Environmental Mission

Our vision and goal is a sustaining supplier, manufacturer and customer for the long term protection and preservation of our environment for future generations.

MISSION
To achieve this vision, we are dedicated to ensuring the health and wellbeing of all of our partners, reducing negative impact on the environment, and maintaining price structure by increasing efficiencies and reducing consumption.

The Jasper Group family of brands, including JSI, is an international manufacturer that has been an environmentally conscious organization for more than 80 years.

We are proud to use wood as our primary sustainable material resource and all corporate policies and procedures support the efforts to "recover, recycle, reuse, repurpose, reduce, refuse, and re-engineer". In doing this, we are committed to the conservation of the environment and its natural resources as well as encouraging our suppliers and customers to do the same. A goal of a "Sustainable Partnership", supplier, manufacturer and customer, is essential for the long term protection preservation and sustainability of our environment for future generations.

LOCATION
Our manufacturing facilities are located in Southern Indiana. With our diverse product offering and manufacturing capabilities, we provide a single source for all of your project needs allowing you to conserve our fossil fuels and reduce greenhouse gases.

PACKAGING
We place emphasis on the minimal use of disposable packaging while still providing adequate protection to the finished product. Our corrugated packaging is recyclable, reusable, and up to 100% recycled content. We reuse or recycle more than 125 tons of corrugated material annually.

REGULATORY
All of our manufacturing facilities are in compliance with applicable OSHA regulations and meet or exceed all applicable DEM and EPA regulations for air emissions, storm water and hazardous waste disposal.

MANUFACTURING FACILITIES
Our manufacturing facilities are geared toward eco-efficiency and are encouraged to continually improve and conserve. Solid wood not used in the direct manufacturing process is recovered for the operation of our dry kilns, thus reducing greenhouse gases, the use of fossil fuels, and the burden of waste placed on landfills. Composite panels not used in the direct manufacturing process are ground and sold for use as animal bedding. In addition to other energy savings techniques, our manufacturing facilities use high efficient lighting, make use of power factor capacitors, and encourage all to conserve and reduce energy consumption and water usage. Condensation pumps are used to aid in water conservation as well as extending boiler life.

MANUFACTURING PROCESSES
Our finish processes utilize efficient spray guns and proper spray techniques to reduce wasted material. Excess finish material, solvents, and waste are recycled. Many of the assembly processes use water based glues that contain no hazardous ingredients.

TEXTILES
Many of our fabric options utilize up to 100% recycled content. Our leather alternative program includes selections that contain no toxic materials, plasticizers, heavy metals, or formaldehyde and have a 100% biodegradable back cloth. Some of the available panel fabric used, if discarded is a biological nutrient for the soil. Most of the components (foam, batting, and polycord) used in upholstered products are recyclable and contain various percentages of recycled content. Excess fabrics and leathers not utilized in the upholstery process go to recyclers and local charities for additional use.

WOOD
Wood is the most diverse, most process friendly, and most widely utilized natural resource in mankind's history. No other natural resource can match the environmental advantages of wood, including being renewable, recyclable, natural, carbon negative, and biodegradable. Utilizing the sun's energy, trees grow and remove carbon dioxide from the air while giving off oxygen to benefit the entire planet. Approximately 49% of wood's dry weight is carbon and harvesting mature trees in a sustainable forest, which has slowed in the absorption of carbon dioxide, allows the photosynthetic cycle to continue at full optimization and allow for the carbon to remain sequestered. We are proud to use wood as our primary "sustainable" renewable resource.

WOOD OPTIONS
Many environmentally friendly solid wood and engineered wood options are available for quote, including: Lyptus®, Plyboo®, reclaimed woods, agricultural and post-consumer waste fiber products, soy-based resin bio-composites, etc.

INDOOR AIR QUALITY
Our goal is to reduce the impact our products will have on the indoor air quality. We practice the latest technologies and utilize a third party to assure we meet this goal. GreenGuard, one of the leaders in IAQ certification, continues to certify our product offering, awarding us the UL2818 - GreenGuard Indoor Air Quality standard.

Warranty (Casegoods)
JSI warrants, to the original purchaser that each piece of furniture will be free from defects in workmanship, given normal use for a period of fifteen (15) years of single shift service. Drawer suspensions carry a life time warranty. Fabric manufacturer's warranty will apply. Ergo mechanism and controls along with electrical items not manufactured by JSI are covered for a period of one (1) year. JSI will, at its option, repair or replace any defective merchandise with the terms of this warranty. ▲

JSI makes no expressed or implied warranties to any product and, in particular, makes no warranty of merchantability of fitness for any particular purpose.

This warranty does not cover:
- Natural variations in color, texture of wood, and covering materials over which JSI has no control.
- Damage created by bottom loading file drawers. File drawers are manufactured for hanging folders only.
- Normal wear, color fastness, shrinkage, wrinkling, stretching of leather, and textiles.
- Damage caused by transportation or installation companies.
- Damage created by any accident, user modification, misuse of product, or neglect of product care.
- Damage resulting from extreme climate conditions.

Unique Characteristic of Natural Woods and Veneers
JSI uses high quality wood and veneer harvested from sustainably managed forests. Every tree has unique and defining characteristics, like fingerprints. These characteristics can be defined by differences in color, grain configuration, and textures. These characteristics will be more noticeable if the product has a clear or lighter finish.

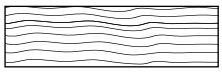
Maple and Cherry species have a higher degree of uneven distribution of grain, small color streaks, and pin knots.

At JSI, we take care of selecting woods and veneers that are used in our products. With this in mind, we hope you appreciate the beauty of each tree's fingerprints. Products will not be replaced due to these natural characteristics.

Veneers can be sliced in a variety of ways to create unique patterns. JSI uses several different patterns, as shown below.

Flat (Plain) Cut as shown in diagram

Quarter Sliced as shown in diagram



Double Cut as shown in diagram

Double Cut
The Double Cut veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

JSI uses select beech, cherry, maple, oak and walnut cut wood products to produce the desired look of our furniture products.

Please reference the featured highlights of each product line to identify the species and grain patterns available for that product.

Laminates (Veneer Series)
HPL (Higher Pressure Laminate) laminates can be specified on most of our work surface tops in most of our product lines. Refer to the specification pages for each series. The specification pages will also list the available coordinating finishes. HPL is .050 thick for maximum durability.

Laminate Series
JSI laminate series offer a full laminated product with imprinted grain to hide finger prints and provide durability. The worksurface tops can be specified in either a matching HPL or TFL (Thermal Fused Laminate). TFL is used on the product's chassis. Please reference the featured highlights of each product for additional details.

Finish - Top Coat
To reduce hazardous formaldehyde emissions, we use our proprietary specially designed top coat, DuraTex™. It significantly reduces hazardous formaldehyde emissions and helps improve indoor air quality.

Finish - Color/Stains
A wide range of stains are available to bring out the beautiful characteristics of each wood species. We coordinate finish color between our veneer stains and solid lumber stains; however, not all may be a perfect match. The stains are continually reviewed for accuracy of color, as well as a constant monitoring of the latest color trends in the furniture market.

Finish - Matching
Due to the natural characteristics of wood, environmental effects, and material upgrades, JSI cannot guarantee exact finish matches on existing furniture previously ordered.

If an exact match is required to accompany existing furniture, it must be specified at the time of order placement, so specific internal procedures can be followed to ensure a proper and acceptable finish match. We reserve the right to change our finish formula at any time to improve safety, quality, and appearance. Unless a finish match for existing furniture is requested at the time of ordering, we accept no liability for finish that may not match the existing furniture from prior orders.

Solid lumber may inherently have mineral streaks, pits, and various other natural occurrences. Care is taken in selecting the solid lumber to coordinate with the requested finish on our veneer products. This internal selection process is subject to availability of solid lumber parts.

Custom/Special Finishes
JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of **$275 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Samples
Samples of standard wood finishes, paints colors, metal colors, and standard laminate are available upon request. The fastest way for requests to be filled is by using our website. See below for options to request samples.

Pricing
Prices found in this document or on our website are list prices in U.S. dollars for standard product delivery to one destination. Prices do not include storage, installation, or taxes. Possession of this price list does not constitute an offer to sell. Orders can only be received from approved authorized JSI dealers.

Prices and product information in this document, as well as our website, are subject to change without notice. Reference website for most up to date product offering and pricing.

Orders
Detailed specification pages are available in the price list at the beginning of each series.

Additional information may be obtained by consulting the Customer Service Department or our website.

Indicate shipping address if different from billing address.

Send Orders To:

US Mail – JSI
225 Clay Street
Jasper, IN 47546
Fax – 812-482-1548
Email – orders@jaspergroup.us.com

JSI reserves the right to make changes in dimensions, styles, or specifications if we believe these changes will improve the safety, quality, or appearance of the product.

Acceptance of orders will be subject to credit approval, barring any acts of governments, or any other causes beyond our control (e.g. strikes, fire, embargo of materials, etc).

Product Modifications
While we offer a wide range of products to accommodate many possible solutions, we also recognize the needs for our products to be modified from our standard offering.

In the series introduction section of each product, we address modification options for that series.

To see if the desired modification is possible, please contact our Customer Service Department for a quote. Note that order quantities and material availability can affect the quote. Additional information may be requested to fully quote modifications.

Order Acknowledgments
All orders will be acknowledged promptly, showing how the order was entered, shipping time, and other information pertinent to the order. It is the purchaser's responsibility to verify all the information on the acknowledgment carefully and notify us immediately, in writing, of any discrepancies.

Published ship dates are contingent upon adverse conditions; however, every effort is made to ship as acknowledged.

Order Cancellations
All cancellations must be made in writing. Administration and/or labor charges may be incurred by the purchaser depending upon the stage of the order. Orders cannot be canceled after the finish process has begun without incurring substantial re-stocking charges.

Once production has begun on product modifications or special finishes the orders cannot be canceled. Items purchased specifically from our vendors for the order, such as textiles or laminates, are subject to our vendor's cancellation terms and re-stocking fees.

Order Changes
All changes to an order must be in writing and dated. Order changes are subject to our ability to conform. Administration and/or labor charges may be incurred by dealer depending upon the stage of the order. No change can occur once production is started.

Quickship
Items indicated with a Quickship symbol NOW! ship within 10 business days of receipt of a clean, credit approved purchase order. Product for up to 10 offices or 10 tables can be selected from the Brogan, Finale or Vision series. See individual product pages for those models available on quickship. Available capacity is filled by orders as they are received. If normal 10 day Quickship is not available because capacity has been filled, you will be immediately notified. Changes and cancellations to Quickship orders are not allowed under any circumstances.

Delivery
Our freight policy consists of prepaid freight to the 48 contiguous states; all other shipments prepaid to port of exit ONLY. JSI reserves the right to select the appropriate carrier and shipment routes. Standard deliveries require docks that can accommodate 75 foot trucks. Pricing in this book is for standard delivery. Standard delivery does not include non-dock delivery, inside delivery, residential delivery, or installation of product. Special requests for delivery should be done at the time of ordering. See below for charges for special delivery.

Orders of less than $1,000 net will be accessed a handling charge of $75 net per order.

Charges for special delivery request (net pricing):
+ Lift Gate/Non-Dock Delivery – $75 per occurrence
+ Inside Delivery – 5% of order total with a minimum of $50
+ Residential Delivery - $75 per occurrence

Any charges arising from failure to meet shipment, re-routing while in transit, or carrier storage charges are the responsibility of the customer.

Contact Customer Service to inquire about skidding of products, special crating of products, blanket wrap services, and product installation. These requests must be made at the time of order.

Freight Damage
JSI products are packed in cartons and meet or exceed existing codes for furniture and seating products. All shipments are delivered to the carrier in good condition and our liability ceases thereafter. If delivery arrives short or damaged, contact the carrier immediately to file a claim. In the event of concealed damage, notify the carrier and request immediate inspection. Failure to file a claim within 15 days after receipt of merchandise constitutes acceptance and a waiver of any such claims. Please inspect merchandise immediately upon receipt, otherwise there is no recourse. Keep all cartons and packing material, discarding these materials may negate your claim.

Storage of product in areas of uncontrolled humidity and temperature may cause damage to the product and void the JSI warranty.

Repairs
JSI will not issue credit allowance for any type of repairs without prior written consent.

Sales order, product model numbers, and reason for repair will be expected in order to process the repair request. A digital photo will help to expedite the request. JSI reserves the right to recommend solutions for repair.

Returns
No merchandise may be returned to JSI without a signed Return Good Authorization (RGA) form issued by our Customer Service Department. Any authorized return not due to damage or defect will be accessed a restocking fee and all return freight charges must be prepaid. Additional restocking fees may apply for any modification, special or custom built product.

Liability for defective merchandise shall be limited to replacement or repair.

Under no circumstance can we accept COD (Cash On Delivery) returns. Any such shipment will be refused.

Replacement Parts
Obtain information and pricing on replacement parts by contacting Customer Service. Please have the model number available when requesting replacement parts. Additional information may be required to ensure proper replacement parts.

Care and Maintenance
Care of Upholstery Surfaces
Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and then wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Maintenance of Mechanical Parts
Clean any lint or debris from the moving parts of the base mechanisms. Mechanisms have been designed and tested to not require lubrication under normal conditions; however, lubricant can be used if needed.

Care of Wood Edges and Veneer Surfaces
Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. For an additional safeguard, use a protective surface pad. This will ensure a lasting finish by protecting your furniture from possible damage caused by pens, cups and sharp objects. Avoid exposure of furniture to extremes of heat and cold, or to wide humidity variances. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration. If using a protective glass top, place spacer pads under the glass top to allow the wood to breath.

Care of Metal Finishes
Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textiles metals with a soft, dry brush to remove dirt.

Fire Retardancy
At a minimum standard, all JSI upholstered products are manufactured to comply with Bureau of Electronics, Appliance Repair, Home Furnishings and Thermal Insulation-Technical Bulletin 117-2013 issued by State of California Department of Consumer Affairs. With a January 1, 2015 effective date, this standard was passed and requires upholstered furniture to be safer from the hazards associated with smolder ignition in all four (4) categories of materials, as applicable.

Compliance with more stringent codes may require special manufacturing considerations and upcharges.

California Technical Bulletin 133 (CAL 133)
JSI uses a barrier material between the foam cushioning and the upholstery cover in order to comply with CAL 133. The standard upcharge on products specified to comply with CAL 133 is $55 list per yard of textile.

JSI has performed a series of full scale fire tests on samples - representing a variety of product styles and worst case scenarios of upholstery covers - to comply with the requirements of the state of California Technical Bulletin 133 (CAL 133). Products in compliance will be labeled that they have been manufactured to meet the CAL 133 standard. Only products with internal test data can be labeled.

Some product designs and fabric cannot be combined to comply with CAL 133. Because of this, we reserve the right to reject any request for an upholstery cover, including COM, or product style that we feel may compromise the integrity or safety of a product specified to comply with CAL 133.

Contact Customer Service for a quote if you require laboratory certification that a specific product and upholstery combination WILL PASS CAL 133. The quotation will include testing, video, and transportation charges plus the list cost of the sample.

Our standard lead time will apply to products that do not require certification. Allow an additional six weeks over the standard lead time for products that need actual laboratory certification.

The end user, specifier and/or dealer have the responsibility to make sure all products specified will meet the flammability and safety codes of the jurisdiction where the products will be located and used.

Textile Carded Programs
JSI is proud to partner with Maharam, Momentum, Ultraleather and Wollsdorf Leather. Please refer to the respective pages in this pricer for each of these partners. Scan the QR codes on the back of the swatch card for latest grades and other information.

Textile Grade-In Programs
For the convenience of our specifiers, we have graded in the following suppliers:

Arc Com	Pallas Textiles
Designtex	Stinson
Maharam	Ultrafabrics
Mayer	Wollsdorf Leather
Momentum	

Please contact Customer Service for pricing grades on textiles and leathers not listed.

Indicate on purchase order if JSI is to order the fabric.

Grades and availability of fabric are subject to change without notice. Changes could include but are not limited to price increase, discontinued patterns, discontinued colors, etc. See jsifurniture.com for up to date information.

Many textiles have repeats and the additional yardage required has been factored in for textiles ordered through the JSI Carded and Grade-In Programs. We reserve the right not to match textiles with a horizontal or vertical repeat greater than 17". Additional charges may apply for textile being applied with special instructions.

Some fabric thickness may cause issue with proper upholstering of tackable wall panels or upholstery privacy screens. Please contact Customer Service, with concerns on the fabric thickness for these items.

COM Policy
Refer to the COM price column for list prices.

All yardage requirements listed in the price list, are based upon 54" plain non-directional material. The textile on most products is cut "up the roll"; refer to the check list pages for each individual series for further information.

Additional yardage may be required. Contact Customer Service for any of the following conditions to assure proper yardage:

+ horizontal repeats or vertical repeats greater than 3"
+ textile less than 54" wide off the roll
+ patterned textile to be applied a special way

To assure quick turn around and accurate calculation of yardage, please supply the following information:
.

+ supplier's name
+ pattern name and color name
+ the JSI model numbers and the order quantity
+ any special direction and/or special instructions

We cannot assume responsibility for defective COM delivery to us or for the tailoring quality issues some textiles may create. Bulky textiles, thin weight textiles or fiber content may not tailor well on some models.
.

COL Policy
Refer to the COL price column for list prices.

Customer's own leather requirements are based on an average hide of 50 square feet.

Contact Customer Service for requirements on any other sizes.

All square footage requirements are based upon usable footage. The shape of the hide and the usable footage may make it necessary for us to request additional leather.

Placing Orders with COM or COL
COM & COL orders must include the following:

+ model number where the COM or COL will be applied
+ textile/leather supplier's name
+ sample of the textile/leather attached to order
+ special application instructions

Ship COM/COL prepaid to the following:

JSI
Attn: COM Dept
12th & Vine Street
Jasper, IN 47546

Make sure the supplier tags the shipment with the customer purchase order number and sales order numbers if available.

All COM/COL orders will ship at standard lead time from the delivery of the COM/COL, except for orders requiring special custom matched finishes or special application of the COM/COL.

Specification Tools

JSI products are manufactured to order and provide a multitude of options to address your individual customer needs. As you process your order do not forget to include all the necessary information to allow the order entry process to be completed. Please see the order checklist at the beginning of every series.

JSI Customer Service edits every order for complete information. If details are not included with the purchase order, Customer Service will contact you to answer these questions. If information is not completed in a timely manner it will delay the entry process and could effect your product delivery date. To avoid delay in order entry and potential delay in delivery of your order, please double check the line items to ensure all selections have been completed.

To ensure completion of details on your purchase order, electronic catalogs and specification tools have been developed to aid in the process. These electronic tools include:

20-20 GIZA Studio and 20-20 CAP Studio software offers state-of-the-art design, specification, photo-realistic rendering and three-dimensional visualization capabilities for configurable products in the commercial interior design markets. 20-20 GIZA Studio and 20-20 CAP Studio are available for all JSI Casegood and Seating products, in 2D and 3D graphics and the Specifier Catalog.

ProjectMatrix, Inc. offers a full software solution for the contract furniture industry.
Their software can help you create space plans to specifications for ease of specifying our JSI Casegood and Seating product lines.

GSAdvantage is a Federal Government electronic catalog site offered to assist GSA customers in specifying and pricing JSI product. Listed at this site are all contract items and prices under GSA Contract # GS-28F-0030U.

Our JSI website **jsifurniture.com** provides many tools to assist in the design and order selection. Included in the site are downloadable images, typicals, product symbols, brochures, contact information, price lists, sales representative locations, warranty and environmental information.

GSA Terms and Conditions

GSA Contract Holder
Contract # GS-28F-0030U

In addition to the standard terms and conditions, the following terms and conditions apply to GSA contract.

Contract Number
GS-28F-0030U

Contract Period
September 23, 1999 - June 24, 2018

Statement of Intended Use
The furniture covered by special item numbers 711-8, 711-9, 711-11, 711-16, 711-17, 711-18, 711-19, and 711-95 is intended for use by Government executives (or equivalent military rank) in the executive, judicial, and legislative branches or armed forces of the federal government. To help customers make a good purchasing decision based on their needs and budget, GSA has established four grades of furniture: Grade (1) includes furniture that tends to be the most expensive on this schedule, Grade (2) furniture tends to be more moderately priced and Grades (3) and (4) furniture tend to be affordable pricing when compared to grades (1) and (2). The ordering agency or service is responsible for determining furniture appropriate for use in its offices which will fit within budget and comply with applicable federal or internal agency procurement regulations.

Description of Special Item Numbers SIN#

711-8	Executive office furniture
711-9	Executive conference room furniture
711-11	Tables, occasional and conference
711-16	Upholstered seating
711-17	Multiple seating
711-18	Multi purpose seating
711-19	Stacking chairs and dollies
711-95	Installation services (not to exceed 12% of net prices for projects where installation costs are $500 or less.) Installation costs over $500 are negotiated on a case by case basis.

Maximum Order

711-8	$500,000 *(five hundred thousand dollars)* net
711-9	$500,000 *(five hundred thousand dollars)* net
711-11	$500,000 *(five hundred thousand dollars)* net
711-16	$300,000 *(three hundred thousand dollars)* net
711-17	$200,000 *(two hundred thousand dollars)* net
711-18	$200,000 *(two hundred thousand dollars)* net
711-19	$200,000 *(two hundred thousand dollars)* net
711-95	$150,000 *(one hundred fifty thousand dollars)* net

Minimum Order
$100 (One hundred dollars) net

Notification Regarding Registration in SAMS Database
Name: Jasper Seating Company, Inc.
Cage code: 31881

Acceptance, Modification, Assignment
By placing this order for furniture, material or other products (sometimes collectively referred to as "goods"), customer agrees to these terms and conditions which shall prevail over inconsistent provisions in any other form or document of customer. No change or modification shall be applicable unless set forth in writing and signed by company. Neither this order nor any interest therein shall be assigned by customer except with the prior written consent of company.

Payment
Customer agrees to pay to company the amount indicated on the invoice, 1% 15 days, net 30 days from date of invoice (U.S.funds only), for goods ordered. Interest will be charged after 30 days from the date of invoice at the rate of one and a half percent (1.5%) per month. International sales will require additional payment arrangements. No goods shall be sold on consignment or conditional sales basis. Payment for the goods delivered hereunder shall constitute acceptance thereof.

Attorneys' Fees
Customer shall be responsible for all expenses and cost in connection with the enforcement by company of these terms and conditions and the cost of collection (including the fees of any collection agencies to whom the customer's account may be referred), plus reasonable attorneys' fees (which attorneys' fees shall not be less that 25% of the amount due, unless a lower amount is specified by applicable law).

Remedies
The remedies herein reserved shall be cumulative, and additional to any other or further remedies provided in law or equity. No waiver of a breach of any provision of these terms and conditions shall constitute waiver of any other breach or of such provision.

Insolvency
Company may forthwith cancel this order in the event of the happening of any of the following or any other comparable event: insolvency of the customer, the filing of a voluntary petition in bankruptcy, the filing of any involuntary petition to have customer declared bankrupt provided it is not vacated within thirty (30) days from the date of filing, the appointment of a receiver or trustee for customer provided such appointment is not vacated within thirty (30) days from the date of such appointment, or the execution by customer of an assignment for the benefit of creditors.

Limitation of Liability
The Company shall not under any circumstances be liable to the customer, owner of the goods or any third party for special, indirect, incidental, or consequential damages, including, without limitation, loss of profits or revenues, loss or damage to other property or equipment, cost of capital or of purchased or replacement goods, or expense, delay, or inconvenience cause by or arising from the purchase, sale, use, repair or inability to use the goods or by any performance or non-performance under, or breach of, these terms and conditions. The Company's sole liability for any defective goods shall be its repair or its replacement pursuant to the express warranties set forth above, or if amended, as applicable at the time of manufacture or repair of the goods. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to all customers. Any action resulting from any breach on the part of company as to the goods or services delivered here under must be commenced within one year after the cause of action has occurred.

Returns and Allowances
Reasonable touch-up and deluxing is the dealer's responsibility. The Company will not make allowances for trip or delivery charges, but will only make allowance for actual work performed to correct manufacturing defects. Allowances maybe authorized only by a company officer. It is the responsibility of the field sales representative to inspect any defective merchandise and make suggestions and recommendations as to the proper disposition. Field personnel cannot obligate or bind the company by definite agreement, without final authorization by a company officer. Company will not accept automatic charge backs which do not have prior authorization. All defects must be called to the company's attention upon arrival at the customer's "ship to" destination. To initiate any type of claim or request for parts, it is imperative to have the model number or fabric number, which may be located on the tag attached to the frame of the unit. Authorization for return to the company via a return goods authorization. Company will not issue credit allowances for any repairs without company's prior consent. Under no circumstances shall the company accept COD (cash on delivery) returns, and any such shipment will be refused.

GSA Terms and Conditions

Security Agreement
The Company may require and customer shall grant a security interest in goods sold pursuant to any credit the company may extend to the customer.

Governing Law
All disputes between the parties, whether or not arising out of these terms and conditions, will be governed by the laws of the state of Indiana. Customer agrees to submit to the jurisdiction of and agrees all lawsuits relating to any disputes between the customer and the company will be brought only in a state court located in Dubois County, Indiana or the United States District Court for the Southern District of Indiana. The customer hereby waives the right to a trial by jury in any action, proceeding, claim, or counterclaim whether in contract or tort, at law or in equity, arising out of or relating in any way to these terms and conditions and all other disputes between the parties.

Mitigation
If the company repossesses the goods prior to payment by the customer of all amounts due hereunder, the company may sell the goods, as is, where is, free and clear of all rights of the customer at either public or private sales, and apply the net proceeds (after deducting expenses of repossession and sale) to the obligation of customer hereunder. The customer may dispose of the goods in any commercially reasonable place and manner and the customer waives any notice of time, place and manner of sale.

Integration
This order for goods, including these terms and conditions, along with any credit application, invoice, statement, dealer contract, acknowledgment, bill of lading (and any exhibits, addenda or amendments thereto) of which this order may be a part, constitutes the sole and complete agreement between the company and the customer with respect to the purchase of the goods.

Dimensions/Specifications/Finishes
All dimensions are approximate and may vary due to the upholstery technique of each craftsman. If exact dimensions are required, it is necessary for the customer to state such specifications with the order. Detailed specifications sheets are available for each series of goods, and customer should consult the company's customer service department for these specification sheets. Company reserves the right to make changes in dimensions, style, or specifications if company believes these changes will improve the goods' quality or appearance. Company reserves the right to substitute hardwoods due to availability at production. Due to the natural characteristics of wood, environmental effects, and material upgrades, the company cannot guarantee exact finish matches on existing goods previously ordered from company. If an exact march to customer's existing goods is required, it must be specified so that the proper procedures can be followed to ensure an acceptable finish. Company will accept no liability for the finish if this procedure isn't followed. Company reserves the right to make changes in a finish formula if company believes the change will improve the quality or appearance of company's goods.

Company's Performance of Its Obligation
The production and delivery of the goods to the extent delayed or hindered or prevented from the performance by reason of natural disasters, acts of god, strikes, lockouts, labor troubles, inability to procure materials, casualties, failure of power, restrictive governmental laws or regulations, riots, insurrections, acts of terrorism, war or other reason of a like nature not the fault of the company shall excuse for the period of the delay the company's performance and the period for the performance shall be extended for a period equivalent to the period of such delay.

Vision Laminate Product Information

Laminates
Vision Laminate features TFL (thermally fused laminate) chassis and components. *Main Worksurfaces** are available in a HPL (high pressure laminate) or in the TFL surface.

Edges of the worksurface are impact resistant (PVC) on TFL and HPL tops. The laminate is offered in 10 wood grain patterns and 7 solid colors. The wood grain laminate features an embossed grain to hide finger prints and light scratches. The solid laminate is smooth to the touch with a semi-matte finish. All Vision Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Vision product. Former laminate names are listed in parentheses for reference.

TFL - HPL ***Veneer Grain Pattern Laminates***

AUT	Autumn *(Autumn Cherry)*	HGL	High Line
BLO	Blonde Echo	SHE	Shea *(Natural Maple)*
BBN	Bourbon *(Natural Cherry)*	STU	Studio Teak
BZW	Brazilwood	WLH	Walnut Heights
BRG	Brighton *(Brighton Cherry)*	VIN	Vintage *(Vintage Cherry)*

TFL - HPL ***Solid Laminates***

ALB	Alabaster	SHD	Shadow
BBL	Bridal Blanco	SLG	Slate Grey
DWH	Designer White	TAU	Taupe
DOV	Dove Grey		

▲ Laminates available on the NOW! quickship program include the following: Autumn (AUT), Blonde Echo (BLO), Bourbon (BBN), Brazilwood (BZW), Brighton (BRG), Designer White (DWH), Shea (SHE), Studio Teak (STU), Vintage (VIN), and Walnut Heights (WLH).

WorkSurfaces
Worksurfaces have a 3-ply balanced construction. Tops are 1 3⁄16″ thick with coordinating PVC edges. Primary worksurfaces feature 3mm PVC edges on the approach and user sides. Some laminates have a choice of 3 edge profiles, see page 43. *Main Worksurfaces** are offered in TFL or HPL.

Bridge, return, credenza worksurfaces are profiled with a 3mm PVC edge on the user side only. Remaining edges are banded with 1mm PVC which creates a seamless appearance when units are mated end-to-end or back-to-back.

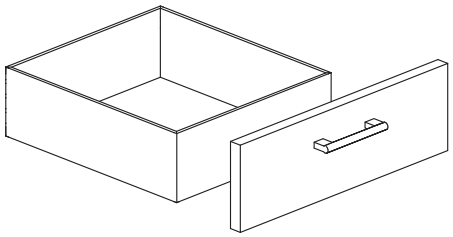
TFL features on *Main Worksurfaces**
- fused to the 45 pound density substrate of the top for a durable surface
- tops are laminated on both sides
- available in all the wood grain and solid patterns

HPL features on *Main Worksurfaces**
- fusion of multiple layers create a higher impact resistant surface
- tops are 3-ply balanced construction
- matched to the TFL wood grain and solid patterns

**Main Worksurfaces include tops on desks, standard height credenzas, returns, bridges and transaction tops. Refer to pricing pages to confirm availability.*

Case Construction
Panels for chassis consist of a ¾″ thick substrate with TFL surfaces and PVC bands on exposed edges. Pedestals and cabinets are constructed with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are set into solid hardwood blocks with t-nuts, which helps to prevent the leveling glide from tear-outs.

Drawers
The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The ½″ thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.



Drawer Suspension
High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Filing Hardware
All file drawers are constructed with a custom designed for hanging folders. Filing diagram on page 48-52.

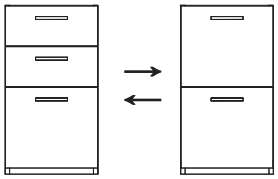
Locking
All desks, returns, lateral files, free standing credenzas, and bench height credenza feature pedestal locking.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Vision Laminate Product Information

Product Modification

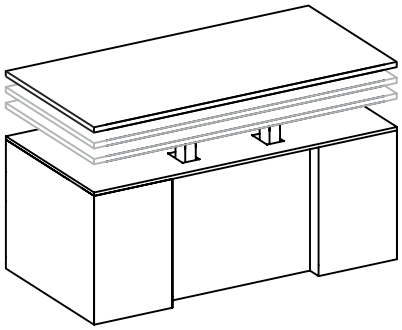
Pedestal Configuration Change
Desks have one box/box/file pedestal. The pedestal double pedestal has a file/file on right side. Returns and credenzas are configured with file/file pedestals.



Drawer configurations can be changed from ether a box/box/file or a file/file configuration, on unit 30″ high, but must be specified at the time of order. An additional 5% upcharge needs to be added to the list price of the unit. *(Must keep the same pedestal depth.)*

Special Construction
Vision Laminate offers large offering to create many types of configuration. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Special request may be denied because of material limitations.

Vision Laminate Product Information



This mechanism requires a signed Liability Wavier prior to time of order specification.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Vision Laminate.

ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge, or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾″ thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾″ to the standard height of the desk and the installation will decrease knee space depth by 8″.

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1″.

When ERGO is added to a worksurface in an "L" or "U" group, all units in the configuration need to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾″ sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¾″, to a standing height of 49 ¾″, a range of 19 ½″.

To specify the unit that has the mechanism, add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add, **ERGO ADJACENT** to the end of the model number.

The Ergo mechanism and controls are warranted for a period of (1) year. The rest of the casegood unit(s) are warranted under the normal fifteen (15) year warranty. ▲

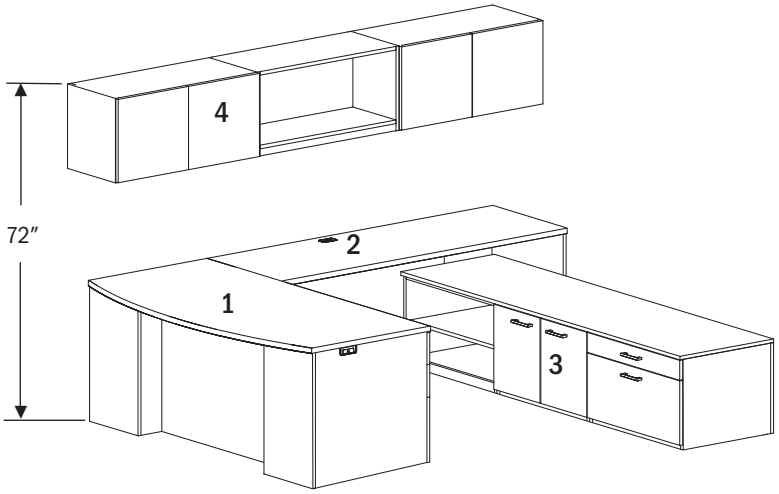
Connecting or Adjacent Units to Match Starting Height

All the units listed above can be specified as connecting or adjacent units. Other Vision Laminate units could also be used as connecting units. Please contact Customer Service for additional items and pricing. When specifying, please add "ERGO ADJACENT" to the end of the model number.

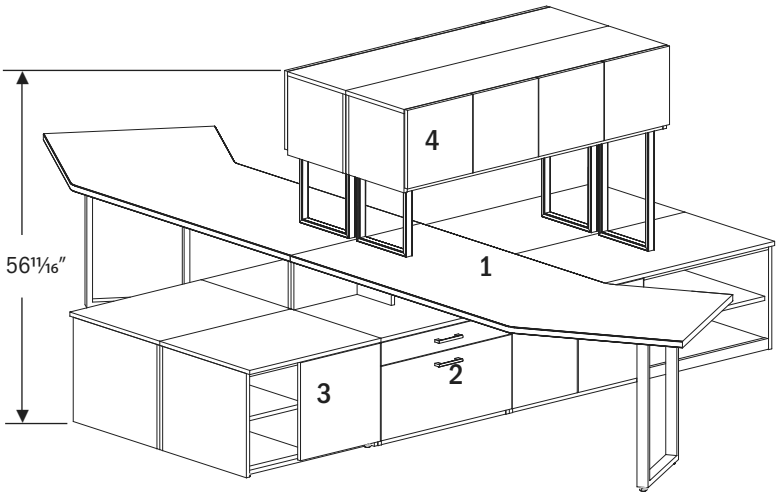
Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $400 to the list price.
Tops 24" x 48" or smaller add $325 to the list price.

Vision Laminate Product Information

Layouts



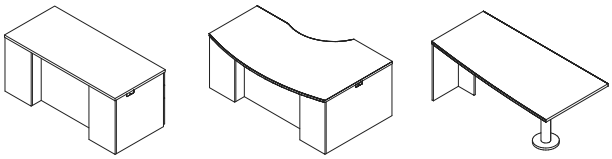
Vision Laminate can be configured in many different ways to achieve the perfect layout.



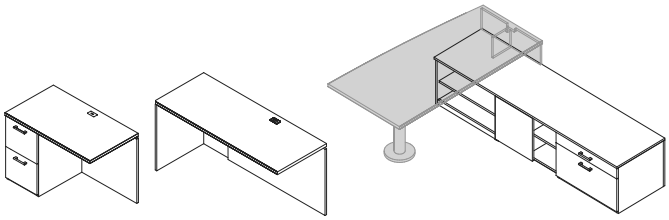
Create open plan or teaming stations with Vision Laminate modular components.

Easily Specified Layout

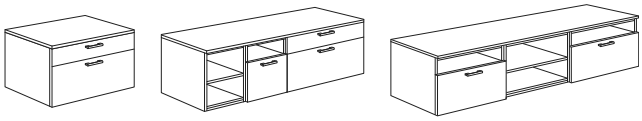
1 Primary Worksurfaces are available in traditional desks with pedestals or peninsula worksurfaces with a variety of shapes. The pedestal desks have end panel grommets for wire management.



2 Side Worksurfaces can be corner shell returns, bench height credenzas, pedestal returns, and adjustable tables. Peninsula desks with bench height support can be specified to work with the bench height credenzas.



3 Bench Height Credenzas. Vision Laminate offers a wide range of storage configurations. Modular groups of bench height credenzas can be specified to create unique configurations. Seat cushions are ordered separately from the credenza and allow customers to choose the fabrics.



4 Overhead Storage Cabinets. Traditional style overheads are available along with post support overheads, which can be used in open plan. Both are available in two heights. Wall mounted overheads can provide a light scale solution.

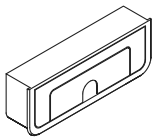
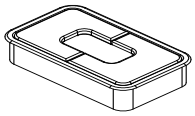
Grommet and Color Options



End/Back Panel Grommet
The end/back panel grommets are standard on desks, returns, standard height credenzas, and modular cabinets with end panels. This grommet is also on back panels of returns and on back panels for overhead cabinets.



Worksurface Grommet
Worksurface grommets are standard on the bridge, return units, and corner units.

Matte Black (MBK)
Stardust Silver (STS)

Grommets are available in Matte Black (MBK) or Stardust Silver (STS). Choose one color for all grommets. Lock cores will match grommet color. Additional grommets can be added. Location must be approved by JSI manufacturing, contact Customer Service.

Add $75 to the list for each additional grommet.

Standard Grommets Locations
Vision Laminate features grommets for wiring to pass thru the unit.

Wire Management

Wiring can move freely from unit to unit with the standard grommets and out to the building data and power.

Pedestal desks, credenzas, corners units, bridge panels, return modesty and end panels are standard with end panel grommets.

The end panel grommet opening is 4″ wide by 1 7⁄16″ high with a bezel trim secured to the panel with a friction side cap.

Top grommets are standard in returns, bridges and corner units. Additional top grommets may be specified as an option.

Optional power and data units can be positioned in the tops to provide tilt up technology access at the worksurface.

Refer to the accessory section for these items or other accessories items. (see page 407)

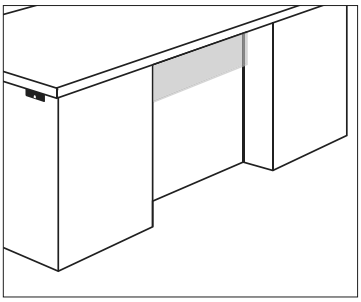
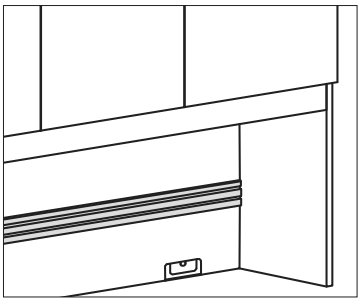
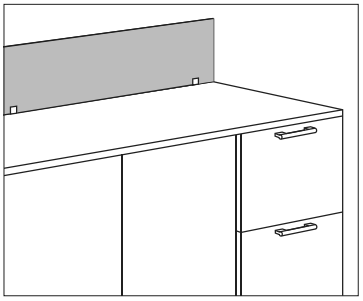
Product Features and Options



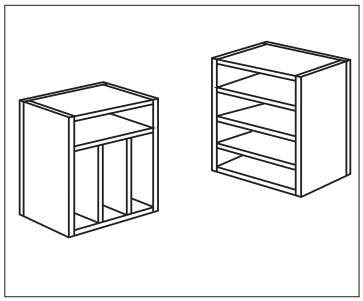
Trim Modesty Panels
- Mounts in front of existing modesty panel
- Mounts to the underside of the top
- Acrylic Panel - Frosted
- Stainless Steel Puck Style attachment
- Field installed



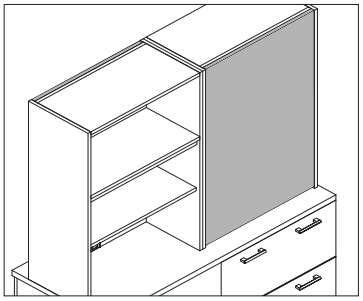
Aluminum Accessory Rail
- Anodized Aluminum finish
- Accessory Tools (see page 129)
  - Upright Tray
  - Small Tray
  - Pencil Tray
  - Paper Tray
  - File Hanger



Privacy Screens
- Mounts to the edge of the worksurface
- Acrylic Panel - Frosted
- Attachment hardware is included
- Field installed



Paper Sorters
- Can provide support for transaction worksurfaces
- Use under overhead cabinet storage
- Field configured - horizontal shelf and vertical shelves or all horizontal shelves



Fabric Back Panel
- excellent solution for open plan or room dividers
- tackable surface
- standard with Culp Montgomery Sterling panel fabric
- COM or JSI fabric program available
- mounts with covered buttons

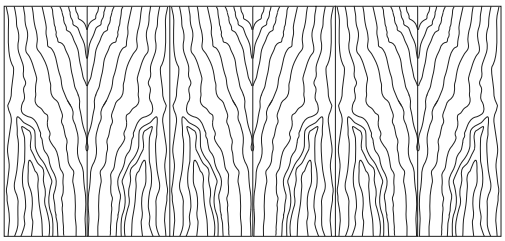
Vision Veneer Product Information

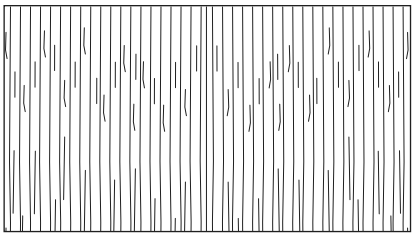
Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Vision Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple, walnut veneers in Vision Veneer are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book-Matched Example
Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Vision Veneer is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Vision Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on Vision Veneer.



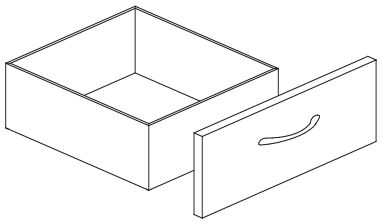
Cherry veneer is the only veneer species available on the NOW! quickship program on select models.

Work Surface Construction
Tops are 5-ply balanced construction, 1 3/16″ thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern with finish wood edges.

Case Construction
Outside panels are 13/16″▲ and joined together with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are set into solid hardwood blocks, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110˚ swing hinges to allow adequate access into the interior of the cabinet.

Drawers
The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The ½″ thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.



Optional four corner dovetailed wood drawers are available. Specify and add 10% per unit.

Drawer Suspension
High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Filing Hardware
All file drawers are constructed with a custom designed for hanging folders. Filing diagram on pages 238-243.

Locking
All desks, credenzas, returns and mobile pedestals feature pedestal front locking to provide maximum security and flexibility in configuration.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Vision Veneer Product Information

Finish - Stain/Colors
We offer a variety of wood stains on Vision Veneer. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy

NTO	Night Owl *(Vintage Walnut)*		

DC1 Double Cut Veneer

COF	Coffee	GRH	Graphite
CRM	Cremello	KHK	Khaki

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

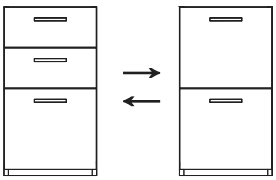
Product Modification

Laminate Tops
Work surface only, no additional upcharge if Vision's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
Autumn	Ale	Auburn
Barley	Cinnamon	Mocha
Bourbon	Venetian	Night Owl
Brighton		Sienna
Classic		Toffee
Legacy		Truffle
Praline		
Saffron		

Oak Veneer
Upon request veneer can be changed from the standard offering to oak plain sliced veneer with a 40% upcharge on to the list of each item.

Pedestal Configuration Change
Desks have one box/box/file pedestal. The pedestal double pedestal has a file/file on right side. Returns and credenzas are configured with file/file pedestals.



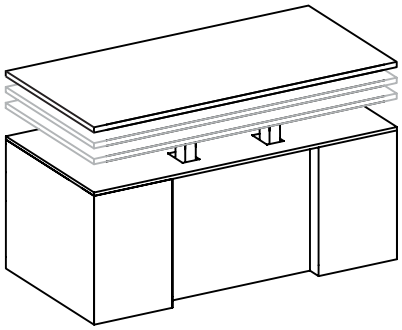
Drawer configurations can be changed from ether a box/box/file or a file/file configuration, on unit 30" high, but must be specified at the time of order. An additional 5% upcharge needs to be added to the list price of the unit. *(Must keep the same pedestal depth.)*

Wood drawers
Four corner dovetailed wood drawers must be specified at the time of order placement. There is a 10% upcharge added to the list of each item.

Finish Sheen Modification
Finish sheen can be modified on the work surface tops. There is a 15% upcharge added to the list of each item.

Special Construction
Vision Veneer offers large offering to create many types of configuration. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Requests need to be approved by JSI engineering.

Vision Veneer Product Information



This mechanism requires a signed Liability Wavier prior to time of order specification.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Vision Veneer.

ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge, or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾″ thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾″ to the standard height of the desk and the installation will decrease knee space depth by 8″.

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1″.

When ERGO is added to a worksurface in an "L" or "U" group, all units in the configuration need to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾″ sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¾″, to a standing height of 49 ¾″, a range of 19 ½″.

To specify the unit that has the mechanism, add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add, **ERGO ADJACENT** to the end of the model number.

The Ergo mechanism and controls are warranted for a period of (1) year. The rest of the casegood unit(s) are warranted under the normal fifteen (15) year warranty. ▲

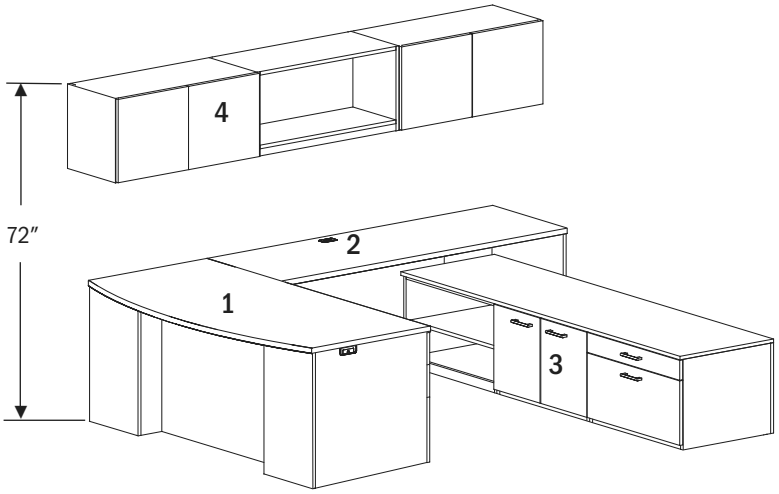
Connecting or Adjacent Units to Match Starting Height

All the units listed above can be specified as connecting or adjacent units. Other Vision Veneer units could also be used as connecting units. Please contact Customer Service for additional items and pricing. When specifying, please add "ERGO ADJACENT" to the end of the model number.

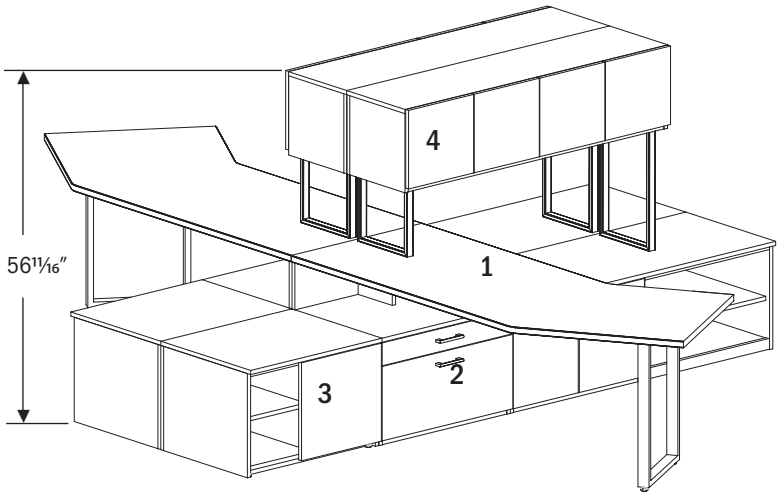
Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $500 to the list price.
Tops 24" x 48" or smaller add $425 to the list price.

Vision Veneer Product Information

Layouts



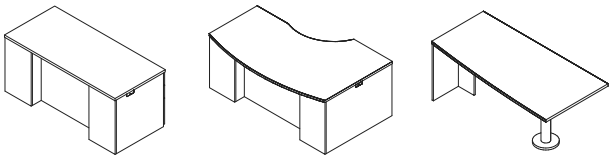
Vision Veneer can be configured in many different ways to achieve the perfect layout.



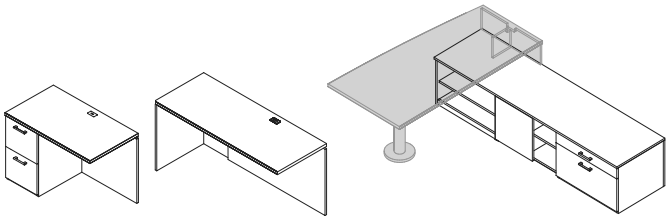
Create open plan or teaming stations with Vision Veneer modular components.

Easily Specified Layout

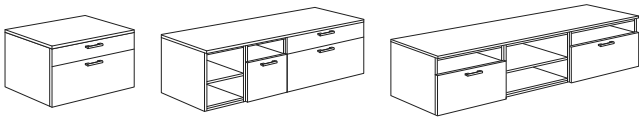
1 Primary Worksurfaces are available in traditional desks with pedestals or peninsula worksurfaces with a variety of shapes. The pedestal desks have end panel grommets for wire management.



2 Side Worksurfaces can be corner shell returns, bench height credenzas, pedestal returns, and adjustable tables. Peninsula desks with bench height support can be specified to work with the bench height credenzas.



3 Bench Height Credenzas. Vision Veneer offers a wide range of storage configurations. Modular groups of bench height credenzas can be specified to create unique configurations. Seat cushions are ordered separately from the credenza and allow customers to choose the fabrics.



4 Overhead Storage Cabinets. Traditional style overheads are available along with post support overheads, which can be used in open plan. Both are available in two heights. Wall mounted overheads can provide a light scale solution.

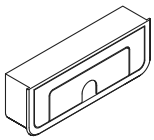
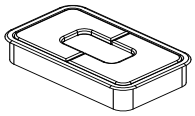
Grommet and Color Options



End/Back Panel Grommet
The end/back panel grommets are standard on desks, returns, standard height credenzas, and modular cabinets with end panels. This grommet is also on back panels of returns and on back panels for overhead cabinets.



Worksurface Grommet
Worksurface grommets are standard on the bridge, return units, and corner units.

Matte Black (MBK)
Stardust Silver (STS)

Grommets are available in Matte Black (MBK) or Stardust Silver (STS). Choose one color for all grommets. Lock cores will match grommet color. Additional grommets can be added. Location must be approved by JSI manufacturing, contact Customer Service.

Add $75 to the list for each additional grommet.

Standard Grommets Locations
Vision Laminate features grommets for wiring to pass thru the unit.

Wire Management

Wiring can move freely from unit to unit with the standard grommets and out to the building data and power.

Pedestal desks, credenzas, corners units, bridge panels, return modesty and end panels are standard with end panel grommets.

The end panel grommet opening is 4″ wide by 1 7⁄16″ high with a bezel trim secured to the panel with a friction side cap.

Top grommets are standard in returns, bridges and corner units. Additional top grommets may be specified as an option.

Optional power and data units can be positioned in the tops to provide tilt up technology access at the worksurface.

Refer to the accessory section for these items or other accessories items. (see page 407)

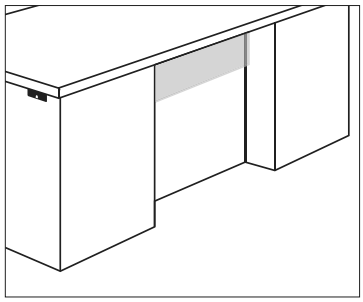
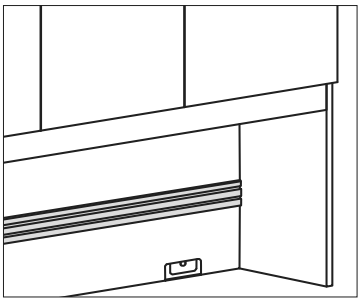
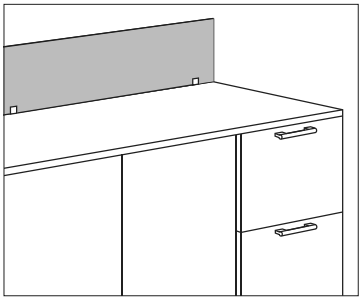
Product Features and Options



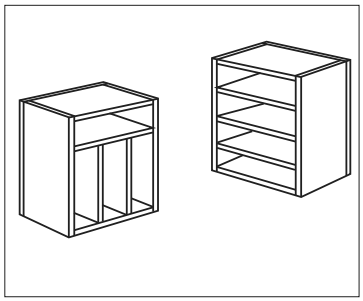
Trim Modesty Panels
- Mounts in front of existing modesty panel
- Mounts to the underside of the top
- Acrylic Panel - Frosted
- Stainless Steel Puck Style attachment
- Field installed



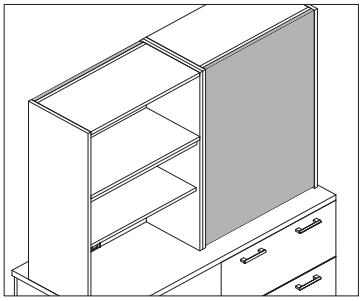
Aluminum Accessory Rail
- Anodized Aluminum finish
- Accessory Tools (see page 319)
  - Upright Tray
  - Small Tray
  - Pencil Tray
  - Paper Tray
  - File Hanger



Privacy Screens
- Mounts to the edge of the worksurface
- Acrylic Panel - Frosted
- Attachment hardware is included
- Field installed



Paper Sorters
- Can provide support for transaction worksurfaces
- Use under overhead cabinet storage
- Field configured - horizontal shelf and vertical shelves or all horizontal shelves



Fabric Back Panel
- excellent solution for open plan or room dividers
- tackable surface
- standard with Culp Montgomery Sterling panel fabric
- COM or JSI fabric program available
- mounts with covered buttons

To Order, Specify:
❶ Model Number

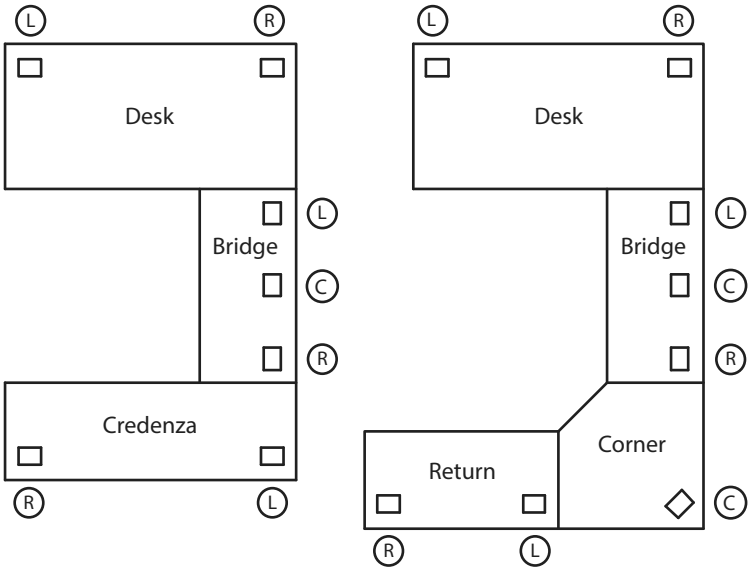
Standard casegoods cut out locations:



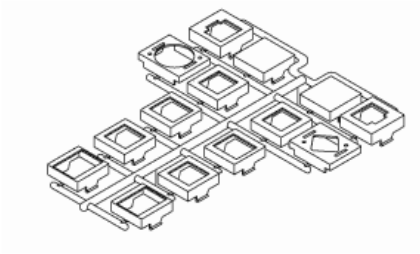
- Specify - Location when ordering on desk, return, computer corner, bridge and credenza - please provide drawing.
- Computer corner units - power/data replaces grommet.
- Standard power and data unit locations are indicated from user side of desk, return, computer corner bridge or credenza.

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice

Data Adapter Applications

Data adapter kits ship with each power and data unit.

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.



NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.

Vision Laminate Conference Product Information

Vision Laminate Conference Product Information

Laminates
Vision Laminate features TFL (thermally fused laminate) chassis and components. *Worksurfaces* are available in a HPL (high pressure laminate) or in the TFL surface, when indicated by the pricing column

Edges of the worksurface are impact resistant (PVC) on TFL and HPL tops. The laminate is offered in 10 wood grain patterns and 7 solid colors. The wood grain laminate features an embossed grain to hide finger prints and light scratches. The solid laminate is smooth to the touch with a semi-matte finish. All Vision Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Vision product. Former laminate names are listed in parentheses for reference.

TFL - HPL ***Veneer Grain Pattern Laminates***

AUT	Autumn *(Autumn Cherry)*	HGL	High Line
BLO	Blonde Echo	SHE	Shea *(Natural Maple)*
BBN	Bourbon *(Natural Cherry)*	STU	Studio Teak
BZW	Brazilwood	WLH	Walnut Heights
BRG	Brighton *(Brighton Cherry)*	VIN	Vintage *(Vintage Cherry)*

TFL - HPL ***Solid Laminates***

ALB	Alabaster	SHD	Shadow
BBL	Bridal Blanco	SLG	Slate Grey
DWH	Designer White	TAU	Taupe
DOV	Dove Grey		

Select models are available in the NOW! quickship program if a veneer grain pattern laminate is selected.

Top Surfaces *(Conference Tops and Credenza Tops)*
Tops have a 3-ply balanced construction. Tops are 1-3⁄16″ thick with coordinating PVC edges.

Conference Tops feature 3mm PVC edges on all sides and are available in HPL only.

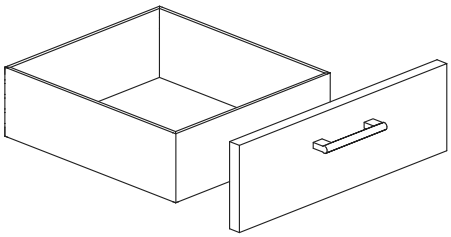
Credenza Tops feature 3mm PVC edges on the user side only. Remaining edges are banded with 1mm PVC which allows for a seamless appearance when units are mated end-to-end or back-to-back. Some laminates have a choice of 3 edge profiles, see the next page. Credenza Tops are offered in TFL or HPL.

TFL features on *Conference Top Surfaces**
- fused to the 45 pound density substrate of the top for a durable surface
- tops are laminated on both sides
- available in all the wood grain and solid patterns

HPL features on *Conference Top Surfaces**
- fusion of multiple layers create a higher impact resistant surface
- tops are 3-ply balanced construction
- matched to the TFL wood grain and solid patterns

Case Construction
Panels for chassis consist of a ¾″ thick substrate with TFL surfaces and PVC bands on exposed edges. Pedestals and cabinets are constructed with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are installed into the panels to prevent tear-outs.

Drawers
The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The ½″ thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.



Drawer Suspension
High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Locking
All free standing credenzas, and bench height credenza feature pedestal locking.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Special Construction and Sizes
Vision Laminate offers large offering of top sizes and shapes. Contact Customer Service if you are having trouble with finding the table to complete the desired configuration. Special request may be denied because of material limitations.

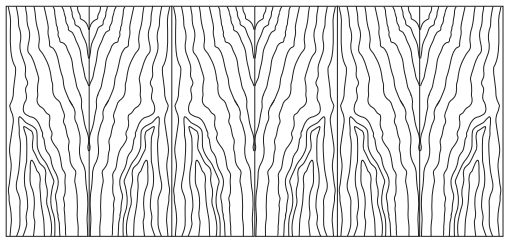
Vision Veneer Conference Product Information

Vision Veneer Conference Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Vision Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple, walnut veneers in Vision Veneer are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

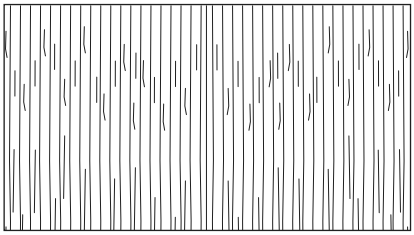


Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Vision Veneer is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Vision Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on Vision Veneer. Use the appropriate pricing column when specifying Double Cut veneer.



Solid painted finishes on MDF are also offered to provide an accent to the Vision Veneer product.

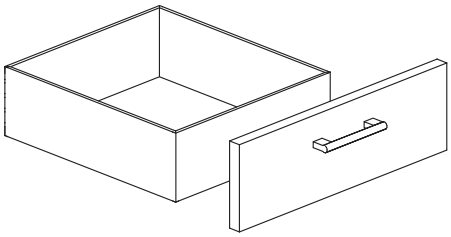
Cherry veneer is the only veneer species available in the NOW! quickship program on the select models.

Work Surface Construction
Tops are 5-ply balanced construction, 1 3⁄16″ thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern with finish wood edges.

Case Construction
Outside panels are 13⁄16″ and joined together with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are set into solid hardwood blocks, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110˚ swing hinges to allow adequate access into the interior of the cabinet.

Drawers
The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The ½″ thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.



Optional four corner dovetailed wood drawers are available. Specify and add 10% per unit.

Drawer Suspension
High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Locking
Locking
All free standing credenzas, and bench height credenza feature pedestal locking.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Vision Veneer Conference Product Information

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Vision Veneer. Please see the chart below. Samples are available upon request. Former Finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

Product Modification

Laminate Tops
Work surface only, no additional upcharge if Vision Veneer's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes

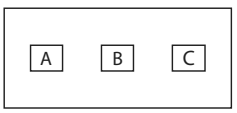
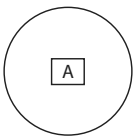
- connects to standard phone cord

Data plates for EC1 and EC2 provided with units:

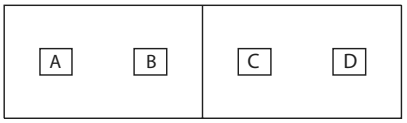


One Piece Table Top

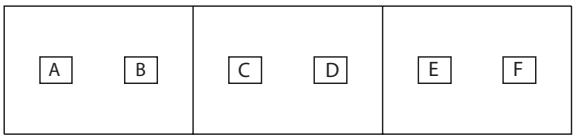


Round Top

Buffet Credenza



Two Piece Table Top



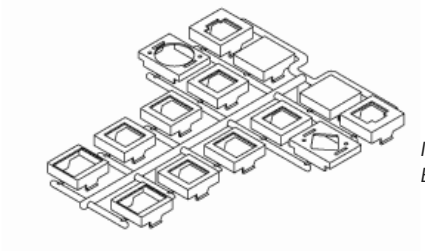
Three Piece Table Top

- Verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice.
- Installation of Power and Data units on a seam of multi piece tops should be avoided when possible.
- Specify location when ordering conference tops or buffet credenza.
- Standard power and data units are indicated from the side of conference tops and user side of buffet credenza.

Data Adapter Applications

Data adapter kits ship with each power and data unit.

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.



Included with EC8, EC9, EC10, EC13, EC15 and TCP110.

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.
