Specifications

UPHOLSTERY

Indiana Furniture manufactures seating to meet your own personal style and taste. Highly-skilled upholsterers hand tailor each unit to meet individual chair specifications. Button tufting is hand applied, and pleats are individually tailored on each chair. Hand-set nail trim is individually applied to many traditional chairs. Upholstery options include a wide variety of contemporary and traditional styles in vinyls, leathers, Maharam, Momentum, Mayer, and CF Stinson upholsteries, all pre-graded in this price list for your ease of use. No need to order your own fabric and risk lost orders, fabric costs, freight costs, insufficient yardage, delays, damage, misidentification, or wrong shipping locations. Let Indiana Furniture do all the work for you.

CONSTRUCTION

Indiana Furniture chair frames are manufactured using kiln-dried, solid hardwoods and structurally engineered hardwood plywood. All exposed wood areas are selected from the highest grades of hardwoods. All chair joints are double doweled, or mortised and tenoned, screwed, and glued for maximum strength and durability. Our frames are individually hand assembled and carefully hand sanded prior to being finished.

FINISH

Indiana Furniture uses a multi-step hand finishing process on all exposed wood frames. Each frame is pre-sanded for smoothness. Chairs are stained and finished with a catalyzed varnish finish which offers durability, lasting beauty, and resistance to normal wear. All chair finishes correspond with matching Indiana Furniture casegoods finishes which allows for easy match-up of furniture components without having to custom-stain wood chairs or casegoods within an office.

FOAM

All Indiana Furniture chairs feature high grade CAL 117-2013 polyurethane foam that is attached to chair frame members. To secure additional comfort, high gauge sinuous springs or high quality resilient sheet webbing fastened underneath the polyurethane foam ensures a much softer feel to the chair.

LIFTS

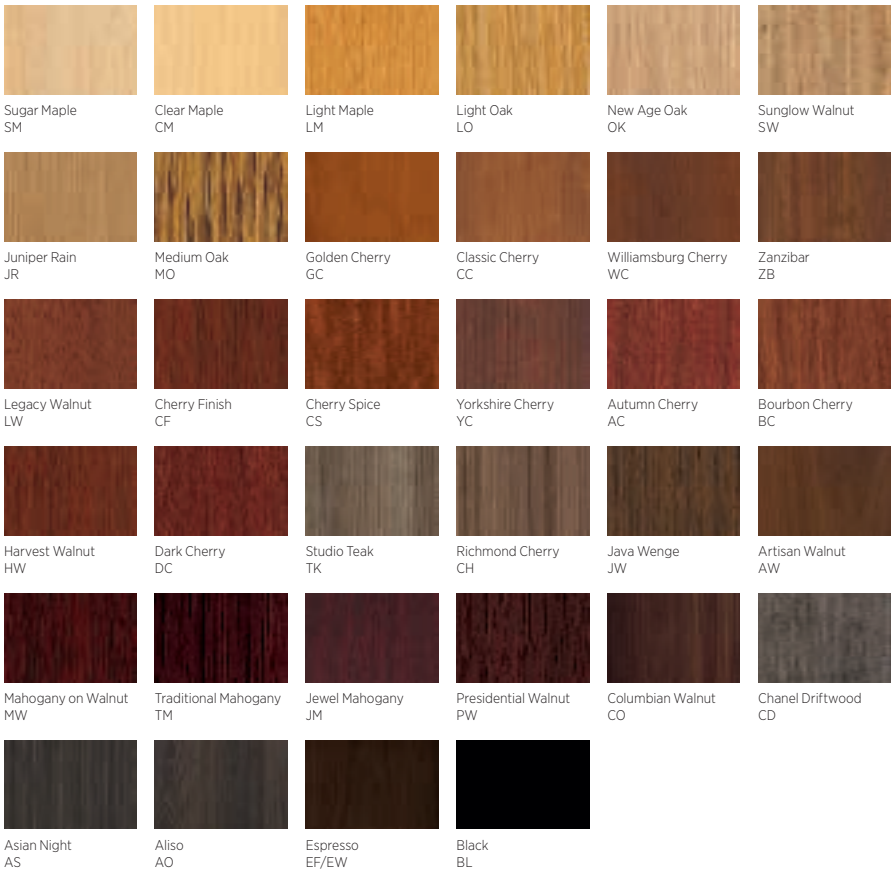
All Indiana Furniture swivel chairs are standard with gas lift mechanisms which allow height adjustments to accommodate various work surfaces.

CONTROLS

Indiana Furniture controls are selected to achieve the most comfortable and ease of operation in today's market. Exceeding the strictest ANSI/BIFMA engineering standards, the slim profile mechanisms feature smooth and noiseless operation. Tension control is easily achieved by adjusting the control located within easy reach below the seat and near the front of the mechanism. Selected series offer the swivel-tilt, the knee-tilt, or syncro-tilt controls.

Both the knee-tilt and syncro-tilt options offer variable tension mechanisms to allow for different body sizes and weights and minimal rise of the seat's front edge. This allows the user's feet to remain planted while reclining to a relaxing position. The syncro-tilt mechanism, however, enhances these benefits by taking full advantage of a sychronized seat and back tilting movement.

Finish Options



Note: Finish shown represents color of frame and may not depict actual grain pattern of chair.

In addition, no nail trim can be requested (NONT), on Amery, Breman, Cirka, and Kennerly seating at no additional charge. Must be specified on order.

BASES

All Indiana Furniture swivel chairs are standard with 5-star bases. Decorative hardwood caps, stylish black nylon, or sleek metal bases complement each chair design.

Optional bases are available on Syntric™ swivel seating. A contemporary polished Aluminum Base or stylish Wood Base can be selected.

Aluminum Base: Specify "AB" and add $108 list.
Wood Base: Specify "WB" and add $252 list.

CONTROL OPTIONS

Knee-Tilt Control

The Knee-Tilt control features a heavy duty torsion bar or a spring tension control which allows variable tension for different body sizes and weights and minimal rise of the seat's front edge. This allows the user's feet to remain planted while reclining to a relaxing position.

A Knee-Tilt control is available on swivel chairs in Brea™, Larson™, Reminisce™, Kennerley, Amery™, and Breman™ series.

Knee-Tilt Control: Specify "KT" and add $178 list.

Synchro-Tilt Control

The Synchro-Tilt control features a tension adjustable mechanism that offers reduced front seat edge rise which allows a user's feet to remain planted while reclining in a relaxing position. In addition, the mechanism takes full advantage of a synchronized seat and back tilting movement to enhance these benefits.

The Synchro-Tilt provides adequate spring tension and adjustability while maintaining even support throughout the entire travel range, satisfying a full spectrum of user sizes and weights. It also allows users to achieve a wide variety of positions common in multi-task seating.

A Synchro-Tilt control is available on swivel chairs in the Oscar™ and Clutch™ series.

Synchro-Tilt Control: Specify "ST" and add $178 list.

CAL 133 CERTIFICATION

California Technical Bulletin 133 (TB 133 or CAL 133) is a composite fire test for fully-assembled seating manufactured for use in certain public buildings. As such, the certification is specific to the fabric that is used in conjunction with the frame and the barrier. Many Indiana Furniture seating products, in combination with some of our standard fabrics, can be manufactured to meet the requirements for certification. Depending on the frame style, a fire-retardent barrier or fire-retardant foam will be incorporated in the chair construction to provide the best opportunity for a successful CAL 133 burn test.

The cost of the test is $690 (net) which includes the test, freight to the test facility and the fully-assembled test sample. Once payment has been made, please allow approximately 6 – 8 weeks for the production of the chair and the completion of the test. Once we receive the successful certification, the order may be placed allowing for 1 week extra leadtime using the "CAL" prefix on the model number with an up-charge of $104 list per chair. Please contact Customer Service at 800.422.5727 to order the test.

If you do not need the actual Certification, but wish to have the chairs manufactured to meet the regulation, we can upholster the chair using the fire-retardant components at the $104 list up-charge per chair. Please order the appropriate frame allowing for 1 week extra leadtime, using the "CAL" prefix in front of the model number.

Please note that if you wish to have Certification on a COM material, Indiana Furniture must approve the fabric according to the COM policy as well.

Indiana FURNITURE

COM/COL FORM

COM - CUSTOMER'S OWN MATERIAL

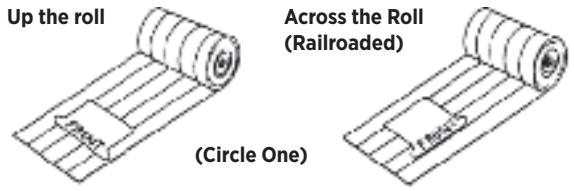
All Indiana Furniture seating is available with material furnished by the customer. Refer to grade 1 for list prices. Refer to individual model number for COM yardage requirements. The listed COM yardage requirement is based on the use of non-directional fabric 54" wide for a quantity of one chair. Extra fabric is required to match any pattern with a repeat, either vertically or horizontally. Use the chart below as a guide to add to plain COM yardage requirements listed in the price list.

For multiple chair quantities, contact customer service to optimize the yardage per chair at 800-422-5727.

Fabric Width	Plain Fabric	2"- 14" Repeat	15"- 27" Repeat	28"- 36" Repeat
54"	0%	10%	25%	30%

Note: *Fabrics less than 54" wide will not be accepted.*

Due to the upholstering process used by Indiana Furniture, some COM fabrics are considered directional that may not be considered directional by the fabric supplier. All Fabric COM's are cut "up the roll" and all vinyls are cut "across the roll" by Indiana Furniture unless otherwise directed by the customer (see below). All directional fabrics on Indiana Furniture frames match both vertically and horizontally. If you do not desire repeat match, please specify on order.



Note: *Directional covers, such as stripes, patterns and plaids may not meet your satisfaction due to contoured shapes and tufting of some models. Should you require such a selection, we will upholster as perfect as possible, but such orders are not subject to return. If in doubt, contact your Indiana Furniture Customer Service Representative prior to placing the order.*

COL - CUSTOMER'S OWN LEATHER

Indiana Furniture is pleased to accommodate COL selections whenever this special need arises. Refer to grade 1 for list prices. To calculate COL requirements, multiply the COM yardage required times 18 (1 yard of fabric = 18 sq. ft. of usable leather). Customer's own leather specifications for Indiana Furniture seating shown within the price list are based on an average hide size of 45-50 square feet.

All square footage requirements are based on usable footage. The shape of a hide and the usable, clean footage may make it necessary for us to request more leather after COL is received.

Please note leather is a natural product, and variation in texture is a pleasing quality belonging exclusively to high grade, full top grain leathers.

Indiana Furniture reserves the right to inspect, approve, or reject any COM/COL fabric. Once approved, Indiana Furniture cannot assume responsibility for the durability or tailoring quality of COM/COL material.

COM/COL Ordering Instructions:

1. Include a 6" sample of the fabric stapled to the order indicating which side is to be exposed.
2. If COM has a pattern or stripe, indicate whether to apply vertically or horizontally. All stripes will be applied vertically unless specified otherwise.
3. Specify the fabric supplier's name, fabric pattern, pattern color, and pattern number.

COM/COL Ordering Instructions:

Fill out the form below and attach sample according to instructions on reverse side of form. **COM's must meet and include written confirmation from the supplier verifying CALTB 117-2013 compliance.** Failure to complete this form and supply samples will delay the scheduling of the purchase order. Orders will not be scheduled until fabric is received from the supplier. Fabric should not be ordered until Indiana Furniture has verified the yardage required.

TOPS

Jot™ offers three surface materials to meet the demands and style of today's work environments, wood veneer, laminate, and solid-surface.

The wood veneer tops are of select grade sliced Black Walnut, Wenge, Cherry, or Maple species. These veneers are book-matched, slip-matched, or quarter cut to assure each veneer face offers the proper balance and consistency. Tops are 3/4" with veneer edge bands.

The laminate top surfaces offer eighteen choices that provide a transitional and contemporary look. Laminate tops are 3/4" with 1 mm PVC edge bands.

The solid surface tops are 3/4" and available in six contemporary colors and two edge styles.

BASES

Bases are manufactured using 3/4" steel frames. All joints are mitered and fully welded for maximum strength and durability. Each piece is powder coated in your choice of five standard colors.

CONSTRUCTION

Tops are securely fastened to the metal bases with metal screws.

FINISH

Veneer tops feature Ultra-Violet finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time.

Frames feature a powder coat finish that provides both a contemporary decorative accent and corrosion resistance.
