Suitable for use as a boiler treatment compound where the steam produced may contact edible products in U.S. Federally inspected meat and poultry plants.

DIRECTIONS FOR USE

ATTENTION: After diluting this product as recommended, do not add any materials containing nitrites, such as sodium nitrite or potassium nitrite to the reservoir or sump. To do so can produce nitrosamines that may cause cancer in humans.

NOTE

1. **NOT FOR USE IN OR FOR CONTACT WITH POTABLE WATER SYSTEMS OR DOMESTIC WATER SOURCES.**
2. KEEP CONTAINER CLOSED WHEN NOT IN USE.
3. If using in dairy settings or where steam is used for humidification, consultation with CHEM-AQUA Engineering is required.
4. If using in electric steam boilers, consultation with CHEM-AQUA Engineering is required.

FOOD USES

Ingredients contained in this product are in accordance with Title 21, Section 173.310, of the Code of Federal Regulations for use as a boiler treatment compound where the steam produced may contact edible products in Federally inspected meat and poultry plants. For FDA uses, the product shall not be used in an amount greater than that needed for its functional purpose and the amount of steam in contact with food cannot exceed that required to produce the intended effect in or on the food. Use steam produced for this purpose only from a boiler that has reached normal operating conditions.

INGREDIENTS: Contains Water (CAS# 7732-18-5), Diethylaminoethanol (CAS# 100-37-8), Cyclohexylamine (CAS# 108-91-8), and Morpholine (CAS# 110-91-8).

For compliance with FDA limitations,

1. Do not exceed a concentration of 124 ppm of actives in the steam (25 ppm of total amines).
2. Never exceed a dose of 192 fl oz of this product per 100,000 lbs of steam produced (i.e. 124 lbs of product per 1,000,000 lbs of steam produced).
3. Do not use steam from boilers treated with this product for food contact until the boiler has reached its normal operating conditions or where feed water cycles of concentration are less then 2.

For steam which will have contact with food or food preparation equipment, determine the amount of steam produced in the same time as this feed water is consumed. Do not exceed a dose rate of 192 fl oz of this product per 100,000 lbs of steam produced from the system treated by this product.

NOTE: A dose rate of 192 fl oz of product per 100,000 lbs of steam produced may be as low as 8.03 fl oz of product, or less, per 1,000 gallons of feed water, depending on the boiler feed water cycles of concentration. Keep cycles of concentration greater than 2 and product dose less than 8.03 fl oz per 1,000 gallons of feed water. Do not exceed this rate even if condensate pH is below that desired.

Consult your CHEM-AQUA representative for use rates and application procedures.

STORAGE: Store in a corrosion-resistant container. Store in a well-ventilated place. Keep cool. Keep container tightly closed. Absorb spillage to prevent damage.

KEEP FROM FREEZING. If this product is stored in cold or freezing temperatures, it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.

DANGER: FLAMMABLE LIQUID AND VAPOR • CAUSES SEVERE SKIN BURNS AND EYE DAMAGE • TOXIC IN CONTACT WITH SKIN • MAY CAUSE AN ALLERGIC SKIN REACTION • TOXIC IF INHALED • MAY CAUSE ALLERGY OR ASTHMA SYMPTOMS OR BREATHING DIFFICULTIES IF INHALED • TOXIC IF SWALLOWED • SUSPECTED OF DAMAGING FERTILITY OR THE UNBORN CHILD • MAY CAUSE DROWSINESS OR DIZZINESS • MAY CAUSE DAMAGE TO ORGANS THROUGH PROLONGED OR REPEATED EXPOSURE • MAY BE CORROSIVE TO METALS

Contains Volatile amines. Keep away from heat, sparks, open flames or hot surfaces. Do not eat, drink or smoke when using this product. Wear protective gloves, protective clothing, eye protection and face protection. Use in a well-ventilated area. Do not breathe vapor or mist. In case of inadequate ventilation wear respiratory protection. Wash face, hands and any exposed skin thoroughly after handling.

FIRST AID: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. If skin irritation occurs, get medical attention. Wash contaminated clothing before reuse. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a physician. **IF INHALED:** Remove person to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms, call a physician.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Immediately call a physician if you feel unwell.

KEEP OUT OF REACH OF CHILDREN
