For Canadian Pricing
Candian factor can be found at steelcase.com/CADpricing.
Calculate in the following order to avoid rounding errors:
- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Warranty

Warranty

This warranty applies to Coalesse products delivered in the United States, Canada, Mexico, Latin America, and the Caribbean.

Coalesse, a division of Steelcase Inc. ("Coalesse"), warrants that Coalesse, Brayton, Metro and Vecta brand commercial products are free from defects in materials or workmanship, for a period of (10) years, subject to the exceptions listed below. Coalesse will repair or replace with comparable product, at its option and free of charge, any product, part or component manufactured after November 16, 2009 that fails under normal use as a result of such defect. This warranty applies from the date of manufacture, regardless of shift usage and is valid only for the original purchaser.

Exceptions

Lifetime

All interior wood frames

5 years

Stacking chairs, wood veneer, metal chair frames, functional mechanisms such as dollies, carts and trolleys, seating components including controls, adjustment mechanisms, pneumatic cylinders, and tablet arm assemblies. For Emu outdoor frames warranty applies against invasive and perforating rust not deriving from scratches or abrasions due to use and which cannot be removed by normal cleaning and care.

3 years

High wear parts such as casters and glides, stocked fabrics and other stocked covering materials. For all fabrics and leathers (Designtex, Maharam, Luna, etc) originating manufacturer warranties apply.

2 years

Exposed wood frames.

1 year

Marker boards, electrical components (including task lights, power strips, harnesses, power blocks, outlets, data connectors, audio and video connectors and all tabletop devices), drawer and door mechanisms, keyboard supports, fiberglass panels, replacement parts, granite and glass top surfaces, and outdoor cushions.

Exclusions

This warranty does not apply to product failure resulting from:

- Normal wear and tear
- Failure to apply, install, or maintain products according to published Coalesse instructions and guidelines
- Abuse, misuse, or accident
- Alteration or modification of the product
- The substitution of any unauthorized non-Coalesse components for use in the place of Coalesse components in an integrated product solution; such substitute components include but are not limited to worksurfaces, leg supports, panels, brackets, shelves, overhead bins, and other integral components.

The following products and materials are not covered by this warranty:

- Products considered consumables (e.g. lamps),
- Customer's Own Material (COM) or non-standard textiles and materials
- Variations occurring in surface materials (e.g. color fastness or matching grains, textures, and colors across dissimilar substrates and lots)
- Other manufacturer's products, including Carl Hansen and Emu. Coalesse will pass through other manufacturer's warranties where applicable and to the extent possible.

THIS LIMITED WARRANTY IS THE SOLE REMEDY FOR PRODUCT DEFECT AND NO OTHER EXPRESS OR IMPLIED WARRANTY IS PROVIDED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. COALESSE SHALL NOT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES ARISING FROM ANY PRODUCT DEFECT.

Ordering

How to Order

Coalesse furniture is available through authorized dealers and retailers. Select products are available for order from our web site. The authorized dealer can help you with everything from surface material selection and order placement, to specialized services, such as space planning and design, delivery and installation. Best of all, they are part of your local community, providing expert advice with a thorough understanding of local needs. For more information and a listing of dealers and retailers, visit www.coalesse.com or call 1.800.627.6770.

Coalesse reserves the right to limit distribution of any or all models.

Credit, Prices, and Terms

Credit may be established upon acceptance of satisfactory references. For payment terms, contact Coalesse's Credit Department. Coalesse may cancel or change credit terms at its discretion and may request advance payment at any time.

The order confirmation will be deemed by the customer and by Coalesse, as the final expression of agreement and will be deemed the exclusive statement of terms. The order confirmation supersedes all prior writings and may not be modified or rescinded, except by a revised Coalesse order confirmation signed by the customer. No changes are binding on Coalesse until delivery of the order confirmation. Any storage charges and applicable sales taxes are in addition to the prices shown for merchandise. Inside delivery, uncartoning and installation are customer's responsibility unless separately quoted. All list pricing shown includes freight prepaid to one destination for delivery in the 48 contiguous United States. Hawaii and Alaska are not included. We reserve the right to increase prices without notice due to increases in labor and material costs. If timely payment is not made, customer is liable for reasonable collection costs, including attorney's fees.

Shipping and Storage

Coalesse reserves the right to select carrier and packaging method. Partial shipments may be delivered. Coalesse is not liable for delays or delivery failure due to strikes, lockouts, labor, or transportation difficulties, failure or delay of supply sources, accidents, fire, acts of God, or any other cause of like or unlike nature beyond Coalesse's control. Coalesse may transfer merchandise to storage if not accepted when shipment scheduled. Transfer and storage charges will be the customer's expense. Coalesse's invoice is payable upon transfer. If transfer is made prior to confirmed shipping date, storage expenses will be borne by customer.

Shipping charges MAY be calculated per order. Lead times vary by product. Coalesse reserves the right to select carrier. Partial shipments may be delivered. Coalesse will make every effort to provide current and accurate lead time information, however, Coalesse is not liable for delays or delivery failure due to strikes, lockouts, labor, or transportation difficulties, failure or delay of supply sources, accidents, fire, acts of God, or any other cause of like or unlike nature beyond Coalesse's control.

Freight is included on domestically manufactured products within the 48 contiguous states of the United States and standard freight service of Carl Hansen & Son and Emu.

Claims

Merchandise shipped from Coalesse is thoroughly inspected and properly packed before leaving the factory. Responsibility of its safe delivery is assumed by the carrier at the time of shipment. Customer must match the freight delivered with the bill of lading. Customer must examine packaging material upon delivery and note any damage on the carrier bill of lading. If there is damage to the packaging material, inspect the furniture immediately. If concealed damage is found, contact the carrier within 10 days of delivery date. Save all packaging materials until after inspection.

Freight damage and claims must be reported by the purchaser to the carrier. Coalesse is not responsible for freight claims. Claims for loss or damage must not be deducted from our invoice, nor payment withheld awaiting adjustment of such claims. Do not return any merchandise to Coalesse without a Return Authorization number. By following these procedures carefully, Coalesse guarantees our full support of your claims to protect you against loss or damages. All claims against Coalesse for defects, errors or shortages must be made by customer in writing within ten (10) days after delivery. Failure to make claims within ten (10) days constitutes acceptance of merchandise and waives claims. Cutting of textiles deems acceptance of yardage and waives all defects, errors, and shortages. Coalesse is not liable for subsequent damages.

Special/Custom Products

Coalesse prides itself on being responsive to our customer's needs. Contact our customer service team at 1.800.627.6770 to discuss a special opportunity. Due to product modifications and engineering time, special orders may not be cancelled. Charges will apply.

FOR MORE INFORMATION (on ordering our products)
Please contact Coalesse Customer Service at:
1.800.627.6770 .

Ordering

Order Cancellations/ Changes

All order change/cancellation requests must be submitted using the Coalesse order change/cancellation request form. Late changes could jeopardize the committed delivery of an order.

Coalesse Rapid10 programs no change or cancellations allowed.

Coalesse Products:

• No charges will be assessed for change or cancellation 14 or more calendar days prior to the manufacturing completion date (excludes holidays and/or large quantity project size orders). For import products, charges may apply.

• No manufacturing changes are allowed 0-13 calendar days prior to the manufacturing completion date. Simple changes including shipping address changes are subject to approval but will be accommodated when possible.

• No cancellations or product changes will be accepted for quick ship or special/custom product orders including special laminates. A cancellation fee will be applicable for any custom product and/or change may jeopardize lead time.

• If COM/COL has been received at time of change or cancellation, it is the dealer's responsibility to advise disposition or return of materials. Coalesse will not store materials after 30 days.

Additional Charges

• Changes or cancellations that involve any of the following may be subject to a charge earlier and/or greater than shown above: Special engineering product, CSM, pre-ordered components, materials with extended lead times (e.g., veneers, special paint, etc.) or large quantities of standard materials.

• Use our Order Change/ Cancellation Request Form for all order changes. It is Coalesse responsibility to accurately process change order requests. It is the dealer's responsibility to verify that we have accurately interpreted your change requests by checking the acknowledgement after the change has been made. If you do not use the web-based change order form process and an error occurs during our translation which cannot be corrected prior to ship, all costs will be shared on a 50/50 basis. Changing ship dates or adding product to your order is subject to the availability of manufacturing capacity.

• Cartoning changes and shipping address changes are subject to approval and to a change charge. Please consult your Customer Service for specific information pertaining to your order.

Reserved Fabric Policy

Prior to order receipt, reserving textiles (COM/COL, Maharam, Designtex, and select Luna Graded-In) is the responsibility of the dealer. Coalesse cannot reserve textiles based on projected orders. Coalesse cannot guarantee Maharam or Designtex fabric availability. If dealer reserves Maharam or Designtex textiles, Coalesse will require the reserve number and zip code for locating purposes when ordering.

Schedule Enhancements

Coalesse will entertain schedule enhancements on a case-by-case basis; however, please understand that we must receive complete information such as installation date, opening date etc...to make informed scheduling decisions.

No order move-ups or move-outs are allowed on any order that falls within the 15-working day period of its manufacturing completion date. If it is within the 15-working day period, Coalesse will invoice at shipment but may offer storage options at a charge for manufactured product.

Sustainability

As our understanding of sustainability evolves in the contract furniture business, Coalesse is being launched on three important fronts: responsibly harvested woods, better ways of plating metal, and manufacturing for the highest level of durability. To ensure all new products are socially responsible, we have engaged the "cradle-to-cradle" design consultancy, MBDC, to advise us and provide third-party analysis of the materials and processes we use to create our products. As Coalesse grows, social responsibility will be an essential part of our decision-making, from design to disposal. We believe that our success on the environmental front will be built on the accumulation of a multitude of small steps and the occasional big leap. We are starting with a green outlook and we have every intention of growing greener.

WOODS: FSC CERTIFICATION

Our policy with wood sourced from outside North America and our approved European partners is that they must be certified by The Forestry Stewardship Council (FSC) to ensure these woods have been responsibly harvested from sustainable forests, and that the rights and welfare of workers and local communities are being respected. Through an FSC label, wood can be traced back to its original source of supply.

Our Geneva, NY manufacturing location has chain of custody certification for working with FSC certified woods.

CHROME: A NEW ALTERNATIVE TO METAL

Chromed steel is a mainstay of the contract furniture industry because it is considered a premium finish with high durability. But depending on the type of chrome processing used, it can have a detrimental impact on human and environmental health. The most common method of chrome plating uses hexavalent chrome, a known carcinogen and considered by MBDC in their color-coded rating system (green, yellow, red), to be a "hard-red" chemical. There are no health hazards associated with chrome once it has been applied, but the hexavalent chrome electroplating process can be hazardous.

Is there an alternative? Coalesse is opting for a safer method of plating and has partnered with a domestic supplier who uses only "trivalent" chrome, a non-carcinogenic form of the metal. Few, if any, metal finishing processes are without environmental challenges, and chrome is no exception. Working with the best technology currently available, we will continue to seek new and better alternatives.

BUILDING TO LAST

Building longevity into products is an important sustainability strategy. A chair or table that lasts for 50 or 100 years or more will not have to be replaced, saving the materials and finishes and embodied energy from being duplicated in another form. Coalesse is quality furniture designed to outlast its buyers. We hold up Hans Wegner designs as the model of longevity—pieces manufactured a generation ago are still prized possessions today. Our hope is that every piece in our collection appreciates in value over the years, so it will be passed on.

ONGOING AUDITS

As the Coalesse collection grows, our intention is to live by the cradle-to-cradle (C2C) philosophy described by MBDC this way: "Instead of designing cradle-to-grave products, dumped in landfills at the end of their 'life,' the goal is create products for cradle-to-cradle cycles, whose materials are perpetually circulated in closed loops. Maintaining materials in closed loops maximizes material value without damaging ecosystems." Coalesse has contracted MBDC to audit the materials used in the majority of our existing products, and to advise us as we develop new products. We intend to achieve Cradle to Cradle certification on the highest percentage of products possible. As Coalesse grows, social responsibility will be an essential part of our decision-making, from design to disposal. We believe that our success on the environmental front will be built on the accumulation of a multitude of small steps and the occasional big leap. We are starting with a green outlook and we have every intention of growing greener.

Designers

EOOS - Austria

Together

The Austrian-based EOOS was founded in 1995 by Martin Bergmann, Harald Gründl, and Gernot Bohmann, three graduates of the Academy of Applied Arts in Vienna. The partners collaborate on all projects, specializing in the design of furniture, consumer products, and architectural spaces, particularly flagship retail stores. Customers include celebrated names such as Armani, Adidas, Moroso, A1/Vodafone, Matteograssi, Walter Knoll, Keilhauer, Duravit and Zumtobel Staff.

EOOS relies heavily on research and a design process they refer to as "poetic analysis." The partners seek words, sentences, or images that evoke concepts "deeply rooted in mankind."

Says Martin Bergmann: "Our work is not one-dimensional, nor is it based on a direct process that leads from a specific customer requirement to our design. We actually research the context of the customer's brand. What is it derived from? How did the brand myth come about? What does the brand stand for? Our approach frequently enables us to illuminate a previously undiscovered dimension of the customer."

Jeffrey Bernett - USA

Davos Chair & Benches

Jeffrey Bernett, who founded his renowned Studio B in 1995, presented his first collection of furniture and accessories, entitled "Ideas for Production,"at the May 1996 International Contemporary Furniture Fair (ICFF) in New York City. The designs won the Editor's Award for "Best Decorative Accessories." At the ICFF in May of 2000, Bernett, along with five other designers, was named "Best New Designer" for work with the U.S. manufacturer, Dune.

Highly versatile, Bernett works in interior architecture, furniture, household products, lighting, fashion accessories, graphic design/corporate image and art direction. He is the first American designer to be hired by a number of major European companies. Recent clients include Authentics, Viccarbe, B&B Italia, Boffi, Cappellini, Dune, Esteé Lauder, Hidde/sdb, Michael Kors (LVMH), Ligne Roset, and Troy.

His work has been featured in Abitare, Casa Abitare, Design Diffusion News, Domus, Elle Decor, House & Garden, Interni, Intramuros, Metropolitan Home, The New York Times, Ottagono, and the books "50 Products" and "50 Beds."

In 1995, Bernett founded Consultants for Design Strategy. In collaboration with Nicholas Dodziuk, he consults on custom furnishings and fixtures for clients such as Northwest Airlines, Michael Kors, and Samsonite.

Bernett's explanation of why he designs (Interior Design magazine, December, 2003): "I'm very mechanically inclined, which includes an affinity for and curiosity about machines, industrial process, and materials. I was born with the benefit of being a good three-dimensional thinker, as well as studying a fair bit of business at university. Design was the perfect profession—culture for commerce."

PearsonLloyd - UK

Bob and Lox

Tom Lloyd and Luke Pearson met while studying at England's Royal College of Art in the early 1990's. The London-based PearsonLloyd studio was founded in 1997 based on their shared desire to combine furniture and product design. They work a number of design disciplines, including furniture, consumer products, transport, and the public realm.

The designers have written that their "desire is to produce compelling solutions that are intelligent, appropriate and timeless, and contribute to what for us, is the still embryonic craft of industrial design."

PearsonLloyd's work includes: Virgin Atlantic Airway's Upper Class Suite (2003); a range of walk-in showers for Ideal Standard (2005); a street lighting system by Artemide for The City of Westminster (2004); bus shelters and way-finding system for Sheffield City (2007); and numerous furniture projects for Walter Knoll, Bernhardt Design, Kokuyo, Tacchini, and Allermuir. The studio was selected from over 150 companies to be one of four designated product design consultancies for Transport for London (TFL) until 2009.

Jean-Marie - Massaud-France

Holy Day Lounge & Tables, Emu Heaven, Massaud

In 2000, Jean-Marie Massaud formed Studio Massaud with Daniel Pouzet . Together, they have designed the Tanabé House (Fukuoka, Japan), Renault's displays at international motor shows, the Modern Object concept store (Colombus, Ohio), the HIP spa (Nice, France), and the brand and architectural image of Lancôme (cosmetics) and Poltrona Frau (furniture) worldwide. Studio Massaud is also working on a 50,000-seat football stadium and two condominium towers (Guadalajara, Mexico), luxury hotel (Paris, France), and a condominium building (Tribeca, New York).

A graduate of Les Ateliers, Ecole Nationale Supérieure de Création Industrielle, Massaud's work, while "humanistic," is rooted in the applied sciences and clearly influenced by his training as an engineer.

Victor Carrasco, General Manager of Viccarbe, says of Massaud: "His unmistakable "Human Nature Style" has allowed him to become, in few years, one of the top designers at international level.

"Who other than Massaud," says Carrasco, "would be able to reinterpret Mies Van Der Rohe in such an elegant and sophisticated way? Only someone with a special sensitivity can develop a landmark collection like Holy Day. It is already a great international bestseller and part of the contemporary history of design."

Massaud's furniture designs are displayed in design museums in Amsterdam, Chicago, London, Lisbonne, Paris, and Zurich.

Marc Krusin

Wrapp Chair

One of Europe's brightest young designers, Marc Krusin is veteran of the Milan-based group Codice 31, which he founded in 1998 with five other designers. He now directs the design team of the prestigious Milanese design firm, Piero Lissoni, overseeing projects for international clients such as Alessi, Kartell, Flos, Thonet, and Wella.

Much of Krusin's own work is done through Klay, a firm he opened in 2004, specializing in "objects of natural materials influenced by world cultures." Cross-cultural influences run throughout his practice.

He has designed for Fontana Arte, Liv'it, Pallucco, Saporiti, Bosa ceramiche, Merten, Omnidecor, Glas Italia, and the Spanish furniture firm, Viccarbe. Viccarbe's General Manager, Victor Carrasco, describes Krusin as "a great talent at a very young age."

Krusin was recently honored in the 2008 "Europe 40 Under 40," an annual program co-sponsored by The European Centre for Architecture Art Design and Urban Studies and The Chicago Athenaeum: Museum of Architecture and Design. According to the program directors, Krusin is one of the "next generation of innovative architects and designers who will impact future living and working environments, cities, and rural areas."

Patricia Urquiola - Spain

Last Minute Stool, Emu Retrouvé, and Hosu

Patricia Urquiola began training as a student in architecture at Faculdad de Arquitectura de Madri before graduating in design from Politecnico di Milano in 1989, where she studied under Achille Castiglione.

In 1991, as head of the product development team at De Padova, Urquiola designed her first commercial furniture pieces (in collaboration with Vico Magistretti). They were highly imaginative yet functionally pragmatic, an appealing combination that has defined her work since.

From 1993 to 1996, Urquiola owned a studio with two friends, accepting commissions in architecture, interiors, showrooms, and restaurants. From 1996 to 2000 she managed the design group Lissoni Associati, then opened her own studio in Milan, focusing on product design, displays, and architecture.

Best known for her many designs for Moroso, Urquiola has also worked for De Padova, Agape, B&B, Alessi, Driade, Foscarini, Kartell, Flos, Molteni, and Artelano among other well-known furniture houses. She has won numerous design awards and is sought after as a speaker at conferences and universities.

Hans J. Wegner - Denmark

Carl Hansen & Son

Hans J. Wegner is one of the 20th century's most important furniture designers. A leader of the Danish Modern style, Wegner is revered for his iconic chairs with their organic beauty and ample comfort. His understanding of wood joinery was unsurpassed, his views on quality uncompromising. Wegner balanced form and function brilliantly.

Carl Hansen & Son, the Danish furniture maker, began working with Wegner in 1949. Among his first designs for the company were the legendary Wishbone Chair (CH24) and several other designs that are still produced today.

During his long career, Wegner designed more than 500 chairs. He almost singularly brought the chair out of its hiding place as "part of a furniture set" and into its own as modern sculpture. He broke new ground by combining natural materials in imaginative ways, always testing the limits of craftsmanship and serial production.

Wegner was demanding and difficult to satisfy, often taking weeks to get the results he wanted from his craftspeople. But he was also limitlessly curious, often playful, and always elegant. "We must take care," he said, "that everything doesn't get so dreadfully serious. We must play – but we must play seriously."

While Wegner was awarded practically every honor possible for a furniture designer, and his chairs are featured in museums around the world, his design is accessible. He believed that chairs were made for sitting. Ergonomics and usability had a central role in his thinking before those words ever entered the mainstream.

Hans J. Wegner died in Denmark in January, 2007.

Brian Kane - USA

Bindu

Brian Kane graduated from the University of Bridgeport, Connecticut, in 1970 with a Bachelor of Science degree in Industrial Design. He worked for several New York City design studios and spent a year in Milan, Italy, working for Architect Silvio Coppola. His projects included the design of seating and casegoods for such companies as Mobil Italia Spa. and Bernini Spa.

After returning to the U.S., he worked in New York for Atelier International (A.I). Work involved special contract furniture design projects, showroom design, and the startup of U.S. production of Italian designs by Cassina, B&B, and Tecno.

Kane joined the design staff at Metropolitan Furniture Corporation (Coalesse) in January, 1977. Less than three years later, he became one of four partners assuming ownership of the firm, and took on the responsibilities of Vice President of Design and Product Development.

In 1987, Metropolitan was acquired by Steelcase. For the next two years, Kane maintained his position as Vice President and was responsible for all aspects of Coalesse's design, including products, showrooms, and graphics.

In March of 1989, Kane established Kane Design Studio in San Francisco.

Kane's designs have won over 80 design awards and have been exhibited at the Whitney and Brooklyn Museums in New York and the Museum of Modern Art in San Francisco.

WilliamsSorel - USA

Denizen

WilliamsSorel is a California-based design studio established by Otto Williams and Jess Sorel in 2007. Prior to launching their own firm, Otto and Jess were the creative force behind Coalesse, by Steelcase. Their designs for Coalesse won more than 20 awards, most notably for Bix, which defied conventional office furniture categories. During their tenure at Coalesse, Otto and Jess developed a passion and reputation for exploring the boundaries between work and life in an effort to humanize the modern workplace.

The designers have said "we are thinking less about categorizing office furniture and residential furniture, and thinking more about the experiences of working and living in spaces, and the artifacts you need to support both narratives simultaneously. There's really a move to allow furniture to be furniture again, as opposed to equipment. In a sense, the office is being dismantled."

Together they hold numerous design and utility patents and their work has been published in Abitare, Azure, Contract, Fast Company, I.D. Magazine, Interior Design, and Metropolis. Otto holds a BFA in Industrial Design from Rhode Island School of Design. Jess holds a BFA in Industrial Design from The California College of the Arts.

Scott Wilson & MINIMAL - USA

SW_1 Collection, Power Pod

In 2007, Scott Wilson founded Chicago-based MINIMAL, a studio whose diverse work spans industries ranging from technology, interaction, and consumer products to fashion, furniture and environments. A former Global Creative Director at Nike, Wilson has led design organizations such as IDEO, Thomson Consumer Electronics, Fortune Brands, and Motorola and created some of the most recognized consumer design icons.

Currently partnering with top Fortune 500 companies such as Google, Dell, Microsoft, Nike, and Xbox as well as exciting start-ups, MINIMAL is working on the some of the most anticipated new devices and experiences in the industry. Balancing consulting for design-centric brands with his intense passion for self-manufacturing and entrepreneurial ventures, Wilson is constantly looking for the next consumer connection. In January of 2010 he successfully incubated, developed, raised funding, and launched a revolutionary new customization platform brand, Uncommon, which took the existing industry giants by surprise.

One of the most respected hands-on designers in the industry, Wilson has the elusive ability to consistently deliver products to market that speak rationally and emotionally to the consumer, ultimately ensuring a higher probability of market success and endurance.

His work has been exhibited in museums and competitions including the Cooper-Hewitt National Design Triennial, MoMA, MCA, and Chicago Athenaeum and has been recognized with over 50 international design awards in the last decade including ID Magazine's Top 40, FastCompany's Master of Design, and TIME Magazine's Style+Design 100.

Designers

Lievore Altherr Molina

Enea Lottus

Lievore Altherr Molina was created in 1991 by the merging of its three partners: Alberto Lievore, Jeannette Altherr, and Manel Molina. Since its founding, the studio has been devoted to product design, consulting, and the art direction of various companies, always offering individualized solutions.

Throughout the years the studio has been recognized for its furniture design, its interior design projects, its products, and packaging. Simultaneously, the studio has developed an intense teaching practice, giving seminars, and training courses to new professionals at various Spanish universities and other organizations.

The studio has been awarded many national and international awards, including Spain's National Design Award in 1999. Lievore Altherr Molina has exhibited their work in Barcelona, Cologne, Chicago, Stockholm, Helsinki, Lisbon, London, Louisiana, Madrid, Malmö, Milan, New York, Paris, and Tokyo. Their ideas and projects are regularly published in the most prestigious design magazines around the world.

Coalesse is excited to introduce the Enea Lottus collection, designed by Lievore Altherr Molina. The Lottus collection of stacking chairs, stools, and tables offers a simple, clean aesthetic to most live/work settings. Easy to store, easy to clean, and user-friendly, the Enea Lottus collection is a logical solution for any environment.

Steven Copeland

Free Stand

Steven Copeland is an industrial designer known for crafting mobility. "I'm looking for new products that free up people's physical aspirations and enable intuitive expression... constructions that gel with the amazing human body and celebrate agility."

Born in 1960 in Montreal, Copeland's kinetic approach to design began as a child making toys and bicycles. Today his professional work is defined by an interactive quality, the way toys are defined by the play they inspire.

With a client list of elite manufacturers in the U.S. and Europe, Copeland has won several of the industry's top awards and has been widely published and exhibited for design innovation. Best know for a groundbreaking collection of lighting with Flos, Steelcase, Knoll, and Luxo, Copeland has built a reputation for creative problem-solving that led to collaborations with NASA and M.I.T., and to work with Rhode Island School of Design and the University of the Arts in Philadelphia, P.A. He has also pioneered new levels of performance in computer ergonomics and disabled cycling.

Toan Nguyen

Lagunitas

Toan Nguyen was born in Paris in 1969 and graduated in Industrial Design at ENSCI-Les Ateliers in Paris, in 1995.

After experiences in several design studios in Paris, Barcelona, and Milan and notably ten years of collaboration with Antonio Citterio as design director and design partner, signing products for many brands such as Axor-Hansgrohe, B&B Italia, Flos, Fusital, Guzzini, Iittala, Kartell, Metalco, Skantherm, Technogym, or Vitra, Toan Nguyen founded his own design studio based in Milan in 2008.

Toan Nguyen Studio is a multidisciplinary Atelier focused on design development in many different design fields, from furniture to technological products, in partnership with leading international companies based in Germany, Italy, Spain, Switzerland, and USA such as Accademia, Dedon, Fendi Casa, Laufen, Lema, Moroso, Urmet Group, Varaschin, Viccarbe, and Walter Knoll.

The Bellows Collection designed for Walter Knoll has won a Red Dot Design Award in 2010 and Antero, designed for Laufen, has obtained the Red Dot Design Award 2012.

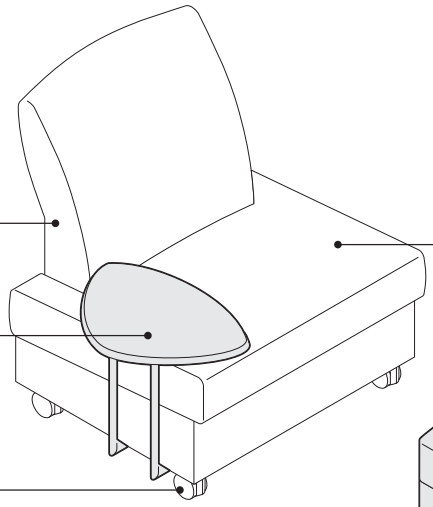
Archipelago

DESIGN METRO DESIGN GROUP WITH EIGHT INC.

Archipelago lounge seating features a simple, versatile design that works well in an informal work setting. Lounge chairs may be specified individually or connected with elliptical, fully upholstered arms or pivoting tablet arms. An ottoman is also available.

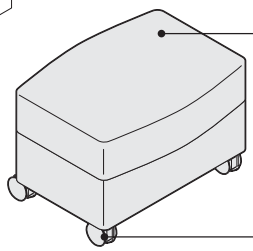


Back is fully upholstered. The position of the back cushion varies depending on the chair model.

Tablet arm pivots on a 60° angle. It has a wood core with a laminate or wood veneer surface.

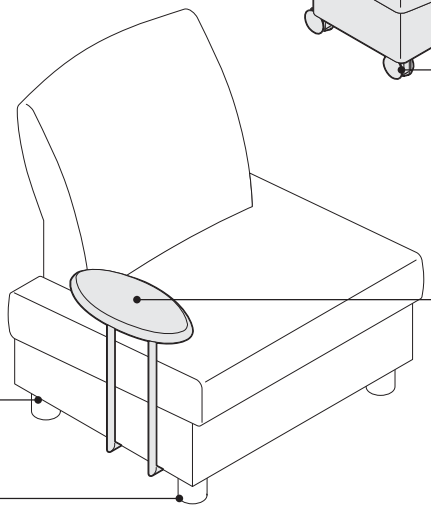
Soft casters are non-locking. *Tip: casters are not recommended for connected lounge sections.*

Seat is fully upholstered.



Ottoman can be used as a mobile footrest, bench, or soft worksurface.

Casters are standard on ottoman.



Elliptical arms are available in wood. They can be positioned to the left or right side or intermediate between two seats. Fully upholstered arm is also available.

Legs are constructed with steel and finished with any paint color.

Adjustable glides are standard on models with legs. Bottom of glide is black plastic, with no adjustment.

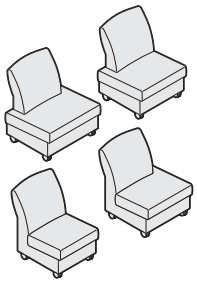
Product Details



Lounge chair is available in four models – 32"W straight, left section, right section, and 24"W straight.

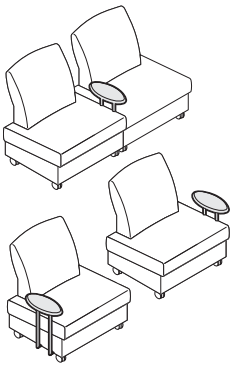
32"W straight lounge chair has a back cushion that is centered on the back of the chair. It has a 4" extension on each side of the back cushion. It can stand-alone or be adjoined to another lounge chair. An arm or tablet arm may be attached to either side.

Left-section lounge chair has a back cushion that is flush on the right side and has a 4" extension on the left side when facing the front of the chair.
Tip: The right side will adjoin with a straight or right-section lounge chair. An arm or tablet arm may be attached to the extended left side.

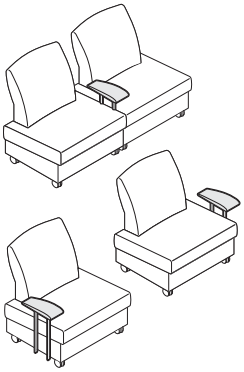
Right-section lounge chair has a back cushion that is flush on the left side and has a 4" extension on the right side when facing the front of the chair.
Tip: The left side will adjoin with a straight or left-section lounge chair. An arm or tablet arm may be attached to the extended right side.

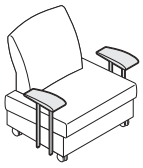
24"W straight-section lounge chair has a back cushion that is flush on both sides of the chair. It can stand-alone or adjoin to another chair with a straight side.
Tip: An arm or tablet arm cannot be attached to the straight-section lounge chair.

Ottoman is equipped with casters. It is intended as a footrest. However, it also provides a backless seating option.

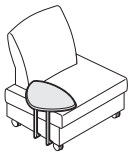


Elliptical arm is available in two styles – intermediate or end. The intermediate arm attaches between adjoining chairs. The end arm is handed for use on the left- or right-hand side. It is available with a laminate or wood veneer surface.





Fully upholstered arm is available in two styles – intermediate or end. An intermediate arm attaches between adjoining chairs. The end arm is handed for use on the left- or right-hand side.



Tablet arm pivots on a 60˚ angle. It is handed for use on the left- or right-hand side. It is field installed.

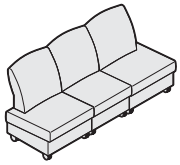
Multiple fabrics can be specified on an individual unit for an additional fee per specified fabric. A lounge chair can have up to two additional fabrics. An ottoman can have one additional fabric.

Lounge chair
- Seat cushion and sides of seat cushion - no additional fee
- Back cushion (including the front, back, and sides of back cushion) - additional fee
- Base frame - additional fee
- Fully upholstered arms (if selected and ordered separately) - no additional fee

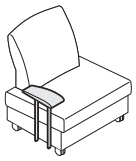
Ottoman
- Seat cushion and sides of seat cushion - no additional fee
- Base frame - additional fee

▶See *Archipelago Multi-Fabric Diagram and Yardage Request Form*, page 59.
Tip: Fully upholstered arms, if selected, can have a contrasting fabric. However, since they are ordered separate from the chair, simply order the arms with whatever kind of fabric is desired.

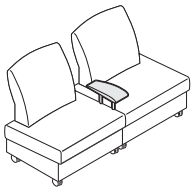
Connections



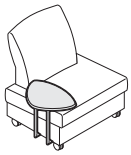
Straight side of a chair adjoins to another straight side. Ganging brackets are provided.



End arm connects to the extended side of a chair. An end arm cannot attach to the straight side of a chair.



Intermediate arms connect between two adjoining chairs that have extended sides.



Tablet arm connects to the extended side of a chair. A tablet arm cannot attach to the straight side of a chair.

Casters are not recommended for connected lounge sections.

Archipelago Lounge Chairs and Ottoman X10/15

DESIGN METRO DESIGN GROUP WITH EIGHT INC.

Tip: For Customer's Own Material or Leather, see necessary requirements, important processing instructions, and ordering information on page
▶See *Coalesse Surface Materials Reference Guide.*

Tip: Arms and tablet arms, if selected, should be entered on consecutive lines of the purchase order immediately following the lounge chair to which they will be applied. Components for identical chair configurations may be grouped together on consecutive lines.

Tip: Begin a new series of line items for each chair configuration.

Tip: For veneer tops, edge and top will be the same finish color. For laminate tops, edge will always be black.

Tip: When specifying fabric in different price grades, the highest price grade prevails.

Tip: Arms are ordered separately. They can be specified with matching or contrasting upholstery.

Tip: The COM yards and COL square footage listed on these pages reflect the requirements for a single fabric that are based on non-directional 54"W material applied railroaded. For multi-fabric COM requirements, please refer to Multi-Fabric Diagram and Yardage Request Form.
▶*Page 59*

Tip: Fully upholstered arms do not require additional COM yardage or COL square footage.

Tip: Handedness is determined while facing the chair.

Tip: Fabrics and leathers will appear loose with comfort wrinkles when upholstered.

*Fabric yardage is based on non-directional/solid fabrics. Use conversion chart below for repeat/printed fabric yardage.

Non-standard fabric requirements

Yardage requirements shown are based on non-directional 54"w material applied railroaded. Coalesse will apply fabric railroaded unless instructed otherwise on the dealer's purchase order. The following conversion chart should be used to determine yardage requirements when COM has a repeat of 2" or more. Please contact Coalesse customer service for a yardage quotation if the fabric is less than 54" wide, has a repeat of more than 24", or if the fabric must be cut- right.

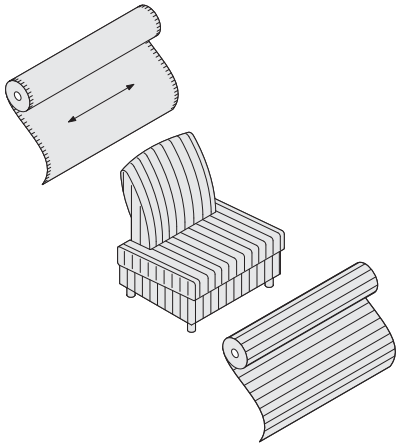
CONVERSION CHART

PRODUCT	REPEAT		
	2"- 8"	9"- 14"	15"- 24"
All other products	15%	25%	35%

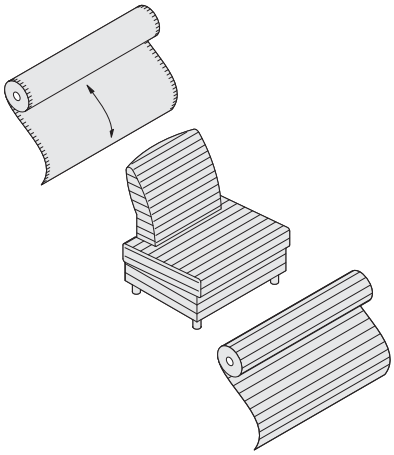
Yardage quotations will also be provided for order of 10 or more pieces.

Cutting direction guidelines

Cutting direction is based on the fabric width and the way the fabric is cut from the roll and applied to Coalesse products. There are two cutting directions: railroaded or cut-right.



Horizontal or railroaded (across roll, warp horizontal) means fabric is cut across the roll; selvages are on the top and bottom.



Vertical or cut-right (down roll, warp vertical) means fabric is cut in the same direction it is woven; selvages are on the left and right sides.

Coalesse reserves the right to railroad or apply fabric according to weave unless instructions specify otherwise. Fabrics are railroaded when possible to avoid seams in large upholstered areas and/or single cushion units. If a fabric is questionable, a cutting of adequate size showing full repeat (if any) should be sent to Coalesse for a fabric requirement quotation.

Await Tables

DESIGN EOOS DESIGN ORIGIN: GERMANY

= Available in Rapid10.

Tip: Await connector tables are not recommended to be used in end-of-run applications.

Tip: Await connector tables are not made for ganging to Await mobile ottoman.

Standard Includes

- Freestanding table frame: silver
- Connector table frame: panels are black, white, or gray
- Top: High-Pressure Laminate top with matching 3 mm edge band
- Glass top (tablet):
  - ½" thick
  - Radiused edges
- Ganging plate: ¼" thick ganging plates attach to the bottom of units to the seating unit plates

Required to Specify

1 Style number
2 Laminate top and tablets, if selected:
2595 Black
2730 Arctic White
2906 North Sea
3 Glass color number for top, if selected

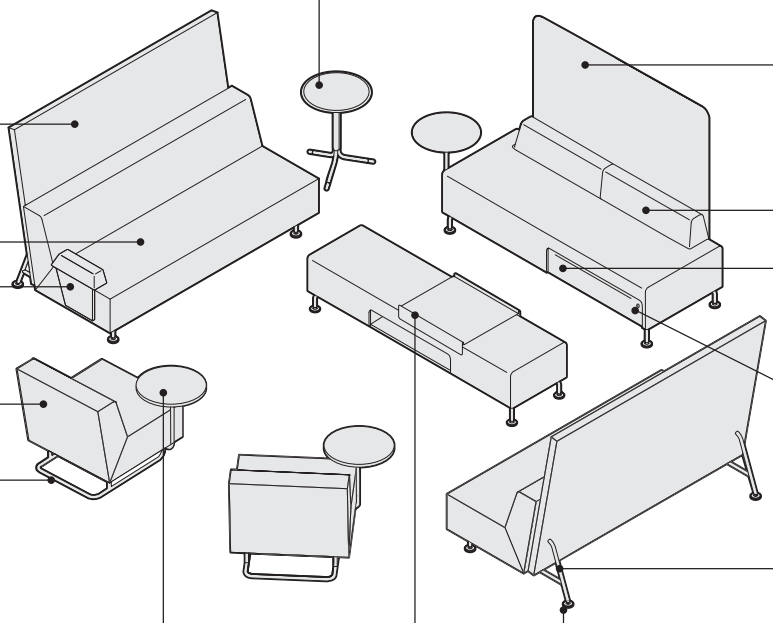
Bix

DESIGN METRO DESIGN GROUP

Bix offers a system of seating and tables that can create a variety of lounge-based applications that address group or individual work needs. Each application provides convenient connections to power, voice, and data.

Group meeting area created with Bix furniture offers a sense of enclosure without walls for collaborating and provides social and physical comfort.

Side table offers a freestanding mobile tablet surface. It is available in vinyl.



Back screen is available on select units to provide privacy and divide space. It is upholstered.

Seat is upholstered.

Arms are available on select seating units. They are upholstered.

Back is upholstered.

Sled base on a lounge chair is finished with paint. The back of the sled base does not extend past the chair back.

Projection screen is available on podium seating for presentations and to divide space. It also accommodates Steelcase huddleboards.

Bolster is upholstered.

Storage drawer is available on select models to store equipment or presentation tools.

Face lock, keyed randomly, is standard on storage drawers to secure the items stored in it.

Legs and base are constructed with steel tubing and steel plates for structural integrity. They are finished with paint. They are either inset under the seating unit (sled base) or slant off the back of a unit (legs).

Tablet provides a surface for presenter's notes, laptop computer, or wireless mouse.

Leveling glides adjust for installations on uneven floors. Adjustability range is 3/4".

Service tray is optional.

Actual Dimensions

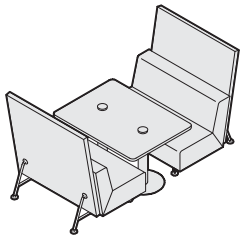
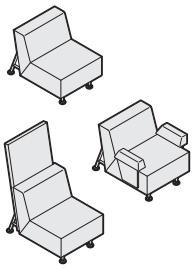
Bix

DESIGN METRO DESIGN GROUP

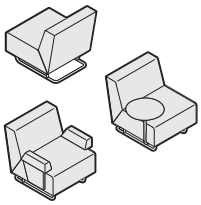
Product Details



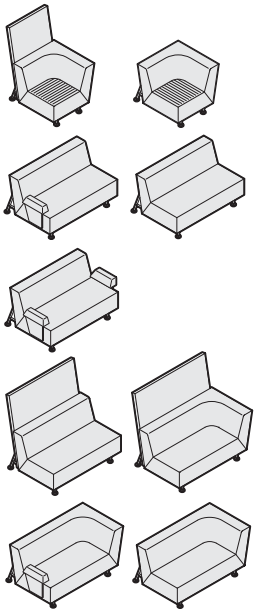
Individual work-booth area provides an alternative to a confined workstation. It offers a semi-private setting for temporary tasks that require projects to be spread out. It is created by grouping two straight sectionals or lounge chairs with a 27"H work-booth table.
Tip: Extended corner sectionals or straight sections with arms should not be used in a work-booth application because access to the seating area is obstructed.



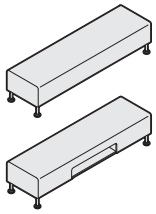
Lounge chairs are available with or without upholstered back screens. Models with upholstered arms are also available.



Sled lounge chairs feature a compact base that is designed for small spaces or to be used flush against the wall. They are available with or without upholstered arms or a tablet arm.

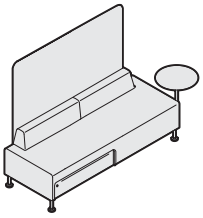


Sectional seating is offered in corner, extended corner, and straight units to provide a variety of configurations. They are offered with or without back screens and with or without arms. All sections include an integrated ganging device. Corner sectional units are handed. Handedness is determined by the location of the back screen or back support legs.

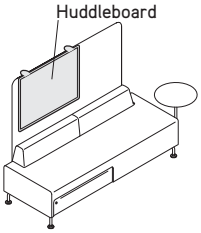


Bench provides a backless seating option. It can also be used as an alternative soft occasional table. An open storage space that is accessible from either side is available for storing magazine and media equipment. Bench can accommodate a service tray.

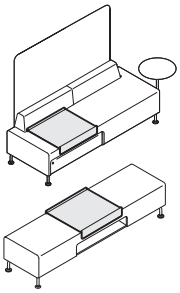
18" seat height is an available option on all lounge, sectional seating, bench, and podiums. This option should not be used in conjunction with work booth tables. It allows a higher sit for healthcare applications.



Podium serves as a focal point for lounge-based meeting spaces and provides comfortable seating for the presenter. A lockable storage drawer secures projection equipment or presentation tools. A fixed tablet arm provides a surface for presenter's notes, laptop computer, or wireless mouse. Podium can accommodate a service tray.



Integrated projection screen is available on select podium units for slides or projected digital media. It can also be used to divide an open space. The screen is a fine white mesh that allows light to filter through when the screen is used as a space divider. It also accommodates a Steelcase huddleboard.

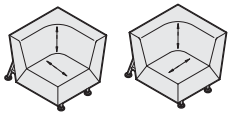


Service tray rests on benches and podium units for food service or to support projection equipment in a lounge-base meeting space.

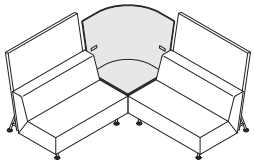
Multiple fabrics can be specified on lounge, sectional, and podium seating units for an additional fee per specified fabric.

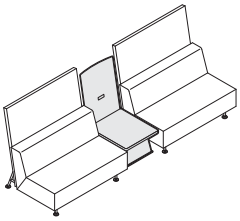
- Seat cushion and sides of seat cushion - no additional fee
- Back cushion and sides of back cushion - additional fee
- Back screen (if selected) - no additional fee
- Armrest (if selected) - no additional fee

▶ See *Bix Multi-Fabric Diagram and Yardage Request Form*, pages 87 and 92.
Tip: Fabric for the seat and back is specified separate from the back screen, if selected. For a monochromatic look, specify the same fabric for both the seat and back and back screen.



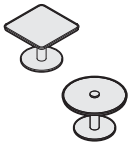
30"W corner sectional units are available with the two fabric direction options for the seat – railroaded or cut-right. Seat fabric direction is determined by its relationship to the back screen or back support legs.
Tip: Seat fabric on extended corner and straight sections is always railroaded.
▶*Page 94*





Bridge tables integrate with Bix sectional seating to create a range of lounge-based applications and are available with two top shapes – rectangular and corner. Translucent screens are available to create a sense of visual privacy for open space environments. The worksurface is available with or without a grommet and an optional power, voice, and data module. The rectangular table features an integrated 18"W x 12½"H tilted display surface for magazines or project folders.
Tip: Bridge tables are used with sectional seating. They do not attach to benches or podiums.

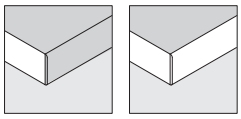
Corner bridge tables are offered in 20" table height option to be used with the 18" seat height option only.



Occasional tables are freestanding 18"H tables that can be used a variety of lounge applications. They are available with a round, square, or rectangular top. The tops are available with or without a grommet and an optional power, voice, and data module.

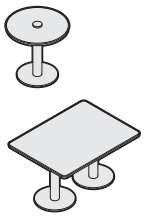
Bix *continued*

DESIGN METRO DESIGN GROUP



Plastic edge Wood edge

Edge detail is available in either plastic or wood edge.

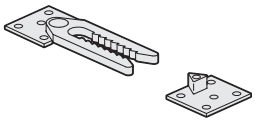


Work-booth tables are free-standing 27"H tables that are used with sectional seating to create a work-booth configuration. They are available with either a round or rectangular top. The tops are available with or without a grommet and an optional power, voice, and data module. Base features a low profile for foot clearance.

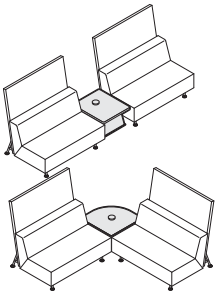
Side table offers a freestanding, mobile tablet surface. The tripod base allows it to be positioned close to a seating unit. The top is available in vinyl.

Back screen is available on lounge and sectional seating. It is fully upholstered with a zipper detail. However, it is not removable. Back screens must be ordered with the chair. It cannot be retrofitted to an existing backless lounge chair or seating sections.

Connections



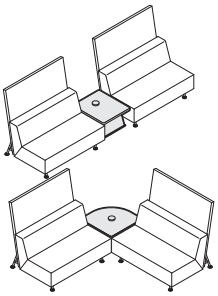
Integrated ganging device, included, connects sectional seating units together in the field. It is not intended for user reconfiguration.



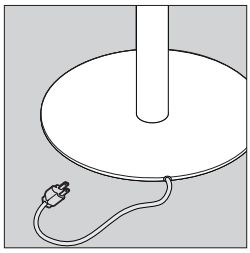
Bridge tables connect on both sides between sectional seating units. A rectangular top is used in an in-line configuration. A corner top is used in an L-shape configuration.
Exception: Bridge tables cannot attach to a seating unit with arms.

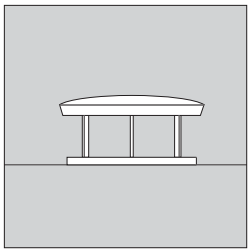
Lounge chairs are independent and are not intended to connect to sectional units or bridge tables.
▶See How To Plan, page 76

Wiring & Cabling

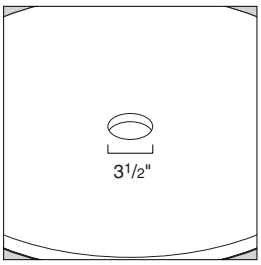


Bridge tables are available with a grommet, factory installed, to allow cords and cables to pass through the top. Wire management clips, attached to the underside of the top, are used to route cords and cables. A power, voice, and data module can be inserted in the grommet.

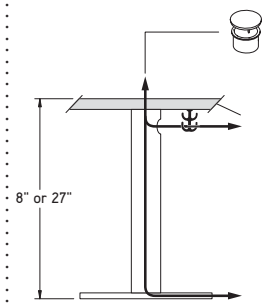




Occasional and work-booth tables are available with a factory-installed grommet located over each column and base to allow cords and cables to pass through the top. A power, voice, and data module can be inserted in each grommet location.

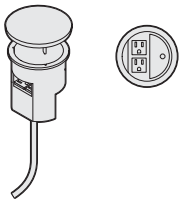


The worksurface cutout for the grommet and PVD is 3½" in diameter.



Column and base of occasional and work-booth tables are used to route and conceal cords. The cords pass through the worksurface down through the column and out through a mouse hole in the base plate. Bases may be installed with the mouse hole facing in any of four directions, depending upon where cords need to exit for access to power/data/voice in the wall or floor. Cords should be routed through the concealed channels and out the mouse hole during the installation of the table base.

Hole at the top of each column allows cords to be routed between tables directly below the worksurfaces. Wire management clips are included for routing purposes.



Power, voice, and data module can be installed in the grommet locations to bring power and communication to the worksurface. Each module is equipped with two 110volt electrical outlets and one snap-in voice/data module insert consisting of dual CAT 5 RJ45 universal T568A/B jacks. It is UL listed and CSA certified. It has a 6' power cord. For additional data/voice outlet options, please contact Metro customer service at 1.800.627.6770.

Hardwired applications require on-site modifications by a licensed electrician following all local electrical code requirements.
Tip: The base will accommodate a 3/8" diameter flex-conduit.

Programs & Services

Fire code seating (FCS) modifications are available to meet CAL TB133 requirements.
▶See *Coalesse Surface Materials Reference Guide.*

Customer's Own Material/Leather (COM/COL) Program is available.
▶See *Coalesse Surface Materials Reference Guide* for additional information,
Note: Due to unusual upholstery conditions inherent in the design of Bix, not all seating fabrics may be specified. Refer to www.metrofurniture.com for a list of pre-approved Designtex fabrics on Bix. Pre-approval is required for all COM fabric. Also, due to the geometric shapes and flat planes of the Bix design, seat fabric tautness will vary depending upon the amount of stretch in the fabric. Leather naturally stretches with use.

Bix

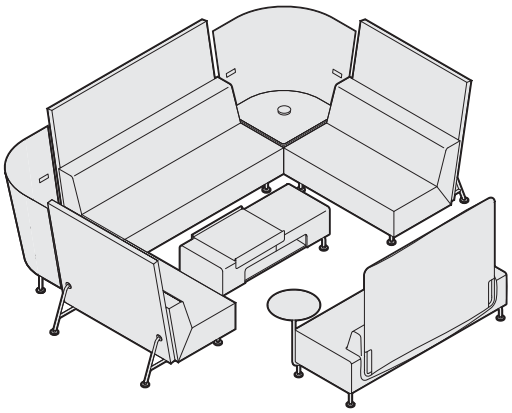
DESIGN METRO DESIGN GROUP

Bix How To Plan

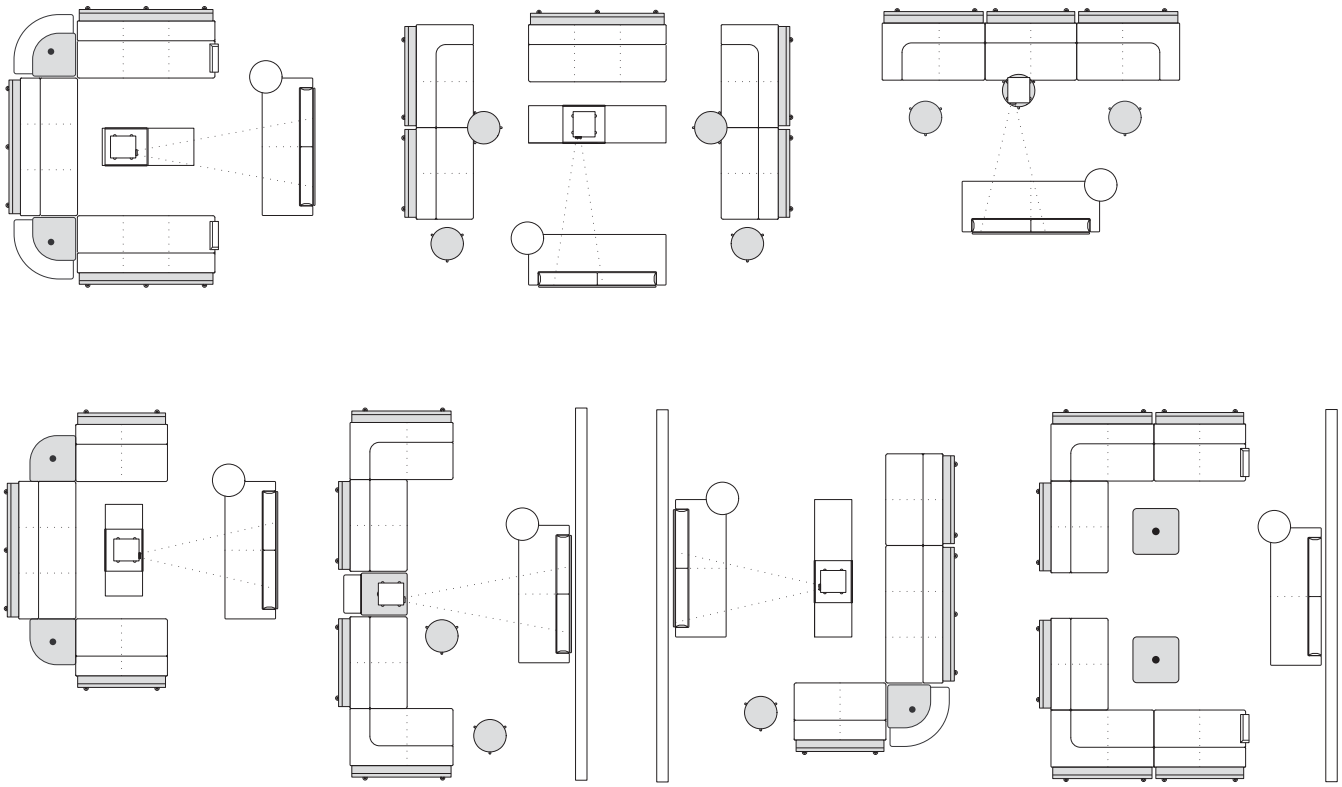
DESIGN METRO DESIGN GROUP

Configuration guidelines — work settings with podium, benches & bridge tables

A variety of configurations may be created to support lounge-based meeting spaces using the Bix podium as a focal point. Benches and bridge tables support media projection equipment. As projection equipment varies, you will need to verify the distance required between the equipment and projection screen when planning your space. The examples below are suggested layouts.



Configuration Examples

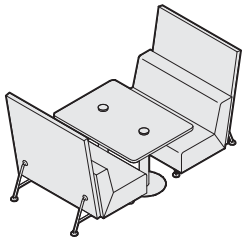


Bix How To Plan

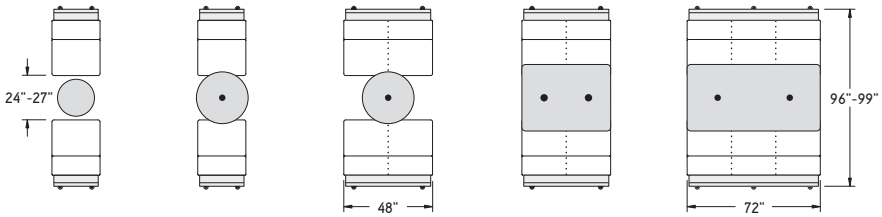
DESIGN METRO DESIGN GROUP

Configuration guidelines – work-booths with 27" high tables

Two straight sections are grouped with 27" high tables to create work-booth applications. Lounge chairs may also be specified with 27" high tables to create a two-person work-booth. Facing seats edges should be spaced 24"–27" apart from one another to accommodate leg clearance and maintain the correct user relationship to the worksurface. The table base is centered within the 24"–27" space.

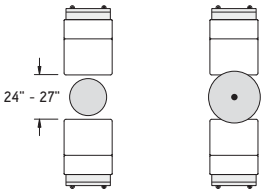


Configuration Examples



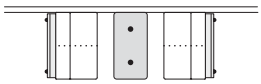
Configuration guidelines – work settings with 18" high tables

A variety of configurations may be created by combining sectional seating and 18" high tables. The Bix system is built upon a 12"/24" dimension module for planning. Seats are 24" wide. Rectangular tables are 24" deep. Tables are spaced 12" from seat edges. A 24" opening should be maintained for large 360° group enclaves.

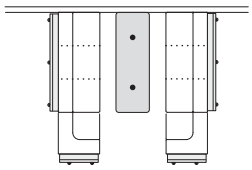


Configuration Examples

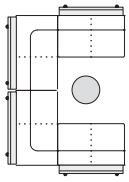
Size: 26" x 10' 7"
Seats: 2



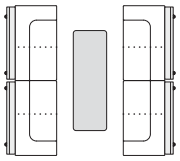
Size: 4' x 10' 3"
Seats: 4



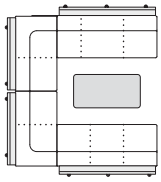
Size: 9' 1" x 10' 3"
Seats: 6 - 8



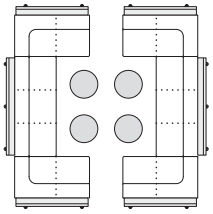
Size: 10' 3" x 7' 1"
Seats: 5 - 6



Size: 9' x 10' 3"
Seats: 5



Size: 10' 3" x 9' 1"
Seats: 6 - 8



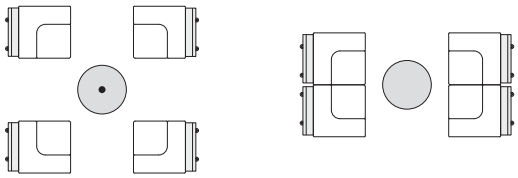
Size: 12' 3" x 12' 3"
Seats: 8 - 10

Bix How To Plan *continued*

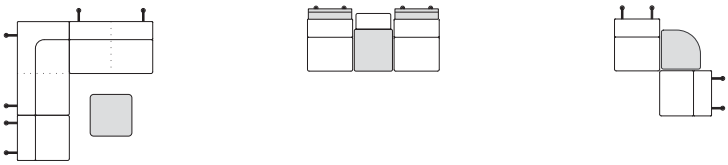
DESIGN METRO DESIGN GROUP

Configuration guidelines – DON'TS

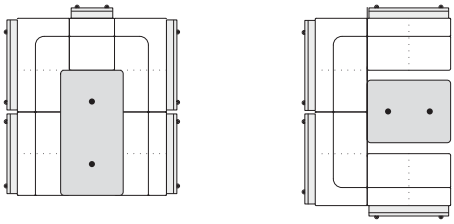
- 30" wide corner sections are not intended to be freestanding. 30" wide corner sections must always be connected to an adjoining 54" wide extended corner or straight section, using the ganging hardware provided.



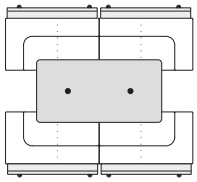
- Individual lounge chairs are independent elements not designed as a module within the seating system. The lounge chair seat is wider than the 24" system module and lounge chairs do not include ganging hardware. Bridge tables also do not connect to lounge chairs.



- Do not create a U-shaped configuration with a 27" high rectangular table. Access to the closed end is difficult and the table edge is too far from reach for the user.

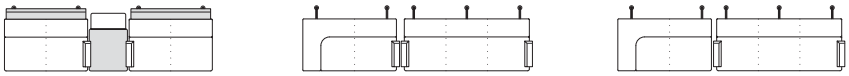


- Do not use 54" wide extended corner sections or straight sections with arms to create a workbooth configuration with 27" high tables. Access is obstructed.

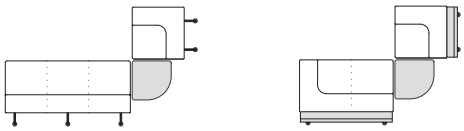


- Bridge tables must be connected on both sides to a seating section.

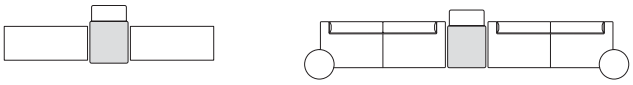
- Bridge tables do not connect to seating sections with arms. Seating sections do not gang with arms at the seam.



- Do not attach 30" wide corner sections to a corner bridge table. This application does not allow enough leg room for two users.



- Bridge tables do not attach to benches or podiums.



Bix How To Plan

DESIGN METRO DESIGN GROUP

Orientation & fabric direction

Corner units are handed from a facing position. Handedness for 30"W corner units is determined by the location of the back-screen or back support legs. Location of back-screens should be considered for each configuration. In order to create a consistent pattern across seats in the configuration, 30"W corner units are available with two seat fabric direction options. Seat fabric direction is determined by its relationship to the back-screen or back support legs. Seat and back fabric on 54"W extended corner and straight sections is always railroaded.

Examples below assume a striped patterned fabric:

30"W Corner Sections

Bix Sectional Seating

DESIGN METRO DESIGN GROUP

= Available in Rapid10.

Tip: Fabric for the seat and back is specified separate from the back screen, if selected. For a monochromatic look, specify the same fabric for both the seat and back, and back screen.

Tip: The COM yards and COL square footage listed on these pages reflect the requirements for a single fabric that are based on non-directional 54"W material applied railroaded. For multi-fabric COM requirements, please refer to Multi-Fabric Yardage.
▶Page 93

Tip: When specifying fabric in different price groups, the highest price group prevails.

Tip: Fabrics and leathers will appear loose with comfort wrinkles when upholstered.

Tip: 30"W corner sections are available with two seat fabric direction options – railroaded or cut-right. Illustrations assume a striped patterned fabric.
▶Page 94

***Fabric yardage is based on non-directional/solid fabrics. Use conversion chart below for repeat/printed fabric yardage.**

Non-standard fabric requirements

Yardage requirements shown are based on non-directional 54"W material applied railroaded. Coalesse will apply fabric railroaded unless instructed otherwise on the dealer's purchase order. The following conversion chart should be used to determine yardage requirements when COM has a repeat of 2" or more. Please contact Coalesse customer service for a yardage quotation if the fabric is less than 54" wide, has a repeat of more than 24", or if the fabric must be cut- right.

CONVERSION CHART

PRODUCT	REPEAT		
	2"- 8"	9"- 14"	15"- 24"
Bix	15%	30%	75%

Yardage quotations will also be provided for order of 10 or more pieces.

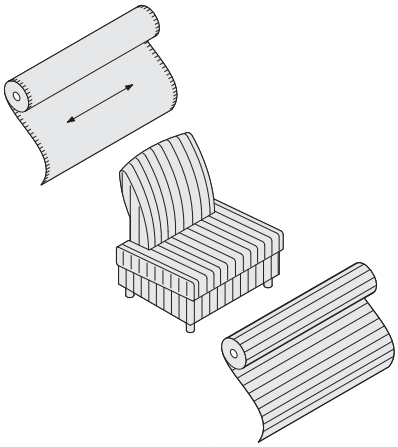
Pattern matching on Bix

Due to Coalesse's high standards for pattern matching, we reserve the right to apply the following upcharges for extra labor incurred by a pattern or material that poses such challenges.

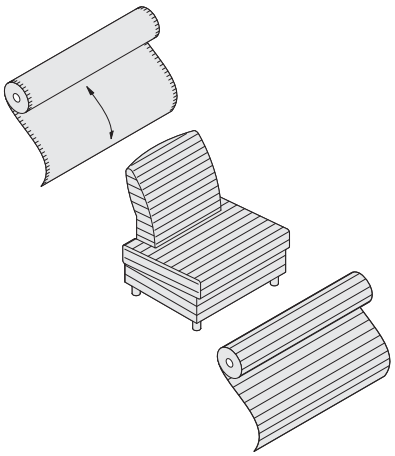
Customers will be informed if an upcharge will be applied to their order during the approval process. Should Coalesse receive an order without prior approval, it will be held as pending until the customer accepts such charges. The upcharge will be applied per item where applicable.

Cutting direction guidelines

Cutting direction is based on the fabric width and the way the fabric is cut from the roll and applied to Coalesse products. There are two cutting directions: railroaded or cut-right.



Horizontal or railroaded (across roll, warp horizontal) means fabric is cut across the roll; selvages are on the top and bottom.



Vertical or cut-right (down roll, warp vertical) means fabric is cut in the same direction it is woven; selvages are on the left and right sides.

Coalesse reserves the right to railroad or apply fabric according to weave unless instructions specify otherwise. Fabrics are railroaded when possible to avoid seams in large upholstered areas and/or single cushion units. If a fabric is questionable, a cutting of adequate size showing full repeat (if any) should be sent to Coalesse for a fabric requirement quotation.

Davos Multi-Fabric Diagram

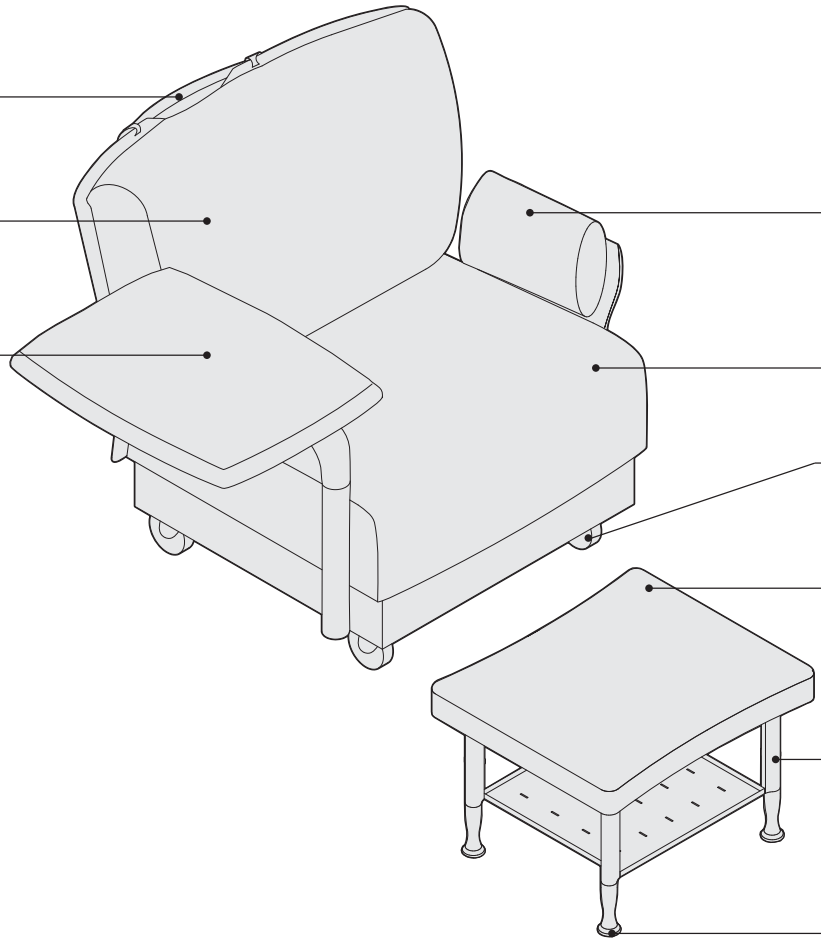
Detour

DESIGN METRO DESIGN GROUP | STEELCASE AND IDGO

Detour lounge seating offers a range of soft seating with embedded features that provide user control and personal comfort for informal work activities. Three lounge chair sizes are available – small lounge with a narrow back, small lounge with a wide back, and large lounge. An ottoman is also available.



Cast handle is integrated into the top of the back cushion. It is used to move or position the chair.

Back is fully upholstered. It flexes for user comfort.

Tablet arm is available. It pivots into position or can be moved out of the user's way.

Arms are fully upholstered. they are available on the left, right, or both sides. An armless model is also available.

Seat is fully upholstered.

Soft casters provide ease of mobility. They are non-locking.

Ottoman can be used as a footrest, bench, or soft worksurface. An open shelf below the seat provides storage.

Legs are finished with paint.

Adjustable glides painted to match the legs with a black plastic bottom. Glides adjust 3/4".

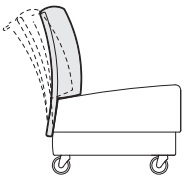
Actual dimensions

▶See page 134

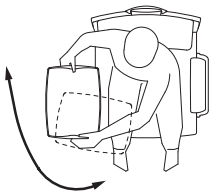
Detour

DESIGN METRO DESIGN GROUP | STEELCASE AND IDEO

Product Details



Flex-back allows the user to lean back with the concealed flex-back mechanism. The amount of recline resistance is directly proportional to the user's weight.



Tablet arm pivots into position or out of the way. The tablet arm is handed for use on the left- or right-hand side of the chair.

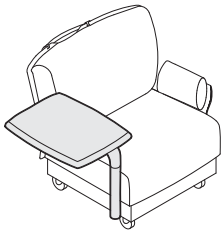
Ottoman is available with glides or casters. It is intended as a footrest. However, it also provides a backless seating option. It is equipped with a lower storage shelf.

Multiple fabrics can be specified on an individual unit for an additional fee per specified fabric. A lounge chair can have up to five additional fabrics.

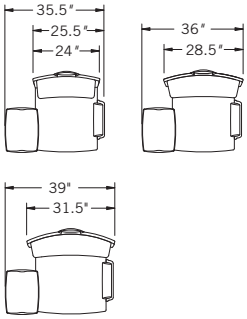
Lounge chair
- Seat cushion (including sides of seat cushion) - no additional fee
- Back cushion (including sides of back cushion) - additional fee
- Base frame - additional fee
- Back frame (outside back panel) - additional fee
- Inside arms - no additional fee
- Outside arms - no additional fee

▶See *Detour multi-fabric diagram and yardage request form*, page 141.

Connections



Tablet arm is handed. A right-hand tablet connects to the right side and a left-hand tablet connects to the left side while facing the chair. It may be attached on the same side as an arm. It is positioned in front and over the arm, so the movement isn't restricted.



Overall width increases when a tablet arm is attached.

Surface Materials

Seat, inner back, outer back frame, base frame, inside arm, and outside arm, if selected
- Fabric

Tablet arm surface
- Laminate Grade 1
- Wood veneer

Support for tablet arm

Detour Lounge Chairs X10/15

DESIGN METRO DESIGN GROUP | STEELCASE AND IDEO

Tip: Begin a new series of line items for each chair configuration.

Tip: For veneer tops, edge and top will be the same finish color. For laminate tops, edge will always be black.

Tip: Fabrics and leathers will appear loose with comfort wrinkles when upholstered.

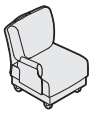
Tip: When specifying fabric in different price grades, the highest price grade prevails.

Tip: The COM yards and COL square footage listed on these pages reflect the requirements for a single fabric that are based on non-directional 54"W material applied railroaded. For multi-fabric COM requirements, please refer to multi-fabric yardage.
▶ *Page 141*

Tip: For Customer's Own Material or Leather, see necessary requirements, important processing instructions, and ordering information
▶ See *Coalesse Surface Materials Reference Guide.*

Tip: Tablet arm, if selected, should be entered on consecutive lines of the purchase order immediately following the lounge chair to which it will be applied. Components for identical chair configurations may be grouped together on consecutive lines.

Tip: Handedness is determined while facing the chair.



For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

***Fabric yardage is based on non-directional/solid fabrics. Use conversion chart on following page for repeat/printed fabric yardage.**

Detour Multi-Fabric Yardage

DESIGN METRO DESIGN GROUP | STEELCASE AND IDEO

Non-standard fabric requirements

Yardage requirements shown are based on non-directional 54"w material applied railroaded. Coalesse will apply fabric railroaded unless instructed otherwise on the dealer's purchase order. The following conversion chart should be used to determine yardage requirements when COM has a repeat of 2" or more. Please contact Coalesse customer service for a yardage quotation if the fabric is less than 54" wide, has a repeat of more than 24", or if the fabric must be cut- right.

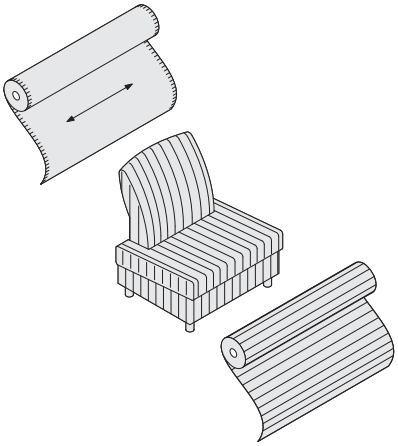
CONVERSION CHART

PRODUCT	REPEAT		
	2"- 8"	9"- 14"	15"- 24"
All other products	15%	25%	35%

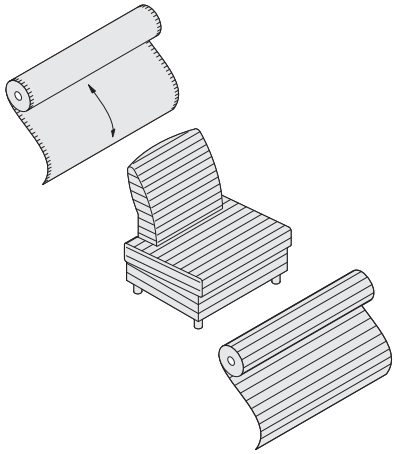
Yardage quotations will also be provided for order of 10 or more pieces.

Cutting direction guidelines

Cutting direction is based on the fabric width and the way the fabric is cut from the roll and applied to Coalesse products. There are two cutting directions: railroaded or cut-right.



Horizontal or railroaded (across roll, warp horizontal) means fabric is cut across the roll; selvages are on the top and bottom.



Vertical or cut-right (down roll, warp vertical) means fabric is cut in the same direction it is woven; selvages are on the left and right sides.

Coalesse reserves the right to railroad or apply fabric according to weave unless instructions specify otherwise. Fabrics are railroaded when possible to avoid seams in large upholstered areas and/or single cushion units. If a fabric is questionable, a cutting of adequate size showing full repeat (if any) should be sent to Coalesse for a fabric requirement quotation.

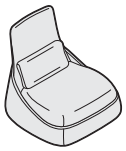
Hosu

DESIGN PATRICIA URQUIOLA DESIGN ORIGIN: SPAIN



Tip: Fabrics and leathers will appear loose with comfort wrinkles when upholstered.

Tip: Recommended leathers are Elmosoft Grade C and Elmorustical Grade E.

Tip: If fabric is selected on models with ottoman, foot rest is available with Fusion fabric or leather.

Tip: Frame design allows back to flex to support occupants back shape.

Tip: Due to the design and construction techniques of the Hosu lounge and sofa only certain textiles can be successfully applied, therefore all COM fabrics must be submitted to Coalesse for approval prior to order acceptance.

Tip: Hexa fabrics (fabric group 10) were specifically designed by Patricia Urquiola for Hosu lounge and sofa seating.
▶ See *Coalesse Surface Materials Reference Guide* for complete listing of Hexa fabrics.

Standard Includes	Required to Specify
• Frame: plywood tab construction • Multiple densities of polyurethane foam and polyester fiber • Seat and back: fabric or leather • Wrap: made from ABS plastic • Footrest on fabric chair, if selected: Fusion fabric only • Footrest on leather chair, if selected: leather to match seat and back • Glides: non-adjustable • Pull tab on ottoman, if selected: Nylon strap • Grommet for wire pass-through on models COURQLO and COURQLOK, if selected • Pillow: fabric or leather	1 Style number 2 Number of fabrics if contrasting fabric style number is selected 3 Fabric or leather color number for upholstery on seat, back, and pillow 4 Fusion color number for footrest, if selected: CL60 Caviar CL61 Portobello CL62 Graphite CL63 Java 5 Fusion color number for pull tab, if selected: CL40 Red CL41 Blue CL42 Black 6 Options, if selected (see below) ▶ See *Coalesse Surface Materials Reference Guide.*

Joel Lounge Multi-Fabric Diagram

DESIGN EOOS DESIGN ORIGIN: 2004 GERMANY

Lagunitas

DESIGN TOAN NGUYEN

Lagunitas offers a wide range of highly customizable settings, bringing a new level of versatility to all the ways we work. Lagunitas adapts to changing work styles and shifting postures. Lagunitas utilizes a full range of design expressions with benches, lounge pieces, and tables. Fabric and knit, combined with high and low panels, allow for a full range of aesthetic and functional possibilities. Benches complement the range of lounge pieces. Work, occasional, and personal tables are curated to work specifically with Lagunitas lounges and benches. Integrated power options for the lounges, benches, and tables are available. Lagunitas supports existing and emerging work activities in an endless number of social, collaborative, and personal settings.

Lounges and benches are offered in one-, two-, and three-seat models. The chaise is offered in two- and three-seat models. The corresponding table offering works with the seating dimensions for complete systematic compatibility.

Screens are available in two heights for lounges and chaises. Low-back screens are 26¾"H and high-back screens are 50"H. Overall height of low-back units is 32⅜".

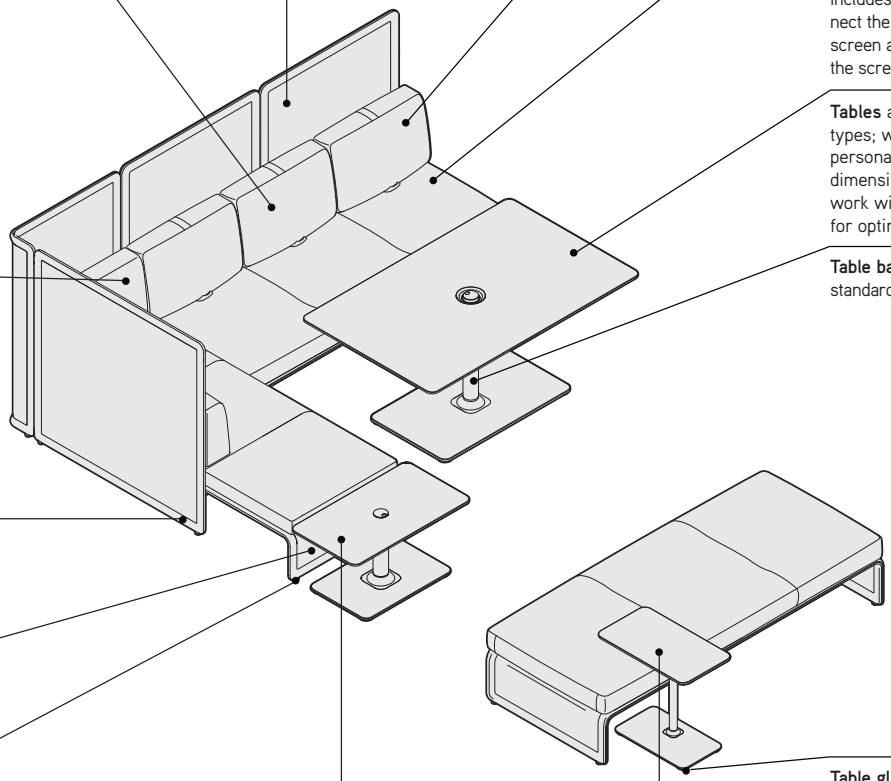
Screens are available in knit or fabric.

Articulating back is standard on lounges and chaises which allow user to change from a lounge position to a task position within the same unit. An integrated handle at the top and bottom intuitively identifies the back and aids in the function of the back.

Lounge units can be connected together to create permanent connections for L- and U-configurations. The alignment connector bracket package includes two brackets to connect the seat decks and one screen alignment clip to keep the screens aligned.

Tables are offered in three types; work, occasional, and personal tables. Tables dimensions are curated to work with the lounge pieces for optimal compatibility.

Table bases and columns are standard in powder coat paint.



All corners are standard with a stationary corner cushion for all two- and three-seat lounges and chaises. Arm cushions are optional on units with left- and right-hand screens to allow for articulating backs on all back cushions.

Welt cord is standard on fabric screens and will match the outside screen fabric selection if contrasting is selected.

Seat deck is available in knit or fabric and must be same material as the screen.

Lounges and chaises are standard with two glides per screen section or seat deck. Each glide can adjust ½" for uneven floors.

Work and occasional table tops are standard in High-Pressure Laminate with a 3 mm plastic edge or wood veneer with a 3 mm matching edge profile.

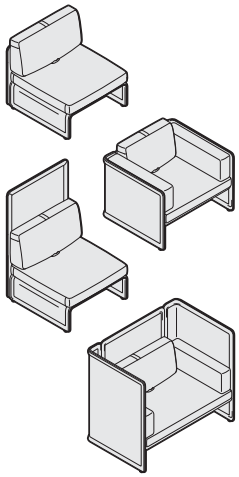
Table glides are non-adjustable and are clear plastic.

Personal table tops are standard in High-Pressure Laminate with 3 mm plastic edge or Fusion fabric.

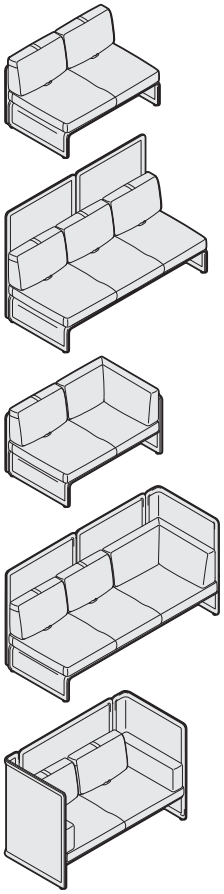
Lagunitas

DESIGN TOAN NGUYEN

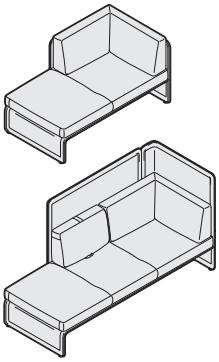
Product Details



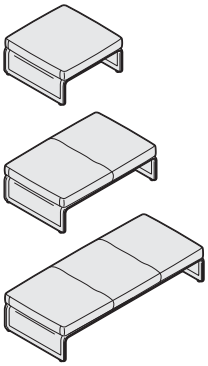
One-seat lounges are available in low- and high-back screens. Screens can be back only or back and left- and right-hand screens. One-seat lounges are standard with upholstered fabric or knit screen(s), fabric or knit seat deck, fabric or leather seat cushion, and articulating back cushions. Fabric or leather end arm cushions are available.



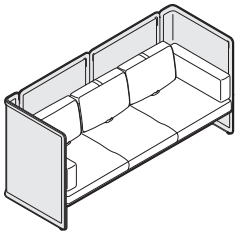
Two- and three-seat lounges are available in low- and high-back screens. Screens can be back only or back with left- or right-hand screens, or back and left- and right-hand screens. Two- and three-seat lounges are standard with upholstered fabric or knit screen(s), fabric or knit seat deck, fabric or leather seat cushions, fabric or leather articulating back(s) and or corner cushion(s). Fabric or leather end arm cushions are available.
Tip: Handedness is noted by seated position.



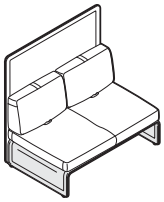
Two- and three-seat chaises are available in low- and high-back screens. Screens are back and left- or right-handed. Two- and three-seat chaises are standard with upholstered fabric or knit screens, fabric or knit seat deck, fabric or leather seat and corner cushion.
Tip: Handedness is determined while in the seated position.



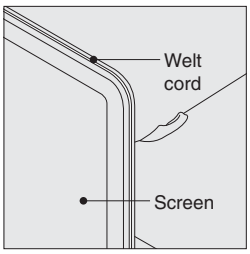
Benches are available in one-, two-, or three-seat models. Benches are standard with an upholstered knit or fabric seat deck and a fabric or leather seat cushion.



Screens are offered in two types of materials, knit and fabric. The knit panels allow for some transparency and light to pass though the panels. The fabric panels can be either monolithic (non-contrasting) or can be specified in differing finishes (contrasting) for the inside and outside of the screen.
Tip: If a contrasting screen is specified, the fabric must be chosen from the same fabric family.



Seat deck is offered in two types of materials, knit and fabric. The seat deck material must match the screen material. If knit is specified on the screen, the seat deck will be applied automatically to the screen choice,. If fabric is specified, seat deck must match either the inside or outside screen finish if contrasting is selected. When non-contrasting fabric screen is selected, seat deck will match screen fabric.

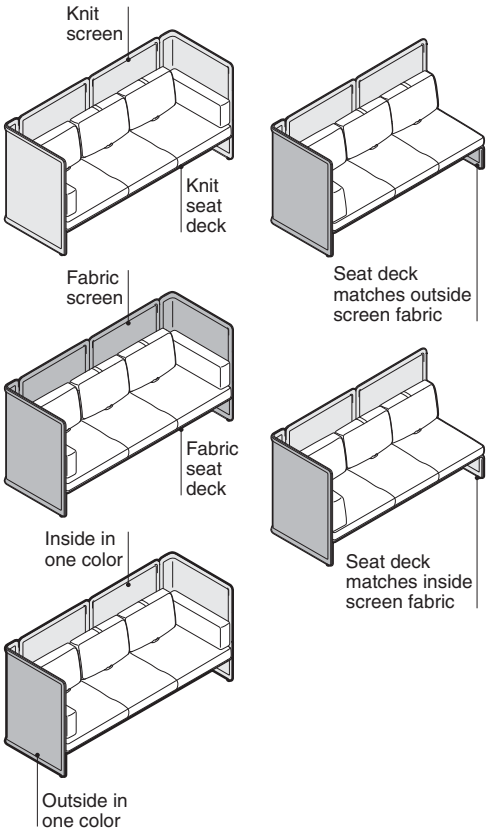


A welt cord is standard on all fabric specified screens and seat decks. The welt cord finish is non-specifiable and is the same fabric finish as the outside screen specification when contrasting screens are specified. For non-contrasting screens the welt cord maches the screen specification. The knit screen and seat deck does not require a welt cord.

▶**Lagunitas,** continued

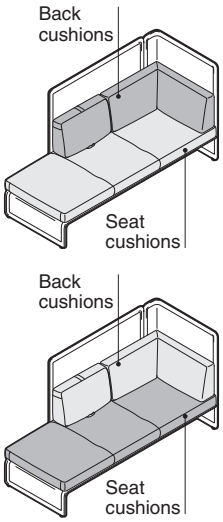
Lagunitas *continued*

DESIGN TOAN NGUYEN



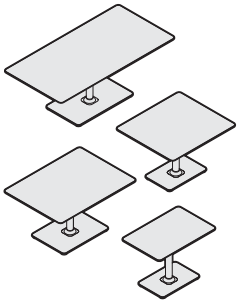
Screens and seat deck can be specified in:
- Knit
- Fabric (one fabric choice)
- Contrasting fabric (must be from fabric family)
  - Inside screen
  - Outside screen
  - Seat deck must match either the inside or outside fabric choice

Tip: Leather and vinyl are not approved for the screen(s) and seat deck. Consult the fabric database for fabric approvals.
Tip: It is important to understand the seat deck implication for contrasting fabric selection when two or more pieces are attached or adjacent to each other. The seat deck for contrasting fabric specification is either the outside screen (top example) or inside screen (bottom example).

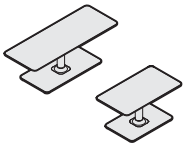


Seat back and seat cushions can be specified in:
- Fabric or leather (one fabric choice)
- Contrasting fabric or leather
  - Seat backs
  - Seat cushion

The seat back and seat cushion can be specified in fabric or leather. It can be specified as non-contrasting, one finish, or contrasting, finish for back cushions(s) and finish for seat cushion. Specification of back cushion is for all back cushions for that style number. Specification of seat cushion is for all seat cushions for the style number.

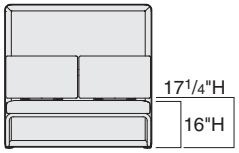


Work tables are available in six differing sizes, ranging from 30"W to 72"W that coordinate with the lounge dimensions to create a variety of social, collaborative, and personal applications. The work tables are comprised of a single column rectangular base in powder coat paint and a rectangular table top in laminate with matching or complementing 3 mm flat edge band profile or wood veneer with matching 3 mm flat wood edge band.

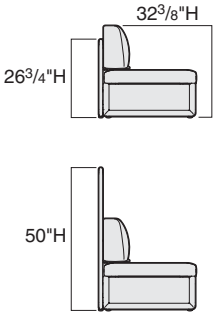


Occasional tables are available in two sizes, 32"W and 48"W, that coordinate with the lounge, chaise, and bench dimensions. The occasional tables are comprised of a single column with rectangular base available in powder coat paint and a rectangular table top in laminate with matching or complementing 3 mm flat edge band profile or wood veneer with matching 3 mm flat wood edge band.

Personal table is available in one size. It can easily be moved to your desired location for short term laptop work or simply used to set your coffee. The personal table is comprised of a single column with rectangular base available in powder coat paint and a rectangular table top in laminate with matching or complementing 3 mm flat edge band profile or a Fusion fabric-wrapped surface.



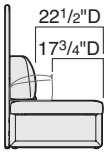
16" seat height is standard on all seating and benches. The 16"H seat height integrates specifically with the heights of all Lagunitas tables. There is an additional 1¼" crown of the seat cushion, which makes it 17¼" to work with the 26" work table height.



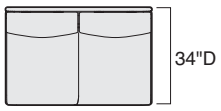
Two screen heights are available, 26¾"H for the low-back screen and 50"H for the high-back screen. Seat back cushions extend above the low-back screen, therefore, the overall height of low-back units is 32⅜"H.
Low-back screens are designed to provide an open environment. High-back screens are designed to provide privacy.

Lagunitas

DESIGN TOAN NGUYEN



Seat depth accommodates two depths due to the articulated back design. In the lounge position, the seat depth is 22½"D and in the task position, the seat depth is 17¾"D.

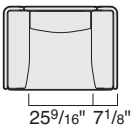


Lounge

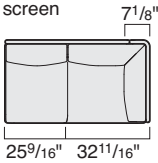
Bench

The overall seat depth on benches is 32⅝"D. The overall depth for lounge seating is 34"D.

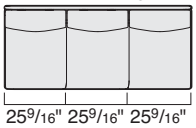
One-seat lounge, left- and right-hand screens



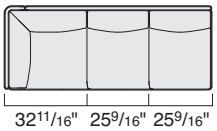
Two-seat lounge, left-hand screen



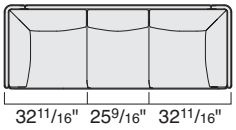
Three-seat lounge



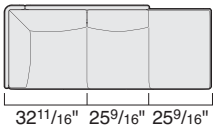
Three-seat lounge, right-hand screen



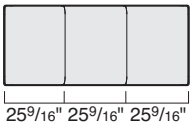
Three-seat lounge, left- and right-hand screens



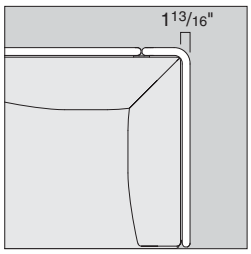
Three-seat chaise, right-hand configuration



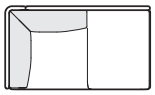
Three-seat bench



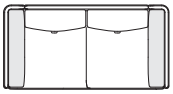
Two seat widths are available, 25 9/16"W and 32 11/16"W. When specifying corner or end cushions, the 32 11/16"W module is used. The corner cushion and end cushion account for 7⅛" of the 32 11/16" width, equating to the same seating space as the 25 9/16"W module. *Exception: One-seat lounge with three screens has an overall width of 46⅞" allowing for a seating space of 32 11/16"W.*



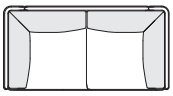
An additional 1 13/16" thickness for each end screen or corner is added to the seating width to obtain the overall width of the product.



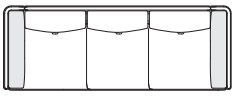
Corner cushions are standard when specifying two or three screens with closed end(s). Corner cushion are fixed and do not articulate.



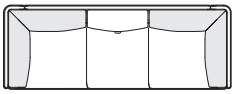
Two end cushions with two articulating backs



Two corner cushions



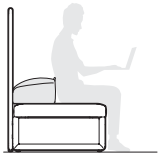
Two end cushions with three articulating backs



Two corner cushions with middle articulating back

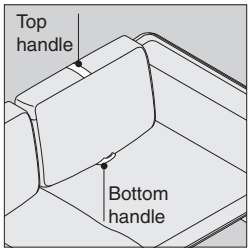
Two corner cushions or two end cushions are available on all two- and three-seat lounges when back, left- and right-hand screens are specified. If articulating backs are specified, end cushions are required.

Lounge position

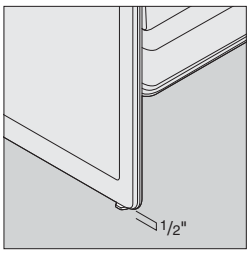


Task position

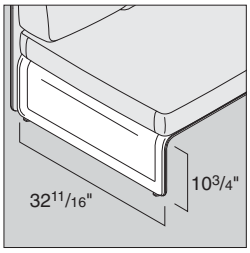
The articulating back is standard on all lounges and three-seat chaises (two-seat chaises are only available with a corner cushion). The articulating back allows the user to easily change postures from a lounge position, when the back cushion is fully upright, to a task position, when the seat back is articulated down. Simply use the integrated handles, one at the top and one at the bottom, to position the seat back to the desired position. The articulating mechanism is completely hidden behind the back cushion, and attaches the cushion to the seat frame.



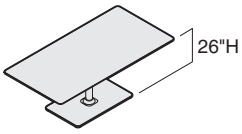
Handles at top and bottom of all articulating backs aid the user to change from a lounge position to a task position and back to the lounge position.



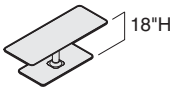
Glides adjust ½" for uneven floors. There are two glides per screen and/or seat deck. Glides have a metal rounded foot.



Space is available under the seat deck of all Lagunitas seating to provide a place to temporarily store personal items. The clearance height, without power module(s), is 10¾" and the depth is 32 11/16".



Work tables are available in one optimized height, 26"H, to work with the lounge seat height.

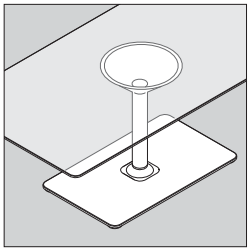


Occasional tables are available in one optimized height, 18"H, to work with the lounge seat height.

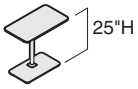
▶**Lagunitas,** continued

Lagunitas *continued*

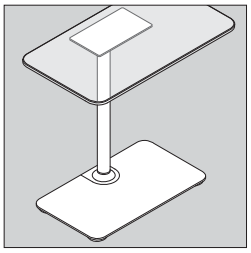
DESIGN TOAN NGUYEN



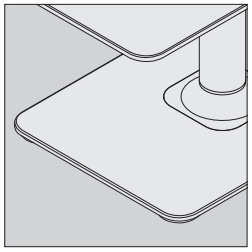
All work and occasional tables have a rectangular metal base with a centered column. The 3" column includes a cone at the top that attaches to the worksurface. There are five rectangular base dimensions:
16"D x 23⅝"W x ⅜"H for 18"D x 32"W
24"D X 30"W and 24"D X 36"W work tables
16"D x 31⅝"W x ⅜"H for 18"D x 48"W occasional table
21"D x 28½"W x ⅜"H for 36"D x 40"W and 36"D x 48"W work tables
21"D x 35"W x ⅜"H for 36"D x 57"W x work table
21"D x 35"W x ½"H for 36"D x 72"W x work table



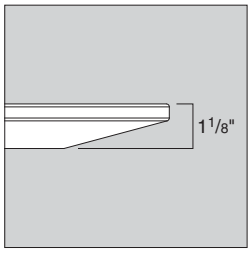
The personal table is available in one height, 25"H, to work with the lounge seat height.



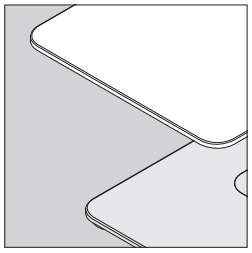
The personal table has a rectangular metal base with the column centered at the back of the base. The 1¼" column includes a flat plate at the top that attaches to the underside of the top. The base plate dimension is 10¾"D x 15¾"W x ⅜"H.



Non-adjustable 3"diameter plastic glides are standard on all tables. Glides are ⅜" thick for the 36"D x 72"W table, ½" thick for all other work and occasional tables and ¼" thick for the personal table. For all work and occasional tables the glide height is needed to route cords.



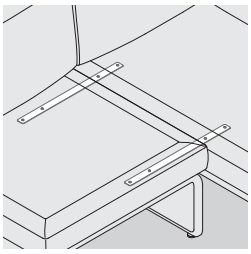
Tables are standard with a knife edge profile, that has the appearance of a ½" thick top that tapers to an overall top thickness of 1⅛".



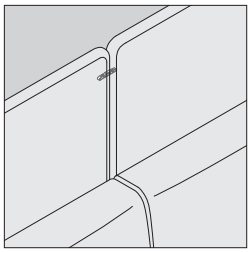
High-Pressure Laminate tables are standard with a matching or complementing 3 mm flat edge band. Wood veneer tables are standard with a matching wood 3 mm flat edge band. The underside of the table top is finished in black.

Specials are possible with Lagunitas, to confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Connections



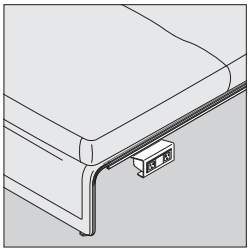
Alignment connector bracket package includes two seat attachment brackets and one screen alignment clip. The alignment connector bracket package is used when permanent connection is needed for L-, U-, and straight configurations of two or more pieces. The screen alignment clip is not needed for any bench connections, only the two seat attachment brackets would be utilized. The alignment connector bracket package should not be used if reconfigurations of the furniture pieces are required.



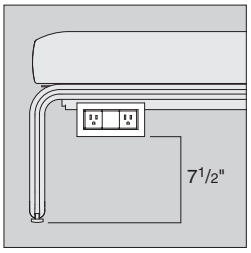
Attachment brackets for screen connection to seat deck must be specified in either platinum matte or low gloss black. Along with the brackets, the entire frame underneath will be painted to match the bracket finish specified.

Brackets can be specified in:
- 4710 Low Gloss Black Paint (for dark color fabrics)
- 4141 Platinum Matte Paint (for light color fabrics)

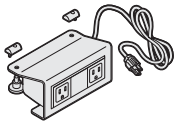
Power, Data, Wiring & Cabling



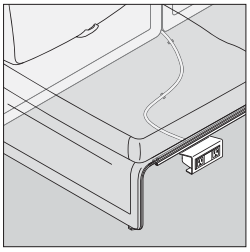
Optional power can be specified on all seating components (lounge, chaise, and bench). The power module consists of two simplex power outlets that can be positioned anywhere along the attachment rail underneath the front of the lounge seat. The power module is available in black. One optional power unit is available on one-seat lounges. One or two optional power units are available on two- and three-seat lounges.



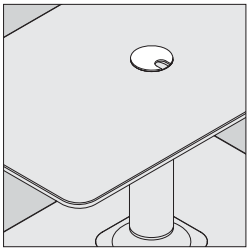
The power module is located 7½" from the floor.



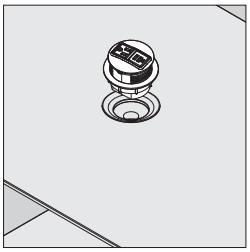
The power module has a 10'L cord and contains wire manager clips to route the cord underneath the seat deck when desired.



The power module cord is routed to the back utilizing clips attached to the underside of the lounge. The cord is then routed between the gap where the two screens meet when wall plug in access is needed.



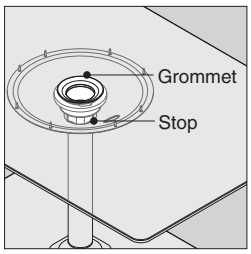
A metal grommet is an option on all work and occasional tables. The 3" grommet is flush-mounted and located in the center of the table top over the cone and column. The metal grommet is available in anodized silver only.



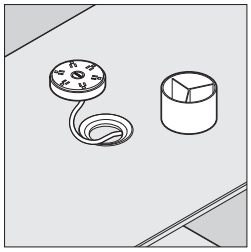
A power module is an option on work tables 40"W and smaller. The 3" power module has two simplex receptacles and is located in the center of the table top over the cone|column. The power module comes in one finish, silver and is standard with a 6' L power cord.

Lagunitas

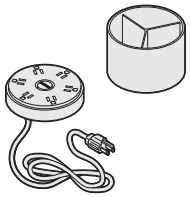
DESIGN TOAN NGUYEN



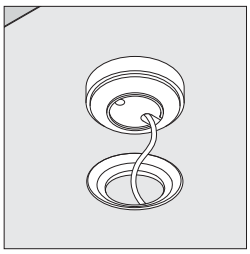
Power pod grommet and stop is an option on all work tables 48"W and larger. The grommet is located in the center of the table top over the cone/column. The stop attaches to the column to help hold and route cords and cables through the column. The grommet and stop cap are available in black or milk.



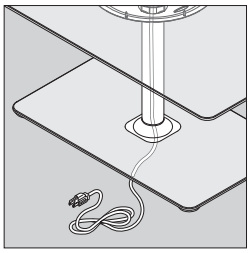
The grommet allows for pass through of cords and cables at the desktop. The grommet is open to allow for the power pod to be housed over or stored on the table. The grommet inside dimension is 3½" and outside dimension is 5 11/16".



Power pod includes six 15 amp outlets with an energy saving illuminated on/off switch. It comes with a 6' cord with three prong plug. The top tray is milk and the power source is silver with a milk face. It is UL and CSA listed.
Tip: Power pod is sold separately.



The contour of the power pod bottom cradle is designed to work in conjuction with the grommet for a snug fit or can be used independently without a grommet.



Work and occasional tables route cables and cords from the desktop through the column out through the base. Cords can be concealed in the cone.
Tip: A powerstrip cannot fit inside the cone.
Tip: If a desktop device is desired, other than the standard power pod or power module, consult Specials engineering for capability.

Surface Materials

Screen(s) and seat deck:
- Knit
- Fabric (contrasting and non-contrasting - contrasting must be same fabric family)

Seat and back cushion(s), contrasting and non-contrasting:
- Fabric
- Leather

Lounge attachment brackets and frame:
- Paint

Lounge glides:
- Non-specifiable plated metal

Lounge power module (option):
- Black powder paint with black receptacles

Work and occasional table top surface:
- Laminated with matching or complementing 3 mm plastic edge band
- Wood veneer with matching 3 mm wood edge
- Custom wood finish (option)

Table base (cone or plate, column, and bottom plate):
- Paint

Table glides:
- Non-specifiable clear plastic

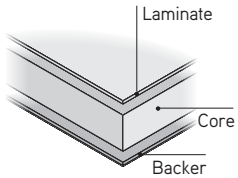
Metal grommet (option):
- Non-specifiable (anodized silver)

Power pod grommet and stop cover (option):
- 6000 Black plastic
- 6052 Milk plastic

Table power module (option):
- Non-specifiable silver paint with white receptacles

Personal table top surface:
- Laminate with matching or complementing 3 mm plastic edge band
- Fusion fabric

Note: Refer to the Coalesse Surface Materials Reference Guide *for additional surface materials information.*



Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see *Other laminates* below.

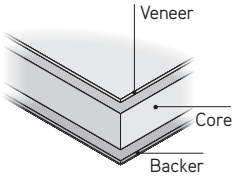
Grade 1 laminates include:
- Coalesse standard laminates
  ▶See *Coalesse Surface Materials Reference Guide.*
- Steelcase standard laminates (code 290A)
  ▶See Steelcase *Surface Materials Reference Manual.*
- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

Grade 2 laminates (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the Surface Materials Color Palettes.
▶See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard laminates are available from your Coalesse customer service representative. For samples of laminates from other manufacturers, contact them directly:
Wilsonart
1.800.433.3222
Nevamar
1.800.638.4380
Formica
1.800.FORMICA
Pionite
1.800.285.5161
Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.



Wood veneer table tops are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Wood is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.
Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.

Wood veneer swatches are reproduced in the Surface Materials Color Palettes.
▶See *Coalesse Surface Materials Reference Guide* for a list.

Lagunitas *continued*

DESIGN TOAN NGUYEN

Swatch cards and actual samples of Coalesse standard wood veneers are available from your Coalesse customer service representative.

Additional wood veneer species are available. To confirm availability and to determine pricing, contact Customer Service at 1.800.627.6770.

Stains applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.
▶See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Additional wood veneer stains are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

Stain-to-Match option is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.
Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.

Programs & Services

Customer's Own Material/Leather (COM/COL) Program is available.
▶See *Coalesse Surface Materials Reference Guide* for additional information.

SW_1 Low Collaborative Conference Tables

DESIGN SCOTT WILSON & MINIMAL

Tip: Your specification is not complete until you add the fifth letter to the style number to define top surface.
L - Laminate top
V - Wood veneer top
C - Corian top
G - Glass top

Standard Includes	Required to Specify
• ½" thick top surface: - Laminate (Grade 1) with 3 mm edge band, if selected - Wood veneer (Grade 1) with matching 3 mm edge band, if selected - Corian, if selected: white only - Glass, if selected • 1¼" thick bottom substructure: black or milk • Base, column, and cone: 8040 Polished Matte Aluminum • Glides • Ships ready-to assemble	1 Style number with appropriate top series letter indicated in the space provided. (For example: COWX_Q42 becomes COWXLQ42 for a laminate top surface): **L** - Laminate top **V** - Wood veneer top **C** - Corian top **G** - Glass top 2 Laminate, wood, or glass color number for top, if selected 3 Plastic color for edge band of laminate top, if selected 4 Bottom substructure: 6000 Black 6052 Milk 5 Options, if selected (see below) ▶ See *Coalesse Surface Materials Reference Guide.*

Tip: Standard grain direction runs the width of the table (front-to back).

Tip: If grommet with wire manager is selected, the finish is not selectable, it will be the same as the substructure finish choice.

Tip: Tablets are an optional pick for the 42" and 84" square and 84"L and 120"L rectangular tables only. Tablets are available in black or milk finish.

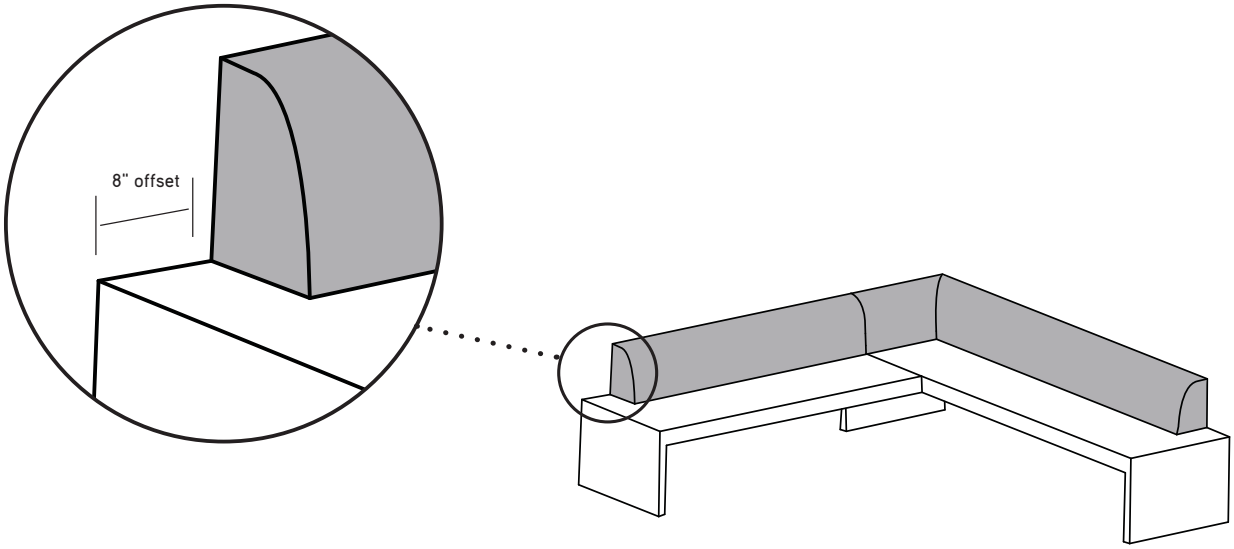
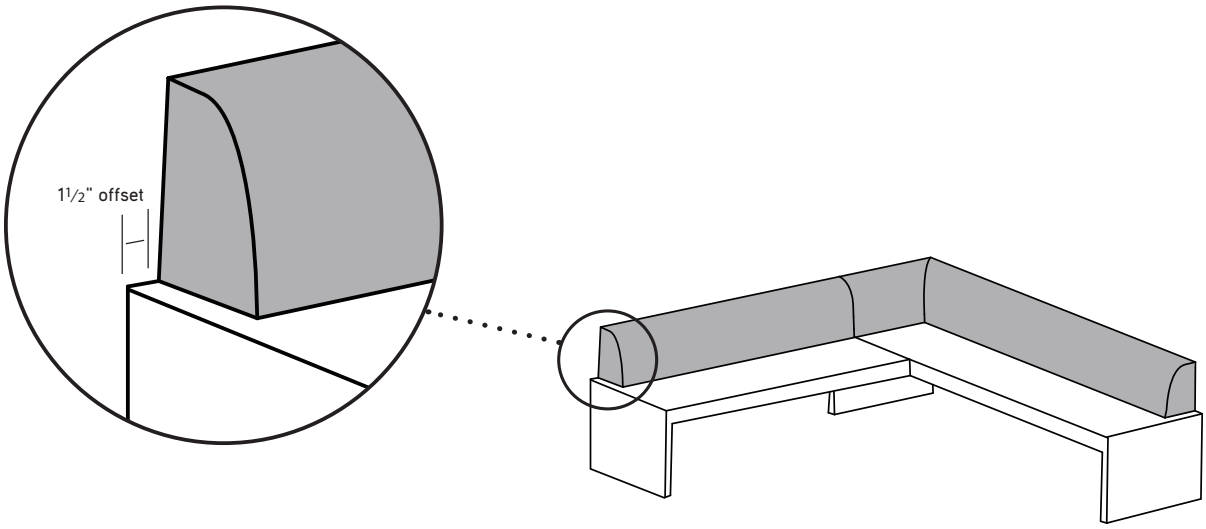
Together Offset Diagram

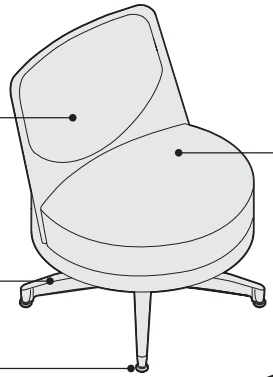




Topo

DESIGN METRO DESIGN GROUP

Topo lounge seating provides an alternative to typical lounge or guest seating for a more relaxed work posture. Topo lounge and lounge Jr. are equipped with glides.

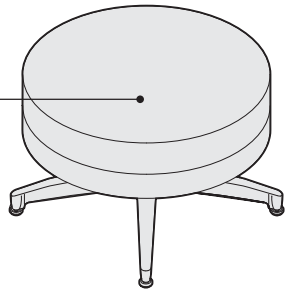


Back is fully upholstered and provides a more relaxed posture.

Seat is fully upholstered.

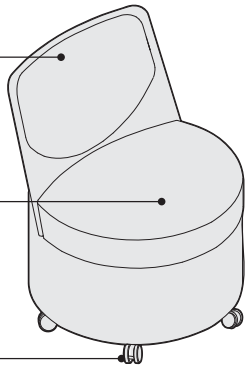
Four-arm base swivels.

Adjustable glides have an adjustability range of ½".



Lounge Jr. may be used as a small-scale backless lounge chair or an ottoman.

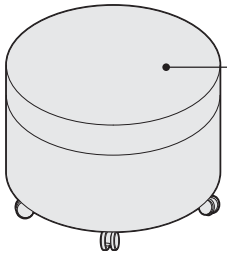
Topo mobile lounge seating features the modern geometric forms to create an alternative to conventional swivel chairs and are appropriately scaled for any lounge application. Topo mobile lounge and mobile lounge Jr. are equipped with casters.



Back is fully upholstered.

Seat is fully upholstered.

Casters provide ease of mobility. They are non-locking.



Mobile lounge Jr. may be used as a small-scale backless lounge chair or an ottoman.

Actual Dimensions

	Overall Diameter	Height	**Seat** Depth	Width	**Seat height from floor**	**Back height from seat**	**Footprint**

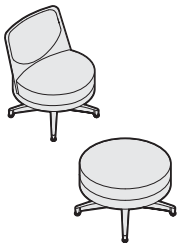
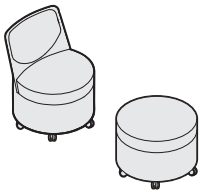
Product Details



Topo lounge is scaled to fit within workstations and swivels for impromptu meetings.



Topo mobile lounge is scaled for 27"H meeting tables or to fit within workstations.

Multiple fabrics can be specified on an individual unit for an additional fee per specified fabric. A lounge or mobile lounge can have up to three additional fabrics. A lounge Jr. or mobile lounge Jr. can have one additional fabric.

Lounge or mobile lounge
- Seat cushion (includes side of seat cushion) - no additional fee
- Base frame - additional fee
- Back cushion (inside back cushion) - additional fee
- Back frame (outside back panel) - additional fee

Lounge Jr. or Mobile lounge Jr.
- Seat cushion (including sides of seat cushion) - no additional fee
- Base frame - additional fee

▶See *Topo multi-fabric diagram and yardage request form*, page 260.

***Fabric yardage is based on non-directional/solid fabrics. Use conversion chart below for repeat/printed fabric yardage.**

Non-standard fabric requirements

Yardage requirements shown are based on non-directional 54"W material applied railroaded. Coalesse will apply fabric railroaded unless instructed otherwise on the dealer's purchase order. The following conversion chart should be used to determine yardage requirements when COM has a repeat of 2" or more. Please contact Coalesse customer service for a yardage quotation if the fabric is less than 54" wide, has a repeat of more than 24", or if the fabric must be cut-right.

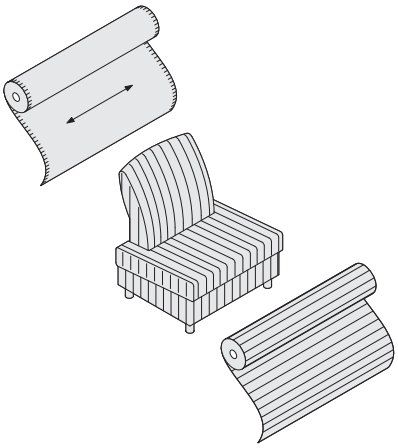
CONVERSION CHART

PRODUCT	REPEAT 2"-8"	9"-14"	15"-24"
All other products	15%	25%	35%

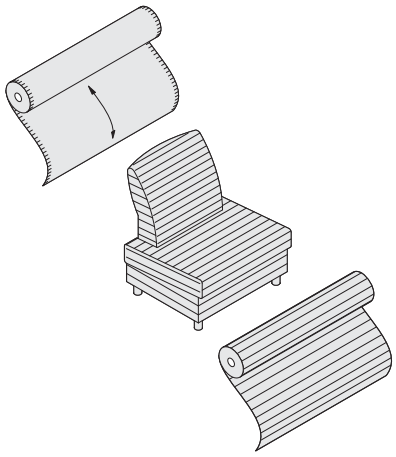
Yardage quotations will also be provided for order of 10 or more pieces.

Cutting direction guidelines

Cutting direction is based on the fabric width and the way the fabric is cut from the roll and applied to Coalesse products. There are two cutting directions: railroaded or cut-right.



Horizontal or railroaded (across roll, warp horizontal) means fabric is cut across the roll; selvages are on the top and bottom.

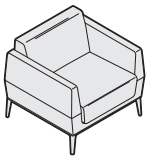


Vertical or cut-right (down roll, warp vertical) means fabric is cut in the same direction it is woven; selvages are on the left and right sides.

Coalesse reserves the right to railroad or apply fabric according to weave unless instructions specify otherwise. Fabrics are railroaded when possible to avoid seams in large upholstered areas and/or single cushion units. If a fabric is questionable, a cutting of adequate size showing full repeat (if any) should be sent to Coalesse for a fabric requirement quotation.

Visalia Lounge

DESIGN COALESSE DESIGN STUDIO



Tip: Fabrics and leathers will appear loose with comfort wrinkles when upholstered.

Tip: All cushions are attached.

Tip: Recommended leathers are Elmosoft Grade C and Elmorustical Grade E.

Chord

DESIGN MICHAEL SHIELDS DESIGN ORIGIN: UNITED STATES

Tip: Fabrics and leathers will appear loose with comfort wrinkles when upholstered.

Tip: For Customer's Own Material or Leather, see necessary requirements, important processing instructions, and ordering information
▶See *Coalesse Surface Materials Reference Guide.*

Tip: Arm is cast from 100% recycled material then hand buffed to a mirror finish. Arm caps are molded in black.

Standard Includes	Required to Specify
• Frame: hardwood plywood assembled into unibody structures utilizing interlocking finger joinery • Cushioning: - back: multiple laminations of high-density polyurethane foam over an elastic sheet suspension system for lumbar support - seat: closed cell, contour molded urethane foam • Upholstery: - seams are double needle stitched with seam binding for extended durability - unique wrap around welt detail and is cut from the same fabric as specified on chair • Arms: resilient self-skinned urethane molded around carbon steel armature, black or aluminum arm with urethane cap, if selected • Chair controls: tilt-swivel with tilt tension, pneumatic height adjustment, and tilt lockout • Bases: five star black resin • Casters: black hooded dual wheel	1 Style number 2 Number of fabrics if contrasting fabric style number is selected 3 Fabric or leather color number for upholstery on seat and back 4 Options, if selected (see below) ▶See *Coalesse Surface Materials Reference Guide.*

Tip: List price based on highest fabric grade usage.

Tip: Contrasting option available only on 798-P and 796-P.

Tip: Chord does not pass CAL 133 with urethane arms. To choose the CAL 133 option polished aluminum arms must be selected.

	Options	U.S. Price	Required to Specify
Surface Materials	**Welt detail**		
	• Contrasting fabric welt	+$ 62	Specify *with contrasting fabric welt* and select fabric color number.
	• Contrasting leather welt	+$ 91	Specify *with contrasting leather welt* and select fabric color number.
	• Contrasting fabric	+$118 per fabric	Add suffix **K** to the style number and select fabric color number.
	Acrylic backer		
	• Conference, midback, and high back large chairs	+$ 19	Specify *with acrylic backer.*
	• High back large chair	+$ 22	Specify *with acrylic backer.*

Executive Chair Bases

Refer to chair style to determine available base options, wood or metal finishes.

S-Base (Polished Aluminum)

S-Base (Black Powder coat)

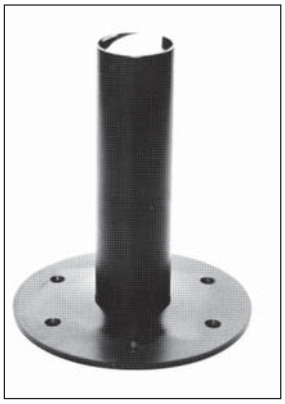
Wood Base

Swivel Base with Glides

Resin (Black only) Optional on most models

Chord Base: Five-arm black resin base standard.

Chord optional polished aluminum base.



*Jury bases are available for Kart and Rocky. All other requests should be submitted through Specials.

Adjustment Feature Definitions

Active mechanism (AM+) allows the seat and back angle to be adjusted independently of each other. The seat can be locked at various angles, and the back can free tilt with adjustable tension or lock in four positions.

Arms, height adjustable allow the user to independently move each arm up and down.

Arms, width-adjustable allows the arm rests to be adjusted in and out.

Arms, folding allows the user to independently fold each arm up or down for total freedom of leg movement and posture accommodation.

Back, height adjustable allows the user to raise or lower the chair back within a given range.

Back lock, forward allows the user to lock the backrest in a full upright position or release it to recline.

Back stop, selective allows the user to lock and unlock the backrest in any position within the tilt range.

Back tilt tension adjustment regulates the ease of tilt movement of the back only.

Back and seat tilt (Your Power mechanism) automatically responds to the weight and seating position of the user with an individual back resistance.

Base, free swivel allows chair to swivel 360˚.

Base, memory-return swivel allows a chair to swivel 360˚, but return to the forward-facing position when released.

Base, nesting four-star has two front legs that are lower than the two rear legs, allowing chairs to nest for storage. A nylon tooth on the base engages a notch in the seat when folded. This engagement properly aligns the seat and base for nesting.

Folding seat allows the seat to flip up, while the chair automatically rises for nesting and storage.

Knee tilt control (low front rise) minimizes the rise of the front of the seat when the chair is in a reclined position, allowing the users' feet to remain on the floor. This feature reduces pressure under the thighs, allowing for continuous blood circulation.

Lumbar support, adjustable provides additional lower back comfort by allowing the user to move the lumbar support up or down, as well as increase or decrease the amount of support.

Passive mechanism (PM) allows the seat and back to move in synchronization without manual adjustment.

Pneumatic height allows the user to change the seat height assisted by a pneumatic gas cylinder.

Seat angle adjustment allows the user to change and lock the seat angle in various positions.

Seat depth, adjustable allows the user to slide the seat forward or back within a set range.

Seat tilt control allows the seat and back to rotate as a unit backward one position and forward two positions.

Seat, zero front rise allows the user to tilt back in the chair while feet remain on the floor because the seat front remains level.

Swivel-tilt mechanism control allows the chair to swivel 360˚ and the fixed seat and back to tilt in unison when the user leans back.

Synchro-tilt mechanism synchronizes the tilting movement of the seat and back in a set ratio.

Tilt tension adjustment allows the user to vary the amount of recline resistance. Your Power mechanism allows the back and seat tilt to adjust automatically to the weight and seating position of the user.

Your Preference control allows the user to adjust the back tilt by selecting one of four settings: weight activated, weight activated with 20% resistance boost, mid-stop recline, and upright back lock.

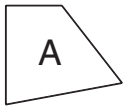
Sebastopol Thought Starters

DESIGN EMILIA BORGTHORSDOTTIR DESIGN ORIGIN: UNITED STATES

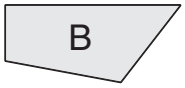
Sebastopol is a unique collection of tables with endless configuration possibilities. It comprises of 2 shapes, each shape being offered in a 16" high and 22" high version. The following are just a few thought starters.

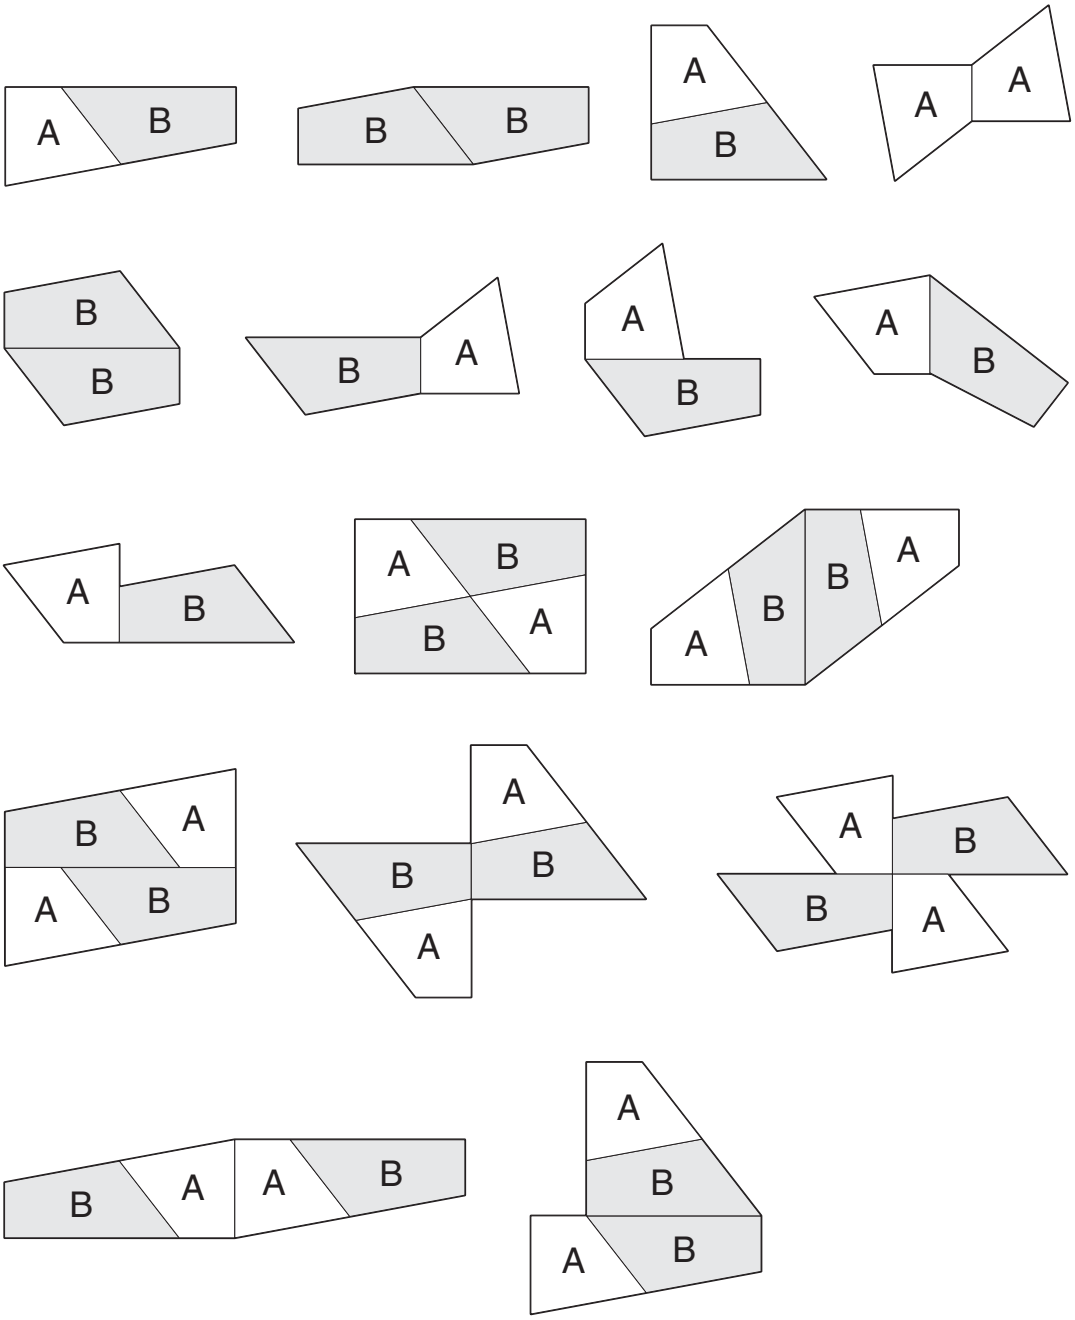
To create these table configurations use the following pieces labeled either A or B in any combination of the two heights, or use them on their own as a stand alone piece.

Shape A:
COEB2723 L or H



Shape B:
COEB4118 L or H

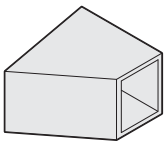


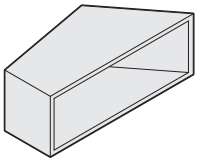


Sebastopol

DESIGN EMILIA BORGTHORSDOTTIR DESIGN ORIGIN: UNITED STATES

Tables





Tip: Optional grommet to accept power pod can be specified in milk white or black plastic.

Tlp: If a grommet is specified with a Power Pod and the table is over a floor core, the floor core outlet cannot be flush to the floor, because the plug end will not allow the Power Pod to sit in the grommet. If the floor core is flush to the floor and the grommet and Power Pod are required, the table either cannot be set over the floor core, or a special plinth base will be required. Consult your specials representative for additional information on the plinth base.

Standard Includes	Required to Specify
• Exterior surface: veneer grade 1, oak, or walnut • Interior surface: glossy laminate • Glides: concealed adjustable glide with non-marking nylon pad	1 Style number 2 Exterior surface wood finish number 3 Interior surface glossy laminate: 2001 Smoky White 2002 Studio Gray 2003 Wrought Iron 2004 Black Pearl 2005 Liberty Red 4 Options, if selected (see below) ▶See *Coalesse Surface Materials Reference Guide.*

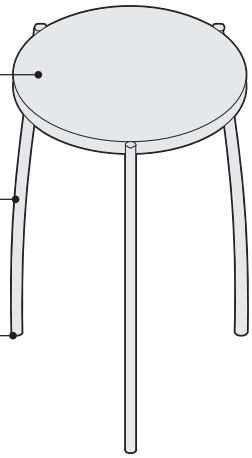
TeamWork Satellite Table

Satellite table provides a personal worksurface adjacent to seating and primary or nesting-height worksurfaces.

Top has a laminate or wood veneer surface with a matching edge.

Legs are finished with paint.

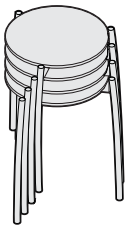
Glides are black.



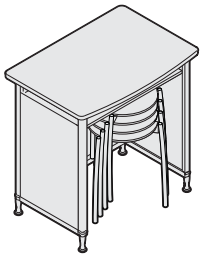
Actual Dimensions

Top diameter	17"
Width of base	19"
Height	25"
Thickness	½"

Product Details



Tables stack up to four high.



Height of table allows it to stow beneath other worksurfaces or Detour station garage.

Connections

Satellite table is fully assembled.

Surface Materials

Top and edge
- Laminate (Grade 1 or Grade 2)
- Wood veneer
- Custom wood finish (option on wood)

Legs
- Paint

Glides
- Black plastic only

TeamWork Satellite Table

Trees

DESIGN NORMAN DIEKMAN DESIGN ORIGIN: UNITED STATES

Tip: Interport power/data module is not available on Trees.

Tip: Tops come in the same wood and finish but with smooth surface.

Standard Includes	Required to Specify
• Stainless steel is constructed of parts that are laser-cut and all seams are welded using jigs and fixtures to ensure precision - Base: powder coated carbon steel - Adjustable glides for leveling - Units are sanded and polished smooth to a standard metal finish - No top coat is used or needed - Glides: height adjustable • Embossed Wood is created under high pressure to add dimensionality and texture on all sides of the table - Interior frame is constructed from a combination of engineered lumber and hardwood veneers - Embossed hardwood veneer is applied to all vertical and slanted surfaces • Hand Polished, High Gloss Paint: Hard maple veneer is applied to form the face of the frame and top - All exposed wood surfaces are inspected and thoroughly hand sanded prior to the application of finish material - Coating is a tough, pigmented, two-component polyurethane. Once cured, coating is hand-polished to a high gloss. Specify blue or yellow. • SensiTile is a terrazzo material with a matrix of fiber optic "lightpipes" - Changes in light and shadow are transmitted through the optics to create a responsive, shimmering light effect - Surface will require periodic care, and blemishes are natural occurrences in terrazzo - Unit is coated in wax: Black	1 Style number 2 Top color number 3 Frame finish 4 Options, if selected (see below) ▶See *Coalesse Surface Materials Reference Guide.*
