Quality Jan-San Products For Over 50 Years

Bio-FRESH

- Non-acidic or corrosive
- FABRIC SAFE
- PUBLIC RESTROOMS
- Ready to Use
- Excellent pet training tool
- SEPTIC TANKS

BIO-FRESH is ready to use enzymatic cleaner that contains a selection of specialized natural live bacteria strains, that will digest and degrade both human and animal waste matter with safe biological action while enhancing the performance of all waste systems. This biologically active deodorant also contains a powerful odor elimination system which DESTROYS mal-odors at their source. BIO-FRESH will clean more effectively than ordinary cleaning products and reduce your need for hazardous chemicals such as acids, caustic, or bleach.

The regular use of BIO-FRESH has been proven to keep your restrooms, toilets, sinks, urinals, showers, and drain lines cleaner than ever before. With the help of BIO-FRESH your waste systems will stay clean, trouble free and odor free.

BIO-FRESH was field tested and proven to work in and enhance the performance of marine Environmental Service systems and domestic waste systems. Use of BIO-FRESH will keep your closed marine waste system working at peck performance.

DIRECTIONS:

BOWL CLEANER: Use BIO-FRESH daily as a toilet cleaner. Spray to adequately cover the interior surface of the toilet bowl. Leave BIO-FRESH in the bowl for as long as possible or until the first flush. May also be sprayed around base and around seat hardware to help control odors. For heavy encrustations a bowl mop may be needed.

BATHROOMS, URINALS, SINKS: Remove larger matter. Spray or mop BIO-FRESH on all surfaces to be cleaned, including inside, outside, and underside of urinals and sinks. Also spray water wettable area around urinals and bowl. No need to rinse.

DEODORIZER: Physically remove as much of the source of malodor as possible. Follow this by spraying product directly on the source of odor.

Manufactured By:

Trans Gulf Industries

6101 Humphreys St. Harahan, LA 70123

Pets will void where they smell urine. You may not smell it, but your pet can! Urine often calcifies under carpet, grout or any other porous floor. They can still smell that calcified Urine that a disinfectant won't clean. Bio-Fresh gets rid of any previous puppy accindents and prevents future ones.
