked in an infinite number of positions within a fixed range.

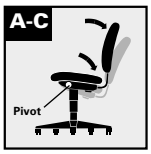
N. Multi-task control — Adjusts seat and back angles independently with a single lever (infinite locking within a fixed range).

O. Asynchronous control — High performance system with three levers to modify:

- Angle of back relative to seat
- Tilt (free float or infinite locking)
- Forward tilt.

W. Integral lumbar support — Easily adjusts to enhance comfort.

X. Dual-clutch posture control —Adjusts seat and back angles independently with two levers (infinite locking within a fixed range).



A-C. Synchronized tilt — Back reclines at a 2.5 to 1 ratio to seat angle. Variable lock.

A-D. Side tilt tension — Controls rate and ease of recline. Conveniently located on the right side.

A-E. Back reclines at a 2 to 1 ratio to seat angle. Back angle adjusts independently of seat and can be locked in infinite number of positions within a fixed range.

Fire Safety Without Compromise

ELEVATE FIRE SAFETY TO A HIGHER STANDARD

- You asked for more seating choices that meet the CAL 133 standard. Here they are. Many of The HON Company's most popular chair models are now available in an array of fabrics that include an advanced barrier of fire protection. This barrier helps HON chairs comply with CAL 133 (California Technical Bulletin 133), the industry's most stringent test for fire-retardant furniture.

DEFINITIVE PROTECTION

- The resilient filling materials used in upholstered seating manufactured by The HON Company meet or exceed the flame retardant requirements of the State of California, Department of Consumer Affairs, Bureau of Electronic and Home Appliance Repair, Home Furnishings and Thermal Insulation Technical Bulletin 117-2013. The label attached to the seat bottom indicates compliance with these requirements.
- For public buildings with at least 10 chairs in use, CAL 133 sets the bar as the accepted standard of fire safety. The CAL-TB 117-2013 standard referenced above evaluates the fire resistance of fabric, but only CAL 133 tests the entire assembled chair.
  Result: Greater assurance that your seating will not accelerate an actual fire.

HOW TO ORDER

- To ensure that the chairs you order comply with CAL 133, specify one of the fabrics listed here on any of the seating models from the pages that follow. Then simply add "FC" to the model number when ordering. **SPECIFYING EXAMPLE: H7808FC.NR62.T.**

A standard list upcharge of $90 will be applied per seat model for all single seat chairs.
For Lounge Seating, the following upcharges will apply: (Please note, the lounge upcharges do not apply to the Ignition® or Versant® seating lines. For these models, the $90 per seat applies.)
Single Seat/Club Lounge: $250 list
2-Seat/Love Seat Lounge: $325 list
3-Seat/Sofa: $400 list

Creases and gathers may be visible with CAL 133 Fire Code seating due to the construction of the fire barrier material used.

Fire Code/Compliant Seating

To ensure that the chairs you order comply with CAL 133, choose one of these seating fabrics with the seating models listed here. Then simply add "FC" to the model number when ordering as shown here:
H7808FC.NR62.T. A standard upcharge of $90 will be applied per seat model. Example, HILTL has 3 seats @ $90 per seat, $270 upcharge.

Wood Seating Ordering Information

HON

- SPECIFY: Model Number
  Finish
  Upholstery/Color Code.
  EXAMPLE: H5001.N.AB10
- Seating pages are now arranged in alpha, then numeric, order.
- **All specifications in this publication are based on the latest product information available at the time of print.**
- Tailored Fabrics (COM) Ordering Information and pricing on page 8.
- Remember to add an FC to the base model number when fire code fabric is selected. New Models with FC Fire Code suffix meet CA Technical Bulletin 133. See pages 521-523 for available models/fabrics.
- Wood components are well-seasoned select hardwoods, chosen for their strength, their ability to machine well and their superior uniformity of stain and finish.
- Chairs with leather upholstery feature matching vinyl backs and vinyl seat bottom when applicable (Non-contact areas are vinyl).

How To Order — Wood Seating

Ordering codes are composed of:
model number + finish + upholstery/color code.

Illustration of ordering codes.

Model Number 4-5 Digits					Finish 1 Digit	Upholstery 2 Digits		Upholstery Color 2 Digits	
H	5	0	0	1	N.	A	B	1	0

This above ordering code specifies a Model H5001 with Mahogany finish and Confetti upholstery in Burgundy.

Casters/Glides

Dual-wheel hooded casters are standard on all models.

Special field-installable black soft-tread casters and glides can be ordered from HON Parts Department at 1-800-336-8398.

Options — Codes

Models H6551, H6552: Nail Trim around the Seat . . . . . .B
Add $25.00 upcharge to list price.

FIRE CODE (CAL133)

Refer to CAL133 Compliant Seating matrices on pages 521-523 for a list of compliant models and fabrics. Add FC to the base model number.
Examples:
STANDARD: H2111.J.AB10
FIRE CODE: H2111FC.J.AB10

Riley™ Seating Specifying Information

Riley models can be ganged to create seating areas in Office, Education or Health care settings. Using Four different seating models as well as two table styles, the possibilities are limitless. Shown below are the Riley models and examples of ganged seating applications. *NOTE THAT ALL REFERENCES TO SIDE ARE FROM THE SEATED PERSPECTIVE.*

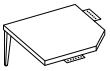
HWGN1
Guest Chair
- May be used as a standalone model or for use with table models HWGNC or HWGNT on either side.
- Not for use in ganging with other seating models. No chair connection on either side.

HWGN2
Starter Gang Chair
- May always be part of a ganged seating solution.
- May be used with HWGN3 or tables HWGNC or HWGNT on the left side.
- Left side no connection, right side holes.

HWGN3
In-Line Gang Chair
- Used for in-line positions only. Not for use in a starting or end position due to exposed connection points.
- Left side dowels & bracket, Right side holes.

HWGN4
End Gang Chair
- Connects only to HWGN2 or HWGN3.
- Must be used in the end position.
- Tables may be connected to the Right side.

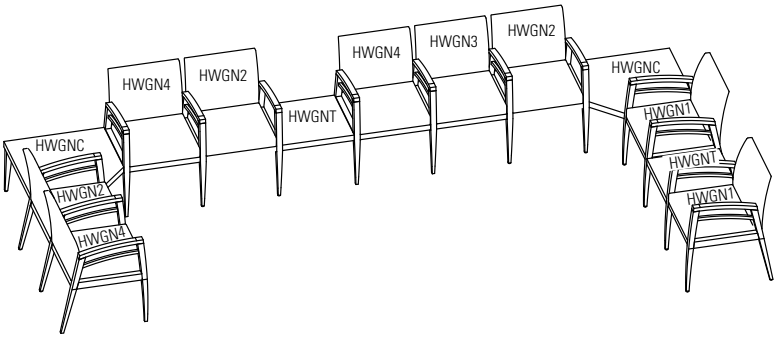
HWGN5
Bariatric Single Seat
- Standalone model only.
- May not be ganged with other seating or table models.

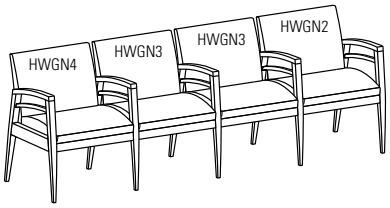


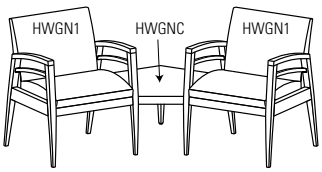
HWGNC
Corner Ganging Table
- For use with models
  HWGN1 — Either side
  HWGN2 — Left side
  HWGN4 — Right side.

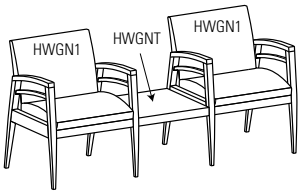
HWGNT
In-Line Ganging Table
- For use with models
  HWGN1 — Either side
  HWGN2 — Left side
  HWGN4 — Right side.

See below for Typical layouts using the models listed above.









Riley™ Series Seating

GSA SIN 711-17

HON

- HWGN1 is a stand alone guest chair that can be used with tables on either side.
- Start with model HWGN2 for an in-line ganging layout. Add model HWGN3 in between and end with HWGN4 to complete the grouping.
- Coordinating ganging tables available for use with Riley series seating. See page 538.
- Catalyzed finish for enhanced stain and mar resistance.
- Select finish grade hardwood.
- Molded nylon glides.
- For additional HON to Supply COM fabric grade pricing (M7-M12), go to **honready.hon.com** and click on the HON to Supply COM link.

F For Fire Code model, availability and ordering method, refer to matrix on pages 521-523.

⚠ **HWGN5 is a Single-seat Bariatric chair warranted to 500 lbs. Not designed to be used for ganging.**

6540 Series Seating

- Executive Model H6541 features elegant traditional styling, coupled with advanced control options.
- Traditional details include crested-back design, scalloped seat front, buttons on seat back and nailhead trim on arms.
- Seating shell on both Executive models is molded from a composite consisting of recycled wood fiber for "molded in" comfort.
- All exposed wood is select hardwood.
- Fully-upholstered outer back.
- Model H6545 Guest Chair is styled to complement Executive models, but uses traditional construction.
- Brass, dual-wheel, hooded casters roll effortlessly and silently.
- COM yardage shown is for Pattern Cut only. Contact Customer Service for Railroaded yardage requirements.
- For additional HON to Supply COM fabric grade pricing (M7-M12), go to **honready.hon.com** and click on the HON to Supply COM link.

⚠ **Grade II fabric is not available on this series.**

Steel Seating — Ordering Information

HON

- SPECIFY: Model Number
  Upholstery/Color Code
  Frame Color
  EXAMPLE: H5901.AB10.T
- Tailored Fabrics (COM) Ordering Information and pricing on page 8.
- Fire Code fabrics with FC foam meet requirements for CA Technical Bulletin 133.

Ordering codes are composed of: model number + upholstery/color code + frame color. Example: Use the following formula to construct ordering codes.

Options by Series

This table shows Ordering Codes for Frame Options by series. Color matched dual-wheel hooded casters are standard on all models. 2″ black soft tread wheel casters are available at NO UPCHARGE but must be indicated when ordering (as shown above).

FIRE CODE (CAL133)
Refer to CAL133 Compliant Seating matrices on pages 521-523 for a list of compliant models and fabrics. Add FC to the base model number.
Examples:
STANDARD: HIEH1.N.H.U.AB10.T
FIRE CODE: HIEH1FC.N.U.AB10.T

The following upholstery pattern will be railroaded on Flock® Seating (does not apply to stool model HFSS7):

Motivate® High-Density Sled Base Chairs

GSA SIN 711-19

HON

- Choose from contoured one-piece polypropylene backrest and seat or upholstered seat.
- HMS1 Sled Base chairs stack 12-high on the floor, or 40-high on the chair cart model HMSCART.
- HMS2 Sled Base chairs stack 6-high on the floor.

- Chairs are warranted to 300 lbs.
- Chairs are easily moved from space to space for ease in collaboration or training applications.
- Field installed glides snap-on using existing locations on the sled base frames.

⚠ **Ganging Chair Glides are designed for use on armless models of the Motivate® High-Density Sled Base Chairs only. Not for use on models specified with arms.**
⚠ **Upholstered seat model HMS2 is not designed to be stacked on the HMSCART.**

⚠ **CA Technical Bulletin 133 compliant shells available in all 13 shell colors (no upcharge).**

F For Fire Code model, availability and ordering method, refer to matrix on pages 521-523.

Nucleus® — Series Seating

GSA SIN 711-18, SIN 711-19 as Noted Below

HON

- Nucleus uses an advanced suspension material for the internal structure of the seat, which is slung over a frame, then over-molded with foam.
- The multi-directional stretch of ilira®-stretch M4, which flexes four ways, puts instant lumbar support right where you need it as you sit up, recline, stretch, and move.
- Model HN6 is a four-leg coordinated Stacking Multi-purpose Chair. HN6 stack up to four high on the floor.
- Chairs are warranted for users up to 300 lbs for normal use.
- Choose between an HN6 Multi-purpose chair with or without arms, as well as glides or casters.
- All surface caster option available on model HN6 only.
- For additional HON to Supply COM fabric grade pricing (M7-M12), go to **honready.hon.com** and click on the HON to Supply COM link.

F For Fire Code model, availability and ordering method, refer to matrix on pages 521-523.

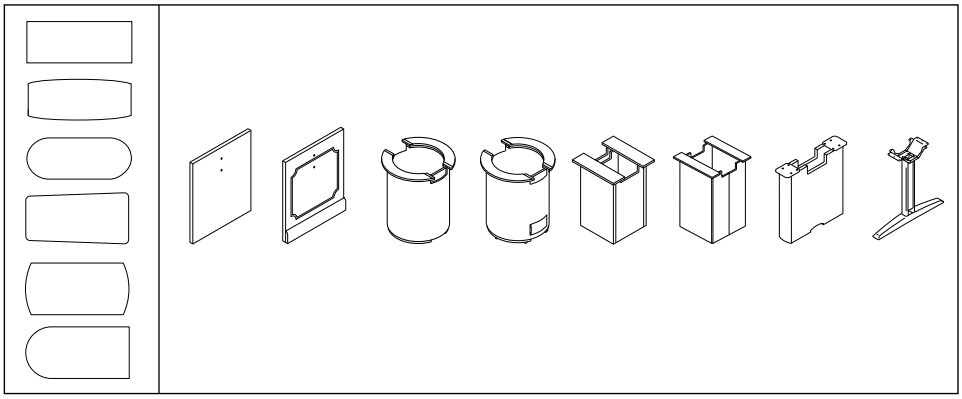
Single-piece tops: Round and Square

	36″	42″	48″	
Round				2-4
Square				2-4

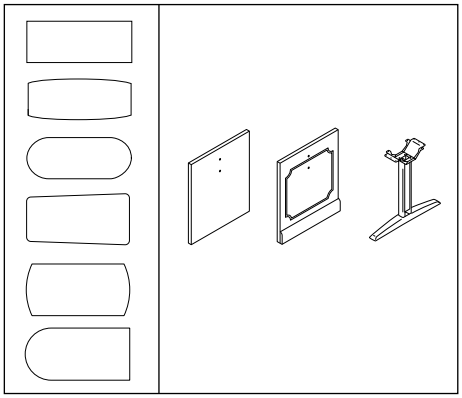
Note: Single- and two-piece tops ship in one carton, three-piece tops ship in two cartons.

Preside Base Compatibility

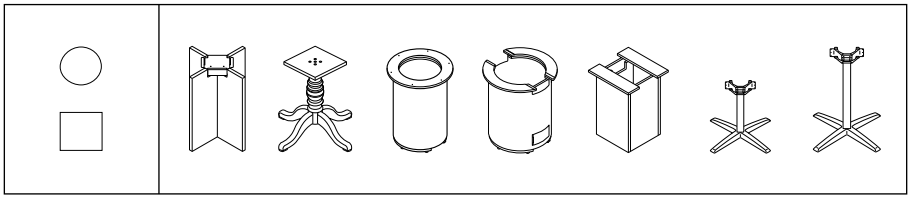
Bases compatible with 48″D and 54″D Rectangle, Boat, Racetrack, Soft Wedge, Arc End and Peninsula Tops



Bases compatible with 30″D and 36″D Rectangle, Boat, Racetrack, Soft Wedge, Arc End and Peninsula Tops



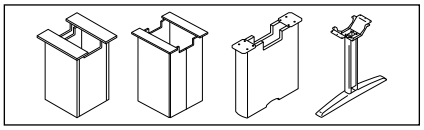
Bases compatible with Round and Square Tops



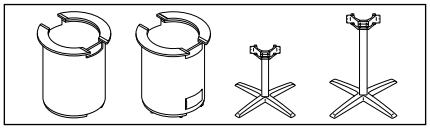
Bases that accommodate power and data

Power and data can be routed through select bases. Bases with removable doors provide easy access to concealed cabling and technology, such as wireless internet routers.

Bases with door accessibility



Bases with wire routing capabilities



Specify Preside tables with two steps—select a top and select a base.

1. Select desired top size, shape, and edge profile.

Multi-piece Tops:

Multi-piece tops are made of 108″, 120″, 144″ and 168″ two-piece "starter-sections" in rectangle, boat, or racetrack shapes in 48″ or 54″ depths. For tables up to 20′, models are preconfigured for you. If you need a table top longer than 20′, add as many 72″ adder sections as you need. The examples below illustrate preconfigured sizes as well as how starter section and adder section tops can be used to create tables in virtually any length. Please note that tops 96″ or greater, in woodgrain colors, will not have exact grain alignment in the center where the two halves meet, a reasonable match can be expected.

Preconfigured and Modular Size Examples

Preside® Specifying Information

HON

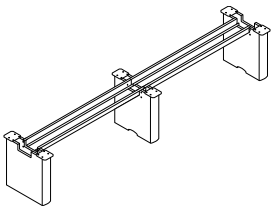
2. Select desired base style and identify model that coincides with top length.

Bases for Tops in Preconfigured Sizes

Bases include the appropriate number of supports for tables up to 20′. Simply identify the length of the table top in inches and specify the base with the same length in the model number. The example below illustrates how to select a base for a preconfigured size top.

Examples of Base for Preconfigured Top Size

Example top: HTLC48240 Top Description: 240″ Rectangle Top
Example base: HTLHP240 Base Description: Hollow Panel Base for 240″ Top



Example: HTLHP240

Bases for Tops in User Configured Modular Sizes

If you need a table top longer than 20′, add as many 72″ adder section bases as needed. The examples below illustrate preconfigured sizes as well as how starter section and adder section bases can be used to create tables in any desired length.

Examples of Tops and Bases for User Configured Modular Top

Preside® Veneer Table Tops

GSA SIN 711-11

HON

- See base options on pages 642-645.
- Veneer tops are available in six different edge details. Specify G, C, J, T, H or V as the first option after the base model.
- Tops with G, C, J, T edge detail feature 1⅛″ edge thickness and finished MDF rim.
- Tops with H and V edge detail feature 1½″ edge thickness and feature hardwood rims.
- Tops are available in eight shapes: Racetrack (A), Boat (B), Rectangle (C), Arc End (E), Peninsula (F), Soft Wedge (G), Round (D), Square (S). Replace the (?) shown in each model with A, B, C, E, F, G, D or S to specify shape. Tops with traditional (T) edge available in rectangle, round and square shapes only.
- Table tops sit 29½″ above floor with glide half way seated.
- Tops 96″ and greater, in woodgrain colors, will not have exact grain alignment in the center where the two halves meet, a reasonable match can be expected.
- Tops greater than 96″ ship in multiple pieces to facilitate handling and installation. For details see page 633.
- Woodgrain pattern runs parallel to seam on multi-piece tops.
- Veneer color match for adder sections may vary depending on date of purchase.
- For best veneer color match, product should be specified on same order.
- Flip-top Port options are not available on Round or Square tops; Pop-up ports only.
- Cannot specify a Port option for 48″ Round or Square Table Tops with Traditional edge.
- See page 637 for number of cutouts for each table top size.
- Optional cutouts are available to accommodate power ports. One centered cutout per top section. Power ports must be ordered separately. For power port specification details see page 647.
- Single and two-piece tops ship in one carton, three piece tops ship in two cartons.
- Underside of tops feature alignment guide for base placement.

⚠ **Tops with traditional edge available in Mahogany only.**

Preside® Veneer Tables — Bases

GSA SIN 711-11

HON

- Tops and bases are sold and shipped separately.
- For Base and Top compatibility, see base information on pages 633-636.
- All bases allow table tops to sit 29½″ above floor with leveling glides half-way retracted.
- Bases ship with appropriate number of supports for table width. See page 636 for details.
- Veneer panel bases feature dual aluminum support beams with integrated wire management. Support beam ships with tops on 60″ and 72″W tables and with the base on tables 96″W and greater.
- Aluminum T-legs for tops 96″W and greater feature dual aluminum support beams with integrated wire management. Aluminum T-legs for 60″ and 72″ tops do not include aluminum beams.
- Efficient design of Aluminum T-leg maximizes leg space. The T-leg features a removable door for wire access.
- Traditional panel base for 168″W Top includes two traditional panels and one standard panel.

Preside® Veneer Tables — Bases

- Tops and bases are sold and shipped separately.
- For Base and Top compatibility, see base information on pages 633-636.
- Standing-height Cube Bases are 39″H.
- Cube base requires 150 pounds of sand or other ballast in each base for stability (customer to supply).
- Veneer cube bases for tops 120″W and greater feature dual aluminum support beams with integrated wire management.
- Hollow Panel and aluminum T-legs for tops 96″W and greater feature dual aluminum support beams with integrated wire management.
- End caps for Hollow Panel bases can be matched to wood grain finishes or specified in select solid colors.
- Hollow Panel and Cube bases feature a removable door to allow access to cable and enable wire routing through bases.
- New Standing Height Bases feature a hinged door for easy access and for cable routing through the base.

⚠ **Veneer Standing Height Cube bases do not require ballast.**

Preside® Laminate Table Tops

GSA SIN 711-11

HON

- Tops are available in eight shapes: Racetrack (A), Boat (B), Rectangle (C), Arc End (E), Peninsula (F), Soft Wedge (G), Round (D), Square (S). Replace the (?) shown in each model with A, B, C, E, F, G, D or S to specify shape. Tops with traditional (T) edge available in rectangle, round and square shapes only.
- See base options on pages 651-654.
- Tops 96″ and greater, in woodgrain colors, will not have exact grain alignment in the center where the two halves meet, a reasonable match can be expected.
- Tops greater than 96″ ship in multiple pieces to facilitate handling and installation. For details see page 633.
- Tops with E, G, V, H, K and T edge details feature durable laminate tops over solid core high-performance particleboard. Tops with J edge feature an MDF core.
- Laminate tops with traditional (T) edge feature high gloss laminate and wood edge to coordinate with 94000 Series Desks.
- Table tops sit 29½″ above floor with glide half way seated.
- Laminate tops are available in seven different edge details. Specify E, G, V, H, K and J as the first option after the base model. For laminate tops with traditional (T) edge, specify "T" in the base model. See specifying information below.
- E, G, V, J, T edge details feature 1⅛″ edge thickness. H, K edge details feature 1½″edge thickness.
- Tops with E and V edge detail have 3″ radius corners. All other edge details have 90 degree corners.
- Optional cutouts are available to accommodate power ports. One centered cutout per top section. Power ports must be ordered separately. For power port specification details see page 647.
- Cannot specify a cutout option for Round or Square Table Tops with Traditional edge.
- See page 637 for number of cutouts for each table top size.
- Flip-top Port options are not available on Round or Square tops; Pop-up ports only.
- Underside of tops feature alignment guide for base placement.
- Single and two-piece tops ship in one carton, three piece tops ship in two cartons.

⚠ **Tops with traditional edge available in Mahogany only.**

Preside® Laminate Table Tops

- See base options on pages 651-654.
- Tops with E, G, V, H, K and T edge details feature durable laminate tops over solid core high-performance particleboard. Tops with J edge feature an MDF core.
- Laminate tops with traditional (T) edge feature high gloss laminate and wood edge to coordinate with 94000 Series Desks.
- Table tops sit 29½″ above floor with glide half way seated.
- Laminate tops are available in seven different edge details. Specify E, G, V, H, K and J as the first option after the base model. For laminate tops with traditional (T) edge, specify "T" in the base model. See specifying information below.
- E, G, V, J, T edge details feature 1⅛″ edge thickness. H, K edge details feature 1½″edge thickness.
- Tops with E and V edge detail have 3″ radius corners. All other edge details have 90 degree corners.
- Cannot specify a cutout option for Round or Square Table Tops with Traditional edge.
- Flip-top Port options are not available on Round or Square tops; Pop-up ports only.
- Underside of tops feature alignment guide for base placement.
- Single tops ship in one carton.

⚠ **Tops with traditional edge available in Mahogany only.**

Preside® Laminate Table Tops

GSA SIN 711-11

HON

- See base options on pages 651-654.
- Tops 96″ and greater, in woodgrain colors, will not have exact grain alignment in the center where the two halves meet, a reasonable match can be expected.
- Tops greater than 96″ ship in multiple pieces to facilitate handling and installation. For details see page 633.
- Tops with E, G, V, H and K edge details feature durable laminate tops over solid core high-performance particleboard. Tops with J edge feature an MDF core.
- Table tops sit 29½″ above floor with glide half way seated.
- Laminate tops are available in seven different edge details. Specify E, G, V, H, K and J as the first option after the base model.
- E, G, V and J edge details feature 1⅛″ edge thickness. H, K edge details feature 1½″ edge thickness.
- Tops with E and V edge detail have 3″ radius corners. All other edge details have 90 degree corners.
- Optional cutouts are available to accommodate power ports. One centered cutout per top section. Power ports must be ordered separately. For power port specification details see page 647.
- See page 637 for number of cutouts for each table top size.
- Underside of tops feature alignment guide for base placement.
- Single and two-piece tops ship in one carton, three piece tops ship in two cartons.

⚠ **Tops with traditional edge available in Mahogany only.**

Preside® Laminate Tables — Bases

- Tops and bases are sold and shipped separately.
- All bases allow table tops to sit 29½″ above floor with leveling glides half-way seated.
- Bases ship with appropriate number of supports for table width. See page 636 for details.
- Laminate panel bases feature sturdy 1⅛″ thick x 12″H particleboard support beam in matching finish. Support beam ships with tops on 60″ and 72″W tables and with the base on tables 96″W and greater.
- Traditional panel base for 168″W Top includes two traditional panels and one standard panel.
- For Base and Top compatibility, see base information on pages 633-636.
- Aluminum T-legs for tops 96″W and greater feature dual aluminum support beams with integrated wire management. Aluminum T-legs for 60″ and 72″ tops do not include aluminum beams.
- Efficient design of Aluminum T-leg maximizes leg space. The T-leg features a removable door for wire access.

⚠ **Traditional style bases available in Mahogany (N) only.**

Preside® Laminate Tables — Bases

GSA SIN 711-11

HON

- Tops and bases are sold and shipped separately.
- For Base and Top compatibility, see base information on pages 633-636.
- All bases allow table tops to sit 29½″ above floor with leveling glides half-way retracted.
- Cube base requires 150 pounds of sand or other ballast in each base for stability (customer to supply).
- Cube base features removable door for wire management.
- The X-leg allows wires to pass through the center of the leg.

	Description	Model	Ship Weight	Cube	List
 SIN 711-11	Pop-up Port • Fits into 4″ x 8″ cutout. • Specify G1 cutout in table top. • Pop-up Port provides three power ports and one blank data receptacle. • Sits flush with worksurface when closed. • Finish is anodized aluminum. • Includes 6′ cord with three-prong plug.	**HTPWRGROM1**	5.0	0.3	$ 319
 SIN 711-11	Flip-top Port • Fits into 5″ x 11″ cutout. • Specify G2 cutout in table top. • Flip-top Port provides four power ports and two blank data receptacles. • Conceals wires and allows power cords to be plugged in while in use. • Includes 6′ cord with three-prong circuit breaker plug. NOTES: Two circuit breaker plugs do not fit into one duplex.	**HTPWRGROM2**	5.0	0.3	$ 462
	Flip-top Port • Fits into 5″ x 11″ cutout. • Specify G2 cutout in table top. • Flip-top Port provides one VGA port, one HDMI port and four power ports. • Conceals wires and allows power cords to be plugged in while in use. • Includes 6′ cord with three-prong circuit breaker plug.	**HTPWRGROM3**	5.0	0.3	$ 725
	Flip-top Port • Fits into 5″ x 11″ cutout. • Specify G2 cutout in table top. • Flip-top Port provides one blank Extron plate and three power ports. • Extron AAP plates can be integrated into grommet to support changing technology. • Conceals wires and allows power cords to be plugged in while in use. • Includes 6′ cord with three-prong circuit breaker plug.	**HTPWRGROM4**	5.0	0.3	$ 567
	Flip-top Port • Fits into 5″ x 11″ cutout. • Specify G2 cutout in table top. • Flip-top Port provides 3 Power, 1 USB, 1 Data Garage and 1 Blank. • Conceals wires and allows power cords to be plugged in while in use. • Includes 6′ cord with three-prong circuit breaker plug.	**HTPWRGROM5**	5.0	0.3	$ 672

Hardwire Power System:

The hardwire power system is only needed if 6′ power cables from power ports are not long enough to reach an outlet, or if there is a need to route power below entire length of worksurface from one power infeed. By specifying one power kit for each top section, there will be two duplex receptacles below each top section. For technical details regarding 2-circuit power system, see page 681.

Preside® Laminate Tables

GSA SIN 711-11

HON

- Tops and Modesty Panels are 1⅛″ Melamine.
- 168″W Boat-Shaped Top needs 3 bases; 72″W Middle Adder needs 1 base. All other tops need 2 bases.
- 120″, 144″, and 168″W Tops ship in 2 pieces to facilitate handling and installation; these top sizes will not have an exact grain alignment where the two halves meet, a reasonable match can be expected.

⚠ **Available in Harvest (C) and Mahogany (N) finishes only.**
⚠ **Tops available in Boat Shape with G edge (2mm self edge) only; Middle Adder is rectangular with G edge.**

⚠ **Edge finish always matches top finish.**

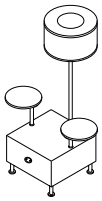
Flock® Collaborative Tables

GSA SIN 711-11

HON



- Accessory Port options on the Collaborative Cube and Cylinder tables allow for different accessories to be added to the tables such as tablet arms or lamps.
- Use the Tablet Accessory with the Collaborative Cube and Cylinder tables for additional workspace. Attaches to tables through ports, which can be located in different location options. See page 661 for port location information.
- For grommet and port information, see page 661.
- HGRMTAC and HGRMTDATA on page 665 can also be used with Flock® tables.
- Legs can be adjusted for leveling.
- Standard Leg (L) can be adjusted for leveling.
- For a complete line of compatible Flock® collaborative seating solutions, please see pages 560-567 of the seating section.

Motivate® Fixed Height Tables

- Select from the 2mm (G) or Ergo Edge (R).
- Specification includes top and base.
- Ergo edge is a bullnose on user side and 3mm on all other sides.
- Tops are 1⅛″ thick.
- Fixed Height base is standard 29½″ worksurface height.
- All tops 60″ and wider feature steel stretcher bars for reinforcement.
- Specify tops without a grommet (N) with a 3″ Round Grommet (G) or an Electrical Port opening (G1).
- See grommet matrix on page 673 for grommet location/placement.
- Specify Multi-surface Casters or Glides. Casters are locking.
- 36″ and 42″ Rectangular tops and all Half-Round and Trapezoid tops are standard with one 3″ round grommet ($15 upcharge per top applies).
- 48″-96″ Rectangular tops are standard with two 3″ round grommets ($30 upcharge per top applies).
- Motivate® Tables are UL Listed as Powered Table Systems and meets the requirements of UL 962.

Edge Treatments

- HOW TO ORDER
  1) Select desired model numbers.
  2) Select desired top edge treatment.
  3) Replace the (?) after each model number with the suffix representing the chosen top edge treatment.

Motivate® Adjustable Height Tables

- Select from the 2mm (G) or Ergo Edge (R).
- Ergo edge is a bullnose on user side and 3mm on all other sides.
- Tops are 1⅛″ thick.
- Specification includes top and base.
- Seated height adjustment from 27½″-32½″.
- All tops 60″ and wider feature steel stretcher bars for reinforcement.
- Specify tops without a grommet (N) with a 3″ Round Grommet (G) or an Electrical Port opening (G1).
- See grommet matrix on page 673 for grommet location/placement.
- Specify Multi-surface Casters or Glides. Casters are locking.
- 36″ and 42″ Rectangular tops are standard with one 3″ round grommet ($10 upcharge per top applies).
- 48″-96″ Rectangular tops are standard with two 3″ round grommets ($30 upcharge per top applies).
- Motivate® Tables are UL Listed as Powered Table Systems and meets the requirements of UL 962.

⚠ **No tool required, adjustable bases have ratchet style adjustment mechanism.**

Edge Treatments

- HOW TO ORDER
  1) Select desired model numbers.
  2) Select desired top edge treatment.
  3) Replace the (?) after each model number with the suffix representing the chosen top edge treatment.

Motivate® Shared Components

- Table Modesty Panels are hinged for use with Nesting Table models.
- Fixed and adjustable height Rectangular tops. Not available for Folding Tables, Trapezoid and Half-Round tops.
- 2-Sided Mobile Markerboard is porcelain over steel with four locking casters.
- Mobile Markerboard includes marker tray and flip-chart paper clips.
- Presentation Carts are available with a Fixed Leg, Adjustable Height, Seated Leg or Adjustable Height, Standing Leg.
- Presentation Cart tops are 1⅛″ thick with a concave user side. Choose from a 2mm or Ergo edge.
- Presentation Cart Modesty Panel fits between legs.
- Metallic paint carries a $20 upcharge per model.
- Storage Shelves for Presentation Carts are available in three pre-configured sizes and may be used on fixed or adjustable height models.
- Desk Top Lectern may be used on the Presentation Cart or is removable for use on table tops.

⚠ **Desktop Lectern only available with 2mm edge.**

⚠ **Use field installed Table Modesty Panels with all table widths 36″-96″. Cannot be used with folding bases or Half-Round or Trapezoid tables.**

Specification guide for IQ Electrical on Motivate® tables

Determine table width, the type of power access being used (3″ grommet or 4x8 pop-up) and the desired number per table (Columns 1, 2 or 3). The table will then identify the type and quantity of components needed per table along with the maximum table run. Note that this is in addition to the Power base in-feed which is needed for each run. For example, a 48″W table with two 3″ power grommets per table will require (1) HQH5-3 harness and (1) HQH1-3 harness per table with a maximum run of four tables.

Top Width	POWER ONE (1) PER TABLE 3″ ROUND POWER GROMMET		POWER TWO (2) PER TABLE 3″ ROUND POWER GROMMETS		POWER ONE (1) PER TABLE 4x8 POP-UP PORT	
36″	(1) HQH5-3	**8** Table Run Maximum	N/A	N/A	(1) HQH5-P	**8** Max Table Run

4-Trac Electrical System

The 4-Trac Electrical System is a UL-listed. Manufactured Wiring System that seamlessly passes power from one worksurface to another. This low-profile non-sequential electrical system allows tables to be "daisy-chained" together in any desired order and allows users to reconfigure quickly due to simple connectable/disconnectable links.

- UL listed as a Manufactured Wiring System
- Meets requirements of UL 183 and National Electric Code Article 604
- 4-Wires, 2-circuits, 20 Amps each (Circuit 1 and Circuit 2 only)
- 13 Duplex Receptacles per circuit, 26, 15 Amp Duplex receptacle per power in-feed
- Electrical system attaches directly to underside of worksurface with included brackets
- Up to twelve tables can be linked together

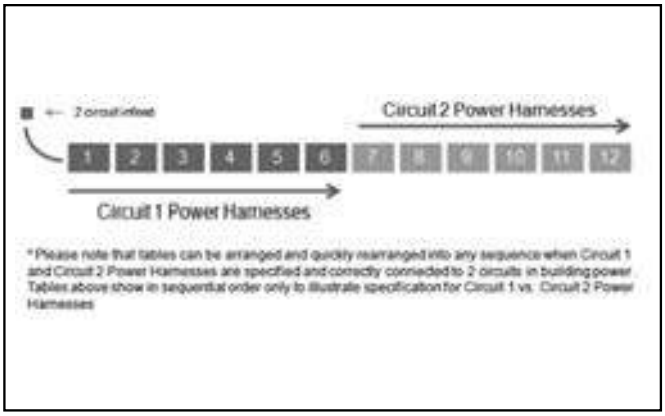
Power Entry Plate (ex: HHMAPLATE) + Power Entry Cable (ex: HHMACABLE) — For each power in-feed

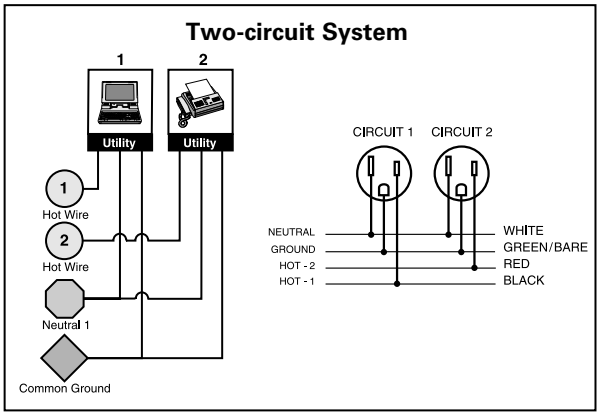
+ Circuit 1 or 2 Power Kit (ex: HHMAPOWER48 or HHMAPOWER482) + Ganging Hardware (ex: HMAGANG) — For each table in a row

+ Power Hub (ex: HGRMTAC), Data Grommet (ex: HGRMTDATA), Wire Trough (ex: HWTROUGH2), Pop-up Port (ex. HTPWRGROM1) — Optional Accessories

Steps for Electrical Specifications:

1. Determine how many rows of tables are needed and order the following:
   - One HHMAPLATE per row (or power in-feed)
   - One HHMACABLE per row (or power in-feed)
2. Order one power harness per table in each row
   - For 1-6 tables in a row (see illustration 1)
     - Order Circuit 1 Power Harnesses (ex. If powering six 24x60 tables order six sets of HHMAPOWER60)
   - For 7-12 tables in a row (see illustration 1)
     - Order Circuit 1 Power Harness for first six tables and Circuit 2 Power Harness for remaining tables (ex. If powering eight 24x60 tables, order six sets of HHMAPOWER60 and two sets of HHMAPOWER602)
3. Order one set of ganging hardware per table (ex. HMAGANG)
4. Determine which accessories are needed:
   a. Power Hub model HGRMTAC — to access power at worksurface.
   b. Data Grommet model HGRMTDATA — to access data at worksurface.
   c. Wire Management strips model HBTMS — for vertical and horizontal wire management.
   d. Wire Trough models HWTROUGH1, HWTROUGH2, HHWTROUGH34 or HHWTROUGH58 — oversized horizontal wire trough.





4-Trac Electrical System

- As a UL-listed manufactured wiring system, the 4-Trac Electrical system can be used with other series such as Adjustable Height Training Tables and *basyx*® Training tables.
- Each power kit includes two duplex receptacles and attaches to the underside of the worksurface with included brackets.
- Power kits are compatible with various base types including Flip-Top and T-Leg.

Huddle Multi-Purpose Table Tops

GSA SIN 711-11

HON

- Table tops are 1⅛″ thick.
- Tables available in two edge options T-mold or Edgeband.
- Tops and bases are ordered and sold separately.
- Underside of tops include pilot holes to accommodate all base types, optional ganging hardware.
- Optional wire management strips attach to underside of table. See page 684.
- Hat channel on underside of 60″W and 72″W table top deters warping and bowing.
- When post legs are used with 18″W tops, post leg to be specified with glides only.

⚠ **Grommets available in Black only.**
⚠ **Pop-up Port option (G1). Available in Silver only.**

Huddle Multi-Purpose Table Bases

GSA SIN 711-11

HON

- Tops and bases are ordered and sold separately.
- All bases allow tops to sit at 29½″ from the floor with glides half-way seated.
- Both glides and casters attach to the foot easily without tools for assembly.
- Bases specified with casters include two locking and two non-locking casters.
- Bases specified with glides have four adjustable glides, which adjust 1″.
- Flip-top base is standard with casters.
- When post legs are used with 18″W tops, post leg to be specified with glides only.

4-Trac Electrical System

The 4-Trac Electrical System is a UL-listed. Manufactured Wiring System that seamlessly passes power from one worksurface to another. This low-profile non-sequential electrical system allows tables to be "daisy-chained" together in any desired order and allows users to reconfigure quickly due to simple connectable/disconnectable links.

- UL listed as a Manufactured Wiring System
- Meets requirements of UL 183 and National Electric Code Article 604
- 4-Wires, 2-circuits, 20 Amps each (Circuit 1 and Circuit 2 only)
- 13 Duplex Receptacles per circuit, 26, 15 Amp Duplex receptacle per power in-feed
- Electrical system attaches directly to underside of worksurface with included brackets
- Up to twelve tables can be linked together

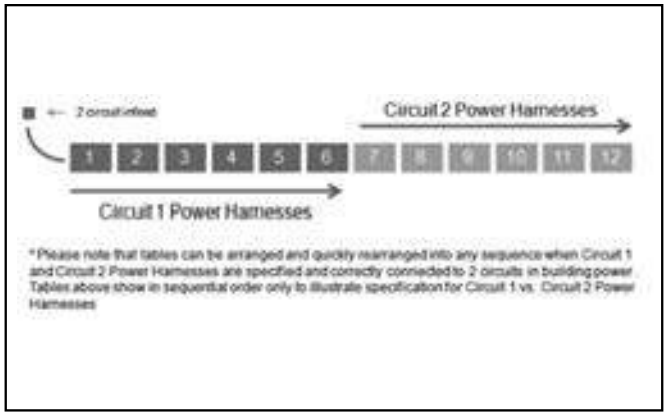
Power Entry Plate (ex: HHMAPLATE) + Power Entry Cable (ex: HHMACABLE) — For each power in-feed

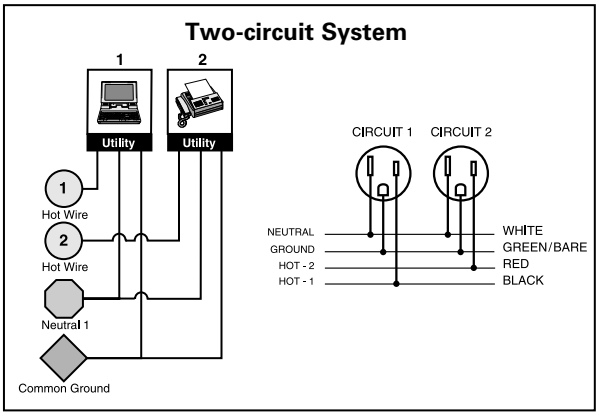
+ Circuit 1 or 2 Power Kit (ex: HHMAPOWER48 or HHMAPOWER482) + Ganging Hardware (ex: HMAGANG) — For each table in a row

+ Power Hub (ex: HGRMTAC), Data Grommet (ex: HGRMTDATA), Pop-up Port (ex. HTPWRGROM1), Wire Trough (ex: HWTROUGH2) — Optional Accessories

Steps for Electrical Specifications:

1. Determine how many rows of tables are needed and order the following:
   - One HHMAPLATE per row (or power in-feed)
   - One HHMACABLE per row (or power in-feed)
2. Order one power harness per table in each row
   - For 1-6 tables in a row (see illustration 1)
     - Order Circuit 1 Power Harnesses (ex. If powering six 24x60 tables order six sets of HHMAPOWER60)
   - For 7-12 tables in a row (see illustration 1)
     - Order Circuit 1 Power Harness for first six tables and Circuit 2 Power Harness for remaining tables (ex. If powering eight 24x60 tables, order six sets of HHMAPOWER60 and two sets of HHMAPOWER602)
3. Order one set of ganging hardware per table (ex. HMAGANG)
4. Determine which accessories are needed:
   a. Power Hub model HGRMTAC — to access power at worksurface.
   b. Data Grommet model HGRMTDATA — to access data at worksurface.
   c. Wire Management strips model HBTMS — for vertical and horizontal wire management.
   d. Wire Trough models HWTROUGH1, HWTROUGH2, HHWTROUGH34 or HHWTROUGH58 — oversized horizontal wire trough.





Huddle Electrical

GSA SIN 711-11 Except as Noted

HON

- Ganging Hardware must be ordered and installed on tables when using 4-trac electrical systems. See page 684 for Ganging Hardware.
- As a UL-listed manufactured wiring system, the 4-Trac Electrical system can be used with other series such as Adjustable Height Training Tables, Perpetual tables, *basyx*® Training tables and L-Series Conference tables.
- Each power kit includes two duplex receptacles and attaches to the underside of the worksurface with included brackets.
- Power kits are compatible with various base types including Flip-Top, T-Leg and Post-Leg.

Specification guide for IQ Electrical on Huddle tables

Determine table width, the type of power access being used (3″ grommet or 4x8 pop-up) and the desired number per table (Columns 1, 2 or 3). The table will then identify the type and quantity of components needed per table along with the maximum table run. Note that this is in addition to the Power base in-feed which is needed for each run. For example, a 48″W table with two 3″ power grommets per table will require (1) HQH5-3 harness and (1) HQH1-3 harness per table with a maximum run of four tables.

Top Width	POWER ONE (1) PER TABLE 3″ ROUND POWER GROMMET		POWER TWO (2) PER TABLE 3″ ROUND POWER GROMMETS		POWER ONE (1) PER TABLE 4x8 POP-UP PORT

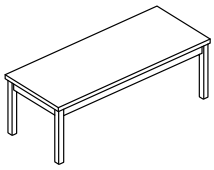
Laminate Occasional Tables

GSA SIN 711-11 Type 5

HON



- Durable material and construction make laminate occasional tables ideal for high traffic areas such as lobbies, reception rooms and lounges. Versatile design is also well suited to private offices.
- Coffee, Corner and End Tables feature top-over-apron styling with square corner detail, which complements many interiors and furniture designs, including the 10500 Series.
- Tables accommodate lamps, magazines, telephones, plants, laptops and more.
- Tops are abrasion- and stain-resistant laminate over 1⅛″ thick solid core high-performance particleboard.
- Cylinder and cube tables have recessed black plinth base with tack glides. Tops and sides are covered with laminate.

NOTE: When specifying Sand hard plastic, Muslin paint is the recommended coordinating color.

See diagrams below for "How to Specify" examples for Top/Base, Metal Surfaces and Frames.

SmartLink Teacher Stations and Modular Storage cases require the specification of three color options when tops are specified with powder-coated MDF. A fourth option is required for the vinyl edge when a laminate top is specified. The illustrated shaded areas define the surfaces that relate to each color specification. The first color specification is for tops and bases, the second is for the metal surfaces color, the third is for the frame color and the fourth is for the T-Mold (when a laminate top is specified). On compact single pedestal teacher stations, the modesty panel and column leg assembly will match the specified painted metal surface color.

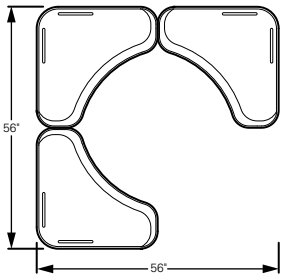
4-Desk Work Group Configuration
Can accommodate up to 8 students

Teacher Centered Layouts

- Reverse the layout and use the student desks instead of activity tables to create layouts for teacher centers that can accommodate up to 6 students.
- 23⅝″ distance between legs when used from either side.

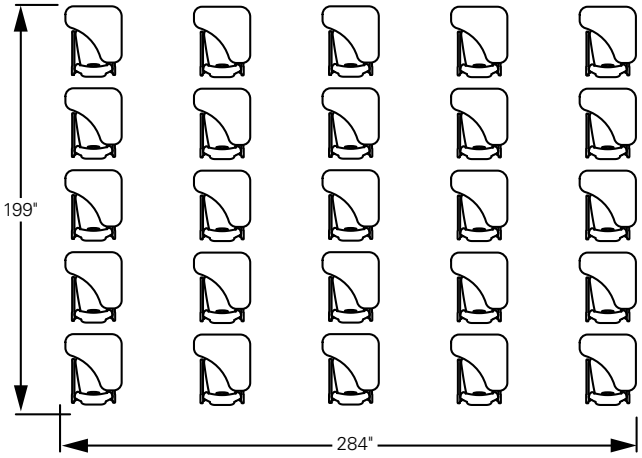


Teacher Centered Layout

Standard Row Layout

While a variety of classroom configurations are possible, a standard row layout shown below with 25 student desks utilizes a footprint of 199″ deep by 284″ wide. A 30 student desk row layout (5 rows deep by 6 rows wide) will require a footprint of 199″ deep by 348″ wide.

These dimensions are based upon 36″W aisles. Actual dimensions should be based upon local building codes.



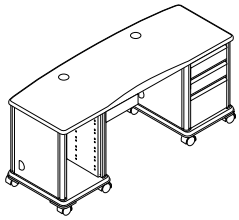
TEACHER STATION

SmartLink®

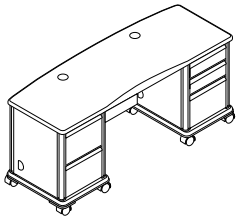
The following planning and specifying information is intended to help you imagine and create stimulating SmartLink classrooms that can integrate technology while helping rooms stay adaptable, organized and attractive. With just four basic product categories, SmartLink offers you everything you need to create flexible, clutter-free learning environments for students of all ages.

Teacher stations are available in two sizes. Select from the standard double pedestal model (26 x 72) or the compact single pedestal model (24 x 60) based upon your specific storage, technology and space needs. Select from two top/base options on either size. A laminate top with a soft feel t-mold edge provides a classic look with exceptional durability or a powder-coated MDF top for a more upscale look that features comfortable ergonomic edges.

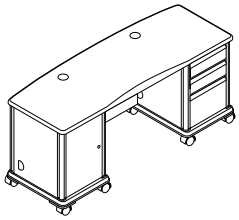
Teacher Station – Standard Double Pedestal



HLT2672-13.C



HLT2672-23.C



HLT2672-43.C

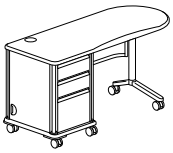
Storage

- Box/box/file pedestal is always standard on the right-hand side. Pedestal is locking.
- File/file pedestal or tray storage options on the left-hand side. Pedestal is locking.
- Left-hand tray storage option may be specified with or without a locking door.
- Tray storage has seven (7) openings to accommodate a mix of tray or 12″W shelf accessories (see modular storage section for information on tray/shelf capacity).
- Available kneespace is 33¼″W x 20″D for all models.
- Trays and 12″W shelves are specified and sold separately.
- Non-locking Center Drawer (HD8X) may be field installed in the kneespace. Tops are pre-drilled to accept the drawer.
- Center drawers and CPU holders cannot be installed together.

Cable Management

- Both the left-hand and right-hand end panels may be removed to provide access to power and cable management within the side power cabinet.
- Grommets are standard in each removable end panel allow a power cord to exit and be plugged into a floor or wall outlet.
- Two "Smart Grommets" with a wireway cover are standard on each station's top surface. Remove the wireway cover to field install optional USB hubs for convenient worksurface height access to USB ports.

Teacher Station – Compact Single Pedestal



HLT2460-L3

Storage

- Single pedestal desk available in Left-hand or Right-hand pedestal/storage configurations.
- Pedestal options include Box/Box/File locking.

Technology

- The pedestals end panel may be removed to provide access to power and cable management within the side power cabinet.
- A grommet is standard in the removable end panel to allow a power cord to exit and be plugged into a floor or wall outlet.
- Side power cabinet accommodates the HLPC-PK06 plug strip and may be secured in the base without hardware or tools.
- A single "Smart Grommet" with a wireway cover is standard on each station's top surface. Remove the wireway cover to field install an optional USB hub for convenient worksurface height access to USB ports.

MODULAR STORAGE

SmartLink® Modular Storage is comprised of cases, accessories and support rails. However, only the cases and accessories need to be specified. The following guidelines should help you plan and specify SmartLink Storage.

Planning Notes

Cases

- Select from two top/base options on the storage cases. A laminate top with a soft feel vinyl edge provides a classic look with exceptional durability or a powder-coated MDF top for a more upscale look with comfortable radius edges.
- Storage cases do NOT include accessories. Accessories are specified and sold separately.
- Case configurations are based off of 12″W or 30″W columns.
- Internal case configurations cannot be changed (i.e., cannot change an HLSF52-3 to a HLSF52-21).
- Cases are designed to allow the users to create a variety of accessory configurations using different tray heights and shelves.
- Cases must be specified with or without locking doors.
- Door models may be converted to non-door models in the field.

Accessories

- Accessories include trays in 3″, 6″ and 12″ heights, shelves in 12″ and 30″ widths and a 12″W coat rod.
- All accessories are sold and specified separately as kits and include 1 pair of storage rails per tray or shelf.
- The support rails simple “no tool” attachment method allows users to easily install and change rail (tray or shelf) positions as needed.
- Kits include:

Accessory	Quantity Per Kit	Where Used
3″H trays	7 trays / 14 support rails	12″W columns only
6″H trays	4 trays / 8 support rails	12″W columns only
12″H trays	2 trays / 4 support rails	12″W columns only
12″W shelf	2 shelves / 4 support rails	12″W columns only
30″W shelf	2 shelves / 4 support rails	30″W columns only
Coat Rod	1 coat rod	12″W columns — Full Height case only

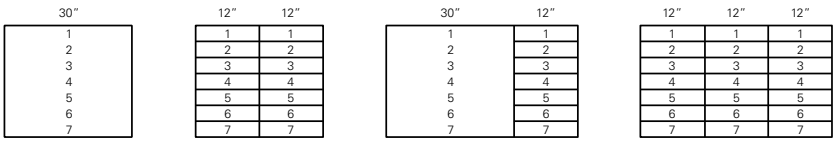
- Cabinet Whiteboard Bracket kit is available which allows whiteboards to be mounted to the back of the full height cabinets. Kit includes upper and lower rails with integrated marker tray and attachment hardware. Use wall rail sliding whiteboards. Rails will accept one (1) 48″ x 48″ board or two (2) 24″ x 48″ boards.

Specification Notes

- Number of accessory openings

  SmartLink storage cases are available in six (6) standard case types that feature combinations of 12″ or 30″ internal column widths. The following illustration shows the number of openings by column width for each case configuration.

Credenza Height Storage (30"H)



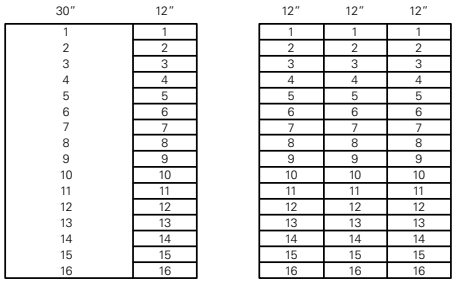
7–30"W Openings — HLSC36-1

14–12"W Openings — HLSC36-2

7–30"W Openings, 7–12"W Openings — HLSC52-21

21–12"W Openings — HLSC52-3

Full Height Storage (61¾"H)



16–30"W Openings, 16–12"W Openings — HLSF52-21

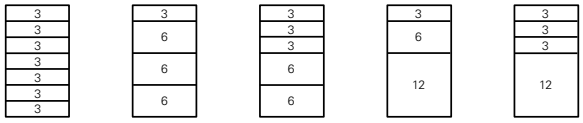
48–12"W Openings — HLSF52-3

- Openings used by Accessory type:

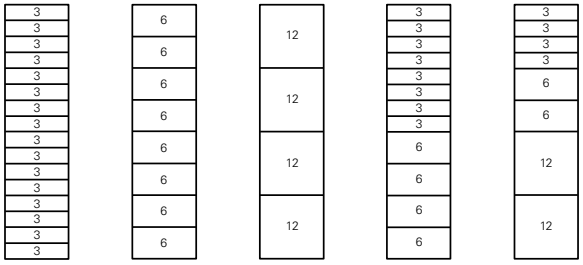
Accessory	Openings used per Accessory
3″H tray	1
6″H tray	2
12″H tray	4
12″W shelf	1
30″W shelf	1

- Any combination of trays or shelves (of common width) can be used as long as the openings used equal the total number of openings available per column. The following illustrations show a variety of tray configuration options. Numbers shown in the opening refers to the tray size.

Credenza Height Storage (30"H) — 7 Openings, Single Column Examples:



Full Height Storage (61¾"H) — 16 Openings, Single Column Examples:

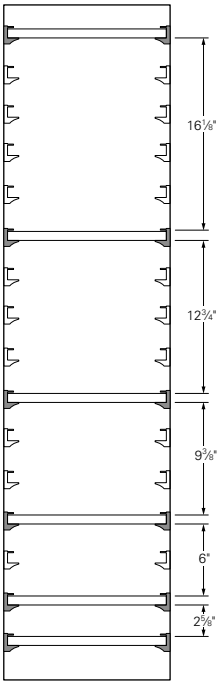


Using the information above, follow these guidelines to help determine accessory quantities.

1. Determine the total number of available "openings" by width (12″, 30″) for each case type.
   Example: HLSF52-3 has 3 columns of 16 openings, total 48 openings
2. On a PER COLUMN basis, determine the desired tray/self configurations total number of opening used so they equal the total openings available per column. Total accessory quantities per case then multiply by the total number of like cases.
   Example: If each column will have 2–12″ trays, 2–6″ trays and 4–3″ trays. The number of openings used for this column combination is 16. Assuming all three columns are the same total tray quantities for this case will be 12–3″, 6–6″ and 6–12″.
3. Once total tray and shelf quantities are determined, simply divide by the kit quantity to determine the number of kits required.
   Example: 3″ trays = 12 ÷ 7 = 2 kits, 6″ trays = 6 ÷ 4 = 2 kits, 12″ trays = 6 ÷ 2 = 3 kits

- **Shelf Spacing**

The clearance between shelves is approximately 3⅜″ for every support rail that is not used between shelves. The following illustration shows the clearance between shelves when 0-4 support rail positions are not utilized.



SmartLink® Specifying Information

HON

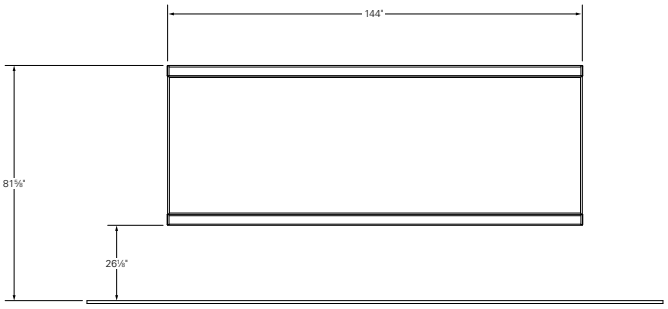
WALL RAIL SYSTEM

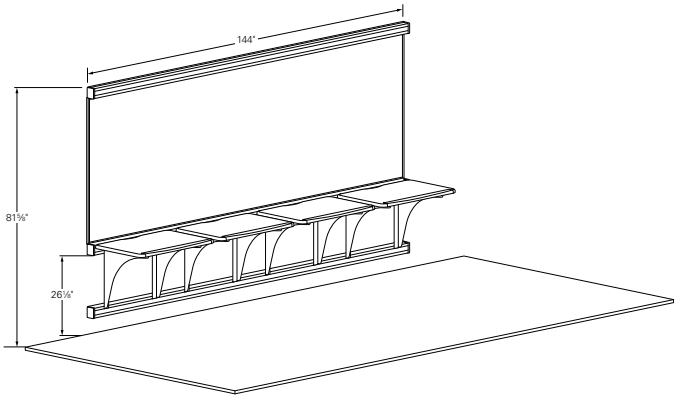
The SmartLink® wall rail is a multi-layered, multi-functional system that can accommodate a variety of presentation boards, worksurfaces and accessories. The multiple tracks allow boards to be easily positioned and changed to support today's interactive learning environments.

Planning Notes

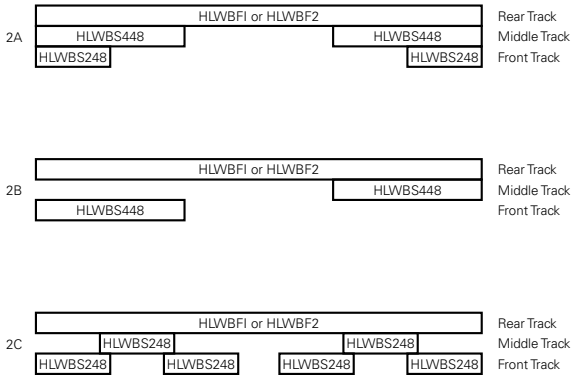
- Installation of the wall rail system over existing white or chalkboards is not recommended.
- The rail and wall bracket provide three separate tracks for the Learning boards. The REAR or wall/bracket track is occupied by the fixed wall board. The MIDDLE and FRONT tracks are for sliding boards.
- To allow for greater utilization of the rear fixed board a maximum width of 96″ of sliding boards on the middle or front track is recommended.

The illustrations below show the overall wall space requirements for the rail system and recommended mounting height for use in K-12 classroom applications. It also shows how rail mounted worksurfaces may be used in conjunction with fixed and sliding presentation boards. This combined board and worksurface application requires three wall rails as shown. A maximum of four worksurfaces may be installed on each 12′ rail section.





Sliding boards are removable and reversible so a wide variety of layouts are possible. The following illustrations highlight a couple of the more common applications. Layouts 2A and 2B provide the greatest amount of board space and overall flexibility. When used with rail mounted worksurfaces, use 24″W boards on the front rail as shown in 2C in front of each worksurface to provide information specific to that work area. Boards could then be added to the middle rail for information/work to be shared between the stations.



Specification Notes

- Model number HLWR-12 includes one (1) 12′ rail section, nine (9) wall brackets and two (2) end caps.
- Boards and worksurfaces are specified individually.
- Hardware to mount to the wall brackets is not provided by HON and MUST BE SOURCED LOCALLY.
- Learning board only applications require two (2) HLWR-12 rails to be specified.
- Worksurface only applications require two (2) HLWR-12 rails to be specified.
- Combined board and worksurface applications require three (3) HLWR-12 rails to be specified.
- REFER TO PRODUCT INSTALLATION INSTRUCTIONS FOR DETAILED INSTALLATION INFORMATION.

SmartLink® Student Desks

GSA SIN 71-302

HON

- Laminate desk top constructed of 3/4″ thick particleboard, high-pressure laminate top with SecurEdge for superior durability. Tamper and moisture resistant.
- Non-handed desk top constructed of 3/4″ hard plastic, includes dual pencil grooves.
- Hard plastic top features comfort edge on user side and soft radius with rounded corners on all sides.
- Legs ship unattached for easy field installation on E◆A models.
- May also be specified to ship fully assembled, with or without HLDA-15 Book Box.
- Upper leg is painted, lower leg standard chrome finish on Adjustable and Sit-to-Stand models.
- Nylon swivel glides are standard on adjustable and fixed leg models.
- Hard plastic tops include pencil grooves. Laminate tops do not.
- All student desk models ship 2 per carton.
- Accepts optional felt glide caps (HGDK3-F) which are recommended for softer floors including VCT.
- Wheelchair friendly, 29.60″ distance between legs on user side. Outside distance between legs is 23⅜″.
- Sit-to-Stand model features bell glides.
- Sit-to-Stand is height adjustable from 30″-43″H and includes a footrest.
- Accepts optional book basket (HLDA-15) and backpack hooks (HCLA65). Not for use with HCLA50 or HCLA45 book baskets.

⚠ **Field installed felt glide caps (HGDK3-F) are recommended for use on VCT flooring.**

SmartLink® Value Series Student Desks

- Choose from Hard Plastic or Laminate tops.
- Non-handed desk top constructed of 3/4″ hard plastic.
- Laminate desk top constructed of 3/4″ thick particleboard, high-pressure laminate top with SecurEdge for superior durability. Tamper and moisture resistant.
- Hard plastic tops include pencil grooves. Laminate tops do not.
- Nylon swivel glides are standard on adjustable and fixed leg models.
- Fixed Height models ship fully assembled. Adjustable models have the upper leg and cross-brace installed. The lower leg ships unattached for field installation.
- Wheelchair friendly, 29.60″ distance between legs on user side. Outside distance between legs is 23⅜″.
- Accepts optional book basket (HLDA-15) and requires cross-brace repositioning and backpack hooks (HCLA65). Not for use with HCLA50 or HCLA45 book baskets.
- Book boxes are only available as an accessory for field installation on Value Series desks.

⚠ **Field installed felt glide caps (HGDK3-F) are recommended for use on VCT flooring.**

Description	Model	Ship Weight	Cube	List
Student Desk, Fixed Height 28″W x 28″W, User side 36¼″W 30″ Fixed Height				
Hard Plastic Top	**HLDV-M3F** E◆A	63	5.5	$ 523
Laminate Top, with SecurEdge	**HLDV-L3F** E◆A	63	5.5	$ 458

NOTES: The cross-brace is installed to maximize kneespace but will not allow for book basket (HLDA-15) installation. The cross-brace orientation can be switched in the field to allow for book basket install.

Student Desks are ordered and shipped two (2) desks per carton. Legs and cross-brace ship attached. The cross-brace is installed to maximize kneespace but will not allow for book basket (HLDA-15) installation. Pricing shown is per carton. Ordering two of model HLDV-M3F will result in 2 cartons being shipped, giving you 4 desks.

Student Desk, Adjustable Height 28″W x 28″W, User side 36¼″W Adjustable: 23″-33″ height adjustment range.				
Hard Plastic Top	**HLDV-M3A** E◆A	59	5.5	$ 523
Laminate Top, with SecurEdge	**HLDV-L3A** E◆A	59	5.5	$ 458

SPECIFICATION TIP: Consider available kneespace when specifying under desk storage Wire Book Box. Available kneespace will vary significantly given set desk height. Use the following example to calculate the available and usable kneespace.

EXAMPLE: HLDV-M3A Student Desk, HCL18 Accomplish Chair, HLDA-15 Wire Book Box

(user set desk height – top thickness – seat height = available kneespace)
(29″H – 1″ thickness – 18″ seat height = 10″ available kneespace)
(available kneespace – book basket/box height = usable kneespace)
(10″ available kneespace – 5″ basket height = 5″ usable kneespace)

NOTES: The cross-brace is installed to maximize kneespace but will not allow for book basket (HLDA-15) installation. The cross-brace orientation can be switched in the field to allow for book basket install.

Student Desks are ordered and shipped two (2) desks per carton. Upper Leg and Cross-brace ship attached. Lower adjustable legs ship unattached for field installation. Pricing shown is per carton. Ordering two of model HLDV-M3A will result in 2 cartons being shipped, giving you 4 desks.

SmartLink® Teacher Stations

- Tops/Bases can be Powder-Coated MDF or Laminate with T-mold edge.
- Powder-Coated MDF tops feature comfort edge on user side and soft radius with rounded corners on all sides.
- Larger top size provides ample work/conference area or space for equipment.
- Bow-front on approach side.
- Standard with Heavy-duty 3″, 360-degree swivel casters, 4-locking, 4-non-locking.
- Base corner bumpers standard with powder-coated MDF tops/bases.
- Storage options include: Locking box/box/file, locking file/file, tray storage with locking door, tray storage or no door.
- Tray storage option accommodates up to seven 3″H trays. Specify trays separately (see page 723).
- Trays are compatible with Modular Storage cases.
- Kneewell space accommodates separately specified and field installed non-locking center drawer and CPU holders (see page 721).
- End panels are removable to access standard power management cabinets on both ends of the station for safe and secure storage of plug-strips, power cords and cables.
- Power Management Cabinet accommodates HLPC-PK06 power kit. (specified separately)
- Removable end panels have one outside cord management grommet.
- Full width cable management system provides easy access to and from each side cabinet.
- Standard with two Smart Grommets with wireway covers.
- Smart Grommets accept optional power inserts (see page 721).

- Built-in lumbar.
- High strength steel frame.
- Accepts optional accessory models HCLA45, HCLA55, HCLA65 — see page 739.

⚠ **Field installed snap-on felt saddle glides (HGDK2-F) are recommended for use on VCT flooring. See page 740.**

Description	Model	Ship Weight	Cube	Per Carton List
ADJUSTABLE HEIGHT DESK AND 18″H DUAL ENTRY CHAIR COMBINATION UNITS 26¼″W x 40¼″D x 33⅝″H				
Ergonomic Laminate Tops 26″W x 20″D				
Combination Desk and Chair with Painted Legs	**HCL71HPB**	114	32.5	$ 936 (reference single unit @ $468.00)
Combination Desk and Chair with Chrome Legs	**HCL71HCB**	114	32.5	$ 953 (reference single unit @ $476.50)

SPECIFICATION TIP: Consider available kneespace when specifying under desk storage accessories (HCLA45, HCLA50) for Accomplish and Proficiency adjustable desk models. Available kneespace will vary significantly, given set desk height and model of under-desk basket. Use the following example to easily calculate the available and usable kneespace.

EXAMPLE: Accomplish Dual-Entry Combo desk, with stationary seat height, HCLA50 Wire Basket
(user set desk height – top thickness – seat height = available kneespace)
(29″H – 1″ thickness – 18″ seat height = 10″ available kneespace)
(available kneespace – book basket/box height = usable kneespace)
(10″ available kneespace – 5″ basket height = 5″ usable kneespace)

Student Desks are ordered and shipped two (2) desks per carton. Pricing shown is per carton. Each set of two desks (one carton), must have the same plastic/laminate color combination. Ordering 2 of Model HCL71HPB or HCL71HCB will result in 2 cartons being shipped, giving you 4 desks.

NOTE: See pages 739-740 for Accessories.

Accomplish® Cantilever Desks

- Top is 26″W x 20″D.
- High strength steel frame.
- Desks ship set at 29½″ height.
- Factory installed glide insert options include all-purpose nylon or felt.
- Frame available in Chrome (C) or Painted (P) finishes.
- Accepts optional accessory models HCLA45 and HCLA65 — see page 739.

⚠ **Felt glides (option F below) are recommended for use on VCT flooring.**

Description	Model		Ship Weight	Cube	Per Carton List
LARGE ADJUSTABLE HEIGHT DESKS 26″W x 20″D x 26″-29″H					
Ergonomic Laminate Tops 26″W x 20″D					
Desk with Painted Legs	**HCL40HPB**	E◆A	67	11.6	$ 603 (reference single unit @ $301.50)
Desk with Chrome Legs	**HCL40HCB**	E◆A	67	11.6	$ 622 (reference single unit @ $311.00)

SPECIFICATION TIP: Consider available kneespace when specifying under desk storage accessories (HCLA45, HCLA50) for Accomplish and Proficiency adjustable desk models. Available kneespace will vary significantly, given set desk height and model of under-desk basket. Use the following example to easily calculate the available and usable kneespace.

EXAMPLE: HCL40 Accomplish Cantilever Desk, HCL18 Accomplish Chair, HCLA50 Wire Basket
(user set desk height – top thickness – seat height = available kneespace)
(29″H – 1″ thickness – 18″ seat height = 10″ available kneespace)
(available kneespace – book basket/box height = usable kneespace)
(10″ available kneespace – 5″ basket height = 5″ usable kneespace)

Student Desks are ordered and shipped two (2) desks per carton. Pricing shown is per carton. Each set of two desks (one carton), must have the same plastic/laminate color combination. Ordering 2 of Model HCL40 or HCL30 will result in 2 cartons being shipped, giving you 4 desks.

NOTE: See pages 739-740 for Accessories.

Core Removable Lock Kits

- HON "One Key" interchangeable core removable locks are standard on most HON products. Look for the HON "One Key" icon.
- Keyed alike cores are listed below.
- If key number is not specified, number will be at random.

- For keyed alike locks:
  - Order standard product which will be shipped with factory installed locks and random numbered cores or omit lock option where offered.
  - Order the appropriate quantity of like numbered cores required for each workstation or keyed area.
  - Simply replace the factory installed cores with the replacement cores after product has been installed.

- To install new core:
  - Lock must be in the unlocked position.
  - Insert core removal key and pull core straight out.
  - Insert new core with core removable key, hold core into lock and withdraw core removal key.
  - Retain original core for future use.

- To provide normal lead times, key numbers cannot be specified on HON products at time of order. This also eliminates need for tagging and tracking each product's lock number during installation.
- Black removable lock core kit used on laminate casegoods.
- Chrome removable lock core kit used on metal casegoods.

- Removable lock core kit for all Arrive and Pennsylvania Avenue products; for Announce and Park Avenue Veneer products manufactured after November 2009 — see model HF27 on page 69.

	Description	Model	Ship Weight	Cube	List
SIN 711-3	Chrome Removable Lock Core Kit (for metal casegoods) • **Use when specifying omit lock application.** • Specify quantity of each key number from 101E-225E. • Includes: 1-core, 2-keys, 1-core removal tool and instructions. • Removable lock core kits with specific key number must be ordered to facilitate keying alike in the field. • For specific models, look for the Omit Lock Core icon throughout this publication. NOTES: If key number isn't specified, number will be at random. Core matches manufactured lock on metal casegoods product but can be used with veneer and laminate product. *GSA — Above model receives Filing discounting.*	**HF23C**	0.1 S	0.1	$ 32
SIN 711-3	Satin Removable Lock Core Kit (for metal casegoods) • **Use when specifying omit lock application.** • Specify quantity of each key number from 101E-225E. • Includes: 1-core, 2-keys, 1-core removal tool and instructions. • Removable lock core kits with specific key number must be ordered to facilitate keying alike in the field. • For specific models, look for the Omit Lock Core icon throughout this publication. What is a Bundled Solution?

A bundled solution is comprised of several individual components and is ordered with a single, all-encompassing number (SKU).

Why Bundles?

With bundles, you identify one SKU rather than multiple models/SKUs. Order one SKU and get everything you need!

How do you order a bundle?

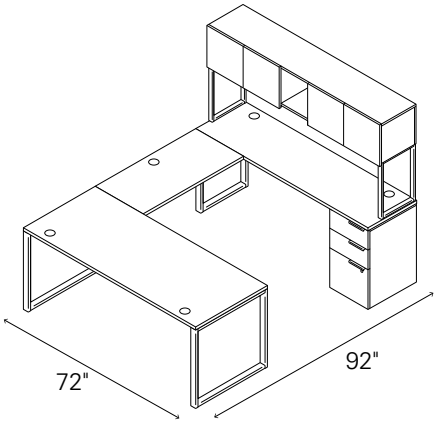
Get everything in this picture with one number.

Still Prefer Ordering Individual Components?

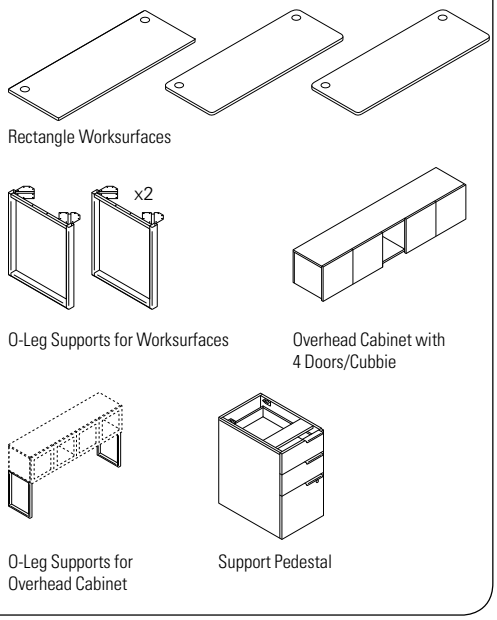
You can do that! See the "bundle components" section for individual item SKUs.

Contemporary U-Station SKU

VC7292U1B



With this bundle you get the following components:



Availability

Specific bundle options are now available in the following HON Series:

Replacement Parts Order Form

HON

Copy this form as needed — Fill out order — Please print — **Bold Information Required**

Date _____

Page _____ of _____

Submit to:

THE HON COMPANY

Parts Phone Number (800) 336-8398 • Email: PartsWeb@honcompany.com

Customer: _____ **Customer Acct #:** _____

Contact Person: _____ **Purchase Order #:** _____

Phone #: (_____) _____ – _____ **FAX #:** (_____) _____ – _____

THE FOLLOWING INFORMATION IS REQUIRED FOR REPLACEMENT KEYS/PARTS.

NOTE: Parts orders CANNOT be returned. There are NO discounts applied on parts orders.

When ordering keys, please specify the number of keys and the letter designator on all key orders – example: E, R, H, 2X, etc. _____

When ordering parts, please provide:

Serial #: _____

Model #: _____

Color: _____

Date Code: _____

Billed: _____

Warranty: _____

(Even if it is a charge item, we require the serial number or date code from the unit so we can be sure to send the correct style part you need.)

Warranty reason: (This is required to receive parts under warranty. Please be very specific.) _____

Description of part needed: _____

Bill To:

Name: _____

Address: _____

City: _____

State: _____ Zip: _____

Country: _____

Ship To:

Name: _____

Address: _____

City: _____

State: _____ Zip: _____

Country: _____

HON

Information on Ordering Parts

When parts are needed to repair HON products, the following guidelines should be followed to expedite the process.

1. Contact the Parts Department at **Consumer Number: 1-800-336-8398.** Direct Dealers: Use standard HON 800 number. They will assist you with your order and answer any questions on parts.
2. There are no discounts applied to parts. Pricing quoted is the net value. Parts pricing is subject to change without notice.
3. The minimum order for a part not covered by warranty is $7.50 (includes shipping and handling).
4. All keys are $6.00 each plus a shipping and handling fee of $3.00 per shipping location.
5. Touch-up paint brush bottles are $7.00 each, spray cans of paint are $14.50 each, plus shipping and handling. Note: All aerosol spray paint will be shipped via FedEx ground only.
6. Parts may be paid for with an approved credit card. Approved Cards: MasterCard, VISA and American Express.
7. Payment terms for invoiced parts are Net 30 days.
8. Due to short leadtimes on parts, no changes will be accepted after the order has been placed.
9. When placing a **warranty** parts order:

   If the product is under warranty, the product serial number must be provided. Most finished goods products have a serial number placed on them at the factory. The label containing the serial number is located:

   Vertical Files — right side of the uppermost drawer

   Lateral Files — left side of the uppermost drawer or shelf

   Desk Towers — outside of top drawer

   Desks, Credenzas, & Returns — on the outside, kneespace side of the top drawer. Fully extend the drawer to find it.

   Desks, Credenzas, Corner Units, Bridges, Peninsulas & Returns without drawers — underside of top

   Tables and Stands — underside of the top

   Table Trucks — underside of side rail

   Cabinets & Bookcases — left inner side of the case

   Modular Component Top and Backs — underside of top

   Modular End Panels — top inside surface

   Reception Stations — top inside surface of back panel

   Organizers — top inside surface of left end panel near back panel

   Vertical Paper Manager — back panel inside surface near top

   Pedestals — bottom drawer right side exterior

   Seating — underside of the seat

   Panels — underside of the top cap

   Hutches, Storage Units, Overhead Storage — underside of the shelf

   Hanging Bookshelves — underside of shelf

NOTE: Removal of the serial number tag from the product voids the warranty.

An important note regarding Product Serial Numbers:
HON desks, tables, chairs, files and systems components are tagged with a serial number. This number helps us identify *when and where your product was made,* and to identify and correct the root causes for the problem. NEITHER THE DEALER NOR THE CONSUMER SHOULD REMOVE THIS TAG UNDER ANY CIRCUMSTANCES. To do so immediately voids your Warranty coverage for that particular item *and prevents us from further identifying it.* Instead, please transcribe the number and call your Dealer.
