PRICES

All prices are list, F.O.B. Chatfield, Minnesota, and are subject to change without notice. We reserve the right to change quotation prices prior to acceptance by the buyer. Quotation prices must be accepted within 30 days or re-submitted for dating and approval. Prices do not include storage, installation, or taxes.

LEAD TIMES

The lead time on an order begins when TUOHY's Order Entry Department has verified the validity of the items ordered and has received at our manufacturing facility all COM materials supplied by others.

ORDERING INFORMATION

Specify all items by their product number, noting the quantity, finish color, tagging information and all other specifications called for within the price schedule.
The product number will prevail in the event the product number and description differ.
All orders must be in writing and shall be deemed accepted when the General Office in Chatfield, Minnesota issues a written acknowledgement. We are responsible only for agreements, commitments, and obligations authorized by an officer of TUOHY Furniture Corporation, and not for any agreement between a selling agent or other third party and the buyer.

ACKNOWLEDGEMENT

Every order will be acknowledged. Orders will be manufactured and invoiced based upon the information on the acknowledgement. If there is any discrepancy, please notify TUOHY Furniture Corporation immediately. Failure to notify TUOHY of a discrepancy within five (5) days will constitute acceptance of the order as acknowledged. All acknowledgments will contain current lead time information. If for some reason the buyer does not want it early, please list a Do-Not-Ship-Before date.
We are not responsible for delays in scheduling or failure to make scheduled shipping date due to strikes, lockouts or other labor complications, war, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply or excessive cost of fuel or raw material, delays from suppliers, compliance with Government regulations, or other unforeseen contingencies. When delays in product delivery are caused by the purchaser we reserve the right to draw up to 90% of the contract price and to charge to the purchaser any costs incurred by us.

CREDIT AND PAYMENT TERMS

Corporate policy does not allow for automatic open account terms for new customers or for customers whose account is not current. Corporate policy also prohibits credit being extended to individuals or residential accounts. New customers are required to make a deposit for the full value of the merchandise ordered. A credit application will be sent to each new customer. Credit will be established upon review of the responses given by the customer's references and will appear on future order acknowledgements. New customers are encouraged to begin establishing a credit rating with TUOHY Furniture Corporation prior to placing an order. Our customers are responsible to provide the necessary current and accurate information. We cannot be responsible to follow up on credit references. Upon establishment of an open account, terms are Net 30. 1 1/2% per month service charge will be added to all past due accounts. Accounts that are 90 days past due will be subject to collection proceedings without any additional notice. Please inquire for a packet of Credit information and Procedures from TUOHY Furniture Corporation. Orders will not be processed for past due accounts until the amount due, including any service charges, is paid in full. Standard product orders exceeding $50,000 net will require a down payment of 33%. Custom orders will require a down payment of 50% and will not be scheduled for production until the down payment is received. A bank letter of credit may be required for any order over $50,000.

CHANGES AND CANCELLATIONS

All prices and ship dates published or quoted regard items only as specified. We reserve the right to adjust our prices and ship dates on any change in specifications. TUOHY Furniture Corporation will make every reasonable effort to stop production, scheduling shipments, etc., upon receipt of written notification of changes, cancellations, or deferments of delivery. TUOHY will assess charges to the customer for change orders, cancellations, and delivery deferments as stipulated in the following:

Change Orders:
-Change orders received prior to production will be charged $200 net to cover print charges.
-Change orders received after production has started involving only an increase in the quantity will not be assessed a charge.
-Change orders received after production has started involving design changes or reductions in quantity will not be accepted. The customer will receive the goods as ordered and be liable for the amount due.

Cancellations:
-Cancellations received prior to production will be assessed a $500 net cancellation charge.
-Cancellations received after production has started will be assessed the totalaccumulated cost of the project plus a $500 net cancellation charge.

Deferred Shipments:
Deferred shipment charges will be assessed from the completion date in accordance with TUOHY's policy for Storage by Manufacturer.

PACKAGING

TUOHY pricing includes packing for North American shipment. Whenever possible, TUOHY will blanket-wrap your order; otherwise, all products will be packaged. Only environmentally safe packing materials are used. Large furniture pieces will be packed with wood reinforcements for added protection. For special packaging, crating or overseas shipment, please contact our Customer Service Department.

DELIVERY

TUOHY Furniture Corporation will select the method of shipment, carrier and routing. Carrier selection is solicited to provide the best service to each customer in their particular location. All shipments are sent prepaid, FOB Chatfield, Minnesota. TUOHY Furniture Corporation's liability ends when the carrier issues a receipt to TUOHY Furniture Corporation, which is an acknowledgement by the transportation company that the shipment has been received by the freight company in good condition. Title of the goods and risk of loss transfers to the buyer. The order shall be considered complete. Prepaid freight does not change the F.O.B. status of the product and risks involved in the shipment. We reserve the right to make partial shipments. Invoices relevant to the partial shipments are payable as they fall due.

TRANSIT DAMAGE AND CLAIMS

All merchandise is packed to comply with carrier requirements. All shipments must be carefully inspected for visible and concealed damage upon arrival.

Visible Damage: All visible damage or shortages must be noted on the carrier receipt and signed by the delivering driver. Do not sign the receipt until the visual inspection is complete at the time of delivery.

Concealed Damage: All cartons must be opened and inspected prior to signing the bill of lading. Concealed damage must be reported to the delivering carrier. Request an immediate inspection. Hold packaging pending the inspection. Do not move merchandise from the receiving area.

Caution: When a clear receipt is obtained by a carrier, the carrier is no longer responsible for damages or shortages.
Damaged freight cannot be refused by the consignee (buyer). Processing claims for damages and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

STORAGE BY THE MANUFACTURER

No shipment can be postponed by the customer. TUOHY reserves the right to transfer products to storage. Such transfer to storage shall be deemed delivery to the customer and an invoice for the products will be issued at that time. Long-term storage (over 30 days) is subject to surcharge.

STORAGE BY THE OWNER

Due to the inherent nature of wood products, we cannot guarantee any product stored or set in place in an environment where temperature and humidity are not controlled. Temperatures must be maintained within a range of 50-80°F (or 10-27°C); the relative humidity must be maintained between 25 and 40%. These conditions are also recommended for human health standards.

MISCELLANEOUS

All merchandise shown in our catalog is the property of TUOHY Furniture Corporation. We reserve the sole right to manufacture and distribute it.

All patterns, tools, and designs developed for the production of any product will remain the property of TUOHY Furniture Corporation. All published dimensions are approximate and if the exact sizes are critical, we suggest that you request actual measurements.

Price list data supersede all other specifications, whether verbal or written, and may not be altered without the written consent of an officer of TUOHY Furniture Corporation.

Stenographic and clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time without notice.

Due to variations beyond our control, all wood and upholstery products are subject to slight variations in color, texture, and grain. Crotch-figured woods, burls, and bird's eye figured woods have a tendency to show movement in the grain because of excessive end grain exposure and random orientation of the grain. Additional veneer backing is applied to these veneers to minimize such movement. This natural phenomena can be expected and should not be deemed defective. It will not impair the performance of the product and will not be considered as a warranty issue.

WARRANTY

All merchandise is manufactured in accordance with our high industrial and design standards and is warranted to be free from defects of material and workmanship for a period of ten (10) years from the date of delivery or placement in storage, and one (1) year for gas cylinders and task lights. This warranty covers goods under normal use and in service under conditions for which the merchandise was designed. All products must be placed in an environment consistent with that described in 'Storage by the Owner'.

Products are manufactured, shipped and installed specifically for each project and client. As such, return of products, for whatever reason, is not practicable and not permitted. Our obligation during the warranty period is limited to repair or replacement at our option.

Wood surfaces must be cleaned only with water or an ammonia-based cleaner; use of other cleaning agents will void this warranty.

This warranty becomes null and void on any goods repaired or altered by any person not so authorized by TUOHY Furniture Corporation or any merchandise which has been subject to misuse, improper storage, negligence, or accident. Natural rubber products placed directly on our wood finish may cause discoloration of the finish and will void this warranty. No warranty is made when products are acquired for personal or residential purposes. We make no other warranties, either expressed or implied as to any matter whatsoever, including without limitation, the condition of the merchandise, its merchantability, or its fitness for any particular use or purpose. All claims will be processed by the Customer Service Department.

UPHOLSTERY

Fabric and leather upholsteries are graded into all pricing for seating products. Customers may choose from TUOHY Upholstery Lines, Partnership Programs, and, Customer's Own Material (COM) or Customer's Own Leather (COL).

TUOHY Standard Upholstery Lines: Use the following pricing grades for standard upholstery offerings:

Leathers:	Lena	L1
	Sierra	L1
	Ecolife	L2
Faux-Leather:	Proxy	Gr5

Upholstery Partnership Programs: TUOHY has partnership programs with Designtex, KnollTextiles, Luna Textiles, and Maharam such that their approved upholstery products are graded into TUOHY's pricing. Please see grading information at www.tuohyfurniture.com/reference/upholstery.htm. Additional programs with other upholstery suppliers will be announced as they become available.

COM/COL: TUOHY accepts COM fabrics and COL leathers for consideration on its products. To verify suitability of your selection, inquire with Customer Service for information from our Fabric Analysis Program. Upholsteries not listed in this program must be submitted for approval prior to acceptance of an order; submit a 12 x 12 sample prior to entering your order. Your purchase order must include an upholstery specification that has been approved by TUOHY.

All COM/COL requirements are based on whole pieces of material; split shipments are not allowed. We are not responsible for COM/COL upholstery wear, defects, or its appropriateness.

COL leather requirements are listed in square feet and based on hides that are 40 square feet or larger. For hides below 40 square feet add 15% to the footage requirements; for calf hides below 30 square feet add 30% to the footage requirements.

Our pricing includes labor for applying upholstery and is based on applying only one type of color way per item of furniture, with no specific relationship between the pattern or weave of the upholstery material and the configuration of the item of furniture.

A surcharge not to exceed 15% of the COM price will be added when vinyl is used and/or multiple upholsteries or colorways are applied to the same product. These circumstances may create the need for additional yardage; contact Customer Service for details prior to ordering.

If additional labor is required because of unique characteristics of the fabric, a special quote will be required.

Fabric/vinyl yardage requirements and leather square footage requirements are shown throughout this price list. Fabric and vinyl requirements are based on upholstering one unit, using a single, continuous 54-in wide material, off-the-roll, with minimal (under 2-in) repeat in any direction. Inquire about lower per-unit yardage requirements on orders of more than one unit.

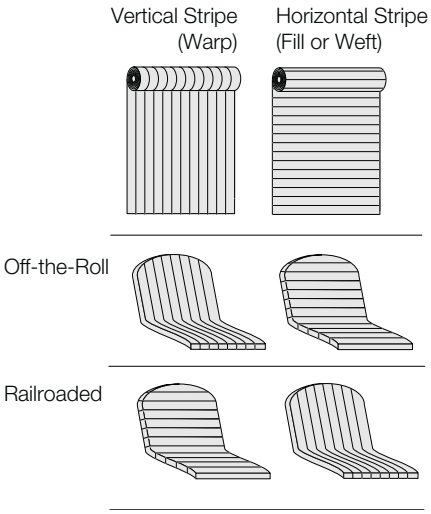
Verify whether individual product listings in this price schedule call for greater allowances for this additional yardage.

Patterned fabrics and vinyls may be railroaded on request but are subject to a surcharge and/or additional yardage requirements.

Seams will be required when the product application width is greater than the usable roll width, whether off-the-roll or railroaded.

Additional yardage may be required if roll width is less than 54 inches and/or a pattern requires matching. Table 2 (below) charts vertical repeat and roll width, both in inches. Note that this is a generalized guide only. Please confirm with our Customer Service Department on specifics regarding selections for your project. Changes in yardage requirement will affect upholstery grading in TUOHY Upholstery Partnership Programs.

Table 1: Pattern Direction



Fire Rating: All upholstered pieces pass Cal-117. For Cal-133 or Boston Fire, contact Customer Service at (507) 867-4280.

UPHOLSTERY (cont.)

Additional yardage may be required if roll width is less than 54 inches or a pattern requires matching. The following is a guide only. Repeat regards vertical repeat only; headings are listed in inches:

WOOD FINISH MAINTENANCE

For daily cleaning, TUOHY recommends using only warm water or a reputable, ammonia-fortified glass cleaner. Lightly apply the water or glass cleaner directly to the finish surface and wipe clean with a cotton or non-abrasive cloth, wiping in the direction of the wood grain. Polishes, waxes, and top oils are not recommended because they tend to build-up on the surface and distort the naturally clear, bright appearance of the TUOHY finish!

SUSTAINABILITY

TUOHY has achieved Indoor Advantage™ Gold certification from Scientific Certification Systems (SCS), a global leader in independent verification of environmental and social claims. With this certification, TUOHY now offers its full line of case goods, conference tables, media storage, and occasional tables with the assurance of third-party certification that these products meet all requirements for the following criteria: USGBC LEEDv3, EQ4.5, ANSI/BIFMA e3-2010 (level™), as well as the Collaborative for High Performance Schools (CHPS) and California Section 01350 Specification for low emitting furniture.

TUOHY is one of only a few high-end manufacturers to have been certified and not use UV-cured finishes. The TUOHY finish enables its products to have a clear, natural look while remaining repairable many years later, apart from its production facilities.

For FSC certification, please request FSC material, add 3%.
For Indoor Air Advantage product, please request Indoor Air Advantage material, add 4%.

DRAWERS FOR LAP AREA

All desks are available with optional pencil lap drawers.
TUOHY will automatically size your lap drawer to the kneehole space available, ensuring complete, side-to-side fit of the drawer face.
All inner lap drawer parts are solid birch with birch plywood bottoms; all include a birch pencil tray.
Exterior wood parts will match the desk unit (see Option below for Atheneum).

Option
For Atheneum Frieze Detailing, change 70 prefix to 69, add $80.

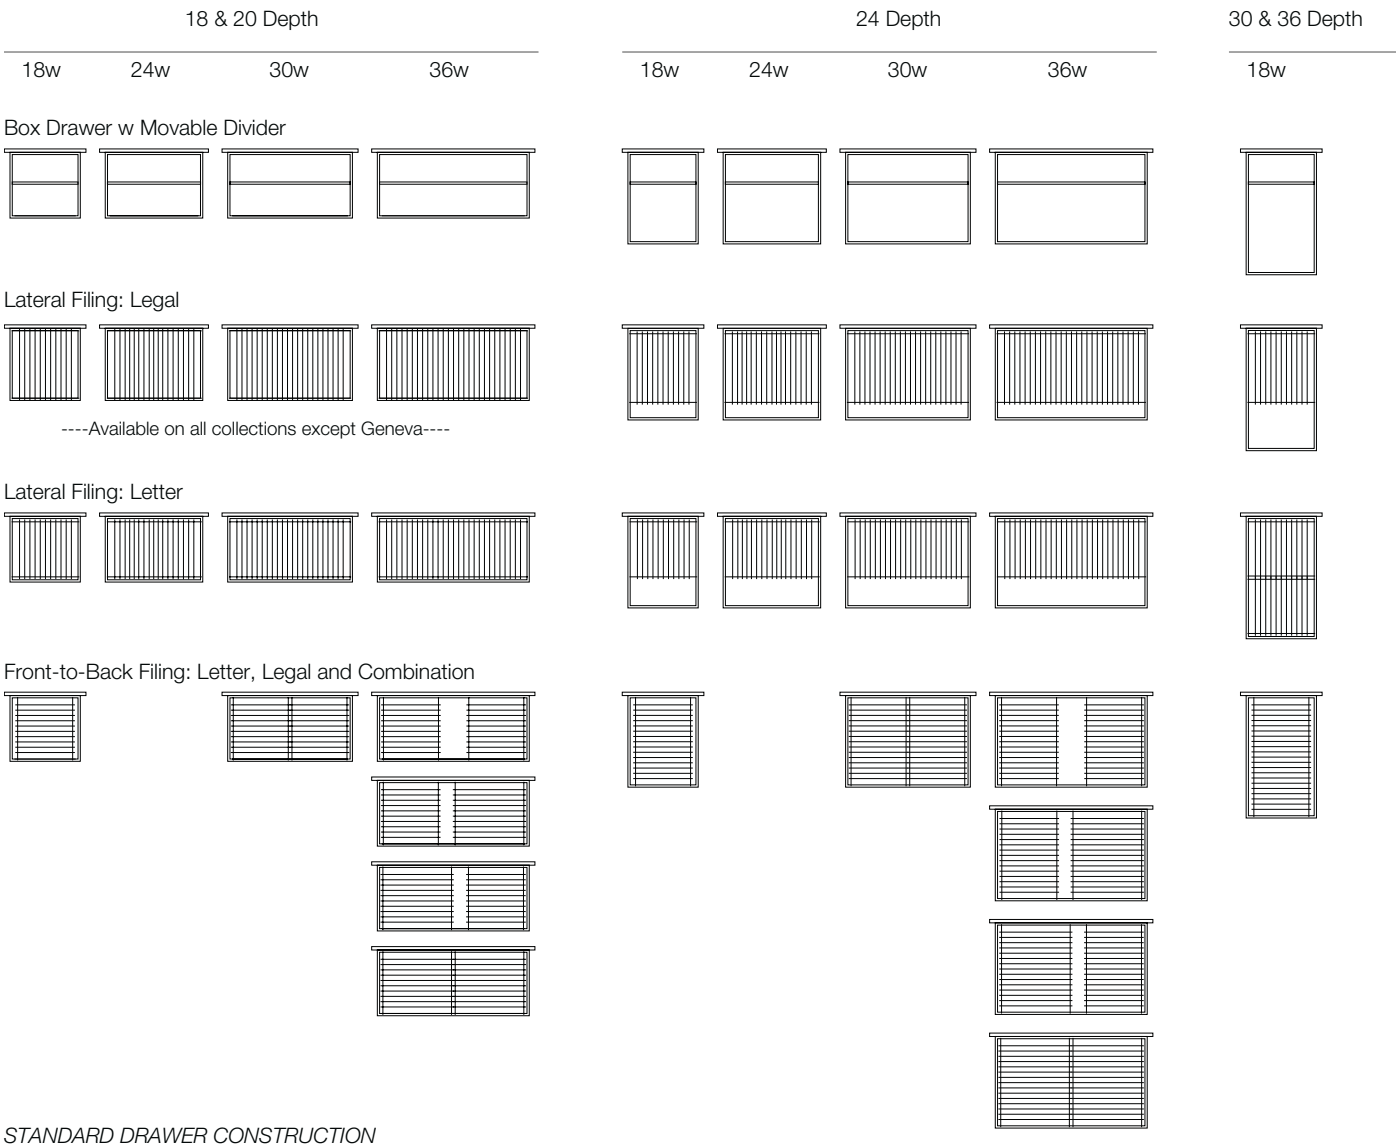
DRAWER PENCIL TRAY

	Product No.	List $
Pencil Tray	70MAA00	104

Solid birch pencil trays are intended for use in any box drawer of an 18 inch wide pedestal. (Atheneum users: Use this option in a user's pedestal when employing a Pull-Out Shelf on the visitor's side).

LAYOUTS

Information on this page pertains to all collections except Abre and Coda, and as noted below.



STANDARD DRAWER CONSTRUCTION

A fine point for a quality casegood product is the inner drawer construction. Each TUOHY casegood offers you uncompromised excellence in this area as well. Drawer boxes are solid hardwood with dovetail joinery for maximum durability. The drawer face is mounted separately to this box (i.e., five-sided construction) to maintain integrity.

Drawer bottoms are dadoed on all four sides. All drawers ride on steel ball bearing, full extension slides. Slides for box drawers are rated at 75 pounds per drawer; slides for file drawers are rated at a heavy duty 150 pound load per drawer. All slides have progressive action.

Box drawers have a movable hardwood divider. Optional pencil lap drawers include a solid hardwood pencil tray. All file drawers have suspension rods for filing laterally or front-to-back, as depicted above.Box drawers have a movable hardwood divider. Optional pencil lap drawers include a solid hardwood pencil tray. All file drawers have suspension rods for filing laterally or front-to-back, as depicted above.

LOCKS

	Specify	List $
Door/Cabinet Lock	Option LD	139
Drawer Gang Lock	Option LG	192

Locks are included on all private office modular pedestals, desks, runoffs and freestanding credenzas and optional on all towers, hutches, and wall hutches.
Locks are optional on all conference room casegoods.
All locks are face-mounted and are available with removable lock cores.
Lock color will be compatible with the pull hardware selection you make.
One door lock is required per cabinet area; hence, double cabinets require only one lock.
Gang locks are provided for all drawers within a pedestal.
Pencil drawers and pull-out shelves do not lock.

<<The illustration indicates placement of optional locks for towers, hutches, and wall hutches (in white).

KEYBOARD MECHANISMS

	Product No.	List $

Keyboard and Wrist Pad (2)	501.4010	852
Keyboard, Wrist Pad and Mouse Pad (3)	501.4030	980

These units may be attached under any desk or credenza top surface.
Adjustability includes height, side-to-side swivel, keyboard tilt, and extension in out from the work surface area.
Item (1) above is available in all standard TUOHY Wood Finishes; please specify.
Items (2) and (3) are available in black only.

Note: Be mindful of potential top deflection issues when applying keyboards and monitors to work surfaces. Support Keels are offered throughout the casegood lines to assist with deflection, but must be mounted aside a keyboard mechanism because of space conflicts.

MICROPHONE

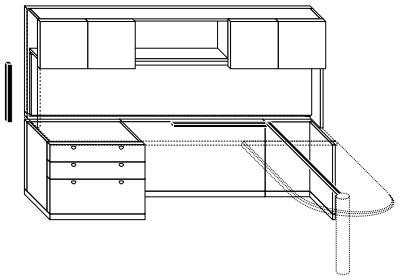
Shelf Light 72	501.2072	394

TUOHY offers five sizes of shelf task lighting that can be field mounted at any location.
These are fluorescent fixtures with a prismatic diffuser lens, UL Listed.
Standard housing color is black.

Each light has a 9-foot power cord. Power cords for Chicago, LA and New York are available; inquire regarding ordering information.

RACEWAY CHANNELS



Raceway Channels (Black)	Product No.	List $
(2) Raceways @ 22 plus 3 clips	501.3000	63

Contains two pieces of wire raceway, 22 inches long, and three clips for inner-cabinet wire management. Standard color is black. Raceways may be snapped open/close.
See diagram for possible mounting applications; suitable for above work surface areas as well as under surface locations.

<< The cutaway view at left shows the fabric back panel in place, with the brush grommet below and space behind for cord management from above.
When fabric panels are not used, and a wood back panel is preferred, the Cord Raceway Kit should be installed to manage cords from the hutch overhead to the desk surface.

TOP GROMMETS

Top grommets must be specified individually (Option GT). Standard default locations are defined below. You may specify any location you prefer; a detailed drawing must accompany your order.

Widths: 2-72. Append width to product prefix; multiply width by $/Inch for list price (note $ Minimum).
Custom adaptation of standard modules is available; inquire with TUOHY Customer Service.

! Notes:
Use TTAA PowerData8, TTV Vents and TTBE Brush Grommets solo or in-series with other modules.
Lids and vents are MRBAS Resin Brushed Aluminum w Steel Tint; other components are MRG Resin Black.
Modules with PowerData8, TTAB and TTAC, must be hard-wired (8-wire) at the point of power supply and have (1) duplex outlet, (1) RJ45 Cat 6 with whip, and (1) USB 3.0 port with femaie whip.

* TTAB and TTAC units have an overhanging lid, width is nominal; a TTBE Brush Grommet (any width) must be added on the side indicated.

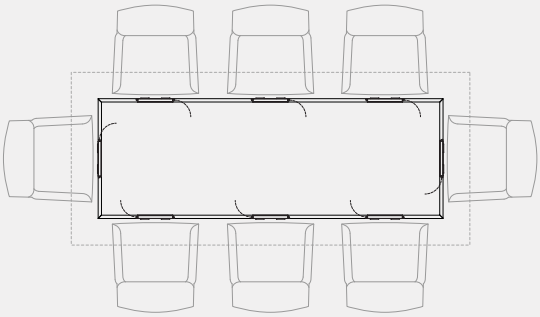
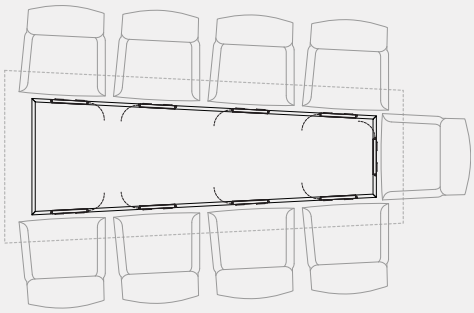
! Notes:
Steel aprons are 1d 2.5h at widths shown above; standard (default) finish is MRTG Resin Thunder Gray.
Default/suggested apron setback is 8-inches. Allow for legs, bases and subtops when calculating this.
Each outlet pair consists of a duplex outlet and Dual Power USB connectors.
All outlets must be hard-wired and are intended for use in all markets except Chicago.

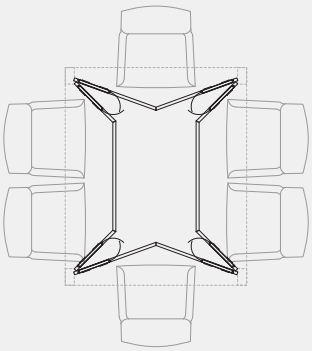
+ Options/Parametrics:
Widths: 18-120. Replace Product Number Prefix width with desired width; use next larger size for pricing.
Alternate apron finishes are MRW Resin White, MRB Resin Black and MRSA Resin Satin Aluminum.
Inquire with Customer Service about adding other modules to the apron on a project basis.
Use multiple aprons for sizes larger than what is listed above.

> To Order (using uniform setback):
Before starting, identify your table size, desired apron placement and seating configuration.
1. Calculate: Apron Size = Top Size - 16* [*using default setback of 8 inches x 2].
2. Locate each Apron Size and its corresponding Product Number Prefix and List $.
   --Express nonstandard sizes in the Product Number Prefix and use the next larger List $.
3. Append the # Power-Data Outlets to the Product Number Prefix, add the Apron List $ and Outlet +$; or, append zero (0) for Apron only (no outlets) and use Apron List $ price.
4. Cross reference Apron size and # Power-Data Outlets and verify standard o.c. outlet spacing; if o.c. spacing has no value (-) then fewer outlets must be specified, or a larger apron.

Standard Layouts with 8-inch Setback







Alternate Layouts: Angled Aprons, suitable for Corner Leg Tables; coordinate with Customer Service.

Example A:

Table Size: 120w 52d
Apron Placement: 8-in Setback
Seating Configuration: 3 x 1 (8 total)

Apron Size = Top size - (2 x Setback)
Apron (w) = 120 - (2 x 8) = 104
Apron (d) = 52 - (2 x 8) = 36

Apron (w)
Product Number: PDA104-3
List $: 407* + 1140 = $1547.
Quantity: 2

Apron (d)
Product Number: PDA36-1
List $: 296 + 380 = $676.
Quantity: 2

* Determined using next larger size.

Example B:

Table Size: 120w 52/40d
Apron Placement: 8-in Setback
Seating Configuration: 4 + 1 + 4 + 0

Apron sizes measured.

Apron (w) = 104
Product Number: PDA104-4
List $: 407* + 1140 = $1547.
Quantity: 2

Apron (d1) = 24.5
Product Number: PDA24.5-1
List $: 289* + 380 = $669.
Quantity: 1

Apron (d2) = 35.2
Product Number: PDA35.2-0
List $: 296* + 0 = $296.

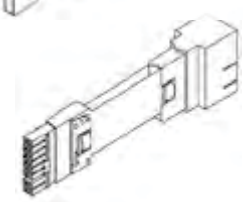
Power Cables (cont.)

Multi-Circuit Power Feeds— Starter Cables
8W/4C Ceiling Power Feed; 12-in Cable
- 8 wire 4 circuit power feed.
- Includes Female connector that mates with Electri-Pak Power block, length of flex cable and box connector. (Excluding the 42 System).
- All circuits rated for 20 AMPs and are energized.
- Whip end connected to building power by electrician.
- Length specified in inches; min = 12-in, max = 180-in.
- Copper wire minimum size #12 AWG. Except #10 AWG on 84 system is neutral.
- Insulation THHN, THWN, rated 600 volts.
- Metal Flex covering— Galvanized steel.
- Cables with male plugs may be either 15 AMP or 20 AMP, 3 prong type.
- Cable lengths available in 1-in increments.
- The feeds are UL Listed, UL Recognized, and CSA Certified.
- Dimensions Metal Flex Covering— Galvanized steel 3/8-in for 4 wire, 1/2-in for 7 wire and 9/16-in for 8 wire.

Interconnecting Cables, Female/Female
8W/4C Metal Flex Cable; Female/Female End
- 8 wire 4 circuit cable with Female connectors on each end; supports System 84.
- Distance between two power blocks: 12-in min,180-in max.
- Metal flex cable— Galvanized steel—3/8-in diameter round for 4 wire 2 circuit,1/2-in diameter round for 7 wire and 9/16-in oval for 8 wire.
- Festoon Cable— Flat ribbon cable PVC.
- #12 AWG power conductors in all systems except super neutral in 8 wire 4 circuit cables.
- #10 AWG super neural in 8 wire 4 circuit.
- Color coded and polarized 4 wire 2 circuit— Black, 7 wire 3 circuit and 8 wire 3 circuit— Black, 8 wire 4 circuit— Gray cable ends.
- UL Listed and Recognized and CSA Certified components.
- Dimensions:
  Cable lengths available in 1-in increments.
  Metal Flex— 12-in minimum to 186-in maximum
  Festoon— 12-in minimum to 24-in maximum
  Female connector— 4 wire = 1.94w 0.88d 1.25h; 7 wire = 3.13w 0.7d 1.94h; 8 wire = 3.63w 0.63d 1.94h

Pass-Through Cables, Female/Dual-Male
8W/4C Metal Flex Cable; Female/Dual-Male End
- 8 wire 4 circuit cable with Female connector at one end; Dual-Male connector on opposite end.
- Used in conjunction with a Festoon or Metal Flex cable to pass through a non-powered panel. (i.e. Connects two powered panels when a non-powered panel is placed between them.)
- Distance between two power blocks: 12-in min,180-in max.

Pass Through Cables, Female/Male
8W/4C Metal Flex Cable; Female/Male End
- 8 wire 4 circuit cable with Female connector at one end; male connector on opposite end.
- Used in conjunction with a Festoon or Metal Flex cable to pass through a non-powered panel. (i.e. Connects two powered panels when a non-powered panel is placed between them.)
- Distance between two power blocks: 12-in min,180-in max.



Extender Cable, Female/Dual-Male
8W/4C Rigid Channel; Female /Dual-Male End
- 8 wire 4 circuit Female/Dual-Male Rigid Channel. System 84
- Extender used when there is a gap in the panel wall that must be compensated for when going from one panel to the next.
- Shortest Length = 1-in; Maximum length = 12-in

Grain Direction Note:
Flat-cut veneers are applied vertically;
quarter/rift-cut veneers are applied horizontally.

Ordering Credenza/Half-Panel Units:

Note the ProductNo and List $ that correspond to an Unfinished or Finished Back Panel. Follow the ProductNo column down until you have located the first (left-most) end panel or pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding modules in this manner until your unit is complete.

The overall unit width will be the accumulated widths of all modules chosen. The overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added. Maximum width under one top is 120 inches. Components are modular and may require field assembly. Finished backs may be segmented; inquire if a continuous back is required.
Verify all logistical dimensions (e.g., elevators, corridors and doorways) prior to ordering large units.

How to Order Pedestals:

Choose the pedestal format desired from each of the listings above and on the opposite page. Note the ProductNo. and List $ that correspond to the depth and back (finished/unfinished) desired. Follow the ProductNo. column down until you have located the first (left-most) pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding pedestals in this manner until your unit is complete.

The overall pedestal width will be the accumulated widths of all pedestals chosen; the overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added. Maximum width under one top is 120 inches. Components are modular and may require field assembly. Finished backs may be segmented; inquire if a continuous back is required. Verify all logistical dimensions (e.g., elevators, corridors and doorways) prior to ordering large units. Tops are to be ordered separately.

! Notes—for all Pedestals on this and opposite page.
Maximum width under one top is 120 inches; components are modular and may require field assembly.
Finished backs may be segmented; inquire if a continuous back is required.
Verify all logistical dimensions (e.g., elevators, corridors and doorways) prior to ordering large units.
Prices shown here regard Wood1 finishes; note surcharges for Wood2 finish.
Geneva pedestals are not modular. Faces and back panels are each made from single pieces of veneer to guarantee consistency of grain and color.
Pedestals have a kerf detail along edges and vertical corners.
All pedestals include locks where applicable.

For drawers/cabinets with Stitched Proxy, specify Option SF and add $632 per drawer/door face.

To Specify Pedestals

1 Construct the Product Number and List Price:
Choose the format desired and note the starting Prefix Code and List $ for the depth required.
Specify pedestal sequence L to R by adding the Ped Code and $ for the depth required to the Prefix Code and List $.
The overall width is the sum of the pedestal widths you have added (120 is maximum).

2 Required Specifications
Product number and price.
Quantity and Tagging information.
Wood finish selection.
Proxy color selection if applicable.

! Notes—for Pedestals on this page.
Maximum width under one top is 120 inches; components are modular and may require field assembly.
Finished backs will be segmented; inquire if a continuous back is required.
Verify all logistical dimensions (e.g., elevators, corridors and doorways) prior to ordering large units.
Prices shown here regard Wood1 finishes; note surcharges for Wood2 finish.
Geneva 3 and 4 high pedestals are shipped in logical components. Faces and back panels are each made from single pieces of veneer to guarantee consistency of grain and color.
All pedestals include locks.
Credenza Tops for spanning a run of pedestals are listed on a prior page and must be ordered separately.
Drawer Pedestals 40/54h must be secured on location to the wall; otherwise, specify Option AT below.

+ Options:
For Anti-Tilt Mechanisms, specify Option AT; add $498.
For drawers/cabinets with Proxy (faux leather), specify Option LF and add $465 per drawer/door face.
For drawers/cabinets with Stitched Proxy, specify Option SF and add $632 per drawer/door face.

Important!
Note that the credenza sits forward from the wall, allowing for wall panels to be used behind the credenza, if desired. The overhead resting on the credenza is aligned with the wall-hung overhead, hence extends past the credenza top. This is hidden by the wall panels.

CAUTION, do not align overheads this way if no wall panels are used!

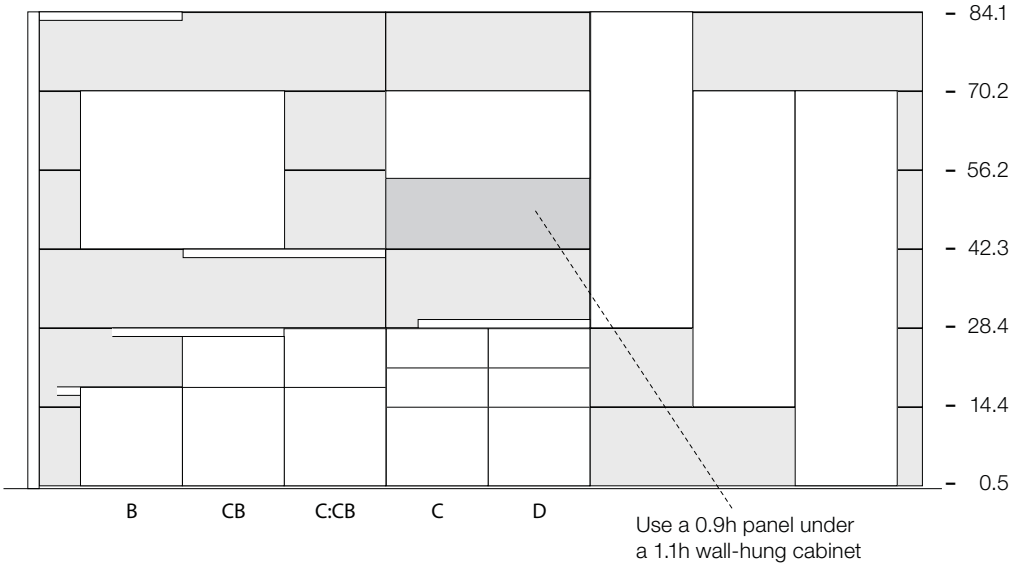
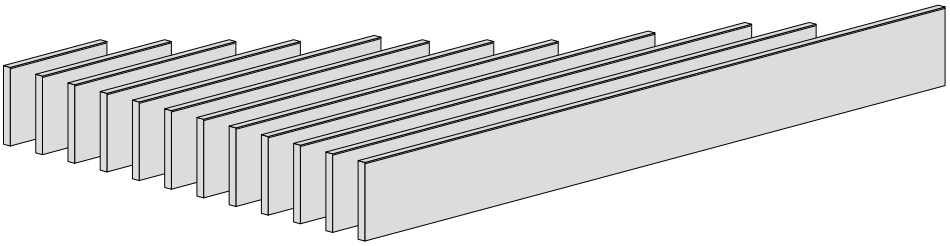
PLANNING GUIDE

The dimensional cadences of Prato allow for extensive modular interchangeability of components while preserving the built-in look of millwork case construction.

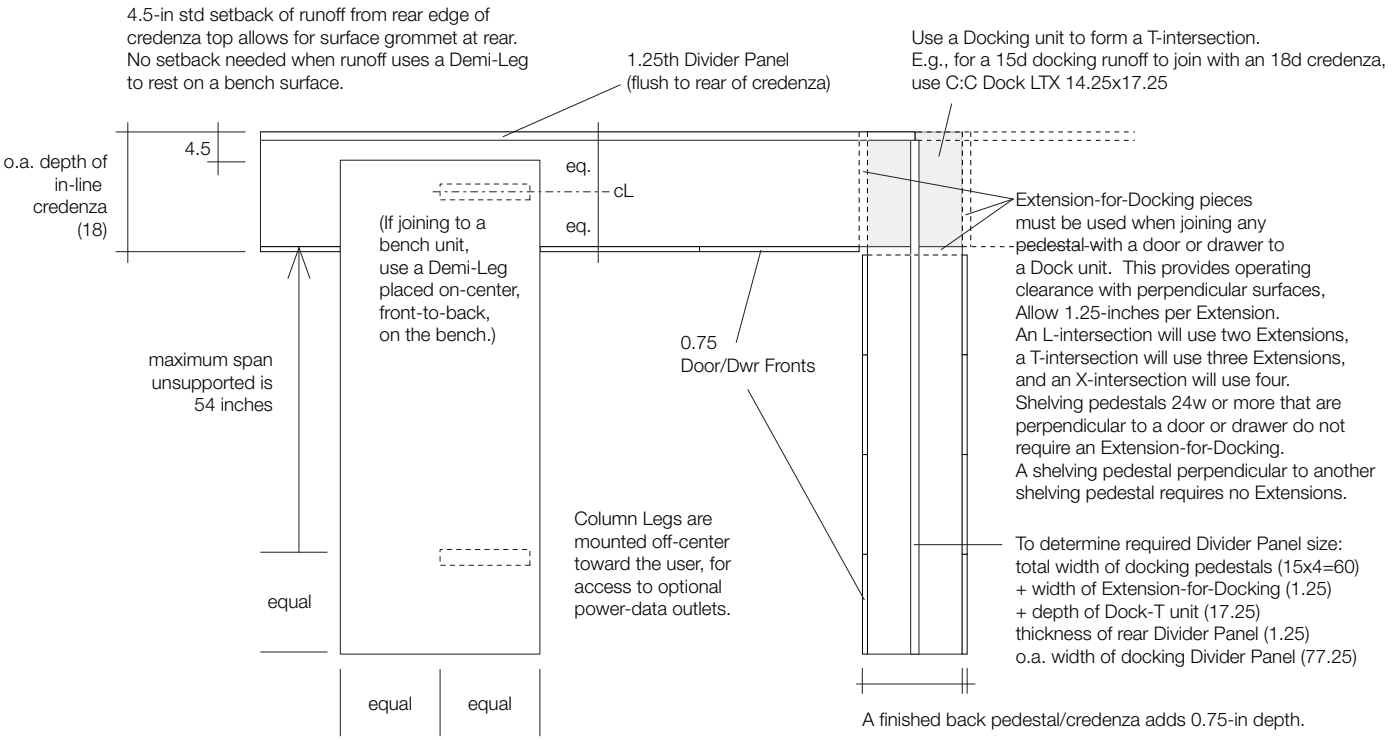
The diagram at right illustrates the alignment of many of the common furniture components as they might occur in relation to each other.

Wall panels establish a uniform and rhythmic vertical cadence, and are available in any width (using parametrics), in 6-in increments standard. Note how desk height (D) tops sit above credenza (C) tops, and how drawer/door faces overlap the credenza tops. Bench (B) modules break cadence with the wall panels but are reconciled by (CB) and (C:CB) units. Similarly, single (1.1) height overheads extend below the panel cadenza but are reconciled with 0.9 height panels.

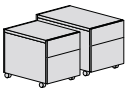


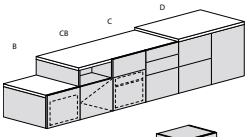


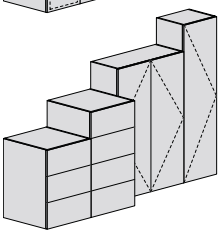
PLANNING GUIDE



MODULAR STORAGE INFORMATION







Prato storage modules are available in a range of heights/functions:
- Mobile Storage
- Bench Modules [B], 18h, for storage and bench seating; faces flush to top.
- Credenza Modules, 28.4h, for storage and top runoff support:
  - [C/B] units have an open area (XShelf) below the credenza surface.
  - [C] units have faces that overlap the credenza top.
- Desk Modules [D], 29.9h, for full-height desk and runoff storage; faces are below the top surface.
- Tower Storage at 42.3, 56.2, 70.2 and 84.1h.

All doors and drawers except sliding doors have push-to-open latches.
Tops must be ordered separately for all Bench [B], Credenza [C] and [C/B], and Desk [D] modules.
Runs of pedestals may be used sequentially without limit. Coordinate top selections as needed.
Pedestals are listed and priced with unfinished exterior side panels; option codes allow for finished sides.
Width for Back Panels and/or Wall Panels is the sum of all widths for the Spec Codes you itemized.
Add an Extension for Docking to each run of pedestals joining to a dock, whether inline or perpendicular.
All vertical face panels have horizontal veneers; quartered and rift veneers are recommended.
Drawer walls are 0.5-in thick solid birch with English dovetail construction.
Drawer bottoms are 0.3-in thick, dadoed into drawer walls.
Drawer slides are ball bearing, full-extension.
File drawers include a Pendaflex® compatible file hanging system.
Face Locks are included on all drawer and door pedestals, except as noted.
Remove architectural base molding when placing Wall Panels, Towers and Pedestals.
Open Gaps and KneePanels are ordered parametrically. Include width dimension in the Spec Code and price calculation.
Width parameters are shown in brackets; replace the bracketed 'w' with the desired dimension. Example:

Description	w	d	Spec Code	$ List
C KneePanel-Fixed [w]	[15-54]	0.75	1K[w]	3.6[w]+300
C KneePanel-Fixed 36			1K36	420

LTX CONFIGURATIONS

--Docking pedestals may face either direction; use Finished Backs as needed.
--Finished Back Panels are required on X-Layouts and the descending run of a Y-Layout (in orange), and optional elsewhere (in green).
--Extensions (dark gray) are required on each connecting side of a Dock (light gray) when door/drawer pedestals are specified:
Use a 1.25-in Extension when a door/drawer unit abuts a perpendicular door/drawer unit or Finished Back Panel.
Use a 0.5-in Extension when a door/drawer unit or Back Panel abuts a perpendicular shelving unit (caution: travel of the door/drawer must be less than the width of the abutting shelving unit).
No Extension is required along side a shelving unit.
Illustrations below demonstrate a nominal 18-in width; the same logic applies to 24-in width.

! Notes:
Identify which Dock/Bench Top is to receive the cushion.
Specify by Product No. and the starting location from the left end, expressed in inches.
Cushions 52-in or more in width require fabric to be railroaded; use multiple cushions to avoid railroading.
Leather footage requires a usable area of at least 20% greater than the width and depth shown above.

! Notes:
Identify which Top/B-Pedestal is to receive the cushion.
Specify by Product No. and the starting location from the left end, expressed in inches.
Cushions 52-in or more in width require fabric to be railroaded; use multiple cushions to avoid railroading.
Leather footage requires a usable area of at least 20% greater than the width and depth shown above.

! Notes:
Prato Wall Panels are a matrix of panels of assorted materials and sizes, arranged in columns (sets) and rows.
Each Wall Panel has a shelf slot at top and metal trim frame; standard finish is MSBN Satin Brushed Nickel.
Wall Panels in the top (starter) location will have a top cap instead of a shelf slot.
Individual panel heights are modular in cadence. A panel with suffix 2 is double the height of suffix 1 (i.e., merged pair).
Use parametrics as needed (see Options below) to reconcile widths with overall width of companion cases and tops.
Maximum width on Wall Panels is as listed above and on opposite page; note 96-in dimension above.
All vertical face panels have horizontal veneers; quartered and rift veneers are recommended.
Back-painted glass panels available in S.BLK Black or S.BWT White; match colors on special request.
Wood Veneer includes all Wood1 species and solid paint colors; inquire regarding other species/colors.
Customer walls must be adequately constructed to accept wall hung units.
Wall Panels are designed to mount 0.5-in from the floor; avoid use of baseboards or make flush.

> To Specify Wall Panels:
Order wall panels in vertical sets, specifying each set in L to R order. All panels within a set must be of the same width.
Determine the Product Number for each set by selecting the appropriate ProdNo Prefix 1 and appending the desired Width 2.
Specify the panels within a set by listing the desired Spec Code 3 in your description, in top-to-bottom order.
Determine the total price of each set by adding each panel's price to the nominal price for the set. ↑
Panel finish selection, individually or collectively.

+ Options/Parametrics:
Widths: 12-108/na. Replace Product No. width code with actual dimension; use next larger std size for pricing.
To make Wall Panels removable for wire management, append R to the Spec Code (0.9 and 1.9h panels are already removable).
Panels used under overhead units must be removable for wire management, if power is required overhead.

! Notes:
All panel widths can be sized parametrically; specify width desired and use price of next larger panel.
Cover Panels can cross over one or two Structure Panels.
Cover Panels should always end at a Structure Panel seam.
Single Panels run full height of a Structure Panel.
Double Panels are separated just below work surface height to allow for electrical and data in the lower panel.
Double Panels with BPGlass have a matching Wood1/Solid Color finish in the lower panel.
Double Panels 54w or more will have the lower section split on seams of the Structure Panels for electrical.
Lower panels should be the same size as Structure Panels for ease of removal and cantilever attachment.
Electrical location is determined by size; 24w units have only one outlet.
Di-Noc Panels are 3M™DI-NOC™; choose from all but Solid Color Gloss and Metallic finishes.

+ Options:
Add ‘L’ or ‘R’ to end of product number to designate handedness.
For electrical outlets in lower panel, specify EL to mount left, ER to mount right, and EB to mount left and right.

OPTIONS

Wood Species/Finish

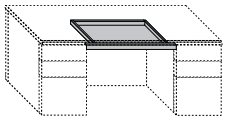
Units can be specified in standard TUOHY Wood Finishes, Solid Colors, or any combination thereof. Exotic veneers and sketch-face patterns may be applied on a quote basis.

Parametrics

Xpect products are parametrically specified. You are not restricted to the sizes listed in this price list. Call out the nominal dimension that you desire, TUOHY will calculate the appropriate edge overhangs based upon the style you select. There is no surcharge, just use the price for the next larger unit.

Example: LAAA-76-34 is a 76 wide x 34 deep rectangular 2 box/file-2 box/file desk. The price would be the same as a LAAA-78-36, which is the next size larger in both width and depth.

The following dimensions are fixed and cannot be changed:
Pedestal heights are 28.4 inches tall
Drawer style pedestals are available in 18, 30, 36 inches widths only.



Lap Drawers	Finishes Available:		
Lap Drawer 24 inch Face	All TUOHY Wood Colors (Face only)	L70MKA00	567
Lap Drawer 24 inch Face w. Liner	All TUOHY Wood Colors (Face only)	L70MKA01	673
Lap Dwr Rear Fascia–4 ft/Field Cut	All TUOHY Wood Colors	L70PCF00	240
Lap Drawer 24 inch Face, Encased	All TUOHY Wood Colors (Face+case)	L70MKA02	839

Additional Notes

! All dimensions are nominal.
! All prices are based on Wood1 finishes and include freight.
! All drawer pedestals are standard with locks. Locks are optional on Hutches and Towers.
! Towers, Peds: Unfinished Back–ends overlay the back; Finished Back–back overlaying the ends.
! Refer to the General Information section of the TUOHY List Price Schedule for additional:

Ordering Information

Choose the Gallery Shell size desired from each of the listings above and on the opposite page; a shell is comprised of a top and a 42h panel. Note the ItemNo and List $ that correspond to the depth and base treatment desired. Follow the ItemNo column down until you have located the first (left-most) end panel or pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding modules in this manner until your unit is complete.

The overall unit width will be the accumulated widths of all modules chosen; this dimension cannot be greater than your shell width. The overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added.

TUOHY

Prima Collection is a highly flexible system of furniture components that combine to create an extensive, elegant and creative series of reception and administrative assistant workstations.

Simply configure desk, runoff, bridge and credenza shells to form in-line, L-shaped and U-shaped layouts. Add pedestals and situate galleries and/or surround panels as needed.

You have considerable flexibility in the scale and placement of these elements. Surround panels and gallery fronts may be defined in whatever segmented matrix and material you desire.

In addition to what is presented here, Prima has been designed to accept a nearly limitless range of customers' architectural and interior materials and finishes. Use Prima for maximum impact in reception areas, but with considerably less rigor and expense than custom millwork solutions.

Utility Drawers

Add power/data accessories as needed.

Surround Panels and Galleries

See pages BE12 to BE37

Width & Placement Relative to Shell

Function and form are achieved by your relative placement of surround panels and galleries on the casegood shells, whether centered, shifted left or shifted right by any dimension you desire.

Surround Panels are 2 inches thick, modular, and specified in left-to-right approach sequence at widths from 21 inches to 124 inches. Each surround panel is one segment wide by up to three segments tall (see 1x1, 1x2 and 1x3 at right). Surround panels may abut galleries.

Galleries are single mass, 10.8 inches deep, specified according to the desired matrix layout as shown at right. Galleries receive a transaction top and backsplash or tackable surface, all of which are specified separately.

All panels and galleries have a mitered/quirk detail at corners to perpendicular runs.

+ Options:
Face Locks are included on all pedestals. For no locks, specify Option NL.
Specify metal finish (where applicable): Brushed Nickel or Brushed Bronze.
Wood offering includes all Wood1 species and solid paint colors; inquire regarding other species/colors.

! Notes:
Gallery Shells may be deployed as desk or runoff units.
Gallery 2File, 2Box/File and 4Box pedestals have pull hardware (specify finish—see above) unless used next to a kneehole, in which case a continously-shaped vertical edge will be used.
Gallery pedestals have unfinished backs.
Each Gallery End Panel adds 2-in to the overall width of the Gallery Shell.
All vertical face panels have horizontal veneers; quartered and rift veneers are recommended.
Pedestals used on Gallery shells with pencil stops are shortened by 2.5-in to allow for cord access at rear.
Gallery shells with pencil stop have a 2.5-in cord access drop behind the pencil stop. If a 1.3-inch backsplash is used then 1.3-in is available for cord access.
Shelving pedestals have metal shelves and vertical dividers (the latter on 30 and 36w units).
Use Drawer Offset Extensions when placing drawers next to an extended Gallery End Panel.

Ordering Gallery Modules:

Choose the Gallery Shell size desired from each of the listings above and on the opposite page; a shell is comprised of a top and a 42h panel. Note the ProductNo and List $ that correspond to the depth and base treatment desired. Follow the ProductNo column down until you have located the first (left-most) end panel or pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding modules in this manner until your unit is complete.

The overall unit width will be the accumulated widths of all modules chosen; this dimension cannot be greater than your shell width. The overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added.

! Notes
Maximum width per unit is 120 in. Units over 72 inches are shipped in two sections with one common top.
Prices shown here regard Wood1 finishes; note surcharges for Wood2 finishes.
All cabinet and drawer pedestals include locks.

! IMPORTANT
Advantage credenzas are not modular. Tops, faces and finished back panels are each made from single pieces of veneer to guarantee consistency of grain and color.

To Specify Credenzas & Buffets:

1 Construct the Product Number and List Price:
Choose the format desired and note the starting Prefix Code and List $ for the depth required.
Specify pedestal sequence L to R by adding the pedestal letter code and $ for the depth required to the Prefix Code and List $.
Add for Finished Back if desired.
The overall width is the sum of the pedestal widths you have added (120 is maximum).

ADVANTAGE
TABLE SELECTION GUIDE

Advantage offers an a la carte method of selecting the table that best fits your requirements. This format offers all the flexibility of customization without sacrificing the advantages of standard product pricing, construction and lead times.

Specify Advantage tables by product number and finish. Product numbers are simply a combination of Edge, Top, and Base codes, as listed on the opposite and following pages.

For example, to identify the table below...
...combine: Edge 58 + Top ZCD1 + Base 84

Item number = 58ZCD184

Table 58ZCD84 is a 30 inch diameter, Circle top with an Eased edge and Proteus base.

To determine its list price, use the Top-Base Chart and read across at your Top code and down at the Base code.

List price for 58ZCD84 = $2330.

! IMPORTANT:
All tops are available in 1.5 and 2 inch thicknesses. Prices shown above are for 1.5 thick tops.
For 2 inch tops, change the last digit of the Top Code from 1 to 2 and add 7% of the Top Only price.
Grain direction is along the width dimension (w) on 1-section tops and depth dimension (d) on multi-section tops.
All top sizes are nominal; actual size may vary by +/-2%
See the Top Options on a previous page for a full range of special top and border treatments that may be applied

! IMPORTANT:
All tops are available in 1.5 and 2 inch thicknesses. Prices shown above are for 1.5 thick tops.
For 2 inch tops, change the last digit of the Top Code from 1 to 2 and add 7% of the Top Only price.
Grain direction is along the width dimension (w) on 1-section tops and depth dimension (d) on multi-section tops.
All top sizes are nominal; actual size may vary by +/-2%
See the Top Options on a previous page for a full range of special top and border treatments that may be applied

! Notes:
Standard X-Base finish is MRBS Resin Brushed Steel.
Standard Metal Edge is MRBAS Resin Brushed Aluminum Steel Tint.
Plinths on tables 144w+ and subtop edges on GlassBP, GlassAE, Quartz/Bevel, Marble/Bevel tops are Wood1.

+ Options:
For Polished Chrome bases on tables with no metal edges, specify Option MPC; add $1926 list.
To replace the center plinth base with two X-bases on tables 204 wide or larger…
…using a Resin Brushed Steel finish, specify Option MRBS; add $3337 per table.
…using a Polished Chrome finish, specify Option MPC; add $5111 per table.

> To Order:
For product numbers, join the product Prefix, Size, and Top Material Codes; read across and down for price.
Ex: For Coda-X VConf SqEdge 90w 48/36d with Wood1 top, prod.no. is QAX3A9048W1; list price is $7641.
Guide to specifying top materials:

Wood1:	All TUOHY Wood1 offerings.
Wood2:	All TUOHY Wood2 offerings.
HPL:	Formica® 949 White
GlassBP (Back-Painted):	S.BLK Black or S.BWT White
GlassAE (Acid-Etched):	GAB Acid-Etched Black or GAW Acid-Etched White
CorianGW:	CorianGW Glacier White
Quartz:	Cambria® (all colors)
Marble:	Carrara
Proxy Faux Leather (54):	All TUOHY Proxy offerings (54-in roll width limitation).

Specify Wood1 choice for plinth bases and wood edges on GlassBP, GlassAE, Quartz/Bevel, Marble/Bevel tops.

Tables through 120w are in one section; tables over 120w are in two sections.

Inquire with Customer Service regarding tables with X-bases instead of the center plinth.

Glass tops are low iron, non-tempered glass.
Lobby Tables have smaller top-to-base ratios and are not intended to be sat at, but instead for floral displays, magazines, food service, and other hospitality uses.
There are three base styles used in Cubist Conference and Lobby Tables.
A-style bases are single bases, used on smaller Square, Circle and Ellipse tables.
B-style bases are a scaled-up version of the A-style, used on larger Square and Circle tables.
C-style bases are always deployed in pairs and used on larger Rectangle and Ellipse tables.

How to Order Credenzas and Buffet Credenzas:

Choose the Credenza or Buffet format desired from each of the four listings above and on the opposite page. Note the ProdNo and List $ that correspond to the depth and back (finished/unfinished) desired. Follow the ProdNo column down until you have located the first (left-most) pedestal desired, then append the letter/number code to the original item number and add the price to the original price. Continue adding pedestals in this manner until your unit is complete.
The overall credenza or buffet width will be the accumulated widths of all pedestals chosen; the overall price will be the accumulated prices and the final item number will be the original number plus all of the letter codes for the pedestals added. The maximum running width is 120 inches; units over 72 inches ship in two sections and require assembly. Tops are finished. See also the information on the following page.

! Notes—for all Credenzas and Buffet Credenzas
The maximum running width is 120 inches; units over 72 inches ship in two sections and require assembly.
Prices shown here regard Wood1 finishes; note surcharges for Wood2 finish.
Geneva credenzas are not modular. Tops, faces and back panels are each made from single pieces of veneer to guarantee consistency of grain and color.
Items listed above have Wood1 surfaces, an unfinished back, and an MBN Brushed Nickel base/leg frame.
Credenzas have a kerf detail along edges and vertical corners.
All cabinet and drawer pedestals include locks.

+ Options:
For Proxy faux-leather doors, specify Option LF and add $479 per door.
For Proxy faux-leather stitched doors, specify Option SF and add $651 per door (contrasting stitch std).
For drawer/door locks, specify Option DL and add $138 per door or drawer. No locks available on faux leather doors.
For customer-supplied and installed stone tops, specify Option ST (no price change); templates provided.

TABLE OVERVIEW:
A collection of panel-and-leg base tables, available in rectanglular, boat and video-wedge shapes. Tables are available at 29.5 and 42 heights and applicable to video and standard conference, as well as collaboration. Tops are available in a wide range of materials and finishes as shown below. Edges are Self/Layered or Metal in an MRBAS Resin Brushed Aluminum Steel Tint finish. Bases have a wood end panel and a column leg available in wood, clear acrylic, or metal.

Tables through 120w are in one section.
Tables over 120w are in two sections.

UFFIZI-LOOP TABLES

SPECIFICATION GUIDE & LIST PRICES

April 1, 2014

Updated January 6, 2016

TUOHY

OVERVIEW: A collection of loop-leg and plinth-base tables, available in rectanglular, boat and video-wedge shapes. Loop legs have an MRBS Resin Brushed Steel finish. Edge Styles are Squared, Beveled, and Cantilevered. MRBAS Resin Brushed Aluminum with Steel Tint edge finish is standard when metal edges are specified. Tables are suitable for all purposes served by a full-height table, including video and standard conference, collaboration, dining, desking, hospitality, education and teaming.

! Notes:
Identify which bench pedestal is to receive the cushion.
Specify by Product No. and the starting location from the left end, expressed in inches.
Cushions 52-in or more in width require fabric to be railroaded; use multiple cushions to avoid railroading.
Leather footage requires a usable area of at least 20% greater than the width and depth shown above.
+Options:
To use with 1.25d Wall Panels, append letter code A to the Product Number.

Determine the Product Number by appending the Top Code representing the desired top material to the Product Prefix.

Bases are Wood1 with MRBS Resin Brushed Steel end trim for base protection. Note the adds for Option W2 (Wood2).

Seating illustrations are based on TUOHY's Vita Chair at 26w and 30-in o.c. spacing. Additional seats available with smaller scaled seating.

Chairs shown on the wide end of the table are depicted in conference mode and would likely be removed when in teleconference mode.

SPECIFICATION GUIDE & LIST PRICES

TUOHY

Fabric and leather upholsteries are graded into all pricing for seating products. Customers may choose from TUOHY Upholstery Lines, Partnership Programs, and, Customer's Own Material (COM) or Customer's Own Leather (COL).

TUOHY Standard Upholstery Lines: Use the following pricing grades for standard upholstery offerings:

Leathers:	Lena	L1
	Sierra	L1
	Ecolife	L2
Faux-Leather:	Proxy	Gr5

Upholstery Partnership Programs: TUOHY has partnership programs with Designtex, KnollTextiles, Luna Textiles, and Maharam such that their approved upholstery products are graded into TUOHY's pricing. Please see grading information at www.tuohyfurniture.com/reference/upholstery.htm. Additional programs with other upholstery suppliers will be announced as they become available.

COM/COL: TUOHY accepts COM fabrics and COL leathers for consideration on its products. To verify suitability of your selection, inquire with Customer Service for information from our Fabric Analysis Program. Upholsteries not listed in this program must be submitted for approval prior to acceptance of an order; submit a 12 x 12 sample prior to entering your order. Your purchase order must include an upholstery specification that has been approved by TUOHY.

All COM/COL requirements are based on whole pieces of material; split shipments are not allowed. We are not responsible for COM/COL upholstery wear, defects, or its appropriateness.

COL leather requirements are listed in square feet and based on hides that are 40 square feet or larger. For hides below 40 square feet add 15% to the footage requirements; for calf hides below 30 square feet add 30% to the footage requirements.

Our pricing includes labor for applying upholstery and is based on applying only one type of color way per item of furniture, with no specific relationship between the pattern or weave of the upholstery material and the configuration of the item of furniture.

A surcharge not to exceed 15% of the COM price will be added when vinyl is used and/or multiple upholsteries or colorways are applied to the same product. These circumstances may create the need for additional yardage; contact Customer Service for details prior to ordering.

If additional labor is required because of unique characteristics of the fabric, a special quote will be required.

Fabric/vinyl yardage requirements and leather square footage requirements are shown throughout this price list. Fabric and vinyl requirements are based on upholstering one unit, using a single, continuous 54-in wide material, off-the-roll, with minimal (under 2-in) repeat in any direction. Inquire about lower per-unit yardage requirements on orders of more than one unit.

Verify whether individual product listings in this price schedule call for greater allowances for this additional yardage.

Patterned fabrics and vinyls may be railroaded on request but are subject to a surcharge and/or additional yardage requirements.

Seams will be required when the product application width is greater than the usable roll width, whether off-the-roll or railroaded.

Additional yardage may be required if roll width is less than 54 inches and/or a pattern requires matching. Table 2 (below) charts vertical repeat and roll width, both in inches. Note that this is a generalized guide only. Confirm with our Customer Service Department on specifics regarding selections for your project. Changes in yardage requirement will affect upholstery grading in TUOHY Upholstery Partnership Programs.

SPECIFICATION GUIDE & LIST PRICES

April 1, 2014

Updated February 23, 2016

TUOHY

Fabric and leather upholsteries are graded into all pricing for seating products. Customers may choose from TUOHY Upholstery Lines, Partnership Programs, and, Customer's Own Material (COM) or Customer's Own Leather (COL).

TUOHY Standard Upholstery Lines: Use the following pricing grades for standard upholstery offerings:

Leathers:	Lena	L1
	Sierra	L1
	Ecolife	L2
Faux-Leather:	Proxy	Gr5

Upholstery Partnership Programs: TUOHY has partnership programs with Designtex, KnollTextiles, Luna Textiles, and Maharam such that their approved upholstery products are graded into TUOHY's pricing. Please see grading information at www.tuohyfurniture.com/reference/upholstery.htm. Additional programs with other upholstery suppliers will be announced as they become available.

COM/COL: TUOHY accepts COM fabrics and COL leathers for consideration on its products. To verify suitability of your selection, inquire with Customer Service for information from our Fabric Analysis Program. Upholsteries not listed in this program must be submitted for approval prior to acceptance of an order; submit a 12 x 12 sample prior to entering your order. Your purchase order must include an upholstery specification that has been approved by TUOHY.

All COM/COL requirements are based on whole pieces of material; split shipments are not allowed. We are not responsible for COM/COL upholstery wear, defects, or its appropriateness.

COL leather requirements are listed in square feet and based on hides that are 40 square feet or larger. For hides below 40 square feet add 15% to the footage requirements; for calf hides below 30 square feet add 30% to the footage requirements.

Our pricing includes labor for applying upholstery and is based on applying only one type of color way per item of furniture, with no specific relationship between the pattern or weave of the upholstery material and the configuration of the item of furniture.

A surcharge not to exceed 15% of the COM price will be added when vinyl is used and/or multiple upholsteries or colorways are applied to the same product. These circumstances may create the need for additional yardage; contact Customer Service for details prior to ordering.

If additional labor is required because of unique characteristics of the fabric, a special quote will be required.

Fabric/vinyl yardage requirements and leather square footage requirements are shown throughout this price list. Fabric and vinyl requirements are based on upholstering one unit, using a single, continuous 54-in wide material, off-the-roll, with minimal (under 2-in) repeat in any direction. Inquire about lower per-unit yardage requirements on orders of more than one unit.

Verify whether individual product listings in this price schedule call for greater allowances for this additional yardage.

Patterned fabrics and vinyls may be railroaded on request but are subject to a surcharge and/or additional yardage requirements.

Seams will be required when the product application width is greater than the usable roll width, whether off-the-roll or railroaded.

Additional yardage may be required if roll width is less than 54 inches and/or a pattern requires matching. Table 2 (below) charts vertical repeat and roll width, both in inches. Note that this is a generalized guide only. Please confirm with our Customer Service Department on specifics regarding selections for your project. Changes in yardage requirement will affect upholstery grading in TUOHY Upholstery Partnership Programs.
