MooreCo, Inc. reserves the right to correct pricing or copy errors. Due to the current volatility in the price of raw and finished materials, please refer to our latest price list for the most accurate pricing.

Since individual items are subject to availability of materials from our suppliers, we reserve the right to limit quantities. Orders of a certain quantity and/or volume may affect lead times. When ordering, please contact customer care at 1-800-749-2258 for accurate shipping rates and lead times.

All shipping weights listed are nominal and may vary depending on quantities and/or items ordered.

Board dimensions reflect panel size prior to framing. All boards listed as 3'H x 4'W actually measure 33.75"H x 48"W due to shipping restrictions. Dimensions on all glass dry erase whiteboards are estimated and may vary slightly.

Return Policy: A return authorization is required for the return of any merchandise. All requests for returns should be made within 90 (ninety) days of receipt of merchandise.

Restocking Fee: Returned merchandise may be subject to a restocking fee.

Non-Returnable Merchandise: Combination boards, horizontal sliding boards, vertical sliding boards, and all boards and cabinets which have been custom sized, custom framed, or customized to specifications will be considered a non-returnable item. All furniture which has been ordered with custom options will be considered a non-returnable item.

Cradle to Cradle Certified™ is a certification mark licensed by the Cradle to Cradle Products Innovation Institute.

GREENGUARD Certified products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information visit ul.com/gg.

MooreCo now gives you hundreds of choices to match your school or company colors, create cohesive corporate environments, or update any existing room with a fresh and modern look. By pairing the full array of quality Wilsonart® laminates and edgebands with a variety of furniture family options, create a custom piece ideal for your specific environment. We offer three of the most popular laminate colors and black edgeband as part of our Quick Ship (Q5) program, which means your furniture can be ready to ship in as few as five days. Other options are available with longer lead times.

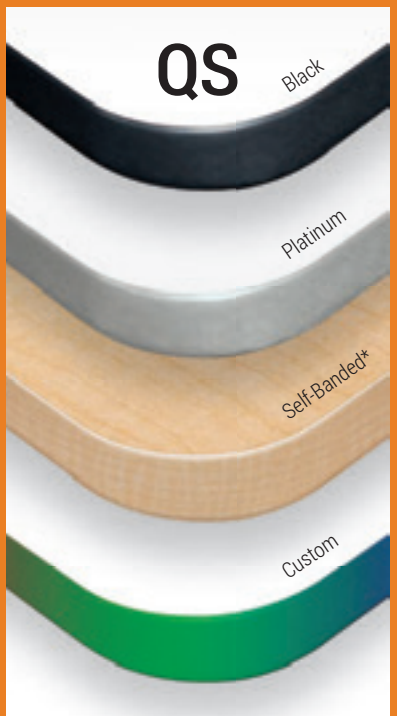
Call 1.800.749.2258 for pricing and ordering information.

QS

Look for this icon for customizable furniture!

Edgeband Options

Black edgebanding is available as part of our Q5 Quick Ship program, but many other options are available with a longer lead time. Call for details.



*Self-banding not available for all laminate options. Call for details.

Wilsonart® Laminates

Below are some of the more popular laminate finishes. Choose from these or from the entire line of laminates and we will help you create a custom line of furniture for your environment. Amber Cherry, Fusion Maple, and Gray Nebula are part of our Quick Ship program (with black edgebanding).

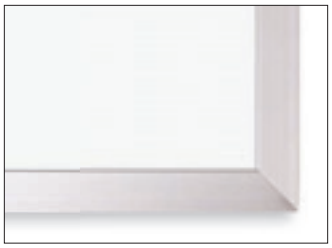
VISUAL COMMUNICATION

ABC Trim / Slim Frame

Frame any .25" writing surface with our traditional and economical ABC Trim/Slim Frame. Aluminum alloy extrusion with a .88" profile is joined with hairline miters. Exposed aluminum trim and fasteners have a satin anodized finish. Top corners are protected with attractive aluminum corner caps. Full length accessory tray is 1" deep and is finished with plastic end caps to eliminate sharp edges.



Aluminum Trim

Frame any surface with our traditional standard aluminum trim. Straight units of aluminum alloy extrusion with a .88" profile are joined with hairline miters. Exposed aluminum trim and fasteners have a satin anodized finish in your choice of silver or black. Comes standard on tackable surfaces. Writing surfaces will feature Deluxe Aluminum Trim unless otherwise specified.

Brio Trim

Designed for use with our new line of surfaces for interactive projectors, Brio Trim brings a fresh appearance to any board.

Deluxe Aluminum Trim

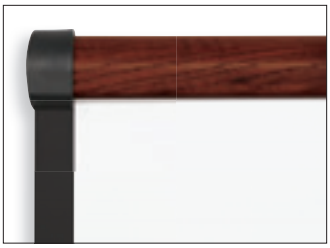
Frame any writing surface with deluxe aluminum trim. Aluminum alloy extrusion with a .88" profile is joined with hairline miters. Exposed aluminum trim and fasteners have a satin anodized finish. Includes full-length 1" tack rail with enclosed end stops and a tackable insert. Standard blade tray is 2.38" deep and features Dura-Safe® rubber end caps. Upgrade to a 2" tack rail and/or a enclosed box tray.

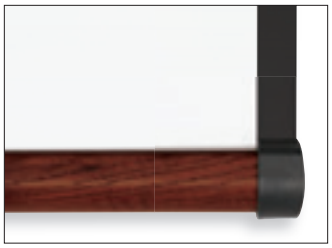
OB Trim

Designed to coordinate modern AV and conference settings, this attractive trim stands on its own in any environment.

Origin™ Trim - Aluminum

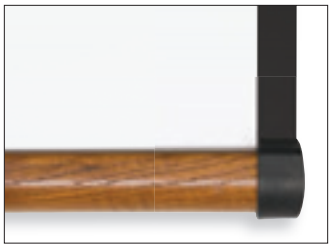
Frame any .5" panel with our sophisticated Origin™ Trim. Constructed with a unique blend of colors and materials, the trim features rounded top and bottom in aluminum or solid oak with a 1.13" profile. Side trim in black anodized aluminum has a .69" profile. Trim is joined with smooth plastic corner caps. Writing surfaces include an anodized aluminum accessory tray.





Origin™ Trim - Mahogany

Frame any .5" panel with our sophisticated Origin™ Trim. Constructed with a unique blend of colors and materials, the trim features rounded top and bottom in aluminum or solid oak with a 1.13" profile. Side trim in black anodized aluminum has a .69" profile. Trim is joined with smooth plastic corner caps. Writing surfaces include an anodized aluminum accessory tray.

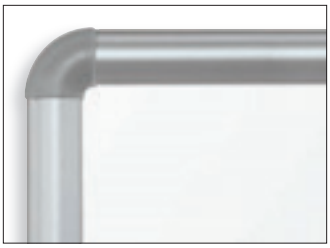


Origin™ Trim - Medium Oak

Frame any .5" panel with our sophisticated Origin™ Trim. Constructed with a unique blend of colors and materials, the trim features rounded top and bottom in aluminum or solid oak with a 1.13" profile. Side trim in black anodized aluminum has a .69" profile. Trim is joined with smooth plastic corner caps. Writing surfaces include an anodized aluminum accessory tray.

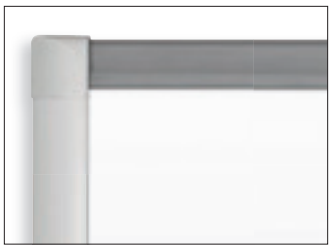
Presidential Trim - Black

Frame any surface with our stylish Presidential Trim. Extruded anodized aluminum lengths with a rounded 1" profile are joined with injection-molded curved plastic corner pieces for an updated and sophisticated board. Exposed aluminum trim and fasteners have a satin anodized finish in your choice of silver or black. Writing surfaces include matching magnetic accessory tray for markers and erasers.



Presidential Trim - Silver

Frame any surface with our stylish Presidential Trim. Extruded anodized aluminum lengths with a rounded 1" profile are joined with injection-molded curved plastic corner pieces for an updated and sophisticated board. Exposed aluminum trim and fasteners have a satin anodized finish in your choice of silver or black. Writing surfaces include matching magnetic accessory tray for markers and erasers.



Smartest Trim

Designed to coordinate with major touchboard brands, Smartest Trim stands on its own in any setting.

Solid Oak Trim - Mahogany

Frame any surface with our traditional solid oak trim. Straight lengths of oak with a 1" profile are joined with a hairline mitered corner for a smooth finish. Oak available in natural or mahogany finish. Also available with a deluxe 1.5" profile. Call for details. Boards with a writing surface include a full length oak accessory tray with rounded corners for safety.

Solid Oak Trim - Natural

Frame any surface with our traditional solid oak trim. Straight lengths of oak with a 1" profile are joined with a hairline mitered corner for a smooth finish. Oak available in natural or mahogany finish. Also available with a deluxe 1.5" profile. Call for details. Boards with a writing surface include a full length oak accessory tray with rounded corners for safety.

Ultra Trim - Black

Frame any .5" surface with our modern and minimalist Ultra Trim. Extruded anodized aluminum lengths with an ultra slim .31" profile feature a hairline miter joint for a clean, almost invisible trim. Exposed aluminum trim and fasteners have a satin anodized finish in your choice of silver or black. Writing surfaces include matching magnetic accessory tray for markers and erasers.

Ultra Trim - Silver

Frame any .5" surface with our modern and minimalist Ultra Trim. Extruded anodized aluminum lengths with an ultra slim .31" profile feature a hairline miter joint for a clean, almost invisible trim. Exposed aluminum trim and fasteners have a satin anodized finish in your choice of silver or black. Writing surfaces include matching magnetic accessory tray for markers and erasers.

1/2" Porcelain Steel

Magnetic porcelain steel provides superior durability, writability and erasability. Reduced surface light distortion reduced eye strain. Precisely balanced enamel ground coat is furnace-fused to 28-gauge steel. Mounted with waterproof resin glue onto a moisture-resistant substrate with a polyester foil backer. Class A fire rated. Environmentally certified board available.

1/4" Porcelain Steel

Magnetic porcelain steel is adhered to a thinner panel for a lighter, more economical surface. Reduced surface light distortion reduces eye strain. Precisely balanced enamel ground coat is furnace-fused to 28-gauge steel. Mounted with waterproof resin glue onto a moisture-resistant substrate with a polyester foil backer. Class A fire rated. Environmentally certified board available.

Evolution Projection

The next generation in projection surfaces. Magnetic matte gray porcelain steel provides exceptional projection clarity, reducing image fade-out. Clean weekly with a wet cloth. Precisely balanced enamel ground coat is furnace-fused to 26-gauge steel. Mounted with waterproof resin glue onto a moisture-resistant substrate with polyester foil backer for a .5" panel thickness.

Projection Plus®

Multi-purpose magnetic porcelain steel surface in matte gray cuts glare by up to 60% over standard whiteboards. Clean with a damp cloth after each use. Precisely balanced enamel ground coat is furnace-fused to 28-gauge steel. Mounted with waterproof resin glue onto a moisture-resistant substrate with a polyester foil backer for a .5" panel thickness.

Porcelain Steel CB

Magnetic porcelain steel chalkboard offers superior color contrast. A fine tooth abrasive makes chalk writing easier. Vitrified porcelain is colorfast and will not fade. Precisely balanced enamel ground coat is furnace-fused to 28-gauge steel. Mounted with waterproof resin glue onto moisture-resistant substrate with a polyester foil backer for a .5" panel thickness.

Dura-Rite®

Dust-free high pressure laminate dry erase surface provides excellent writability and erasability. Resists stains, high temperatures, common household chemicals and detergents. Taber tests show Dura-Rite® lasts up to 125 times as long as common melamine. White HPL is laminated to a moisture-resistant substrate for a .25" panel thickness.

Valu-Rite

Dust-free high pressure laminate chalkboard surface provides excellent writability and erasability. Texture is ideal for use with conventional chalk. Resists stains, high temperatures, common household chemical agents and detergents. Green HPL is laminated to a moisture-resistant substrate for a .25" panel thickness.

Magne-Rite

Specially engineered magnetic PVC-coated steel is designed specifically for dry erase applications. Glossy white surface provides superior writability and erasability with no ghosting. Dust-free, durable, and more economical than other magnetic dry erase surfaces. Steel sheet is permanently adhered to a moisture-resistant substrate for a .25" panel thickness.

TuF-Rite™

Fabric Cork-Plate boards are made with woven 100% polypropylene bonded Cork-Plate (.25" cork on a lightweight substrate) for superior durability, resilience, and tack-holding properties. Non-fraying, abrasion-resistant fabric is treated to inhibit the growth of odor- and stain-causing microbes. Washable fabric is unaffected by most household chemicals. Total .5" panel thickness.

Natural Cork Valu-Tak

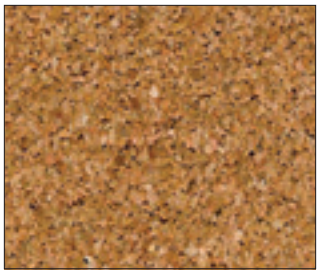
Natural Cork Valu-Tak surface provides good resiliency and tack-holding ability at an economical price point. The .06" thick layer of composition cork is made with granulated cork and a polyurethane binder permanently bonded to a lightweight substrate for a total .5" panel thickness. Cork is a naturally renewable resource. Environmentally certified board available.

Sentinel AM™

Sentinel AM™ natural cork surface features an antimicrobial additive to resist odors and stains due to microbes, fungi, mold, mildew, and algae. Visit www.moorecoinc.com for testing details. Provides good resiliency and tack-holding ability. The .06" thick natural cork layer is permanently bonded to a lightweight substrate for a total .5" panel thickness.

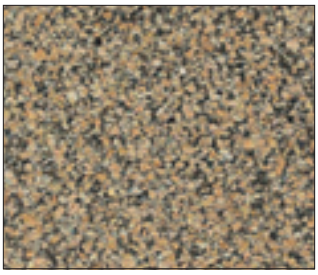
Natural Add-Cork

A step up from our entry level cork surface, Natural Add-Cork provides excellent resiliency and tack-holding ability. The .13" thick layer of composition cork is made with granulated cork and a polyurethane binder permanently bonded to a lightweight substrate for a total .5" panel thickness. Cork is a naturally renewable resource. Environmentally certified board available.



Natural Cork-Plate

Our premium natural cork surface, Natural Cork-Plate provides superior resiliency and tack-holding ability. The .25" thick layer of composition cork is made with granulated cork and a polyurethane binder permanently bonded to a lightweight substrate for a total .5" panel thickness. Cork is a naturally renewable resource. Environmentally certified board available.



Splash-Cork

Splash-Cork surface adds a subtle splash of color to any environment. Offers good resiliency and tack-holding properties. The .06" thick cork layer consists of natural cork mixed with a colored binder permanently bonded to a lightweight substrate for a .5" panel thickness. Cork is a naturally renewable resource. Environmentally certified board available.

Colored Cork

Colored Cork is made with all natural and biodegradable Forbo® linoleum, consisting of natural linseed oil, granulated cork, rosin binders, and dry pigments. Self-sanitizing quality inhibits contaminants. Washable, self-healing and reduces light reflection. The .25" thick linoleum layer is laminated to a moisture-resistant substrate for superior resiliency and tack-holding properties.

Vin-Tak

Vin-Tak boards are made with durable fabric-backed vinyl permanently adhered to a lightweight substrate for a total .5" panel thickness. Offers good durability, resilience, and tack-holding ability. Textured vinyl is easy to clean, and is treated to resist the growth of odor- and stain-causing microbes. Available with standard or Pebbles Vinyl. Environmentally certified board available.

Vinyl Add-Cork

Vinyl Add-Cork features a layer of vinyl permanently adhered to Add-Cork (.13" cork on a lightweight substrate) for a total .5" panel thickness. Excellent durability, resilience, and tack-holding ability. Fabric-backed vinyl is easy to clean and treated to resist growth of odor- and stain-causing microbes. Available with standard or Pebbles Vinyl. Environmentally certified board available.

Vinyl Cork-Plate

Vinyl Cork-Plate features a layer of fabric-backed vinyl permanently adhered to Cork-Plate (.25" cork on a moisture resistant substrate) for a total .5" panel thickness. Superior durability, resilience, and tack-holding ability. Easy to clean and treated to resist the growth of odor- and stain-causing microbes. Available with standard or Pebbles Vinyl. Environmentally certified board available.

Rubber-Tak®

Made with recycled rubber for superior self-healing qualities, Rubber-Tak® is sound- and shock-absorbent, easy to clean, resists moisture, chemicals, stains, fading, mold, and mildew. Made from a .06" layer of rubber bonded to a lightweight substrate for a total .5" panel thickness. Provides superior durability, resilience, and tack-holding properties. Environmentally certified board available.

ReTire

Colorful ReTire is made with 100% recycled rubber (90% post-consumer and 10% post-industrial). Rubber is sound- and shock-absorbent, easy to clean, resists moisture, chemicals, stains, fading, mold, and mildew. Made from a .06" layer of rubber bonded to a lightweight substrate for a total .5" panel thickness. Environmentally certified board available.

Fab-Tak

Fab-Tak boards are made with woven 100% polypropylene bonded to a lightweight substrate for good durability, resilience, and tack-holding properties. Non-fraying, abrasion-resistant fabric is treated to inhibit the growth of odor- and stain-causing microbes. Washable fabric is unaffected by most household chemicals. Total .5" panel thickness.

Fabric Add-Cork

Fabric Add-Cork boards are made with woven 100% polypropylene bonded to Add-Cork (.13" cork on a lightweight substrate) for excellent durability, resilience, and tack-holding properties. Non-fraying, abrasion-resistant fabric is treated to inhibit the growth of odor- and stain-causing microbes. Washable fabric is unaffected by most household chemicals. Total .5" panel thickness.

Fabric Cork-Plate

Fabric Cork-Plate boards are made with woven 100% polypropylene bonded Cork-Plate (.25" cork on a lightweight substrate) for superior durability, resilience, and tack-holding properties. Non-fraying, abrasion-resistant fabric is treated to inhibit the growth of odor- and stain-causing microbes. Washable fabric is unaffected by most household chemicals. Total .5" panel thickness.

Projection Whiteboard - Polyvision® e3™ CeramicSteel duo Surface

Designed to meet the demands of today's students and workers, the Projection Whiteboard with Polyvision® e3™ CeramicSteel duo Surface is engineered with exceptional projection and writing capabilities, and encourages interactive learning and collaboration. Strict flatness tolerances allow the board to support new technology such as infrared frames, interactive projectors, and camera-based solutions. Low glare porcelain steel is ideal for spaces that are exposed to excessive ambient light, and reduces glare from both long and short throw projectors. Fifty year limited warranty.

Interactive Projector Board

Get the ultimate multifunction board. Wide screen dimensions support the most popular sizes of projected images at 86", 107" and 113" diagonals. The special construction of the board provides the flatness required for the best performance of your interactive projector with a flatness guarantee <2mm across the board surface. This flatness assurance also allows the board to be used on mobile carts as well as wall mounting. Available in off white or gray. Ideal for spaces that are exposed to ambient light. Fifty year limited warranty.

Cradle to Cradle Certified™ Products

Cradle to Cradle Certified™ Silver is a multi-attribute label that assesses a product's safety to humans and the environment, and design for future life cycles. Certification requires a paradigm shift in thinking about how a product is designed, what's in it, and where it goes after use. It leads to the creation of products that redefine quality, beauty, and innovation. Five critical quality categories are rated: material health, material reutilization, renewable energy, water stewardship, and social fairness.

www.c2ccertified.org

GREENGUARD Gold Certified Products

The products that we use to build and furnish our indoor environments can have a significant impact on indoor air pollution levels. Products that have achieved GREENGUARD certification are scientifically proven to meet some of the world's most rigorous, third-party chemical emissions standards—helping reduce indoor air pollution and the risk of chemical exposure while aiding in the creation of healthier indoor environments.

©2016 MooreCo, Inc. All rights reserved.

MooreCo, Inc. reserves the right to correct pricing or copy errors. Due to the current volatility in the price of raw and finished materials, please refer to our latest price list for the most accurate pricing.

Since individual items are subject to availability of materials from our suppliers, we reserve the right to limit quantities. Orders of a certain quantity and/or volume may affect lead times. When ordering, please contact customer care at 1-800-749-2258 for accurate shipping rates and lead times.

All shipping weights listed are nominal and may vary depending on quantities and/or items ordered.

Board dimensions reflect panel size prior to framing. All boards listed as 3'H x 4'W actually measure 33.75"H x 48"W due to shipping restrictions. Dimensions on all glass dry erase whiteboards are estimated and may vary slightly.

Return Policy: A return authorization is required for the return of any merchandise. All requests for returns should be made within 90 (ninety) days of receipt of merchandise.

Restocking Fee: Returned merchandise may be subject to a restocking fee.

Non-Returnable Merchandise: Combination boards, horizontal sliding boards, vertical sliding boards, and all boards and cabinets which have been custom sized, custom framed, or customized to specifications will be considered a non-returnable item. All furniture which has been ordered with custom options will be considered a non-returnable item.

Cradle to Cradle Certified™ is a certification mark licensed by the Cradle to Cradle Products Innovation Institute.

GREENGUARD Certified products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information visit ul.com/gg.
