MMPC Plate Carrier

The MMPC Plate Carrier is an air weight mesh plate carrier designed for operators who need an ultra breathable light weight carrier system with load carrying capacity. The MMPC utilizes airflow nylon mesh to disperse upper body heat during high speed operations in hot or humid environments. This ultra light weight carrier accepts 10" x 12" hard armor rifle plates, front and back, and standard 360° nylon MOLLE webbing for maximum pouch placement options. Standard 4" x 11" loop on front and back to accommodate optional ID placards. Available options include, Hard Armor Plates Level IIIA or IV, Soft Armor Ballistic Inserts and a full assortment of pouches.

Features:

- *100% ultra light weight mesh*
- *10"x12" Level III or IV hard armor rifle plate pockets, front and back.*
- *Top loading plate pockets*
- *Quick adjustment hook and loop fasteners.*
- *Standard 360° MOLLE webbing*
- *4" x 6" loop area on front/back for ID placards*
- *Available in the following colors: Black (BLK) and Coyote Tan (CT)*
